Nature and Landscape Photography - Martin Borg 2011

What happens when you bring two of your passions together? Magic, of course. Photography offers a perfect outlet for creativity and emotions. Nature provides peace, serenity, and a wellspring of energy. To combine both—to photograph nature—is a unique and fulfilling experience. In this book, renowned Swedish nature photographer Martin Borg shares his experience and insight along with 71 of his beautiful images that illustrate each point. He offers helpful advice for beginning to intermediate photographers, ranging from technical tips, to aesthetics, to philosophical thoughts on the essence of being a nature photographer.

Secrets of the National Parks - National Geographic Society (U. S.) 2013
Identifies hidden treasures and lesser-known points of interest in each of America's national parks.

Secrets of the Sideshows - Joe Nickell 2005-09-09

"Joe Nickell - once a carnival pitchman, then a magician, private

detective, and investigative writer - has pursued sideshow secrets for years and has worked the famous carnival midway at the Canadian National Exhibition. For this book, he interviewed showmen and performers, collected carnival memorabilia, researched published accounts of sideshows and their lore, and even performed some classic sideshow feats, such as eating fire and lying on a bed of nails as a cinderblock was broken on his chest. The result of these varied efforts, *Secrets of the Sideshows* tells the captivating story of the magic, tricks - real or illusory - and performers of the world's midway shows."--BOOK JACKET.

Animal Jam - Katherine Noll 2017

A strategy guide for National Geographic's massive multiplayer online game, *Animal Jam*, where players choose what animal they want to be and explore the land of Jamaa.

Focus On Composing Photos - Peter Ensenberger 2013-04-17

As digital cameras and software packages become more advanced, seemingly by the minute, it has become easier than ever to overlook the basic elements which have always resulted in the best photographs, no matter how fancy (or primitive) the camera itself. Composition is the single most important aspect of creating great images, no matter what level of photographer you happen to be. No amount of digital wizardry can turn a badly composed image into a picture you would want to display. While many books on composition tend to overcomplicate the subject, this book breaks down everything you need to know into small, digestible chunks of information that you will actually remember once you're out and about taking pictures. Instead of plodding through long and complex pages of text, this book supplements the necessary information, such as the basics of the rule of thirds and how to get good highlights and shadows, with tons of gorgeous, full color images that actually show you what to do and how to do it, rather than just telling you what to try. You'll be amazed at the gorgeous images you'll create, whether your passion is for photographing your family, pets, travel adventures, nature, or anything else.

The 50 Greatest National Parks of the World - Aaron Millar
2018-04-05

Olympus, the Grand Canyon, Uluru and the Serengeti: national parks are home to the wonders of our natural world. Award-winning travel writer Aaron Millar explores the greatest national parks of the world, giving insider tips on how best to discover their secrets. From the home of the highest waterfall in the world in Canaima, Venezuela to the beautiful fjords of Hardangervidda, Norway, to searching for the giant panda in Jiuzhaigou, China and exploring the culture in Cinque Terre, Italy, this guide tells of the history, legends and cultures of each great national park, and tells you how to see them at their awe-inspiring best.

[Digital Wildlife Photography](#) - John Gerlach 2012

"From how many frames you need to shoot per second to capture that WOW moment to where to focus on a bird with a big beak to get the best depth of field, this book has it all for the wildlife photographer. It is an impressive mix of technology with just plain good advice for image-

taking, and they discuss each point specifically for shooting wildlife, because it is a totally unique type of photography. The lighting and shutter speed for a macro flower shot is not the same that you'd need for a bird in flight or a kangaroo jumping across a field. Mix together this fantastic info with the many years of experience that the Gerlachs have shooting and teaching and the absolutely jaw-dropping images and you really do have a perfect storm for a book"--

