Land Law - Kate Green 1989
This book sets out to provide an introduction to basic English land law rules. It is aimed at first year undergraduates and those studying for professional examinations in both law and other subjects where an

understanding of land law is essential.

Sports Law - Mark James
2017-04-26

This textbook provides a comprehensive overview of the ways in which the law has impacted on how sport is played, administered and

consumed. The author writes in a clear and engaging manner, tracing the origins and sources of this rapidly evolving subject and drawing examples from a wide range of professional and amateur sports to illustrate the important current debates and topics of interest. The book covers a wide-range of topics from participant and non-participant liability, fighting sports and their legality, and liability for stadium safety and disasters. The final section of the book takes in the very latest developments in mass-event sport and the growing but fundamental area of sports commercialisation. New to this Edition: - Fully updated and includes analyses of the Pechstein and Sharapova decisions - Includes details on the state aid rulings on financial support for Spanish and Dutch football clubs - The author includes a review of the Rio 2016 Olympics

Constitutional and Administrative Law - David Pollard 2007-06-14
The fourth edition of Constitutional and

Administrative Law: Text with Materials provides a wealth of essential materials drawn from a wide range of sources and integrated with lively commentary. It enables students to gain a full understanding of public law by explaining the context of its historical development and current political climate.

Torts - Alastair Mullis
2011-05-06

A long awaited new edition of this popular textbook which provides an accessible introduction covering the basic principles of the law of torts as well as directing the reader towards the complexities of the subject and its relationship with society.

Trees of Delhi - Pradip Krishen 2006

Britain and International Law in West Africa - Inge Van Hulle 2020-10-22

Africa often remains neglected in studies that discuss the historical relationship between international law and imperialism during the nineteenth century. When it

does feature, focus tends to be on the Scramble for Africa, and the treaties concluded between European powers and African polities in which sovereignty and territory were ceded. Drawing on a wide range of archival material, Inge Van Hulle brings a fresh new perspective to this traditional narrative. She reviews the use and creation of legal instruments that expanded or delineated the boundaries between British jurisdiction and African communities in West Africa, and uncovers the practicality and flexibility with which international legal discourse was employed in imperial contexts. This legal experimentation went beyond treaties of cession, and also encompassed commercial treaties, the abolition of the slave trade, extraterritoriality, and the use of force. The book argues that, by the 1880s, the legal techniques that were fashioned in the language of international law in West Africa had largely developed their own substantive characteristics. Legal ordering

was not done in reference to adjudication before Western courts or the writings of Western lawyers, but in reference to what was deemed politically expedient and practically feasible by imperial agents for the preservation of social peace, commercial interaction, and humanitarian agendas.

Constitutional and Administrative Law - John Alder 2007

This textbook explains the basic legal principles of the UK constitution in an accessible and critical way. This edition addresses recent legal developments in this area, discussing topics such as the Constitutional Reform Act 2005 and recent anti-terrorism legislation.

Law of the European Union - Josephine Shaw 2000

The revised third edition of this text provides an account of the constitutional principles and legal institutions of the European Union. The accessible style makes the book suitable not only for first year undergraduates but also

for A level students and non-law undergraduates.

Writing Law Dissertations -

Michael Salter 2007

Shows the reader how to research and write a dissertation, covering planning, identifying key issues, utilising the appropriate research methods, time management issues, and managing one's supervision. This book covers legal dissertation level research, embracing both LL.B. (undergraduate) and the specific demands of LL.M. dissertations.

Sports Law - Patrick K.

Thornton 2010-02-04

Sports Law looks at major court cases, statutes, and regulations that explore a variety of legal issues in the sports industry. The early chapters provide an overview of sports law in general terms and explore its impact on race, politics, religion, and everyday affairs. Later chapters address hot button issues such as gender equity, drug testing, and discrimination. Written from a sport management perspective, rather than from a

lawyer's, this text covers all the major areas presented in sports law today including: cases relating to torts, contracts, intellectual property, and agents. Factual scenarios throughout the text allow students to critically examine and apply sport management principles to legal issues facing the sports executive. Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition.

