*Launch* - Jeannie Burlowski  
2016-12-12

You'd love to get your kids through college debt-free-but your kids aren't getting any scholarships, you haven't saved for college, and you make too much to get government financial aid. Is there still hope? Yes, but you'll need someone to guide you. In LAUNCH, academic strategist

Jeannie Burlowski lays out clear, step-by-step strategies that empower parents to get their kids through high quality, best-fit colleges debt-free-and then directly into jobs they love afterward. Experts rave about LAUNCH: "The checklists at the end of each chapter in this book are fabulous. They're golden. Well worth the entire price of the book." -Bob Shorb,

former associate dean of admissions and financial aid and director of student aid and family finance, Skidmore College "Students who go through college without career direction are, as Jeannie Burlowski says, 'like archers who pull the arrow back on the bow string, shoot, and then years later look around for the target.' This book helps parents set their kids up to take aim early and fire a sure shot, whether that's at medical school or at some other worthy endeavor." -Dr. Paul Amble, MD, assistant clinical professor, Yale School of Medicine "I'm a Morgan Stanley wealth management advisor, and after I read this book cover to cover I purchased 30 copies for clients. Every financial advisor needs to know the information in this book. It's valuable for all types of families-from those that think their income is too high to qualify for aid, to those that worry they'll go into debt paying for college. We utilize this book in our financial planning practice as we guide

our clients to the things that matter most in their lives. If you're confused about how FAFSA works or what your kids should contribute, this book will provide clear answers. I was especially impressed with the way the book breaks down the pertinent information with chapters that align with the age of your kid. And the checklists for each chapter allow families to pick and choose the advice that best works for their family. My favorite part of the book is that it is truly a parenting book-with tips and insight for raising strong, thoughtful people who care about improving the world. The focus is on the outcome: your child becoming a successful and happy adult. If you're going to choose a financial advisor, you need to make sure that they know the specific college planning information in this book and are utilizing these ideas in their practice." -Alix Magner, financial advisor, Morgan Stanley, Minneapolis, MN "I'm a certified financial planner who cares deeply that parents

are able to send their kids to college without risking their retirement. You can be sure I'll be recommending this book every chance I get." -Mike Branch, CFP, Focus Financial, Minneapolis, MN "High school guidance counselors have a difficult time covering the intricacies of the college admission and financing process in the small amount of time they have to work with a large number of students. This book fills in all the gaps-and more-for parents." -Josie Robinson, author and former high school guidance and career counselor, White Bear Lake Area High School And here's what parents like you say about LAUNCH: "We only used a small fraction of the ideas in this book, and our daughter graduated from an excellent private university at age 20 and went straight to her dream job at Disney. Read chapters 1 and 2 when your kid's in middle school!" -Liz and Tim Weatherhead, Bloomington, MN

**College Shortcuts: the Shortcut to Getting Accepted Into Your Dream**

**College** - Neha Gupta 2018-07-20

College Shortcuts is aimed to help bring the consciousness back to college admissions. All day, I hear about competitiveness, stress, anxiety, and frustration and yelling in homes around the world over this. And, frankly, I disagree with this method. What if you could get in consciously....Knowing the universe has your back? What if you surrendered a bit and knew that the world is here to support you, and that having a team can help you and your family get through this in a relaxed and strategic way? In this book, I am going to literally walk you through exactly how to help your child from building a college list, all the way to submitting applications. Just a quick

disclaimer, this book is NOT guaranteed to get you into a top college. The truth is that the level of success for children is highly related to their own work, and while I have been an incredible coach and mentor to help mold and shape children's lives around the world, I will tell you that the relationship I have with students is highly dependent on the child itself. This book is written for both adults and teenagers - but I typically write in a style that is directed towards the teenager - so please keep this in mind if you are a parent. Many parents read this book - and I want you to read it first and hand it over to your teenager afterwards. I know that getting into college is a family decision and a very important one - and I take this very seriously.