[Six Sigma in the Pharmaceutical Industry](#) - Brian K. Nunnally 2007-06-13

The pharmaceutical industry is under increasing pressure to do more with less. Drug discovery, development, and clinical trial costs remain high and are subject to rampant inflation. Ever greater regulatory compliance forces manufacturing costs to rise despite social demands for more affordable health care. Traditional methodologies are failing and the industry needs to find new and innovative approaches for everything it does. Six Sigma in the Pharmaceutical Industry: Understanding, Reducing, and Controlling Variation in Pharmaceuticals and Biologics is the first book to focus on the building blocks of understanding and reducing variation using the Six Sigma method as applied specifically to the pharmaceutical industry. It introduces the fundamentals of Six Sigma, examines control chart theory and practice, and explains the concept of variation management and reduction. Describing the approaches and techniques responsible for their own significant success, the authors provide more than just a set of tools, but the basis of a complete operating philosophy. Allowing other references to cover the structural elements of Six Sigma, this book focuses on core concepts and their implementation to improve the existing products and processes in the pharmaceutical industry. The first half of the book uses simple models and descriptions of practical experiments to lay out a conceptual framework for understanding variation, while the second half introduces control chart theory and practice. Using case studies and statistics, the book illustrates the concepts and explains their application to actual workplace improvements. Designed primarily for the pharmaceutical industry, Six Sigma in the Pharmaceutical Industry: Understanding, Reducing, and Controlling Variation in Pharmaceuticals and Biologics

provides the fundamentals of variation management and reduction in sufficient detail to assist in transforming established methodologies into new and efficient techniques.

Light, Gesture & Color - Jay Maisel 2014

"Jay puts his amazing insights and learning from a lifetime behind the lens into a book that communicates the three most important aspects of street photography ... This isn't a book about f-stops or ISOs. It's about seeing. It's about being surrounded by the ordinary and learning to find the extraordinary. It's about training your mind, and your eyes, to see and capture the world in a way that delights, engages, and captivates your viewers ... your key to opening another level of understanding, appreciation, wonder and creativity as you learn to express yourself, and your view of the world, through your camera"--Publisher's description.

The Best Places for Everything - Peter Greenberg 2012-05-08

An all-access pass to the most unique, inspiring, and life-changing experiences on Earth. Travel isn't just about the destination—it's about the experience. Now, the very best places to experience anything—from bungee-jumping and French cooking classes to whitewater rafting and seeing the Northern Lights—are revealed and collected in this inspiring and definitive guide. New York Times bestselling author and travel expert Peter Greenberg shares more than two decades of his own extensive worldwide travel, uniquely organized by affinity, accessibility, and affordability. Whether readers are looking to embark on outdoor adventures or savor the simplest pleasures, there are hundreds of ideas here that are sure to inspire—from shark diving, train spotting, and cheesemaking to safari camping, truffle-hunting, scenic hot-air balloon rides—even the best authentic beginner Argentine tango class (the Hotel Mansion Dandi in Buenos Aires). Packed with fascinating facts, industry secrets, and expert advice, *The Best Places for Everything* is the definitive guide for thrill-seekers and armchair travelers alike. No matter what's on readers' wish lists, they will always end up in the perfect spot.

The Japanese Pharmaceutical Industry - Maki Umemura 2011-03-02

This book explores why Japan, despite being a world leader in many high technology industries such as automobiles and consumer electronics, is

only a minor player in the global pharmaceutical industry. Japan provides a huge market for pharmaceuticals as the second largest consumer of prescription drugs after the United States, and is a massive importer of prescription drugs, relying on discoveries made elsewhere. This book charts the development of the industry, from the devastation resulting from the Second World War to its performance in the present day. Focusing in particular on antibiotics and anticancer drugs, the book analyses factors that have prevented Japan from leading the rapid advances in science and technology that have occurred globally over recent decades. Looking at the pharmaceutical industry, the book argues that the Japanese government's research and development policies were not sufficiently incentivising. It also shows how the nature of capitalism in Japan - which featured close relations between government and industry as well as between and within firms - was appropriate for nurturing industrial development in the immediate post-war decades, but became much less effective in later years.

Nature Photography: Insider Secrets from the World's Top Digital Photography Professionals - Chris Weston 2013-01-25

Have you ever wondered what it is that professional photographers do day in and day out that enables them to take consistently compelling images? Or thought that unravelling the insider secrets of the professionals could inspire you? *Nature Photography: Insider Secrets from the World's Top Digital Photography Professionals* takes a contemporary and innovative approach to revealing the day-to-day habits of the world's most successful wildlife, landscape and macro photographers, divulging the core skills and techniques through which they excel. This book is crammed full with expert advice taken from the world's leading pros directly from the field. It will empower the development of your skills to a professional level and fire your imagination. Starting with the basics of how to plan a rewarding field trip, whether locally or afar, for one day or a month, and covering all aspects of camera handling and photographic technique including: how to make perfect exposures every time, ensure pin-sharp images of moving subjects, decipher the complexities of camera menus and

controls, and break through the mysteries of composition. And, having learned the secrets to success, the book maps out some simple yet powerful photo exercises and self-assignments to encourage you to explore all facets of digital photography and put into practice the essential skills that will make you, too, a highly successful photographer.

