

Saudi Arabia S Vision 2030 Kpmg Us

As recognized, adventure as competently as experience virtually lesson, amusement, as competently as conformity can be gotten by just checking out a books **Saudi Arabia S Vision 2030 Kpmg Us** then it is not directly done, you could allow even more regarding this life, as regards the world.

We give you this proper as without difficulty as easy habit to get those all. We find the money for Saudi Arabia S Vision 2030 Kpmg Us and numerous book collections from fictions to scientific research in any way. accompanied by them is this Saudi Arabia S Vision 2030 Kpmg Us that can be your partner.

Winning the Oil Endgame - 2004-01-01

Offers a coherent strategy for ending oil dependence, starting with the United States but applicable worldwide. There are many analyses of the oil problem. This synthesis is the first roadmap of the oil solution, one led by business for profit, not dictated by government for reasons of ideology. This roadmap is independent, peer-reviewed, written for business and military leaders, and co-funded by the Pentagon. It combines innovative technologies and new business models with uncommon public policies: market-oriented without taxes, innovation-driven without mandates, not dependent on major (if any) national legislation, and designed to support, not distort, business logic.

Transgenerational Entrepreneurship - M. Nordqvist 2010-01-01

Introducing a new concept in family businesses Transgenerational Entrepreneurship addresses how these businesses achieve growth and longevity through entrepreneurial activities. It focuses on the resources, capabilities and mindsets that families develop and draw upon in order to be entrepreneurial across generations, and presents findings from an international research collaboration between family business researchers and practitioners. In addition to a comprehensive conceptual chapter, the editors include a unique set of empirical case-based research papers that investigates transgenerational entrepreneurship in different European contexts. They bring together and integrate frontier research on entrepreneurship and family business, as well as provide a basis for future research. Academics, teachers and students in business and management, entrepreneurship and family business will find this path-breaking book of value, as will libraries, policy makers and consultants.

Estimating VAT Pass Through - Ms.Dora Benedek 2015-09-30

This paper estimates the pass through of VAT changes to consumer prices, using a unique dataset providing disaggregated, monthly data on prices and VAT rates for 17 Eurozone countries over 1999-2013. Pass through is much less than full on average, and differs markedly across types of VAT change. For changes in the standard rate, for instance, final pass through is about 100 percent; for reduced rates it is significantly less, at around 30 percent; and for reclassifications it is essentially zero. We also find: differing dynamics of pass through for durables and non-durables; no significant difference in pass through between rate increases and decreases; signs of non-monotonicity in the relationship between pass through and the breadth of the consumption base affected; and indications of significant anticipation effects together with some evidence of lagged effects in the two years around reform. The results are robust against endogeneity and attenuation bias.

Take Charge - 2006

Fintech - International Monetary Fund 2019-06-27

The paper finds that while there are important regional and national differences, countries are broadly embracing the opportunities of fintech to boost economic growth and inclusion, while balancing risks to stability and integrity.

Sustainable Smart Cities in India - Poonam Sharma 2017-03-27

This book presents fundamental and applied research aimed at the development of smart cities across India. Based on the exploration of an extensive array of multidisciplinary literature, this book discusses critical factors of smart city initiatives: management and organization, technology, governance, policy, people and communities, economy, infrastructure, and natural environment. These factors are broadly covered under the integrative framework of the book to examine the vision and challenges of smart city initiatives. The book suggests directions and agendas for smart city research and outlines practical implications for government professionals, students, research scholars and policy makers. A lot of work is happening on smart cities as it is an upcoming area of research and development. At international level, and even in India, the concept of smart cities concept is a hot topic at universities, research centers, ministries, transport departments, civic

bodies, environment, energy and disaster organizations, town planners and policy makers. This book provides ideas and information to government officials, investors, experts and research students.

