The Mathews Men - William Geroux 2016-04-19

"Vividly drawn and emotionally gripping." —Daniel James Brown, #1 New York Times bestselling author of *The Boys in the Boat* From the author of *The Ghost Ships of Archangel*, one of the last unheralded heroic stories of World War II: the U-boat assault off the American coast against the men of the U.S. Merchant Marine who were supplying the European war, and one community's monumental contribution to that effort Mathews County, Virginia, is a remote outpost on the Chesapeake Bay with little to offer except unspoiled scenery—but it sent an unusually large concentration of sea captains to fight in World War II. The *Mathews Men* tells that heroic story through the experiences of one extraordinary family whose seven sons (and their neighbors), U.S. merchant mariners all, suddenly found themselves squarely in the cross-hairs of the U-boats bearing down on the coastal United States in 1942. From the late 1930s to 1945, virtually all the fuel, food and munitions that sustained the Allies in Europe traveled not via the Navy but in merchant ships. After Pearl Harbor, those unprotected ships instantly became the U-boats' prime targets. And they were easy targets—the Navy lacked the inclination or resources to defend them until the beginning of 1943. Hitler was determined that his U-boats should sink every American ship they could find, sometimes within sight of tourist beaches, and to kill as many mariners as possible, in order to frighten their shipmates into staying ashore. As the war progressed, men from Mathews sailed the North and South Atlantic, the Caribbean, the Gulf of Mexico, the Mediterranean, the Indian Ocean, and even the icy Barents Sea in the Arctic Circle, where they braved the dreaded Murmansk Run. Through their experiences we have eyewitnesses to every danger zone, in every kind of ship. Some died horrific deaths. Others fought to survive torpedo explosions, flaming oil slicks, storms, shark attacks, mine blasts, and harrowing lifeboat odysseys—only to ship out again on the next boat as soon as they'd returned to safety. The *Mathews Men* shows us the war far beyond traditional battlefields—often the U.S. merchant mariners' life-and-death struggles took place just off the U.S. coast—but also takes us to the landing beaches at D-Day and to the Pacific. "When final victory is ours," General Dwight D. Eisenhower had predicted, "there is no organization that will share its credit more deservedly than the Merchant Marine." Here, finally, is the heroic story of those merchant seamen, recast as the human story of the men from Mathews.

All the Boats on the Ocean - Carmel Finley 2017-02-15

Most current fishing practices are neither economically nor biologically sustainable. Every year, the world spends \$80 billion buying fish that cost \$105 billion to catch, even as heavy fishing places growing pressure on stocks that are already struggling with warmer, more acidic oceans. How have we developed an industry that is so wasteful, and why has it been so difficult to alter the trajectory toward species extinction? In this transnational, interdisciplinary history, Carmel Finley answers these questions and more as she explores how government subsidies propelled the expansion of fishing from a coastal, in-shore activity into a global industry. While nation states struggling for ocean supremacy have long used fishing as an imperial strategy, the Cold War brought a new emphasis: fishing became a means for nations to make distinct territorial claims. A network of trade policies and tariffs allowed cod from Iceland and tuna canned in Japan into the American market, destabilizing fisheries in New England and Southern California. With the subsequent establishment of tuna canneries in American Samoa and Puerto Rico, Japanese and American tuna boats moved from the Pacific into the Atlantic and Indian Oceans after bluefin. At the same time, government subsidies in nations such as Spain and the Soviet Union fueled fishery expansion on an industrial scale, with the Soviet fleet utterly depleting the stock of rosefish (or Pacific ocean perch) and other groundfish from British Columbia to California. This massive global explosion in fishing power led nations to expand their territorial limits in the 1970s, forever changing the seas. Looking across politics, economics, and biology, *All the Boats on the Ocean* casts a wide net to reveal how the subsidy-driven expansion of fisheries in the Pacific during the Cold War led to the growth of fisheries science and the creation of international fisheries management. Nevertheless, the seas are far from calm: in a world where this technologically advanced industry has enabled nations to colonize the oceans, fish literally have no place left to hide, and the future of the seas and their fish stocks is uncertain.

The Stars Are Fire - Anita Shreve 2017-04-18

INSTANT NEW YORK TIMES BEST SELLER From the New York Times best-selling author of *The Weight of Water* and *The Pilot's Wife* (an Oprah's Book Club selection): an exquisitely suspenseful new novel about an extraordinary young woman tested by a catastrophic event and its devastating aftermath--based on the true story of the largest fire in Maine's history In October 1947, after a summer long drought, fires break out all along the Maine coast from Bar Harbor to Kittery and are soon racing out of control from town to village. Five months pregnant, Grace Holland is left alone to protect her two toddlers when her husband, Gene, joins the volunteer firefighters. Along with her best friend, Rosie, and Rosie's two young children, Grace watches helplessly as their houses burn to the ground, the flames finally forcing them all into the ocean as a last resort. The women spend the night frantically protecting their children, and in the morning find their lives forever changed: homeless, penniless, awaiting news of their husbands' fate, and left to face an uncertain future in a town that no longer exists. In the midst of this devastating loss, Grace discovers glorious new freedoms--joys and triumphs she could never have expected her narrow life with Gene could contain--and her spirit soars. And then the unthinkable happens--and Grace's bravery is tested as never before.

