All entries have been written from a Canadian point of view, providing Canadian pronunciations and including over 200,000 words and senses unique to our country. With its 270,000 words, phrases and definitions, 27,000 word histories, 25,000 examples of usage, and recommended word-break points, the Concise Canadian Oxford Dictionary is the most authoritative, handy and cost-effective dictionary of its size available for

Canadian readers and writers.

To the Point: A Dictionary of Concise Writing - Robert Hartwell Fiske 2014-03-24

The essential guide to writing succinctly. Who doesn't hate wading through wordy paragraphs? Unfortunately, many writers don't realize when they are padding their sentences and obscuring their meaning. Enter To the Point, the essential guide to writing succinctly. Featuring hundreds of new entries, this freshly updated edition is complete with:

- A guide to the basics of writing concisely, including how to reduce the number of words in a phrase, substitute a single word for a phrase, and delete extraneous words and phrases.
- The "Dictionary of Concise Writing," which gives concise alternatives to thousands of wordy phrases. Language expert Robert Hartwell Fiske uses each wordy phrase in a sentence and then rewrites or deletes the phrase entirely to show how the sentence can be improved.
- The brand new "Guide to Obfuscation: A Reverse Dictionary," which helps writers build a more pithy vocabulary. To the Point is the perfect reference book for anyone who wants to communicate more effectively through clear and beautiful writing.

The Making of the Oxford English

Dictionary - Peter Gilliver 2016-09-22

This book tells the history of the Oxford English Dictionary from its beginnings in the middle of the nineteenth century to the present. The author, uniquely among historians of the OED, is also a practising lexicographer with nearly thirty years' experience of working on the Dictionary. He has drawn on a wide range of sources- including previously unexamined archival material and eyewitness testimony- to create a detailed history of the project. The book explores the cultural background from which the idea of a comprehensive historical dictionary of English emerged, the lengthy struggles to bring this concept to fruition, and the development of the book from the appearance of the first printed fascicle in 1884 to the launching of the Dictionary as an online database in 2000 and beyond. It also examines the evolution of the lexicographers' working methods, and provides much information about the people- many of them remarkable individuals- who have contributed to the project over the last century and a half.

The Oxford English Dictionary - John Andrew Simpson 1991

Essential Dictionary of Music Notation (Pocket Size Book) - Gerou, Tom 2008

A Concise Dictionary of Theology - Gerald O'Collins 2013

"This third edition identifies and clarifies a thousand central theological terms, providing necessary information about their origin, the history of their usage, and their place in the story of Christianity. The authors have introduced into many entries findings from the latest scholarship, as well as fresh developments in the church life and teaching. For easy reference, there are also both a chart of the Catholic Church's twenty-one general councils and a timeline." - back cover.

Robert Hartwell Fiske's Dictionary of Unendurable English - Robert Hartwell Fiske 2011-11

A comprehensive dictionary of common misuses illustrates the right way and the wrong way to use language and explores why dictionaries do not always provide the correct meaning or usage of a word.

Merriam-Webster Dictionary of Synonyms and Antonyms - Merriam-Webster 1992-01-01

Master the subtleties of language with this useful reference, which goes beyond a thesaurus to explain the fine shades of meaning that differentiate synonyms.

The Concise Oxford Dictionary of Literary Terms - Chris Baldick 1996

The Concise Sanskrit-English Dictionary -

Vasudeo Govind Apte 2014-01-01

The present Dictionary is designed to meet the long-felt need of the English-knowing reader who is interested in the study of classical as well as modern Sanskrit. It covers a very large field—Epics such as the Ramayana and Mahabharata,

Puranas and Upapuranas, Smṛti and Niti literature, Darśanas or Systems of Philosophy, such as Nyaya, Vedānta, Mīmāṃsā, Sāṅkhya and Yoga, Grammar, Rhetoric, Poetry in all its branches, Dramatic and Narrative Literature, Mathematics, Medicine, Botany, Astronomy, Music and other technical or scientific branches of learning. Thus, it embraces all words occurring in the general post-Vedic literature. It includes most of the important terms in Grammar. It gives quotations and references to the peculiar and remarkable meanings of words, especially such as occur in books prescribed for study in the Indian and foreign universities. It also renders an explanation of important technical terms occurring in different branches of Sanskrit learning. To add to its usefulness the work includes three appendices. There are in existence no doubt excellent Sanskrit-English dictionaries compiled by eminent scholars like Monier Williams, H.H. Wilson, V. S. Apte and L. R. Vaidya, but their bulkiness and cost prohibit a large number of users from enjoying an advantage so necessary in their study of Sanskrit. There is, therefore, a crying need for one which supplies everything required by an average reader and which is at the same time characterized by brevity and cheapness. The present compilation is intended to serve this purpose. The author in this handy work has kept out Sanskrit words that are less commonly used and has tried to avoid all technicalities as well as words that can easily be seen as simple derivatives of some given words. Thus he has been able to reduce the bulk of the dictionary without compromising its usefulness.