Human - Mark Britnell 2019-03-18

By 2030, the world will be short of approximately 15 million health workers - a fifth of the workforce needed to keep healthcare systems going. Global healthcare leader and award-winning author, Dr Mark Britnell, uses his unique insights from advising governments, executives, and clinicians in more than 70 countries, to present solutions to this impending crisis. *Human: Solving the Global Workforce Crisis in Healthcare*, calls for a reframing of the global debate about health and national wealth, and invites us to deal with this problem in new and adaptive ways that drive economic and human prosperity. Harnessing technology, it asks us to reimagine new models of care and levels of workforce agility. Drawing on experiences ranging from the world's most advanced hospitals to revolutionary new approaches in India and Africa, Dr Mark Britnell makes it clear what works - and what does not. Short and concise, this book gives a truly global perspective on the fundamental workforce issues facing health systems today.

Doing Business 2018 - World Bank 2017-11-14

Fifteen in a series of annual reports comparing business regulation in 190 economies, *Doing Business 2018* measures aspects of regulation affecting 10 areas of everyday business activity: • Starting a business • Dealing with construction permits • Getting electricity • Registering property • Getting credit • Protecting minority investors • Paying taxes • Trading across borders • Enforcing contracts • Resolving insolvency These areas are included in the distance to frontier score and ease of doing business ranking. *Doing Business* also measures features of labor market regulation, which is not included in these two measures. The report updates all indicators as of June 1, 2017, ranks economies on their overall "ease of doing business†", and analyzes reforms to business regulation †" identifying which economies are strengthening their business environment the most. *Doing Business* illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank Group that garners worldwide attention on regulatory barriers to entrepreneurship. More than 137 economies have used the *Doing Business* indicators to shape reform agendas and monitor improvements on the ground. In addition, the *Doing Business* data has generated over 2,182 articles in peer-reviewed academic journals since its inception. Data Notes; Distance to Frontier and Ease of Doing Business Ranking; and Summaries of *Doing Business* Reforms in 2016/17 can be downloaded separately from the *Doing Business* website.

Diversified Development - Indermit S. Gill 2014-02-26

Eurasian economies have to become efficient more productive, job-creating, and stable. But efficiency is not the same as diversification. Governments need to worry less about the composition of exports and production and more about asset portfolios natural resources, built capital, and economic institutions.

The MENA Region and COVID-19 - Zeina Hobaika 2022-06-03

Focusing on the Middle East and North Africa (MENA) region, which comprises some of the world's richest countries next to some of the poorest, this book offers excellent insights into the discriminatory consequences of the COVID-19 pandemic. With a geographic focus on the MENA region, the multidisciplinary case studies collected in this edited volume reveal that the coronavirus's impact patterns are a question of two variables: governance performance and socioeconomic potency. Given the global, unprecedented, complex, and systemic nature of COVID-19 - and its long-term implications for societies, governments, international organisations, citizens and corporations - this volume entails a relevance to regions undergoing similar dynamics. Analyses in the book, therefore, have implications for the comparative study of the

pandemic and its impact on societies around the globe. Understanding related dynamics and implications, and making use of lessons learned, are a pathway to deal with future similar crises. Questions covered in the volume are relevant to geopolitics, social implications and the relations between political leaders and citizens as beings embedded in various strategies of communication. The volume will appeal to scholars of international politics, political science, risk or crisis governance, economics and sociology, human rights and security, political communication and public health.

Doing Business 2019 - The World Bank 2018-10-15

Sixteenth in a series of annual reports comparing business regulation in 190 economies, *Doing Business 2019* measures aspects of regulation affecting 10 areas of everyday business activity: -Starting a business - Dealing with construction permits -Getting electricity -Registering property -Getting credit -Protecting minority investors -Paying taxes - Trading across borders -Enforcing contracts -Resolving insolvency These areas are included in the distance to frontier score and ease of doing business ranking. *Doing Business* also measures features of labor market regulation, which is not included in these two measures. This edition also presents the findings of the pilot indicator entitled 'Contracting with the Government,' which aims at benchmarking the efficiency, quality and transparency of public procurement systems worldwide. The report updates all indicators as of May 1, 2018, ranks economies on their overall 'ease of doing business', and analyzes reforms to business regulation -- identifying which economies are strengthening their business environment the most. *Doing Business* illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank Group that garners worldwide attention on regulatory barriers to entrepreneurship. Almost 140 economies have used the *Doing Business* indicators to shape reform agendas and monitor improvements on the ground.

