The Gap-Year Advantage - Karl Haigler 2005-08-01

"I'm not ready for college yet..." Those words need not cause panic and fear for parents. Taking time off before or during college is no longer the road less traveled for many students in the United States. A gap year offers students the opportunity to gain focus and discipline, learn to set realistic goals, get real-world experience, and ultimately get the most out of a college education. A complete resource, The Gap-Year Advantage provides parents with all the advice, tips, and information they need to help students develop and implement a gap-year strategy. With answers to commonly asked questions such as "What do colleges think of gap years?" and "Can I be certain my child will go or return to college after taking time off?," education experts and gap-year parents Karl Haigler and Rae Nelson also offer guidance on researching program options, creating a gap-year time-line that complements the college-application process, communicating with students about their goals, and handling logistics such as travel, health insurance, and money. With anecdotes from students and parents across the country who have taken gap years, this valuable guide also provides extensive information on program options in the United States and abroad that include volunteering, travel, interning, and specialized study.

Grab the Kids & Go - Taryn Ash 2017-11-14

GRAB THE KIDS & GO: A Practical Guide to Your Family's Gap Year is written specially for parents who long to discover the world with their kids, but are overwhelmed by seemingly insurmountable logistical, financial and emotional obstacles. It offers recommendations, advice and answers to questions, from how to design the ideal itinerary to match your budget, to how to manage fussy kids on the road, to how to have your home and pets cared for in your absence. Peppered throughout this book are anecdotes from the author's personal experiences. You will also find words of wisdom from other well-traveled parents who have made exploring the world an integral feature of their families' lives. Taryn Ash, her husband, Sam and two kids, Declan and Scout, put their comfortable lives in the U.S. on hold for several glorious months, to embark on a life-affirming tour of 12 countries on four continents. Together they camped atop a 4x4 in the Namibian desert, ate spicy cobra in Vietnam, taught English to enthusiastic youngsters in Zimbabwe, and earned blisters on their hands restoring a medieval fortress wall in southern France. They hunted for tropical shells with local children on a remote Philippine island, worked hands-on to rehabilitate monkeys and baboons in South Africa, and collected data on African wildlife for academic research. They splashed their ways through pitch-black tunnels speckled with fluorescent glow worms in New Zealand, practiced Buddhist chant under the tutelage of a wise monk in rural Laos, and learnt to kite board through the winds of the South China Sea. And that's not all. This book was written with the sole purpose of helping adventure-minded parents to grab the kids and go on their extended family vacation of a lifetime.

Mind the Gap - Nina Namaste 2020-03-15

Higher education needs a new, holistic assessment of global learning. The studies in this edited volume investigate not just student learning, but also faculty experiences, program structures, and pathways that impact global learning. Showcasing recent, multi-institutional research related to global learning, this book expands the context of global learning to show its antecedents and impacts as a part of the larger higher education experience. Chapters look at recent developments such as short-term, off-campus, international study and certificate/medallion programs, as well as blended learning environments and undergraduate research, all in the context of multi-institutional comparisons. Global learning is also situated in a larger university context. Thus, there is a growing need for bridging across disciplinary and administrative silos, silos that are culturally bound within academia. The gaps between these silos matter as students seek to integrate off- and on-campus learning, and it is up to the academy to mind those gaps.

The email home is an essential part of every gap-year traveler's journey. Where once the news of narrowly surviving a bus crash on the dirt-roads of India, waking up to gunfire in Honduras, or fending off marriage proposals from complete strangers would have made it home only on the back of a slow-moving battered postcard, these days those tantalizing details and terrible mistakes are now recorded immediately and distributed liberally for every friend and family member to wince at. In Don't Tell Mum, Simon Hoggart and Emily Monk have collected together the funniest, most surreal, most alarming gap-year emails into a treasure-trove of correspondence. Accompanied by their wicked commentary, Don't Tell Mum gives the aspiring traveler the low-down on what not to do when trotting the globe.

Bridging the Gap Between College and Law School - Ruta K. Stropus 2014

This popular book helps students make the transition from their undergraduate experience to law school learning. Unlike other "introduction to law school" texts, Bridging the Gap offers a different approach because it: explains the "why" of law, providing students with the context necessary to understand why law school is taught in a certain manner; explains the "how" of the law, setting out a step-by-step process that will help students adapt to the law school setting; explains the "what" of the law, giving students the opportunity to practice the problem-solving process by providing numerous exercises in a variety of subject matter areas. Rather than giving only general advice, or black letter law and some practice problems for a specific subject, Bridging the Gap provides the context, the process, and the problems. Written by two former law school professors who used these techniques with thousands of students, Bridging the Gap is a guide to what really works in law school.

Am I Too Late? - Cindy Funk 2021-07-01

Discover the life-changing impact of a gap year through the eyes of a mother whose son lost his spark and joy of learning during high school—a casualty of college prep education and the anxiety-filled quest to attend the "best college." In *Am I Too Late?*, higher education and career coaching veterans Cindy Funk and Jim Bellar make the case why parents should help their student explore alternative learning options like taking a gap year after high school. Cindy, like many parents, got caught up in the high-pressure stakes of college admissions, wanting her son, Mackenzie, to be accepted by "the best school." She gives an authentic and vulnerable account of her crusade to help him reconnect with the joy of learning after he announces that he is burned out by his senior year and wants to defer college and take a gap year. Utilizing flexible planning and design thinking, the family supports Mackenzie's decision to take a learning journey that includes hiking the Appalachian Trail, teaching in Swaziland, navigating the waters of British Columbia, and researching marine life on a tall ship in the Caribbean. In this evolving, experiential "classroom," he gains competencies sought by employers and a capacity to manage the unseen, unpredictable and unplanned events. A useful resource for parents of teens, *Am I Too Late?* provides insight into the benefits of gap years, college admissions, college costs, college degree myths, and furnishes research references and resources. Valuable exercises are presented to give parents practical strategies in helping their young adult navigate the high school to college transition including asking essential questions like: "Why do you want to go to college?"

