The Fourth Industrial Revolution - Klaus Schwab 2017-01-03

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies,

industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

AQA GCSE Maths Grade 1-3 Workbook - CHRIS. PEARCE 2018-12-21

Collins GCSE AQA Maths Grade 1-3 Workbook provides targeted practice at to build confidence and skills for the Foundation GCSE exam.

Help your child be the top of the class with the best-selling home-study series from Carol Vorderman Let Carol Vorderman help your child succeed in Maths. Maths Made Easy is one of Carol Vorderman's series of workbooks packed with notes and tips to make learning about Maths easy and fun! Follow the exercises and activities with your child to strengthen their learning in school, then reward them with gold stars for their efforts. Each title contains a progress chart so your child can keep track of all the exercises they have completed and parents' notes explain what children need to know at each stage and what's being covered in the curriculum so you can support your child. This book encourages children to understand that adding means 'more than' and taking away means 'fewer than', as well as the '+' and '-' symbols. Developed in consultation with leading educational experts to support curriculum learning, Maths Made Easy (previous ISBN 9781405363570) is a great way to improve your child's maths skills - "the more you practise, the

better you'll be!" Carol Vorderman