Financial Inclusion in Emerging Markets - Ananda S. 2021-10-04

This book discusses ideas for stakeholders to develop strategies to access and use financial products and services such as deposits, loans, and fund transfer mechanism, insurance, payment services, and intermediaries, distribution channels at economical prices in order to cater to the needs of the poor and underprivileged people. Financial inclusion ensures ease of access, availability, and usage of the financial products and services to all the sections of the society. The book will help in recognizing the role of financial inclusion as one of the main drivers in reducing income inequality and thus supporting sustainable economic growth of the countries, especially of an emerging economy. The book provides conceptual and practical ideas from the practitioners, best practices from the experts, and empirical views from the researchers on the best practices and how to mitigate the challenges and issues plaguing the development of the financial inclusion.

The Energy Consumer - 1981

[A Targeted Industry Approach for Raising Quality Private-Sector Employment in Saudi Arabia](#) - Shanthi Nataraj 2021-07-29

The Kingdom of Saudi Arabia is striving to develop its private sector and generate quality employment for Saudi citizens, and its efforts to increase Saudization -- the share of jobs filled by Saudis rather than expatriates -- have focused on upgrading the skills and education of Saudis and on implementing legal reforms to improve the business environment. This report takes a third approach: assessing the potential for Saudi Arabia to develop a specific industry -- food manufacturing -- as a means of increasing the demand for Saudi labor. In September 2018, researchers from the Decision Support Center of the Royal Court and from the RAND Corporation set out to explore how Saudi Arabia has developed industries successfully in the past and how it could develop a target industry that can provide quality private-sector employment. Ideally, the findings based on researching a specific industry can be applied to other industries and to Saudi Arabia's economy as a whole.

The Business Year: Abu Dhabi 2020 - Peter Howson 2020-04-20

As Ecuador and the world at large grapple with the emerging challenge of the COVID-19 pandemic, it is important not to forget the fundamentals of the Ecuadorian economy and the success stories of 2019 and the start of 2020. We believe contained within these pages is an accurate, balanced account of the state of the Ecuadorian economy as of publication, told through the words of the dozens of top public- and private-sector figures. The *Business Year's* country-specific publications, sometimes featuring over 150 face-to-face interviews, are among the most comprehensive annual economic publications available

internationally. This 212-page publication covers green economy, finance, hydrocarbons, mining, agriculture, construction, industry, transport, education, health, ICT, and tourism.

Saudi Arabia - International Monetary Fund. Middle East and Central Asia Dept. 2019-09-09

This 2019 Article IV Consultation with Saudi Arabia discusses that reforms are starting to yield positive results. Oil prices and production have been volatile, and uncertainties in the global oil market continue. Promoting non-oil growth and creating jobs for Saudi nationals remain key challenges. Non-oil growth is expected to strengthen further this year and over the medium term. Risks to the growth outlook are broadly balanced. The fiscal deficit declined in 2018; however, higher government spending has increased medium-term fiscal vulnerabilities to a decline in oil prices. Fiscal consolidation is needed to reduce these vulnerabilities. The fiscal framework should be further strengthened to help reduce the procyclicality of government spending. Reforms to improve the business environment are proceeding but need to be complemented by efforts to increase the cost competitiveness of Saudi labor. Government support to develop sectors of the economy should crowd in the private sector and be timebound and linked to performance. [Diversification and Cooperation in a Decarbonizing World](#) - Grzegorz Peszko 2020-07-24