The Gap and The Gain - Dan Sullivan 2021-10-19

As he did in WHO NOT HOW, Dr. Benjamin Hardy shares one of Dan Sullivan's simple yet profound teachings that until now has been known only to his Strategic Coach clients: unsuccessful people focus on "The Gap," but successful people focus on "The Gain." "[T]his one simple concept is a masterclass on positive psychology, healthy relationships, mental well-being, and high-performance. Everything that psychologists know about how to create a high-functioning and successful person can be achieved using The GAP and the GAIN." - Dr. Benjamin Hardy Most people, especially highly ambitious people, are unhappy because of how they measure their progress. We all have an "ideal," a moving target that is always out of reach. When we measure ourselves against that ideal, we're in "the GAP." However, when we measure ourselves against our previous selves, we're in "the GAIN." That is where the GAP and the GAIN concept comes in. It was developed by legendary entrepreneur coach Dan Sullivan and is based on his work with tens of thousands of successful entrepreneurs. When Dan's coaching clients periodically take stock of all that they've accomplished-both personally and professionally-they are often shocked at how much they have actually achieved. They weren't able to appreciate their progress because no matter how much they were getting done, they were usually measuring themselves against their ideals or goals. In this book you will learn that measuring your current self vs. your former self has enormous psychological benefits. And that's really the key to this deceptively simple yet multi-layered concept that will have you feeling good, feeling grateful, and feeling like you are making progress even when times are tough, which will in turn bolster motivation, confidence, and future success. If you're finding that happiness eludes you no matter how much you've achieved, then learning this easy mindset shift will set you on a life-changing path to greater fulfillment and success.

Gap Year Girl - Marianne C. Bohr 2015-09-01

In the 1960s and '70s, thousands of baby boomers strapped packs to their backs and flocked to Europe, wandering the continent on missions of self-discovery. Many of these boomers still dream of "going back"—of once again cutting themselves free and revisiting the places they encountered in their youth, recapturing what was, and creating fresh memories along the way. Marianne Bohr and her husband, Joe, did just that. In *Gap Year Girl*, Bohr describes what it's like to kiss your job good-bye, sell your worldly possessions, pack your bags, and take off on a quest for adventure. Page by page, she engagingly recounts the experiences, epiphanies, highs, lows, struggles, surprises, and lessons learned as she and Joe journey as independent travelers on a budget—through medieval villages and bustling European cities, unimaginable culinary pleasures, and the entertaining (and sometimes infuriating) characters encountered along the way. Touching on universal themes of escape, adventure, freedom, discovery, and life reimagined, *Gap Year Girl* is an exciting account of a couple's experiences on an unconventional, past-the-blush-of-youth journey.

I'm just a regular person, like yourself, who was laid off after working at a large financial firm in the US for 11 years. I felt lost. I always wanted to travel the world, but I didn't think I could afford it. However, I was determined to crack the code because the alternative was not an option: I did not want to go back to the corporate world and wanted to live life on my own terms. I set a timetable, but I had no idea what my steps needed to be in order to accomplish my goal of traveling full time. Strategy That Works - Paul Leinwand 2016-01-12

How to close the gap between strategy and execution Two-thirds of executives say their organizations don't have the capabilities to support their strategy. In Strategy That Works, Paul Leinwand and Cesare Mainardi explain why. They identify conventional business practices that unintentionally create a gap between strategy and execution. And they show how some of the best companies in the world consistently leap ahead of their competitors. Based on new research, the authors reveal five practices for connecting strategy and execution used by highly successful enterprises such as IKEA, Natura, Danaher, Haier, and Lego. These companies: • Commit to what they do best instead of chasing multiple opportunities • Build their own unique winning capabilities instead of copying others • Put their culture to work instead of struggling to change it • Invest where it matters instead of going lean across the board • Shape the future instead of reacting to it Packed with tools you can use for building these five practices into your organization and supported by in-depth profiles of companies that are known for making their strategy work, this is your guide for reconnecting strategy to execution.

We Came, We Saw, We Left: A Family Gap Year - Charles Wheelan 2021-01-26

Charlie Wheelan and his family do what others dream of: They take a year off to travel the world. This is

their story. What would happen if you quit your life for a year? In a pre-COVID-19 world, the Wheelan family decided to find out; leaving behind work, school, and even the family dogs to travel the world on a modest budget. Equal parts "how-to" and "how-not-to"—and with an eye toward a world emerging from a pandemic—*We Came, We Saw, We Left* is the insightful and often hilarious account of one family's gap-year

experiment. Wheelan paints a picture of adventure and connectivity, juggling themes of local politics, global economics, and family dynamics while exploring answers to questions like: How do you sneak out of a Peruvian town that has been barricaded by the local army? And where can you get treatment for a flesh-eating bacteria your daughter picked up two continents ago? From Colombia to Cambodia, *We Came, We Saw, We Left* chronicles nine months across six continents with three teenagers. What could go wrong?