Digital Video Editing with Final Cut Express - Charles Roberts
2013-01-11

Suitable for those new to nonlinear editing as well as experienced editors new to Final Cut Express, this book is an introduction to Apple's editing software package and the digital video format in general. You will come away with not only an in-depth knowledge of how to use Final Cut Express, but also a deeper understanding of the craft of editing and the underlying technical processes that will serve you well in future projects. Workflow, editing techniques, compositing, special effects, audio tools, and output are explained in clear, jargon-free terms. The book's emphasis is always on using Final Cut Express in the real world, and as such it is the only book to go beyond the interface to address crucial issues like proper setup, system configuration, hardware, the Mac operating system, what equipment to purchase, and troubleshooting common problems. Armed with this information, you will sidestep problems and complete projects of exceptional quality.

Slim for Life - Jillian Michaels 2013-02-12

Stop battling your weight and slim down for life with this no-nonsense, insider's plan from America's health, wellness, and weight-loss guru: Jillian Michaels. She has helped millions lose weight and feel great, and now she can help you, too. Bestselling author and Biggest Loser trainer Jillian Michaels swore she'd never write another diet book. But she realized that with all of the conflicting, overly complicated information being thrown at you each day, what you need is a clear, simple plan that cuts through all the confusion to deliver amazing results, fast. This book distills all she's learned about diet, fitness, and a healthy lifestyle to provide anyone seeking to be slim, strong, and healthy with an easier path to achieving dramatic body transformation. No nonsense, no gimmicks, just actionable advice that gets incredible results fast!

The Bird Photography Field Guide - David Tipling 2011-03-28

A specialist title aimed at bird watchers, this handy book contains all the expertise you need to make your bird-watching trip into a rewarding photo session: there is copious advice on equipment, technique and field craft, and a wealth of wonderful photos to inspire you. Finally, a section on the digital darkroom will help you turn your shots into perfect prints.

Awareness Campaigns Are Stupid - Kim Walsh-Phillips 2012-07-01

Most marketing is a big fat waste of money. Dollars are thrown away every day in pursuit of "awareness" instead of focusing on what is REALLY important....going after the right prospects and driving them to become customers. Throughout this entertaining book, you will learn the industry secrets that the author has used to make her private clients a lot of money. In this book you will learn:* How to uncover the right messaging and marketing channels to attract the best customers for your business* The proven formula to make YOUR phone ring, eliminating the need for painful cold calling and prospecting forever* How to ensure you NEVER waste another marketing dollar ever again* The ways to finally get accurate, measurable and quick results from EACH and EVERY dollar you put into any type of advertising, marketing and promotion

Making the Modern World: Materials and Dematerialization -

Vaclav Smil 2016-12-04

How much further should the affluent world push its material consumption? Does relative dematerialization lead to absolute decline in demand for materials? These and many other questions are discussed and answered in Making the Modern World: Materials and Dematerialization. Over the course of time, the modern world has become dependent on unprecedented flows of materials. Now even the most efficient production processes and the highest practical rates of recycling may not be enough to result in dematerialization rates that would be high enough to negate the rising demand for materials generated by continuing population growth and rising standards of living. This book explores the costs of this dependence and the potential for substantial dematerialization of modern economies. Making the Modern World: Materials and Dematerialization considers the principal

materials used throughout history, from wood and stone, through to metals, alloys, plastics and silicon, describing their extraction and production.

I Remember Papa Bear - Dick Lattimer 2006-03-11

*Inspiring and educational tales pay homage to the life and legend of famed hunter and outdoorsman Fred Bear *Unique insider photos document business, conservation and social practices of Fred In this one-of-a-kind tribute, generations of hunters, recreational archers and outdoors enthusiasts will discover Fred Bear's pearls of wisdom for hunting, life, and conservation practices. His infectious spirit is explored by contributing authors including raging rocker and fellow outdoorsman Ted Nugent. This book takes readers: *Into Fred's world for secrets to a good hunt and good business*Into a day in the woods with Fred and time away from the rest of the world*Into Fred's life as advocate of bowhunting and land management issues This glimpse into the life of a man of nature, and the world he adored will provide valuable insight for veteran hunters and inspire the next generation of bowhunters.