This book is the first stocktaking of what the decarbonization of the world economy means for fossil fuel-dependent countries. These countries are the most exposed to the impacts of global climate policies and, at the same time, are often unprepared to manage them. They depend on the export of oil, gas, or coal; the use of carbon-intensive infrastructure (for example, refineries, petrochemicals, and coal power plants); or both. Fossil fuel-dependent countries face financial, fiscal, and macro-structural risks from the transition of the global economy away from carbon-intensive fuels and the value chains based on them. This book focuses on managing these transition risks and harnessing related opportunities. *Diversification and Cooperation in a Decarbonizing World* identifies multiple strategies that fossil fuel-dependent countries can pursue to navigate the turbulent waters of a low-carbon transition. The policy and investment choices to be made in the next decade will determine these countries' degree of exposure and overall resilience. Abandoning their comfort zones and developing completely new skills and capabilities in a time frame consistent with the Paris Agreement on climate change is a daunting challenge and requires long-term revenue visibility and consistent policy leadership. This book proposes a constructive framework for climate strategies for fossil fuel-dependent countries based on new approaches to diversification and international climate cooperation. Climate policy leaders share responsibility for creating room for all countries to contribute to the goals of the Paris Agreement, taking into account the specific vulnerabilities and opportunities each country faces.

Assessing Saudi Vision 2030: - Steven Grand 2020-06-17

[Can Blockchain Revolutionize International Trade?](#) - World Trade Organization Wto 2019

Trade has always been shaped by technological innovation. In recent times, a new technology, Blockchain, has been greeted by many as the next big game-changer. Can Blockchain revolutionize international trade? This publication seeks to demystify the Blockchain phenomenon by providing a basic explanation of the technology. It analyses the relevance of this technology for international trade by reviewing how it is currently used or can be used in the various areas covered by WTO rules. In doing so, it provides an insight into the extent to which this technology could affect cross-border trade in goods and services, and intellectual property rights. It discusses the potential of Blockchain for reducing trade costs and enhancing supply chain transparency as well as the opportunities it provides for small-scale producers and companies. Finally, it reviews various challenges that must be addressed before the technology can be used on a wide scale and have a significant impact on international trade.

A Territorial Approach to the Sustainable Development Goals - Oecd 2020-02-07

In the face of megatrends such as globalisation, climate and demographic change, digitalisation and urbanisation, many cities and regions are grappling with critical challenges to preserve social inclusion, foster economic growth and transition to the low carbon economy. The 17 Sustainable Development Goals (SDGs) set the global agenda for the coming decade to end poverty, protect the planet and ensure prosperity for all. *A Territorial Approach to the Sustainable*

Development Goals argues that cities and regions play a critical role in this paradigm shift and need to embrace the full potential of the SDGs as a policy tool to improve people's lives. The report estimates that at least 105 of the 169 SDG targets will not be reached without proper engagement of sub-national governments. It analyses how cities and regions are increasingly using the SDGs to design and implement their strategies, policies and plans; promote synergies across sectoral domains; and engage stakeholders in policy making. The report proposes an OECD localised indicator framework that measures the distance towards the SDGs for more than 600 regions and 600 cities in OECD and partner countries. The report concludes with a Checklist for Public Action to help policy makers implement a territorial approach to the SDGs.

MBS - Ben Hubbard 2021-04-13

A NEW YORK TIMES EDITORS' CHOICE • A gripping, behind-the-scenes portrait of the rise of Saudi Arabia's secretive and mercurial new ruler "Revelatory . . . a vivid portrait of how MBS has altered the kingdom during his half-decade of rule."—The Washington Post Finalist for the PEN/Jacqueline Bograd Weld Award • ONE OF THE BEST BOOKS OF THE YEAR: Financial Times, Foreign Affairs, Kirkus Reviews MBS is the untold story of how a mysterious young prince emerged from Saudi Arabia's sprawling royal family to overhaul the economy and society of the richest country in the Middle East—and gather as much power as possible into his own hands. Since his father, King Salman, ascended to the throne in 2015, Mohammed bin Salman has leveraged his influence to restructure the kingdom's economy, loosen its strict Islamic social codes, and confront its enemies around the region, especially Iran. That vision won him fans at home and on Wall Street, in Silicon Valley, in Hollywood, and at the White House, where President Trump embraced the prince as a key player in his own vision for the Middle East. But over time, the sheen of the visionary young reformer has become tarnished, leaving many struggling to determine whether MBS is in fact a rising dictator whose inexperience and rash decisions are destabilizing the world's most volatile region. Based on years of reporting and hundreds of interviews, MBS reveals the machinations behind the kingdom's catastrophic military intervention in Yemen, the bizarre detention of princes and businessmen in the Riyadh Ritz-Carlton, and the shifting Saudi relationships with Israel and the United States. And finally, it sheds new light on the greatest scandal of the young autocrat's rise: the brutal killing of journalist Jamal Khashoggi by Saudi agents in Istanbul, a crime that shook Saudi Arabia's relationship with Washington and left the world wondering whether MBS could get away with murder. MBS is a riveting, eye-opening account of how the young prince has wielded vast powers to reshape his kingdom and the world around him. Praise for MBS "Saudi Arabia is testing the extremes of tradition and innovation, of half-baked visions and intensifying repression. Ben Hubbard's authoritative reporting on the inner sanctums of its society offers a perfect synthesis of journalism and area expertise: the best description we have at the moment of why things happen as they do in the kingdom."—Robert D. Kaplan, author of *The Return of Marco Polo's World*

