After questioning people with the power to destroy them, the team is framed for a crime they didn't commit and marked for death. Now, the hunt is on. Children Are Diamonds -

Edward Hoagland 2013-06-01

This is not the Africa of Isak Dinesen, nor the Africa of Joy Adamson. This is the Africa of civil wars and tribal massacres, where the Lord's Resistance Army recruits child-soldiers after forcing them to kill their parents and eat their hearts.

The aid workers who voluntarily subject themselves to life here are a breed of their own. Meet Hickey, an American school teacher in his late thirties, an American school teacher who burns his bridges with the school board and goes to Africa as an aid worker.

Working for an agency in Nairobi, one of his jobs is to drive food and medical supplies to Southern Sudan to an aid station run by Ruth, a middle-aged woman, who acts as nurse, doctor, hospice worker, feeder of starving children, and witness. Ruth is gruff but efficient, and Hickey, who is usually drawn to youth and beauty, is struck by her devotion. Returning to Nairobi, he can't forget what he has

seen. When the violence and chaos in the region increase to a fever pitch and aid workers are being slaughtered or evacuated, Hickey is asked to save Ruth overland by Jeep.

What happens to them and the children that have joined their journey is the searing climax of this novel. Hoagland paints an unflinching portrait of a living hell at its worst, and yet amid that suffering there is hope in the form of humility, sacrifice, and life-affirming friendship.

With the world facing the ultimate chainsaw massacre, it takes some bad-ass generals and a couple of men in military suits to implant a scheme that will give the world one last ass to lick! The licking needed comes from the stuck-up government who knows that to beat the virus that spreads like Moses and the locusts - procedures will have to be broken to see if they can control the behavioural patterns of their prisoners that have no other instinct but kill ... kill ... kill - must be collected into data that they can understand. But with trying to control behaviour, you'll first have to cut off the hand that breed its configuration. And

with that in play, comes the steps to take and none of them are pretty. Hence why the many characters compose themselves of the breaking down of not only all they've known and lived for, but the reasoning of something that nobody has ever thought would come into the daylight: an apocalypse! It involves those who peer down at the globe and say action bitches! When the rest of society hope to hell that all the barriers, police forces, and military will have unbreakable lines. Who knows? But all will have to compete to stay alive in these episodes. Majors, Generals, Colonels, Scientists, and even the President himself, who has no execution button to get rid, can run from the predicament of the United States that is infested with a species that reach all the way to Chicago. And they'll do their best to reach every other state as the ticker counts down to its last tick-tick-tick and awaits the arrival of a plan that may fence a small fraction in bondage. But would the government be

so selective in its choices? The apocalypse does bring out the worse and the best in people. It's just a little fuzzy at what the finale will be. Who knows? But they'll have to think of something! Because the future is what's at stake.