The British National Bibliography - Arthur James Wells 2009

Spanning Time - Chris Weston 2015-12-22

Spanning Time: The Essential Guide to Time-lapse Photography is the ultimate how-to guide for creating time-lapse films, featuring both still and moving image techniques. Author Chris Weston provides all the information necessary to create compelling time-lapse sequences using a DSLR camera. As well as covering basic equipment requirements and shooting techniques, the book explores what makes a good time-lapse story, visualization, and advanced skills for creating multi-faceted time-lapse sequences. This book provides insider secrets including: How to create an effective time-lapse workflow and 'see' in a time-lapse sequence Tips and tricks to successful photographic elements such as shutter speed, aperture, exposure, ISO, dynamic range imaging, and

more Step-by-step instructions for using the leading photographic processing hardware and software Best practices for overcoming challenges including time-lapse flicker, light conditions, and color temperatures

Glow from Within - Joanna Vargas 2020-02-11

Celebrity aesthetician Joanna Vargas shares her secrets for the first time in this practical, engaging guide to beautiful, glowing skin for everyone. Celebrity aesthetician Joanna Vargas is known for her cutting-edge beauty treatments, high-end products, and famous (and seemingly ageless) clients. But her secret to beautiful skin rests on one simple principle: developing and maintaining a good skincare routine. In *Glow from Within*, Joanna teaches readers how to create the best routine for their skin type. She explains the science behind the labels of various products and tools—from serums to retinols, dry brushes to sheet masks, vitamin c to hyaluronic acid—then offers instruction on how best to incorporate them into a routine. She also shares fresh insight into how the other self-care routines we don't often connect to our skin—such as nutrition, sleep, and stress management—impact skin appearance and resiliency. In addition to giving readers the tools to create a customizable routine, Joanna will provide specific product recommendations, DIY recipes, and programs for time-specific goals (one week, one month, six months) as well as emergency troubleshooting for skin issues that pop up overnight. *Glow from Within* is the ultimate guide to flawless skin from one of the beauty industry's most sought-after insiders.

The 50 Greatest Wonders of the World - Aaron Millar 2016-11-03
Machu Picchu, the Acropolis, the Great Rift Valley: these are some of the most beautiful, mysterious and awe-inspiring places on the planet. Award-winning travel writer Aaron Millar reveals the greatest wonders of the world and the insider secrets on how to see them. From where to catch the perfect sunrise over the Grand Canyon to how to swim up to the very edge of the Victoria Falls, this is a road map for discovering the greatest experiences of your life. There are wonders of our future too: the Large Hadron Collider, the most complicated machine ever built; the International Space Station, the greatest international peacetime

collaboration in history; the Rio Carnival, the biggest party on the planet. The 50 Greatest Wonders of the World reminds us how fantastically inspiring our planet really is, and how we're a part of it.

Wild and Crazy - Paul Joynson-Hicks 2017-10-31

"The funniest photographs of wildlife from around the world collected here in one ... book [intended] for animal lovers of all stripes"--

Shooting in the Wild - Chris Palmer 2010-10

Longtime producer Palmer provides an in-depth look at wild animals on film, covering the history of wildlife documentaries, safety issues, and the never-ending pressure to obtain the money shot. Marlin Perkins, Jacques Cousteau, Steve Irwin, Timothy Treadwell, and many other familiar names are discussed along with their work, accidents, and in some cases, untimely deaths. Palmer is highly critical of Irwin, and offers fascinating revelations about game farms used by exploitative filmmakers and photographers looking for easy shots and willing to use caged animals to obtain them. He also considers the subliminal messages of many wildlife films, considering everything from Shark Week to Happy Feet and how they manipulate audiences toward preset conclusions about animal behavior. In all this is an engaging and exceedingly timely look at a form of entertainment the public has long taken for granted and which, as Palmer points out, really needs a fresh and careful reconsideration.

