He's Just Not Your Type (And That's A Good Thing) - Andrea Syrtash 2010-04-27

In *He's Just Not Your Type (And That's a Good Thing)*, a relationship expert and dating columnist shares her counterintuitive approach to lasting love: encouraging women to date their "non-types." After years of dating, many women fall into a relationship rut. As serial daters, they are attracted to the same type of man time and again. Clearly, something's not working. But the problem is not that he's just not that into them—the reality is, he's just not their type. Relationship expert and life coach Andrea Syrtash hears the disbelief in her clients' voices when they admit that their "Mr. Right" relationship has again gone wrong. In *He's Just Not Your Type*, Syrtash challenges readers to date outside their comfort zones and poses hard-hitting questions: What if the kind of man they think will make them happy never will? What would happen if they dated someone they'd never considered dating? In each chapter, Syrtash shares stories of women who have found lasting happiness with their non-types (NTs) and provides exercises designed to help readers assess their big-picture goals and core values. In doing so, she shows women how to make better choices in dating so they are more likely to find true love.

The Children's Story - James Clavell 2014-11-12

It was a simple incident in the life of James Clavell—a talk with his young daughter just home from school—that inspired this chilling tale of what

could happen in twenty-five quietly devastating minutes. He writes, "The Children's Story came into being that day. It was then that I really realized how vulnerable my child's mind was —any mind, for that matter—under controlled circumstances. Normally I write and rewrite and re-rewrite, but this story came quickly—almost by itself. Barely three words were changed. It pleases me greatly because I kept asking the questions... Questions like, What's the use of 'I pledge allegiance' without understanding? Like Why is it so easy to divert thoughts? Like What is freedom? and Why is so hard to explain? The Children's Story keeps asking me all sorts of questions I cannot answer. Perhaps you can—then your child will...."

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Strengthening Forensic Science in the United States - National Research Council 2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

[Where are You Going, where Have You Been?](#) - Joyce Carol Oates 1993

Joyce Carol Oates's prize-winning story "Where Are You Going, Where Have You Been?" takes up troubling subjects that continue to occupy her in her fiction: the romantic longings and limited options of adolescent women; the tensions between mothers and daughters; the sexual victimization of women; and the American obsession with violence.

Inspired by a magazine story about a serial killer, its remarkable portrait of the dreamy teenager Connie has made it a feminist classic. Connie's life anticipates the emergence of American society from the social innocence of the fifties into the harsher contemporary realities of war, random violence, and crime. The story was the basis for the movie *Smooth Talk*, which became the subject of much feminist debate. This casebook includes an introduction by the editor, a chronology of Oates's life, and authoritative text of "Where Are You Going, Where Have You Been?" an essay by Oates on *Smooth Talk*, the original *Life* article about the serial killer, ten critical essays (including two about the film), and a bibliography. The contributors are Brenda O. Daly, Christina Marsden Gillis, Don Moser, Tom Quirk, B. Ruby Rich, R.J.R. Rockwood, Larry Rubin, Gretchen Schultz, Marie Mitchell Oleson Urbanski, Joyce M. Wegs, and Joan D. Winslow. Elaine Showalter is Avalon Foundation Professor of Humanities at Princeton University. She is the author and editor of many books on women's writing, including *Sister's Choice: Tradition and Change in American Women's Writing*.