Major Challenges Facing Higher Education in the Arab World: Quality Assurance and Relevance - Adnan Badran 2019-03-25

This book focuses on two crucial issues that need to be addressed as a matter of urgency by universities in the Arab region, namely (a) conducting independent assessments of the quality of their teaching, research, administration, governance, and planning; and (b) determining the relevance of their teaching, research, and societal impacts. Although well-established around the world in manufacturing industries and private-sector service industries, including the research and commercialisation arms of the major universities and research institutes, it is only in recent years that quality-assurance (QA) assessments have started to be applied to most aspects education. Several Arab universities are adopting various forms of QA but some variants are little more than bureaucratic "box-ticking" exercises with minimal commitment by staff to the ultimate aim of continuing self-improvement. This book will be of interest to senior management at faculty and departmental level and above in all Arab universities specifically, and more generally in Islamic institutions of higher education. Senior management in other universities, especially in the developing world will benefit from its analyses and recommendations.

The Business Year: Saudi Arabia 2020 - 2019-11-12

For the Saudi Arabia 2020 publication, our sixth annual edition on the Kingdom's economy, we placed heavy emphasis on technology and innovation as a catalyst for change, as well as the developments in the

digital economy. Across numerous industries, technology is playing an increasingly greater role—as a global trend but no less true for Saudi Arabia, which has in recent years committed large-scale investment into digital transformation. The Business Year's country-specific publications, sometimes featuring over 150 face-to-face interviews, are among the most comprehensive annual economic publications available internationally. This 280-page publication covers finance, green economy, energy, water, industry, defense, transport, aviation, digital economy, real estate, construction, food, agriculture, health, education, entertainment, culture, and sports.

[China's Belt and Road: A Game Changer?](#) - Alessia Amighini (a cura di) 2017-07-11

Officially announced by Xi Jinping in 2013, the Belt and Road Initiative (BRI) has since become the centrepiece of China's economic diplomacy. It is a commitment to ease bottlenecks to Eurasian trade by improving and building networks of connectivity across Central and Western Asia, where the BRI aims to act as a bond for the projects of regional cooperation and integration already in progress in Southern Asia. But it also reaches out to the Middle East as well as East and North Africa, a truly strategic area where the Belt joins the Road. Europe, the end-point of the New Silk Roads, both by land and by sea, is the ultimate geographic destination and political partner in the BRI. This report provides an in-depth analysis of the BRI, its logic, rationale and implications for international economic and political relations.

Women, Business and the Law 2021 - World Bank 2021-04-05

Women, Business and the Law 2021 is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, Women, Business and the Law 2021 makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

Engineering for Sustainable Development - International Centre for Engineering Education 2021-03-02

The report highlights the crucial role of engineering in achieving each of the 17 SDGs. It shows how equal opportunities for all is key to ensuring an inclusive and gender balanced profession that can better respond to the shortage of engineers for implementing the SDGs. It provides a snapshot of the engineering innovations that are shaping our world, especially emerging technologies such as big data and AI, which are crucial for addressing the pressing challenges facing humankind and the planet. It analyses the transformation of engineering education and capacity-building at the dawn of the Fourth Industrial Revolution that will enable engineers to tackle the challenges ahead. It highlights the global effort needed to address the specific regional disparities, while summarizing the trends of engineering across the different regions of the world.