Outdoor Kids in an Inside World - Steven Rinella 2022-05-03

NEW YORK TIMES BESTSELLER • The “imperative call to action” (Nick Offerman) to get children off their screens and into nature, with tips for bonding activities that teach the importance of outside time and build tough, curious, competent kids—from the New York Times bestselling author and host of the TV series and podcast *MeatEater* “A revelation for families struggling to get kids to GO OUTSIDE, or to just stop using the darn smartphone.”—Michaeleen Doucleff, PhD, New York Times bestselling author of *Hunt, Gather, Parent* In the era of screens and devices, the average American spends 90 percent of their time indoors, and children are no exception. Not only does this phenomenon have consequences for kids’ physical and mental health, it jeopardizes their

ability to understand and engage with anything beyond the built environment. Thankfully, with the right mind-set, families can find beauty, meaning, and connection in a life lived outdoors. Here, outdoors expert Steven Rinella shares the parenting wisdom he has garnered as a father whose family has lived amid the biggest cities and wildest corners of America. Throughout, he offers practical advice for getting kids radically engaged with nature in a muddy, thrilling, hands-on way, with the ultimate goal of helping them see their own place within the natural ecosystem. No matter their location—rural, suburban, or urban—caregivers and kids will bond over activities such as: • Camping to conquer fears, build tolerance for dirt and discomfort, and savor the timeless pleasure of swapping stories around a campfire. • Growing a vegetable garden to develop a capacity to nurture and an appreciation for hard work. • Fishing local lakes and rivers to learn the value of patience while grappling with the possibility of failure. • Hunting for sustainably managed wild game to face the realities of life, death, and what it really takes to obtain our food. Living an outdoor lifestyle fosters in kids an insatiable curiosity about the world around them, confidence and self-sufficiency, and, most important, a lifelong sense of stewardship of the natural world. This book helps families connect with nature—and one another—as a joyful part of everyday life.

A Death in the Rainforest - Don Kulick 2019-06-18

“Perhaps the finest and most profound account of ethnographic fieldwork and discovery that has ever entered the anthropological literature.” —The Wall Street Journal “If you want to experience a profoundly different culture without the exhausting travel (to say nothing of the cost), this is an excellent choice.” —The Washington Post As a young anthropologist, Don Kulick went to the tiny village of Gapun in New Guinea to document the death of the native language, Tayap. He arrived knowing that you can’t study a language without understanding the daily lives of the people who speak it: how they talk to their children, how they argue, how they gossip, how they joke. Over the course of thirty years, he returned again and again to document Tayap before it disappeared entirely, and he found himself inexorably drawn into their world, and

implicated in their destiny. Kulick wanted to tell the story of Gapuners—one that went beyond the particulars and uses of their language—that took full stock of their vanishing culture. This book takes us inside the village as he came to know it, revealing what it is like to live in a difficult-to-get-to village of two hundred people, carved out like a cleft in the middle of a tropical rainforest. But *A Death in the Rainforest* is also an illuminating look at the impact of Western culture on the farthest reaches of the globe and the story of why this anthropologist realized finally that he had to give up his study of this language and this village. An engaging, deeply perceptive, and brilliant interrogation of what it means to study a culture, *A Death in the Rainforest* takes readers into a world that endures in the face of massive changes, one that is on the verge of disappearing forever.

Drawing Nature for the Absolute Beginner - Mark Willenbrink
2013-07-26

Have you ever experienced the peace of walking through the woods or the excitement of a storm gathering on a beach? *Drawing Nature for the Absolute Beginner* will help you capture these moments in artwork and share them with others. In their fun and friendly teaching style, Mark and Mary Willenbrink offer a great beginner's course on drawing nature, showing you how to realistically capture the world around you. All you need to get started are some simple supplies, basic techniques, and inspiration. From field to forest, beach or mountain, begin with a structural sketch, apply values and textures, and, before you know it, you'll be drawing everything you see. You'll even learn how to render favorite wildlife such as chipmunks, deer and eagles!

- Follow along with easy step-by-step demonstrations to draw rocks, seashells, butterflies and even more developed nature scenes.
- Gain a working understanding of key concepts such as perspective, value and composition.
- Discover simple tools and tips you can use right away to improve your art.

Films of Fact - Tim Boon 2008

Britain has long been recognised for its proud contribution to documentary cinema, yet its tradition of scientific and medical documentaries remains poorly documented. This is the first in-depth

history of the genre.

The 33 Strategies Of War - Robert Greene 2010-09-03

The third in Robert Greene's bestselling series is now available in a pocket sized concise edition. Following *48 Laws of Power* and *The Art of Seduction*, here is a brilliant distillation of the strategies of war to help you wage triumphant battles everyday. Spanning world civilisations, and synthesising dozens of political, philosophical, and religious texts, *The Concise 33 Strategies of War* is a guide to the subtle social game of everyday life. Based on profound and timeless lessons, it is abundantly illustrated with examples of the genius and folly of everyone from Napoleon to Margaret Thatcher and Hannibal to Ulysses S. Grant, as well as diplomats, captains of industry and Samurai swordsmen.