Tort Law - Mark Lunney 2008

Each section begins with a clear overview of the key points of the law, before fully explaining and illustrating the topic through substantial case extracts and further commentary."--BOOK JACKET.

Intellectual Property Law -

Tina Hart 2013-08-23

The Palgrave Law Masters series is a long-established list of titles providing clear, concise and authoritative guides to the main subject areas, written by experienced and respected authors. This sixth edition of Intellectual Property Law has been

thoroughly updated to reflect the recent developments in this intricate and technical area of commercial law. All key aspects of the topic are covered, including copyright, designs, patents, trade marks, passing off and breach of confidence. With backgrounds in both academic teaching and top legal practice, the author team combines to produce a work which is both intellectually stimulating and highly practical. The new edition includes a new expanded section on privacy. The book is an ideal course companion for undergraduates and postgraduates on law and business-related courses. It is also a useful reference for company secretaries, in-house lawyers and contracts managers.

Legal Theory - T. Ian McLeod 2010

Assuming no prior knowledge of philosophy, Legal Theory examines the relationship between law and morality, and places particular emphasis on matters of contemporary debate, such as assisted

suicide and animal rights. --
Book Jacket.

Constitutional and Administrative Law - John Alder 2013-06-28

This book provides a comprehensive introduction to the basic legal principles of the UK constitution. It places the law in the context of the main political ideas which have influenced its development and discusses some of the most fundamental questions about government.

Landlord and Tenant Law - Margaret Wilkie 2017-09-16

Landlord and Tenant Law contains summaries, exercises and workshops to help the reader to make sense of a complex area of Law. This is an extensively revised fifth edition of this popular text, particularly in terms of its coverage of the effects of covenants in leases and also in an expanded section on business tenancies.

Research Methods for Law - Mike McConville 2017-01-18

Introduces students to legalistic, theoretical, empirical, comparative and

cross-disciplinary research methods, grounded in working examples. New for this edition. New chapter on inter- and cross-disciplinary research essential reading for international students and students with a non-law first degree undertaking research in the areas of law, criminology, psychology and sociology. Research ethics has been expanded to a full chapter that includes current plagiarism and imperfect disclosure. Brings existing chapters up to date with the newest thinking in legal research. Drawing on actual research projects, *Research Methods for Law* discusses how legal research as process impacts on research as product. The author team has a broad range of teaching and research experience in law, criminal justice and socio-legal studies, and give examples from real-life research products to illustrate the theory.

Idea and Methods of Legal Research - P. Ishwara Bhat
2019-09-05

Legal research examines subject matter enshrouded in social circumstances in order to conceptualize theories and prepare a future course of action. This dynamic, interdisciplinary, and labyrinthine character of legal research requires researchers to be fluid, eclectic, and analytical in their approach. *Idea and Methods of Legal Research* unearths how the thinking process is to be streamlined in research, how a theme is built on the basis of comprehensive and intensive study, and the paths through which notions of objectivity, feminism, ethics, and purposive character of knowledge are to be understood. The book first explains the meaning, evolution, and scope of legal research, and discusses objectivity and ethics in legal research. It engages with the requirements, advantages, and limits of various doctrinal and non-doctrinal methods and tools, and the points to be considered in selecting a suitable method or combination of methods. It highlights

analytical, historical, philosophical, comparative, qualitative, and quantitative methods of legal research. The book then goes on to discuss the use of multi-method legal research, policy research, action research, and feminist legal research and finally, reflects on research-based critical legal writing, as opposed to client-related legal writing. This book, thus, is a comprehensive answer to key questions one faces in legal research.

Legal Method - Ian McLeod
2009

This self-contained study and foundation book for legal training deals with how the course of law (both English and European Community) resolves the uncertainties that arise within the law, the basis of legal reasoning, and the nature of law itself.

Derrida and Legal Philosophy - Peter Goodrich
2008-10-02

From early in his career Jacques Derrida was intrigued by law. Over time, this fascination with law grew more

manifest and he published a number of highly influential analyses of ethics, justice, violence and law. This book brings together leading scholars in a variety of disciplines to assess Derrida's importance for and impact upon legal studies.