Phil - Alan Shipnuck 2022-05-17

NEW YORK TIMES BESTSELLER * "A rollicking good time." —Golfweek * "Thoroughly engaging." —The Washington Post Now with a new afterword: a juicy and freewheeling biography of legendary golf champion Phil Mickelson—who has led a big, controversial life—as reported by longtime Sports Illustrated writer and bestselling author Alan Shipnuck. Phil Mickelson is one of the most compelling figures in sports. For more than three decades he has been among the best golfers in the world, and his unmatched longevity was exemplified at the 2021 PGA Championship, when Mickelson, on the cusp of turning fifty-one, became the oldest player in history to win a major championship. In this raw, uncensored, and unauthorized biography, Alan Shipnuck captures a singular life defined by thrilling victories, crushing defeats, and countless controversies. Mickelson is a multifaceted character, and all his warring impulses are on display in these pages: He is a smart-ass who built an empire on being the consummate professional; a loving husband dogged by salacious rumors; a high-stakes gambler who knows the house always wins but can't tear himself away. Mickelson's career and public image have been defined by the contrast with his lifelong rival, Tiger Woods.

Where Woods is robotic and reticent, Mickelson is affable and extroverted, an incorrigible showman whom many fans love and some abhor because of the overwhelming size of his personality. In their early years together on Tour, Mickelson lacked Tiger's laser focus and discipline, leading Tida Woods to call her son's rival "the fat boy," among other put-downs. Yet as Tiger's career has been curtailed by scandal, addiction, and a broken body, Phil sails on, still relevant on the golf course and in the marketplace. Phil is the perfect marriage of subject and author. Shipnuck has long been known as the most fearless writer on the golf beat, and he delivers numerous revelations, from the true scale of Mickelson's massive gambling losses; to the inside story of the acrimonious breakup between Phil and his longtime caddie, Jim "Bones" Mackay; to the secretive backstory of the Saudi golf league that Mickelson championed to wield as leverage against the PGA Tour. But Phil also celebrates Mickelson's random acts of kindness and generosity of spirit, to which friends and strangers alike can attest. Shipnuck has covered Mickelson for his entire career and has been on the ground at Mickelson's most memorable triumphs and crack-ups, allowing him to take you inside the ropes with a thrilling immediacy and intimacy. The result is the juiciest and liveliest golf book in years—full of heart, humor, and unexpected turns.

Research, Innovation and Entrepreneurship in Saudi Arabia - Muhammad Khurram Khan 2020-04-03

This book provides valuable insights into the Kingdom of Saudi Arabia (KSA) through a comprehensive examination of Vision 2030, an ambitious economic plan by the KSA to reinvent and diversify its economy from a heavy dependence on hydrocarbon to knowledge-based resources. *Research, Innovation and Entrepreneurship in Saudi Arabia: Vision 2030* discusses how this initiative will assist the government in achieving its envisioned goals by creating a culture of research, innovation and entrepreneurship. It studies the current state of the field as well as new policies and reforms in Saudi Arabia which encompass education systems, ICT infrastructure and a vibrant innovation landscape that includes academia, the public and private sectors and civil society. The authors present a number of real-life case studies as a model of inspiration for cross-sector development. The book provides a source of inspiration for other nations in studying the KSA's determined and ambitious plans as a country in a transitioning journey, from a natural resources-based economy towards a knowledge-based country with considerable diversification in all sectors. This book is a useful reference for students, researchers and policy and decision-makers in understanding Saudi innovation and the economic diversification ecosystem.

Global Innovation Index 2020 - Cornell University 2020-08-13

The Global Innovation Index 2020 provides detailed metrics about the innovation performance of 131 countries and economies around the world. Its 80 indicators explore a broad vision of innovation, including political environment, education, infrastructure and business sophistication. The 2020 edition sheds light on the state of innovation financing by investigating the evolution of financing mechanisms for entrepreneurs and other innovators, and by pointing to progress and remaining challenges - including in the context of the economic slowdown induced by the coronavirus disease (COVID-19) crisis.