*The Parent Agent - Verdel Jones* 2016-04-22

Every parent has an Aha! moment as they raise children. Mine came when I thought of what I had done, in the life of each child, to get them into college. As I reviewed everything that had to happen to help them get accepted into their preferred institutions of higher learning, I realized something important. I had become an agent. Now let me explain what that means. Agents exist in big dollar competitive industries to get the best deals for their clients. In sports, an agent negotiates with team owners to get the most money for a player. Agents who represent actors or directors want their clients to have the biggest and best-

paying projects. Good agents find great opportunities and then make sure their clients receive them. The transition from high school to college is not something that can be made with a light-hearted approach. This book will serve as your guide on the journey to get your child accepted and settled into the college of their choice. The Parent Agent covers everything you and your child need to do from 9th grade to college acceptance and beyond. Stay prepared with timelines, important dates, exams, fairs/tours, funding, applications and other resources that make this often daunting process easier. Beyond helping you set goals and providing strategies to achieve them, you will uncover a lot of joy as you find ways to unlock secrets about your child's personality that will ultimately make them something more than a successful college student.

When federal prosecutors dropped the bombshell of Operation Varsity Blues, it broke open the crimes of exclusive universities and wealthy families all over the country, shattering the myth of American meritocracy. In *Unacceptable*, veteran Wall Street Journal reporters Melissa Korn and Jennifer Levitz dig deep into how otherwise smart, loving parents became caught up in scandal, led through the side door by one man: college whisperer Rick Singer. *Unacceptable* traces how, over decades, the charismatic Singer easily reeled in parents hoping to guarantee top educations for their children, and exploited a system rigged against regular people. Exploring the status obsession that seduced entitled

parents in search of an edge, Korn and Levitz unfurl a scheme that entangled more than fifty conspirators, from wealthy CEOs to famous actresses, leading to imprisonments, ruined careers, and terminated enrollments. An eye-opening account of corruption in America's most exclusive institutions, *Unacceptable* tells the story of helicopter parenting, coddled teens, and the man who thought he couldn't be caught. Who Gets In and Why - Jeffrey Selingo 2020-09-15 A NEW YORK TIMES NOTABLE BOOK OF 2020 From award-winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office—one that identifies surprising strategies that will aid in the college search. Getting into a top-ranked college has never seemed more impossible, with acceptance rates at some elite

universities dipping into the single digits. In *Who Gets In and Why*, journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the admissions game, and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a “good college.” Hint: it’s not all about the sticker on the car window. Selingo, who was embedded in three different admissions offices—a selective private university, a leading liberal arts college, and a flagship public campus—closely observed gatekeepers as they made their often agonizing and sometimes life-changing decisions. He also followed select students and their parents, and he traveled around the country meeting with high school counselors, marketers, behind-the-scenes consultants, and college rankers. While many have long believed that admissions is merit-based, rewarding the best students, *Who Gets In and Why* presents a more

complicated truth, showing that “who gets in” is frequently more about the college’s agenda than the applicant. In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions, admissions officers often make split-second decisions based on a variety of factors—like diversity, money, and, ultimately, whether a student will enroll if accepted. One of the most insightful books ever about “getting in” and what higher education has become, *Who Gets In and Why* not only provides an usually intimate look at how admissions decisions get made, but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests.

**Soundbite** - Sara Harberson  
2021-04-06

Crack the code to college admissions and help students craft the ultimate statement of self-identity and get into their school of choice with this groundbreaking guide from

America's College Counselor. On average, an admissions committee takes seconds to decide whether to admit a student. They must sum up the student in one sentence that will tell them if a student is going to be a good fit for their program. What is the best way to transform this admissions process from a stressful, pressure-cooker arms race into an empowering journey that paves the way to the best individual outcome? Written by a college admissions insider turned consultant, Soundbite guides parents and students through the admissions process from start to finish. Armed with her knowledge of how the system works, Sara Harberson shares tried-and-tested exercises that have helped thousands of students gain admission to their school of choice. The soundbite, her signature tool, presents an opportunity for students to take the reins to craft their ultimate statement of self-identity and formulate their own personal definition of what is best. With this soundbite in

place as their foundation, students achieve maximum impact when they present themselves to colleges. In doing so, the tables are turned: the student's fate no longer rests on a soundbite composed by an admissions officer. Soundbite shifts the way we talk about the admissions process—from "Getting You In" to "Getting the Best You In."