The Forever Swim - Antonio Argüelles 2020-04-21

Plunge into the water, accompany Antonio Argüelles on his Oceans Seven adventure, and, along the way, find out how to achieve your own dreams and goals. On August 3, 2017, Antonio Argüelles swam 35 kilometers from Northern Ireland to Scotland. When he arrived on the Scottish shore after a swim of nearly 14 hours through hypothermic currents wearing only a speedo, cap, and goggles, he became just the seventh person ever to conquer the Oceans Seven, an aquatic achievement on par with the Seven Summits. His feat made international news, in part because at 58 years old, he became the oldest athlete ever to complete the challenge. Despite all warnings and his own self-doubt, he endured stormy seas, 24-hour swims, venomous jellyfish blooms, and a host of other hazards to accomplish his dream. But no goal seized is an isolated incident, and Antonio's story is no exception. *The Forever Swim* is not only a tale of success; it is also the tale of how a hyperactive overweight boy would discover swimming, chase an Olympic dream, attend Stanford, and wade into the tangled web of Mexican politics. This is a story of risk, fear, confidence, failure, and loss. It shows how the ability to adapt, focus, and manage the mind enabled Antonio to overcome each setback that sought to take him down in and out of the water. *The Forever Swim* illuminates key strategies anyone can utilize to pursue their own goals and reminds us that no dream, however bold, is ever out of reach, as long as we are willing to chase it down with relentless discipline and joy.

The Captain's Daughter - Meg Mitchell Moore 2017-07-18

"Don't miss this heartfelt story about paths not taken."--People magazine For fans of Elin Hilderbrand and Emma Straub comes an emotionally gripping novel about a woman who returns to her hometown in coastal Maine and finds herself pondering the age-old question of what could have been Growing up in Little Harbor, Maine, the daughter of a widowed lobsterman, Eliza Barnes could haul a trap and row a skiff with the best of them. But she always knew she'd leave that life behind. Now

that she's married, with two kids and a cushy front-row seat to suburban country club gossip in an affluent Massachusetts town, she feels adrift. When her father injures himself in a boating accident, Eliza pushes the pause button on her own life to come to his aid. But when she arrives in Maine, she discovers her father's situation is more dire than he let on. Eliza's homecoming is further complicated by the reemergence of her first love--and memories of their shared secret. Then Eliza meets Mary Brown, a seventeen-year-old local who is at her own crossroad, and Eliza can't help but wonder what her life would have been like if she'd stayed. Filled with humor, insight, summer cocktails, and gorgeous sunsets, *The Captain's Daughter* is a compassionate novel about the life-changing choices we make and the consequences we face in their aftermath.

Herreshoff - Maynard Bray 2016-11-22

Elegant by design and spectacular in performance, thirty-six iconic Herreshoff boats are showcased in magnificent photographs and original drawings. The Herreshoff Manufacturing Company—led by its founding spirit, the brilliant designer Captain Nathanael Greene Herreshoff (1848-1938)—constructed the most thrilling, innovative, and graceful boats ever built in the United States, not only lavish yachts and thoroughbred racing classes but also daysailers and dinghies, weekend cruisers and motor launches. Marine historian Maynard Bray and Herreshoff expert Claas van der Linde, in collaboration with renowned nautical photographer Benjamin Mendlowitz, present the very finest of the Herreshoff designs afloat today, with insightful commentary on design evolution in every facet from lines to displacement to hardware, accompanied by full-color images of each vessel both in detail and under way, as well as unique color reproductions of Herreshoff's own archival plans and drawings. Each entry incorporates a history of the boat (or class), its owners, race results, and fate, celebrating the many that still grace our waters.

The Golden Thread - Colin Meloy 2018-04-17

With dazzling, lyrical verse in the folk revival style and stunning cut-paper illustrations, Colin Meloy and Nikki McClure pay tribute to Pete Seeger, a visionary who changed the world with song. Pete Seeger once sang that if he had a golden thread, he would use it to weave people from all over the world to one another. That golden thread, for Pete, was music. Born into a family of traveling musicians, Pete picked up his first instrument at age seven. From then on, music was his life, whether he was playing banjo for soldiers during World War II, rallying civil rights activists and war protesters with songs such as "We Shall Overcome," "Where Have All the Flowers Gone?," and "If I Had a Hammer," or leading environmental efforts to clean up the Hudson River. For decades, Pete Seeger's messages of universal understanding and social and environmental justice inspired generations—and have left a lasting legacy.

The Case of the Crazy Corpse - Harry Stephen Keeler 2017-03-14

"My guiltiest pleasure is Harry Stephen Keeler. He may be the greatest bad writer America has ever produced. Or perhaps the worst great writer. I do not know. There are few faults you can accuse him of that he is not guilty of. But I love him." -- Neil Gaiman
Ho hum. Another day; another corpse dredged up from the depths of Lake Michigan. This time it's a body having the bottom half of a negro man and the top half of a Chinese woman joined together at the waist by some kind of greenish glue. But we don't linger long at this unpleasant scene because Angus MacWhorter and his Mammoth Motorized Show are in another pickle. If Angus can't pay back \$3000 -- in \$100 bills whose serial numbers must be evenly divisible by 13! -- he'll lose the circus to the dastardly Geispitz Gmohling. But the needed bills are on the other side of Old Twistibus, the windingest road in the world, and Giff O'Dell, who has the bills, is obsessed with solving the Crazy Corpse murder. Now that is a pickle!