*The Skinny Confidential's Get the F*ck Out of the Sun* - Lauryn Evarts Bosstick 2021-06-15

The in-your-face go-to skincare guide from mega-influencer Lauryn Evarts Bosstick, founder of *The Skinny Confidential* brand *The Skinny Confidential's Get the F*ck Out of the Sun* is the practical, yet incredibly fun and accessible, preventative skincare bible by lifestyle guru Lauryn Evarts Bosstick. We all have our ever-growing list of skincare questions: What products are essential for a nightly routine? Will a jade roller actually take care of hangover, puffy eyes? Why is sunscreen so important, and does it really need to be applied every day? What oils and serums are best for glowy, dewy supermodel skin? Lauryn dives into all this and more with a voice reminiscent of a friend at a boozy mimosa brunch who has a little more experience (and a lot more research) under her belt. From product and beauty tool recommendations to Lauryn's personal experience with facial massage, fillers, Botox, lymphatic drainage, and cryotherapy, this authoritative and cheeky book is essential for a DIY generation that's all about shaking up old ideas about skin care and transforming the beauty industry. Lauryn interviews other top influencers such as Kristin Cavallari, Patrick Starr, the *Summer Fridays* cofounders, Shea Marie, Chriselle Lim, Jillian Michaels, Stassi Schroeder, Aimee Song, the *Ladygang*, Mandy Madden Kelley, Amelia Gray, Delilah Belle, Bobbi Brown, and Justin Anderson and skin-care

doctors and mavens including Dr. Dennis Gross, Dr. Jason Diamond, Sonya Dakar, Georgia Louise, and Dr. Barbara Sturm to get real-deal insider tips and tricks, making this book the go-to resource for preventative skincare with the signature pink Skinny Confidential spin.

The Complete Book of Retirement Secrets - 2000

The Cave Dwellers - Christina McDowell 2021-05-25

A compulsively readable novel in the vein of *The Bonfire of the Vanities*—by way of *The Nest*—about what Washington, DC’s high society members do away from the Capitol building and behind the closed doors of their suburban mansions. They are the families considered worthy of a listing in the exclusive Green Book—a discriminative diary created by the niece of Edith Roosevelt’s social secretary. Their aristocratic bloodlines are woven into the very fabric of Washington—generation after generation. Their old money and manner lurk through the cobblestone streets of Georgetown, Kalorama and Capitol Hill. They only socialize within their inner circle, turning a blind eye to those who come and go on the political merry-go-round. These parents and their children live life free of consequences in a gilded existence of power and privilege. But what they have failed to understand is that the world is changing. And when the family of one of their own is held hostage and brutally murdered, everything about their legacy is called into question. They’re called *The Cave Dwellers*.

The New Art of Photographing Nature - Art Wolfe 2013-04-02

A new spin on the classic guide to composing stunning images of nature and wildlife. What is the difference between a good picture and a great one? In this fully revised edition of the classic bestseller *The Art of Photographing Nature*, master photographer Art Wolfe and former Audubon photo editor Martha Hill team up to explain the art of composing images of enduring beauty. Against a backdrop of more than 250 photographs of nature, wildlife, and landscapes, they share insights and advice about what works and what doesn’t, and how small changes can take an image from ordinary to extraordinary. Throughout, all-new tips from digital imaging expert Tim Grey show readers how to make the

most of digital technology, whether by choosing the right color space, understanding sensor size, or removing distracting elements in post-processing. The result is an invaluable collection of expert advice updated for the modern age.

Photo Organizing Made Easy - Cathi Nelson 2021-09-15

Our photos. They are the keepers of our most precious memories and the tellers of our most cherished stories. But in the digital age, and when free time is nonexistent, organizing your photos - the thousands stored in shoeboxes under your bed, in fading photo albums, and on your phone - is a daunting task! In *Photo Organizing Made Easy: Going from Overwhelmed to Overjoyed*, professional photo organizers share their eight, doable steps to help you organize, maintain, and most importantly, enjoy your photos. You’ll learn how to tackle the challenges of time and technology, have access to trusted resources when you need a helping hand, and benefit from expert advice. We are a people of stories. Taking the time to organize your photos is a priceless investment and a gift your loved ones will treasure for generations to come.