Word by Word - Kory Stamper 2017-03-14

“We think of English as a fortress to be defended, but a better analogy is to think of English as a child. We love and nurture it into being, and once it gains gross motor skills, it starts going exactly where we don't want it to go: it heads right for the goddamned electrical sockets.” With wit and irreverence, lexicographer Kory Stamper cracks open the obsessive world of dictionary writing, from the agonizing decisions about what to define and how to do it to the knotty questions of ever-changing word usage. Filled with fun facts—for example, the first documented usage of “OMG” was in a letter to Winston Churchill—and

Stamper's own stories from the linguistic front lines (including how she became America's foremost "irregardless" apologist, despite loathing the word), *Word by Word* is an endlessly entertaining look at the wonderful complexities and eccentricities of the English language.

A Concise Chinese-English Dictionary for Lovers
- Xiaolu Guo 2008-06-10

From one of our most important contemporary Chinese authors: a novel of language and love that tells one young Chinese woman's story of her journey to the West—and her attempts to understand the language, and the man, she adores. Zhuang—or “Z,” to tongue-tied foreigners—has come to London to study English, but finds herself adrift, trapped in a cycle of cultural gaffes and grammatical mishaps. Then she meets an Englishman who changes everything, leading her into a world of self-discovery. She soon realizes that, in the West, “love” does not always mean the same as in China, and that you can learn all the words in the English language and still not understand your lover. And as the novel progresses with steadily improving grammar and vocabulary, Z's evolving voice makes her quest for comprehension all the more poignant. With sparkling wit, Xiaolu Guo has created an utterly original novel about identity and the cultural divide.

The Dictionary of Worthless Words - Dave Dowling 2014-11-11

The Dictionary of Worthless Words recognizes that concise writing is paramount. This quick reference enables writers to conquer verbiage, delete pointless words and phrases, and elevate e-mails, essays, memoranda, personal letters, press releases, and speeches to a new level of clarity. The many examples of delete-worthy words will enable writers to avoid them in advance and prevent their prose from becoming clumsy and unclear.

A Concise Dictionary of Correct English - B. A. Phythian 1979-01-15

Based on authoritative sources (Fowler, Gowers, Partridge and the Oxford dictionaries), this book is intended for those who would like to be guided round some of the more common pitfalls in the use of English. It is also a practical introduction to the grammar of modern English,

grammar being the basis for a proper understanding of what is correct current usage. The compiler, while making a stand against linguistic abuses such as ungrammatical expressions and ugly coinages, circumlocutions and tautology, fashionable metaphors and misuse of technical terms, has an up-to-date attitude to English as a living, developing language, which is constantly changing through usage and the needs of its writers and speakers. Many, often entertaining, examples of both good and incorrect (but frequently found) English support the definitions in the dictionary.

Hortus third - Liberty Hyde Bailey Hortorium 1997

A Concise Etymological Dictionary of the English Language (Classic Reprint) - Walter W. Skeat 2017-09-16

Excerpt from *A Concise Etymological Dictionary of the English Language* I do not, in general, give the history Of the use of the word under discussion, unless there is some special point which is necessary to be known for the sake of the etymology. For such history, accompanied by illustrative comments. References, and discussions, I must refer students to the unabridged work. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Concise Dictionary of Social and Cultural Anthropology - Mike Morris 2013-04-10

Practical and accessible, this dictionary is designed to enlighten those newly engaged in anthropological study or seeking a quick guide to the field. Fills a need for a beginner's pocket guide to the far-reaching and complex field of anthropology, including over 800 detailed entries and the intellectual background of terms Written

in plain, jargon-free language, for readers without extensive background in the field. Features brief, conceptual definitions of terms, bibliographical references to anthropological classics, related works for background reading and further research. The user-friendly format includes bold terms featured elsewhere in the book, extensive cross-references, and indexes of names, peoples, places and subjects. Incorporates related terminology from allied fields such as sociology, economics and geography.

CONCISE DICTIONARY OF METAPHORS AND SIMILES - V&S EDITORIAL BOARD

2015-01-06

Most speakers and writers use the terms metaphor and simile as if they mean exactly the same thing. But they are not! A simile is a metaphor, but not all metaphors are similes. A metaphor compares two things, and does so more directly without using as or like. For example, the shop was a little gold-mine. A simile compares (usually introduced by like or as) two things that are generally not alike—such as a line of migrant workers and a wave, or onion skins and a swarm of butterflies. Writers and authors use similes to explain things, to express emotion, or to make their writing more lively and entertaining. Metaphors also offer figurative comparisons, but these are implied rather than introduced by like or as. Salient Features: o Thousands of widely used popular Metaphors & Similes in English o Inclusion of foreign Metaphors & Similes currently in use in English language o Arranged alphabetically from A - Z o Worth recommending without second thought An authoritative Dictionary of Metaphors & Similes for students, writers, and general readers!