Doing Business 2020 - World Bank 2020-01-31

Seventeen in a series of annual reports comparing business regulation in 190 economies, *Doing Business 2020* measures aspects of regulation affecting 10 areas of everyday business activity.

The Fourth Industrial Revolution - Klaus Schwab 2017-01-03

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth

industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

Accelerating Sustainable Development after COVID-19 - Asian Development Bank 2021-06-01

The importance of development that provides for equitable economic growth and the sustainable use of natural resources has become increasingly apparent during the coronavirus disease (COVID-19) pandemic. COVID-19 has emphasized the need for a renewed focus on achieving the 17 Sustainable Development Goals (SDGs) as the global blueprint to ending poverty, protecting our planet, and ensuring prosperity. This publication provides an overview of SDG bonds as a mechanism to help mobilize the huge amount of financing required to meet the SDGs in developing Asia. It also proposes a new type of SDG bond that could contribute to accelerating sustainable development in the region.

In Search of the Perfect Health System - Mark Britnell 2015-09-13

Winner of the first prize in the Health and Social Care category at the BMA Medical Book Awards 2016. With chapters on 25 different countries, this practical and succinct guide to the world's major health systems explores what lessons can be drawn from each to improve health worldwide. Each chapter is an essay designed to give the reader essential knowledge of the history, strengths, weaknesses and lessons of each health system and provide a truly global health perspective - all in the time it takes to drink a cup of coffee. Whether a healthcare manager or a student studying health systems, this accessible and engaging book provides a fascinating insight in to how health care is delivered around the world.

The Ideas Industry - Daniel Drezner 2017-03-01

The public intellectual, as a person and ideal, has a long and storied history. Writing in venues like the *New Republic* and *Commentary*, such intellectuals were always expected to opine on a broad array of topics, from foreign policy to literature to economics. Yet in recent years a new kind of thinker has supplanted that archetype: the thought leader. Equipped with one big idea, thought leaders focus their energies on TED talks rather than highbrow periodicals. How did this shift happen? In *The Ideas Industry*, Daniel W. Drezner points to the roles of political polarization, heightened inequality, and eroding trust in authority as ushering in the change. In contrast to public intellectuals, thought leaders gain fame as single-idea merchants. Their ideas are often laudable and highly ambitious: ending global poverty by 2025, for example. But instead of a class composed of university professors and freelance intellectuals debating in highbrow magazines, thought leaders often work through institutions that are closed to the public. They are more immune to criticism—and in this century, the criticism of public intellectuals also counts for less. Three equally important factors that have reshaped the world of ideas have been waning trust in expertise, increasing political polarization and plutocracy. The erosion of trust has lowered the barriers to entry in the marketplace of ideas. Thought leaders don't need doctorates or fellowships to advance their arguments. Polarization is hardly a new phenomenon in the world of ideas, but in contrast to their predecessors, today's intellectuals are more likely to enjoy the support of ideologically friendly private funders and be housed in ideologically-driven think tanks. Increasing inequality as a key driver of this shift: more than ever before, contemporary plutocrats fund intellectuals and idea factories that generate arguments that align with their own. But, while there are certainly some downsides to the contemporary ideas industry, Drezner argues that it is very good at broadcasting ideas widely and reaching large audiences of people hungry for new thinking. Both fair-minded and trenchant, *The Ideas Industry* will reshape our understanding of contemporary public intellectual life in America and the West.

Taxation of International Executives - Deloitte Haskins and Sells 1985-11-10

This guide provides a practical, basic introduction to the tax consequences of transferring executives and specialists from one country to another.