Modern Energy Market Manipulation - Andrew N. Kleit
2018-11-15

This book explores the important economic and legal questions of market manipulation that have arisen in restructured energy markets, paying particular attention to the actions of the Federal Energy Regulatory Commission.

Legal Method - Sharon Hanson
2000-10-17

The competent study of law is a finely tuned balance of excellent language ability, good reading and writing skills, good personal study discipline, a thorough appreciation of the relevant areas of substantive law and excellent argumentative skills. Legal method is an important area of study for two main reasons.

First, it is important for the range of techniques that it can offer to break into legal texts, both primary and secondary. Secondly, it exposes reasoning processes concerned with the theory and practise of law. The book deals in both the areas mentioned, and aims to deal with issues of.

Studying Law - Simon Askey
2014-07-23

Studying Law introduces students to the fundamental legal skills that they will need to successfully study the subject, such as case analysis, legislative interpretation, problem solving and essay writing, and to the core Law subjects themselves and the distinctions between them.

Company Law - Janet Dine
2020-04-02

The new edition of this popular textbook offers an in-depth analysis of the legal framework in which companies operate. Updated with the latest developments in law and case-law, it goes beyond black letter analysis to explain important concepts such as corporate governance and multinational

corporations in an international context. Logically structured, the writers' clear writing style help students understand this complex area of the law. Ideal for students taking a module in company law, the book includes learning resources throughout such as key terms and concepts, helpful summaries for each chapter, case notes and suggestions for further reading. Informative end-of-chapter summaries and exercises act as a useful refresher. New to this Edition: - Includes latest case law - Up-to-date material on directors'/ duties and derivative claims - More material on corporate governance issues

Legal Method - Ian McLeod
2020-04-16

The Palgrave Macmillan Law Masters series is a long-running and successful list of titles offering clear, concise and authoritative guides to the main subject areas, written by experienced and respected authors. This ninth edition of Legal Method provides a lively introduction to the nature of the English legal system and its

sources, and to the techniques which lawyers use when handling those sources. The text assumes no prior knowledge and makes its content accessible by clarity of expression rather than by dilution of content. In addition to more conventional sources, writers as varied as Jonathan Swift, Alexander Pope and T. S. Eliot are cited. This is an ideal course companion for both law undergraduate and GDL/CPE students. Includes end of chapter summaries and self-test exercises.

Law and Language - Michael Freeman 2013-02-21

Offers a broad overview of the interaction between law and language and the way they influence each other. Contains papers from the 15th annual interdisciplinary colloquium held in the Law School of UCL in July 2011.

Finding Legal Information -

David Pester 2003-09-30

Given the vast amount of legal

information available, it is sometimes very difficult - and certainly very time consuming - to know where to start looking for the specific information you require. This book, covering the most up-to-date information sources (printed and electronic), helps guide the reader towards the information they need. It is an accessible and easy-to-use directory of legal information sources for librarians, lawyers, students and anyone needing legal information. The book covers mainly British and European Union law and includes general material and the main subject areas, including online and internet sources. It also lists reference material, such as legal dictionaries and directories. The book is essentially a directory of information sources, with publishing details (including ISBN), and short comments where useful. Electronic sources are mentioned where relevant, with details of scope and any limitations of coverage. Comprehensive and up-to-date (covering electronic

sources and important legal developments, including civil procedure and human rights) Covers the massive expansion of information on the web and online services Based on the author's considerable experience - thus, he has gained a detailed and wide ranging understanding and appreciation of users' needs and areas of interest

Business Law - Stephen Judge
2017-09-16

With its real-world business-orientated approach, *Business Law* has been fully updated in line with the Companies Act 2006, and also streamlined to address the needs of today's student of this fascinating and fast-moving subject. Providing a salient introduction to law in a business context, this is a valuable learning companion.

Contract Law - Ewan McKendrick 2005

This is an account of the modern law of contract by a leading authority in the field. Through this fresh approach to the subject students should obtain a firm understanding of the central doctrines and the

controversies associated with them.