The Concise Oxford Dictionary of Mathematics - Christopher Clapham

2014-05-22

Authoritative and reliable, this A-Z provides jargon-free definitions for even the most technical mathematical terms. With over 3,000 entries ranging from Achilles paradox to zero matrix, it covers all commonly encountered terms and concepts from pure and applied mathematics and statistics, for example, linear algebra, optimisation, nonlinear equations, and differential equations. In addition, there are

entries on major mathematicians and on topics of more general interest, such as fractals, game theory, and chaos. Using graphs, diagrams, and charts to render definitions as comprehensible as possible, entries are clear and accessible. Almost 200 new entries have been added to this edition, including terms such as arrow paradox, nested set, and symbolic logic. Useful appendices follow the A-Z dictionary and include lists of Nobel Prize winners and Fields' medallists, Greek letters, formulae, and tables of inequalities, moments of inertia, Roman numerals, a geometry summary, additional trigonometric values of special angles, and many more. This edition contains recommended web links, which are accessible and kept up to date via the Dictionary of Mathematics companion website. Fully revised and updated in line with curriculum and degree requirements, this dictionary is indispensable for students and teachers of mathematics, and for anyone encountering mathematics in the workplace.

To the Point: A Dictionary of Concise Writing - Robert Hartwell Fiske 2014-03-24

Provides basic writing guidelines, tips on reducing wordiness, and a dictionary of phrases and their alternatives.

Concise Oxford Spanish Dictionary - Carol Styles Carvajal 2004

Up-to-date coverage of more 170,000 words and phrases, and 240,000 translations, as well as notes on the life and culture of countries of the Spanish-speaking world, are provided in an authoritative, concise dictionary.

The Lover's Dictionary - David Levithan 2011-01-21

basis, n. There has to be a moment at the beginning when you wonder whether you're in love with the person or in love with the feeling of love itself. If the moment doesn't pass, that's it—you're done. And if the moment does pass, it never goes that far. It stands in the distance, ready for whenever you want it back. Sometimes it's even there when you thought you were searching for something else, like an escape route, or your lover's face. How does one talk about love? Do we even have the right words to describe something that can be both utterly mundane and completely transcendent, pulling us out of our everyday lives and making us feel a part of something greater than ourselves?

Taking a unique approach to this problem, the nameless narrator of David Levithan's *The Lover's Dictionary* has constructed the story of his relationship as a dictionary. Through these short entries, he provides an intimate window into the great events and quotidian trifles of being within a couple, giving us an indelible and deeply moving portrait of love in our time.

The Concise Oxford Dictionary of Politics and International Relations - Garrett W Brown 2018-01-06

This bestselling dictionary contains over 1,700 entries on all aspects of politics and international relations. Written by a leading team of political scientists, it embraces the multi-disciplinary spectrum of political theory including political thinkers, history, institutions, theories, and schools of thought, as well as notable current affairs that have shaped attitudes to politics. Fully updated for its fourth edition, the dictionary has had its coverage of international relations heavily revised and expanded, reflected in its title change, and it includes a wealth of new material in areas such as international institutions, peace building, human security, security studies, global governance, and open economy politics. It also incorporates recommended web links that can be accessed via a regularly checked and updated companion website, ensuring that the links remain relevant. The dictionary is international in its coverage and will prove invaluable to students and academics studying politics and related disciplines, as well as politicians, journalists, and the general reader seeking clarification of political terms.

Bosnian-English, English-Bosnian Dictionary - Nikolina S. Uzicanin 1996

With members chosen from all the relevant disciplines, the Committee presents an independent review and recommendations on technology development and use for the US Department of Energy's Office of Environmental Management, which is charged with cleaning up the pollution left by the Department's weapons complex facilities over the years. Along with the overall reports on improving technologies and focus and cross-cutting areas, subcommittee reports detail such aspects as contaminant plumes, landfills, and mixed wastes. No index.

Annotation copyright by Book News, Inc., Portland, OR

The Concise Oxford Dictionary of Opera - Harold D. Rosenthal 1979

Contains entries on individual operas, composers, librettists, singers, conductors, technical terms and other subjects connected with opera.

Concise Dictionary of Mathematics - Editorial Board 2012-04

Remarkable progress continues to be made in mathematical sciences. This advancement has made inter-relationships amongst various branches within mathematics and with other branches of science highly evolving; leading to newer 'terms' being invented and getting added. These additions make mathematics a little more complex. Emerging complexity translates into more difficulties for students in grasping the problem. And what makes the comprehension problematic? It is the introduction of 'terms', their definition and how to apply them in physical, chemical, biological, biotechnology, and social sciences works. And if these terms are not adequately explained, students and other interested readers face a herculean task in understanding what the question is all about, and unless readers clearly understand the terminology, finding a solution is next to impossible. This book contains mathematical terms related to arithmetic, algebra, trigonometry, geometry, analytic geometry, differential & integral calculus and differential equations, probability, statistics, logic etc. Appendices in the form of important formulas from algebra, geometry, trigonometry, calculus, logarithms and antilogarithms have been added. A few entries contain cross references indicating where to find further applications of the topic under discussion. It is an ideal manual for mathematics complete with illustrative diagrams and formulas. Inclusion of Greek Alphabets, metric systems and other useful mathematical symbols in the book helps make the dictionary a complete mathematical reference tool.

New Concise Bible Dictionary - Derek Williams 1995-01-01

Compiled in a straightforward A-Z format for easy searching.