**The Privileged Poor** - Anthony Abraham Jack 2019-03-01

An NPR Favorite Book of the Year Winner of the Critics' Choice Book Award, American Educational Studies Association Winner of the Mirra Komarovsky Book Award

Winner of the CEP-Mildred García Award for Exemplary Scholarship “Eye-opening...Brings home the pain and reality of on-campus poverty and puts the blame squarely on elite institutions.” —Washington Post “Jack’s investigation redirects attention from the matter of access to the matter of inclusion...His book challenges universities to support the diversity they indulge in advertising.” —New Yorker “The lesson is plain—simply admitting low-income students is just the start of a university’s obligations. Once they’re on campus, colleges must show them that they are full-fledged citizen.” —David Kirp, American Prospect “This book should be studied closely by anyone interested in improving diversity and inclusion in higher education and provides a moving call to action for us all.” —Raj Chetty, Harvard University The Ivy League looks different than it used to. College presidents and deans of admission have opened their doors—and their coffers—to

support a more diverse student body. But is it enough just to admit these students? In this bracing exposé, Anthony Jack shows that many students’ struggles continue long after they’ve settled in their dorms. Admission, they quickly learn, is not the same as acceptance. This powerfully argued book documents how university policies and campus culture can exacerbate preexisting inequalities and reveals why some students are harder hit than others.

### **Accept My Kid, Please! -**

Hank Herman 2004-12-01  
When it came to college acceptance for his first-born child, Hank Herman—an average Dad with average hopes and dreams for his son’s college career—imagined he could resist the urge to meddle, that he could allow his son to make decisions for himself. Feeling slightly smug and superior to the good parents he’d seen go berserk before, he vowed not to become controlling and obsessed. Flash-forward to the 2' x 3' "war board" Herman has

created to organize and rate the 36 colleges or universities he's selected as "suitable" for his son. Note the lengths to which he goes to "market" his candidate/son as a scholar and an athlete. See the sports scrapbook he has naively constructed for the coaches who now, alas, only accept video clips. Funny, self-deprecating, and all-too-familiar to today's parents, *Accept My Kid, Please!* details one good father's battle with his worst side. A book for parents looking ahead to or back at their child's college application process, it is an amusingly accurate cautionary tale.

[College Admissions](#) - Stuart White 2017-11-29

Packed with resources to help parents make sense of the

college application process, conduct a college search, and help guide their child's completion of their college application. The author has included a variety of tools to compare one school to another, keep track of important application deadlines, and track possible scholarship aid. Readers from around the world have praised its value to parents who want to make sense of the college gauntlet without hovering and taking control away from their children. One reviewer has written: Stuart White's new book takes a unique focus on the role of the parent of one of the hundreds of thousands of overachieving high schoolers. Whereas most books are written for parents that micro manage and compel their children into the high achiever stereotype, Prof. White's book centers on a rather beautiful love story between him and his daughter as she went through the college admission process. Another reader has written: Thank you for sharing your helpful guide to the

college application process. I have read many articles and listened to many podcasts regarding the process, yet still learned more from your book! I appreciated your openness and candidness regarding helicopter parenting. I think it's important to include that advice in this book, as most people reading a book like this will lean toward the helicopter side of parenting. The author's side by side journey with his daughter ended with her admission to Yale University.

**How They Got Into Harvard** - Staff of the Harvard Crimson 2005-09

Describes the individual admissions process of fifty students accepted to the prestigious university, sharing strategies for identifying key talents, submitting the perfect application package, and improving networking skills.

[I'm Going to College--Not You!](#) - Jennifer Delahunty 2010-08-31

Acceptance by a top college is more than a gold star on a high school graduate's forehead today. It has morphed into the

ultimate "good parenting" stamp of approval--the better the bumper sticker, the better the parent, right? Parents of juniors and seniors in high school fret over SAT scores and essays, obsessed with getting their kids into the right college, while their children push for independence. *I'm Going to College--Not You!* is a resource for parents, written by parents who've been in their shoes. Kenyon College dean Jennifer Delahunty shares her unique perspective (and her daughter's) on one of the toughest periods of parenting, and has assembled a top-notch group of writers that includes best-selling authors, college professors and admissions directors, and journalists. Their experiences with the difficult balancing act between control freak and resource answer questions like: --how can a parent be less of a "helicopter" (hovering) and more of a "booster rocket" (uplifting)? -- what do you do when your child wants to put off college to become a rock star? and --how will you keep from wanting to

kill each other? Contributors include: Jane Hamilton David Latt Neal Pollack Joe Queenan Anne Roark Debra Shaver Anna Quindlen Ellen Waterston