International Law Theories - Andrea Bianchi 2016-11-10

Two fish are swimming in a pond. 'Do you know what?' the fish asks his friend. 'No, tell me.' 'I was talking to a frog the other day. And he told me that we are surrounded by water!' His friend looks at him with great scepticism: 'Water? Whats that? Show me some water!' International lawyers often find themselves focused on the practice of the law rather than the underlying theories. This book is an attempt to stir up 'the water' that international lawyers swim in. It analyses a range of theoretical approaches to international law and invites readers to engage with different ways of legal thinking in order to familiarize themselves with the water all around us, of which we hardly have any perception. The main aim of this book is to provide interested scholars, practitioners, and students of international law and other disciplines with an introduction

to various international legal theories, their genealogies, and possible critiques. By providing an analytical approach to international legal theory, the book encourages readers to enhance their sensitivity to these different approaches and to consider how the presuppositions behind each theory affect analysis, research, and practice in international law. *International Law Theories* is intended to assist students, scholars, and practitioners in reflecting more generally about how knowledge is formed in the field.

Legal Method - Ian McLeod
2013-05-31

This self-contained study and foundation book for legal training deals with how the course of law (both English and European Community) resolves the uncertainties that arise within the law, the basis of legal reasoning, and the nature of law itself.

Evidence - Raymond N. Emson
2017-09-16

From DNA profiling to consideration of the accused's previous conduct, the law of

evidence is a fascinating amalgam of logic, common sense, philosophy and tactics. *Evidence* explains the fundamentals and looks at the principles behind it.

Legal Skills - Emily Finch
2021

'Legal Skills' encompasses all the academic and practical legal skills vital to a law degree in one manageable volume. It is an ideal text for the first year law student and a valuable resource for those studying law at any level.

Poole's Casebook on Contract Law - Robert Merkin
2019-06-12

All the cases you need, together with the tools to understand them. Now updated by Professor Robert Merkin and Dr Séverine Saintier, 'Poole's Casebook on Contract Law' takes a uniquely supportive approach, to give you the confidence to engage with and analyse judgments.

Contract Law - Ewan McKendrick 2015-08-14
The fifth edition of Ewan

McKendrick's Contract Law: Text, Cases, and Materials provides a complete guide to the subject in a single volume, containing everything needed for the study of contract law at undergraduate level. Written by an experienced author and leading authority in the field, this is a popular text with students and lecturers alike. The book comprises a unique balance of 40% text to 60% cases and materials, combining the best features of a textbook with those of a traditional casebook. The author's clear explanations and analyses of the law provide invaluable support to students, while the extracts from cases and materials promote the development of essential case reading skills and allow for a more detailed appreciation of the practical workings of the law, and of the best legal scholarship.

The Economic and Social Law of the European Union - Josephine Shaw 2017-09-16
This title provides students with a clear, accessible and highly engaging analysis of

substantive law of the EU in the most comprehensive text of its kind, as well as containing chapter summaries, questions, suggestions for further reading and annotated web addresses.

Getting into Law - Emily Lucas
2018-04-02

What's the difference between a solicitor and barrister? What law course should you choose? Where do you find a training contract? If you're thinking of studying a law degree, the new and updated edition of Getting into Law provides you with all the information that you need to get onto the course of your choice and start a successful law career. From application and interview to funding and your future, this comprehensive guide takes you through every stage of applying for a law degree.

Written with contributions from admission tutors from the UK's leading law schools and top solicitors and barristers.

Core Statutes on Criminal Law 2020-21 - Mark James
2020-08-04

Well-selected and authoritative, Macmillan Core

Statutes provide the key materials needed by students in a format that is clear, compact and very easy to use. They are ideal for use in exams. Undergraduate students taking first or second year compulsory courses in criminal law as part of their LLB; students converting to law with a GDL/CPE course; postgraduate students and researchers in criminal law; LLM students studying advanced criminal Law

Comparative Contract Law, Second Edition - Thomas Kadner Graziano 2019

Promoting a 'learning-by-doing' approach to comparative contract law and comparative methodology, this updated second edition of Comparative Contract Law updates the first true student reader on the subject. Bringing together extracts from legislation and court practice this textbook lets students experience comparative law in action, and presents a unique guide to European and International contract law.
