Take the Slow Road: Ireland - Martin Dorey 2020-05-14

Forget hurrying. Forget putting your foot down and racing through sweeping bends. Forget the understeer (whatever that is). Forget the blur of a life lived too fast. This is a look at taking life slowly. It's about taking the time to enjoy journeys and places for their own sake. It's about stopping and putting the kettle on. Stopping to take a picture. Stopping to enjoy stopping. How are you going to do it? In a camper van or a motorhome, of course. In this book we define the best driving routes around Ireland for camper vans and motorhomes. We show you the coolest places to stay, what to see, what to do and explain why it's special. We meander around Ireland on the most breathtaking roads, chugging up mountain passes and pootling along the coast. We show you stuff that's fun; often free. We include the best drives for different kinds of drivers; for surfers, wildlife watchers, climbers and walkers. We include the steepest, the bendiest, the scariest and most interesting. And you don't even have to own a camper van or motorhome - we'll tell you the many places you can rent one to take you on the journey. All of this is interspersed with beautiful photos, handy maps and quirky travel writing from the king of camper vans and motorhomes, Martin Dorey. So if all you want to do is flick through it on a cold day and plan your next outing, you'll be transported (albeit slowly) to pastures, beaches, mountains and highways that make you want to turn the key and go, go, go!

The Secret Lives of Puffins - Dominic Couzens 2014-07-31

Puffins are among the most instantly recognisable, iconic and well loved of birds. For many they are a highlight of the UK's summer coastline and their colourful appearance, comedy antics and approachability just add to their popularity. Several 'hotspot' are attracting high levels of interest in visits to their colonies. In spite of the high level of interest in, and appeal of, these birds there has been a surprising lack of books focused on Puffins as a species. Award-winning wildlife photographer Mark Sisson has spent several years photographing Puffins and this new book combines images that beautifully encapsulate their charm and visual appeal with an accessible text written by leading wildlife writer Dominic Couzens. The book covers the birds' life cycle, behaviour, habitats and the current and future challenges that they face, along with many surprising facts and anecdotes.

Maths is all Around You - Marianne Knaus 2015-04-23

We encounter mathematics on a regular basis in one form or another. For some people, maths is 'scary' and not something they feel confident about. Even though many educators and parents attempt to provide good mathematics experiences, there is still a high level of anxiety about the teaching and learning of mathematics. This book presents a broad range of concepts and aims to widen the narrow view that maths for young children is just about numbers and shapes. The content includes pattern (early algebra), counting, number, early operations, measurement, shape and spatial awareness (geometry), matching, sorting, data analysis and the introduction of chance (statistics and probability). This book is intended for educators and parents who would like to explore and investigate maths concepts to enrich children's experiences and extend their current thinking and learning.