**Choosing College** - Michael B. Horn 2019-09-11

Cut through the noise and make better college and career choices This book is about addressing the college-choosing problem. The rankings, metrics, analytics, college visits, and advice that we use today to help us make these decisions are out of step with the progress individual students are trying to make. They don't give students and families the information and context they need to make such a high-stakes decision about whether and where to get an education. **Choosing College** strips away the noise to help you understand why you're going to school. What's driving you? What are you trying to accomplish? Once you know why, the book will help you make better choices. The research in this book illustrates that choosing a school is complicated. By constructing

more than 200 mini-documentaries of how students chose different postsecondary educational experiences, the authors explore the motivations for how and why people make the decisions that they do at a much deeper, causal level. By the end, you'll know why you're going and what you're really chasing. The book: Identifies the five different Jobs for which students hire postsecondary education Allows you to see your true options for what's next Offers guidance for how to successfully choose your pathway Illuminates how colleges and entrepreneurs can build better experiences for each Job The authors help readers understand not what job students want out of college, but what "Job" students are hiring college to do for them.

*Valedictorians at the Gate* -  
Becky Munsterer Sabky  
2021-08-03

Named one of *Grown & Flown's* "Best Book on College Admissions and Paying for College" "The most honest, most helpful book I've ever read on applying to college" —New York Times bestselling author Adam Grant A former Ivy League Admissions Officer offers an inspiring battle cry for sanity in the college application process that looks beyond the rankings to successfully determine what's truly the best school for you or your child. After spending years as a college admissions director at Dartmouth, Becky Munsterer Sabky had seen it all. The perfect grades, the perfect scores, and the perfect extracurriculars. Valedictorians were knocking at the gate, but Becky realized that in their quest for admission many of these students were missing something. Their transcripts were golden, their interviews

polished, but they weren't applying for college, they were competing for it—and in the end they didn't know what prize they were really striving for. In *Valedictorians at the Gate*, Sabky looks beyond the smoke and mirrors of the intimidating admissions gauntlet and places the power firmly where it should be: in the hands of the students themselves. Offering prescriptive, actionable advice for students and their (hopefully not helicoptering) parents, Sabky illuminates the pathway to finding the school that is the ideal match. Witty and warm, informative and inspiring, *Valedictorians at the Gate* is the needed tonic for overstressed, overworked, and overwhelmed students on their way to the perfect college for them.

**The Price of Admission  
(Updated Edition)** - Daniel

Golden 2009-01-21

NATIONAL BESTSELLER • “A  
fire-breathing, righteous attack  
on the culture of  
superprivilege.”—Michael  
Wolff, author of the #1 New  
York Times bestseller *Fire and  
Fury*, in the New York Times  
Book Review NOW WITH NEW  
REPORTING ON OPERATION  
VARSITY BLUES In this  
explosive and prescient book,  
based on three years of  
investigative reporting, Pulitzer  
Prize winner Daniel Golden  
shatters the myth of an  
American meritocracy. Naming  
names, along with grades and  
test scores, Golden lays bare a  
corrupt system in which  
middle-class and working-class  
whites and Asian Americans  
are routinely passed over in  
favor of wealthy white students  
with lesser  
credentials—children of

alumni, big donors, and celebrities. He reveals how a family donation got Jared Kushner into Harvard, and how colleges comply with Title IX by giving scholarships to rich women in “patrician sports” like horseback riding and crew. With a riveting new chapter on Operation Varsity Blues, based on original reporting, *The Price of Admission* is a must-read—not only for parents and

students with a personal stake in college admissions but also for those disturbed by the growing divide between ordinary and privileged Americans. Praise for *The Price of Admission* “A disturbing exposé of the influence that wealth and power still exert on admission to the nation’s most prestigious universities.”—*The Washington Post* “Deserves to become a classic.”—*The Economist*