World Investment Report 2020 - United Nations Conference on Trade

and Development (UNCTAD) 2020-07-15

The 30th edition of the World Investment Report looks at the prospects for foreign direct investment and international production during and beyond the global crisis triggered by the COVID-19 (coronavirus) pandemic. The Report not only projects the immediate impact of the crisis on investment flows, but also assesses how it could affect a long-term structural transformation of international production. The theme chapter of the Report reviews the evolution of international production networks over the past three decades and examines the configuration of these networks today. It then projects likely course changes for the next decade due to the combined effects of the pandemic and pre-existing megatrends, including the new industrial revolution, the sustainability imperative and the retreat of laissez faire policies. The system of international production underpins the economic growth and development prospects of most countries around the world. Governments worldwide will need to adapt their investment and development strategies to a changing international production landscape. At the request of the UN General Assembly, the Report has added a dedicated section on investment in the Sustainable Development Goals, to review global progress and propose possible courses of action.

Creating Livable Asian Cities - Bambang Susantono 2021-04-01

This book explores how Asia's fast-growing cities can fulfil their potential as engines of economic prosperity and provide a livable environment for all citizens. But for this to happen, major challenges that reduce urban communities' quality of life and economic opportunities must be addressed. These include poor planning, a lack of affordable housing, inequalities, pollution, climate vulnerabilities, and urban infrastructure deficits. The book's 19 articles unwrap these challenges and present solutions focused on smart and inclusive planning, sustainable transport and energy, innovative financing, and resilience and rejuvenation.

Sustainable Development Goals - Julia Walker 2019-08-27

Achieving the Sustainable Development Goals through Finance, Technology and Law Reform Achieving the SDGs requires a fundamental rethink from businesses and governments across the globe. To make the ambitious goals a reality, trillions of dollars need to be harnessed to mobilise finance and accelerate progress towards the SDGs. Bringing together leaders from the World Bank, the financial and business sectors, the startup community and academia, this important, topically relevant volume explains what the SDGs are, how they came about and how they can be accelerated. Real-world case studies and authoritative insights address how to direct investment of existing financial resources and realign the global financial system to reflect the SDGs. In depth chapters discuss how financial institutions, such as UBS Wealth Management,

Manulife Asset Management and Moody's Rating Agency are supporting the SDGs. The opportunities arising from Blockchain, Big Data, Digital Identity and cutting-edge FinTech and RegTech applications are explored, whilst the relevance of sustainable and transparent global supply chains is underscored. Significant attention is paid to law reform which can accelerate progress of the SDGs through SME Financing, Crowdfunding, Peer-to-Peer Lending and tax restructuring. To achieve the 'World We Want', much needs to be done. The recommendations contained within this book are critical for supporting a fundamental shift in thinking from business and governments around the world, and for building a more just and prosperous future for all.

Leadership Development in Emerging Market Economies - Alexandre Ardichvili 2017-01-01

This edited volume provides an overview of the current state and indigenous practices of leadership development (LD) in a select group of emerging market economies, including BRICS, Southeast and East Asia, Middle East, Eastern Europe, and Africa. While some authors focus exclusively on LD in the business sector, others discuss such topics as LD in higher education, the role of higher education institutions in leadership development for managers and executives, the role of religious institutions, and LD in the government and public sectors. Further, chapters on Brazil, Malaysia, Russia, Thailand, South Africa and South Korea include case studies of LD in individual companies. These cases and examples can be used in discussions of indigenous LD practices in courses on international and cross-cultural HRD, HRM, and leadership and organization development. Readers will benefit from this unique view of indigenous practices and perspectives from a variety of disciplinary backgrounds: HRD, HRM, and management and leadership studies. It is an essential read for academic audiences who recognize leadership development as a dominant trend both in developed and emerging economies.

Sustainable Aviation - T. Hikmet Karakoc 2016-07-20

This expansive reference on the use of clean energy technologies in the aviation industry focuses on tools and solutions for maximizing the energy efficiency of aircrafts, airports, and other auxiliary components of air transit. Key topics range from predicting impacts of avionics and control systems to energy/exergy performance analyses of flight mechanics and computational fluid dynamics. The book includes findings both from experimental investigations and functional extant systems, ranging from propulsion technologies for aerospace vehicles to airport design to energy recovery systems. Engineers, researchers and students will benefit from the broad reach and numerous engineering examples provided.