Marine Pharmacognosy - Se-Kwon Kim 2012-12-06

Diverse and abundant, marine-derived bioactive compounds offer a plethora of pharmacologically active agents with the potential to produce valuable therapeutic entities. Marine-derived organisms, including some macroalgae, microalgae, blue-green algae, invertebrates, and vertebrates—valued in traditional Chinese medicine since ancient times—are now recognized as rich sources of pharmaceutically active compounds. These factors, coupled with the growing need for novel bioactives for the treatment of severe human diseases such as cancer, diabetes, microbial infections, and inflammatory processes, has brought marine pharmaceuticals to the forefront of pharmacology. *Marine Pharmacognosy: Trends and Applications* provides a comprehensive account of marine-derived bioactive pharmaceuticals and their potential health benefits, including antioxidant, anticancer, antiviral, anticoagulant, antidiabetic, anti-allergy, anti-inflammatory, antihypertensive, antibacterial, and radioprotective activities. Moreover, it discusses the sources, isolation and purification, chemistry,

functionality interactions, applications, and industrial features of a variety of marine-derived pharmaceuticals. Marine pharmacognosy is a dynamic field that has been systematically investigated over the last 50 years, and the number of publications and patents are increasing every year. Bringing together a global team of experts, *Marine Pharmacognosy: Trends and Applications* reviews current research on marine-derived bioactive compounds and provides insight into future research on their potential as pharmacologically active agents.

The Law of Armed Conflict - Howard M. Hensel 2017-09-29

Modern armed conflict has taken a variety of forms and occurs at a variety of levels, raising serious questions concerning the relationship between the law of armed conflict and the reality of contemporary warfare. Many contemporary armed conflicts are fought in pursuit of unlimited objectives, whereas other modern wars seek to advance limited goals. While in some cases modern wars are fought by traditional armies composed of clearly identifiable soldiers, often modern armed conflicts are waged by guerrilla or partisan fighters whose identities are easily confused with non-combatants. Terrorism is increasingly a characteristic manifestation of this contemporary warfare. In the broadest sense, contemporary warfare has raised often controversial and vexing questions concerning the applicability of the law of armed conflict and, when applicable, the interpretation of its principles and tenets. This engaging volume addresses some of the contemporary normative and legal challenges and problems associated with the application of the concepts of just war, the just conduct of war, and the law of armed conflict to 21st century warfare.

House Story - Jasmine Roth 2021-10-12

The star of HGTV's *Hidden Potential* and *HELP! I Wrecked My House* offers a rare glimpse behind the TV show curtain, inviting readers into her world with super-simple advice that takes all the guesswork and stress out of any home project. "Renovating a home can be mega intimidating, but not if you surrender to the wisdom of your new guru, Jasmine Roth. She knows all."—Jonathan Adler Finding your style is the first step to creating your dream home, whether you're buying a new

place, designing ground-up construction, or simply sprucing up the décor on a rental. Through her clear descriptions of four common design types and their many style subsets, along with thought-provoking questions and worksheets, Jasmine helps you create a cohesive feel with your home décor. She also includes helpful information on curb appeal and outdoor lighting (the most forgotten detail of your home), the science of knocking down walls, creative solutions to the five most common layout needs, floor finishes and wall treatments, everything kitchen and bathroom, and fun ways to personalize your space with DIY projects and unique bookshelf styling. With hundreds of stunning photographs of Roth-designed interiors, *House Story* is a lush exploration of what is possible for you and your home, whatever the size and budget.

City Secrets Manhattan - Robert Kahn 2012-01

Offers recommendations from members of Manhattan's literary and artistic communities for restaurants, shopping, entertainment venues, and other notable places to see while in the city.

What Does Somebody Have to Do to Get A Job Around Here? - Cynthia Shapiro 2008-04-01

If you are looking for a job you need every advantage you can get. *What Does Somebody Have to Do to Get a Job Around Here?* puts a former Human Resources executive turned employee advocate in your corner. Cynthia Shapiro reveals the best-kept job secrets that employers don't want you to know including: *Secret #8: A computer is deciding your job prospects. *Secret #12: Professional references are useless. *Secret #18: There is a "type" that always gets the offer. *Secret #21: The Thank-You note is too late. *Secret #28: Always negotiate. *...and thirty-nine more! Once you know the secrets you can create a winning resume, ace the interview, and land the job of your dreams. Cynthia Shapiro, M.B.A., E.L.C., P.H.R., author of *Corporate Confidential*, is a former human resources executive and consultant.
