Soul Dog - Elena Mannes 2018-11-13

An exploration of animal spirituality and the ability of animals to communicate with humans even in the afterlife • Chronicles the author's profound relationship with her dog, Brio, his ability to read her mind and emotions, and the messages she received from him after his death • Shares the author's research with animal communicators, psychics, and scientists specializing in animal intelligence such as Rupert Sheldrake • Explores animals' thoughts and feelings, interspecies communication and telepathy, animal souls and the afterlife, and animal reincarnation • Paper with French flaps Looking for companionship after a near-fatal car crash, Elena Mannes, an award-winning television journalist and producer, decided to get her first dog. But what she found with her dog Brio shook the foundations of her physical and spiritual worlds, sending her on a quest to discover the nature of his spiritual origins and to contemplate and seek out the possibility of interspecies communication--even after death. Soon after bringing her puppy home, Mannes realized that the master-companion relationship would not be possible with Brio, who quickly showed that he had a mind--and a spirit--of his own. A healer Mannes visited immediately focused on Brio, exclaiming that he was an old soul. Mannes's growing curiosity about the intelligence, emotions, and consciousness of Brio and other dogs led her to contact an animal psychic in California who described, with amazing accuracy, Brio's favorite walks and the author's apartment from the dog's point of view. Motivated by her experience, Mannes produced a filmed segment with Diane Sawyer featuring the same psychic, who described Sawyer's country house and her dog's favorite spots in the yard. Mannes's skeptical journalist background compelled her to investigate further. She delved into the world of animal communicators, psychics, and scientists studying animal intelligence, including Rupert Sheldrake, to find answers to her multiplying questions: Do animals have thoughts and feelings? Consciousness? Souls? Is interspecies communication possible? Can animals reincarnate? Spanning the entire life and afterlife of Brio, including his last days and his messages to the author after he passed on, this book also explores Mannes' investigations into the spiritual life of animals, offering a new understanding of the unbreakable bond between humans and animals. Mannes invites readers to move beyond the owner-pet relationship and shows us how to see animals as thinking, feeling, spiritual beings whose connections with us extend far beyond life and death.

Mbraining - Grant Soosalu 2012-04-25

The latest scientific research shows you have three brains! You have complex and fully functional brains in your heart, your gut and your head. In this groundbreaking book, you'll discover the latest neuroscience findings about your multiple brains (head, heart and gut brains) and what they have to offer for increasing intuitive abilities and for immediately generating wiser decision-making in your daily life. Providing you with numerous practical and easy to learn methods, this book shows how to communicate with and tap into the innate intelligence of your multiple brains. mBraining coaches you in aligning your three brains to achieve greater wisdom, success and happiness in a world of massive change. Utilizing the powerful and practical methodologies of NLP, Cognitive Linguistics and Behavioral Modeling, the authors have synthesized a remarkably wide range of research findings into an integrated approach that is practical, potent, and immediate in its results. Now scientific knowledge is finally catching up with deep insights from esoteric and spiritual traditions informing us for thousands of years about these three powerful intelligences. This is not a popular

science book, nor is it a typical self-help book. This is a book that both breaks new ground as well as complementing many other spiritual and self-development practises. In this book, you'll learn the process of 'mBraining' - the process of aligning and harnessing the power of your multiple brains. The suite of practical methods it provides is part of an amazing new field called 'mBIT' - multiple Brain Integration Techniques. This is a book that changes lives by giving you a real 'how'. Written in an easy to read and entertaining style, this is a highly accessible guide to understanding the scientific basis behind your gut intuitions, your heart-felt emotions, and your head-based creative powers. The lessons in this book can transform your relationship to yourself, to others, and to the world in which you live. If you are serious about your self-evolution, this book is a must read! Learn to use your multiple brains to do cool and amazing things in your life!

How We Reason - Philip Johnson-Laird 2008-10-23

Good reasoning can lead to success; bad reasoning can lead to catastrophe. Yet, it's not obvious how we reason, and why we make mistakes - so much of our mental life goes on outside our awareness. In recent years huge strides have been made into developing a scientific understanding of reasoning. This new book by one of the pioneers of the field, Philip Johnson-Laird, looks at the mental processes that underlie our reasoning. It provides the most accessible account yet of the science of reasoning. We can all reason from our childhood onwards - but how? 'How we reason' outlines a bold approach to understanding reasoning. According to this approach, we don't rely on the laws of logic or probability - we reason by thinking about what's possible, we reason by seeing what is common to the possibilities. As the book shows, this approach can answer many of the questions about how we reason, and what causes mistakes in our reasoning that can lead to disasters such as Chernobyl. It shows why our irrational fears may become psychological illnesses, why terrorists develop 'crazy' ideologies, and how we can act in order to improve our reasoning. The book ends by looking at the role of reasoning in three extraordinary case histories: the Wright brothers' use of analogies in inventing their flyer, the cryptanalysts' deductions in breaking the German's Enigma code in World War II, and Dr. John Snow's inductive reasoning in discovering how cholera spread from one person to another. Accessible, stimulating, and controversial, How we Reason presents a bold new approach to understanding one of the most intriguing facets of being human.

Parisian Chic Look Book - Ines de la Fressange 2020-09-01

A brand-new book of fashion secrets by New York Times best-selling author, model, and Parisienne extraordinaire, Ines de la Fressange. Ines de la Fressange's personal style is chic yet relaxed in every situation. While a navy-and-white-striped nautical top with slim, cropped jeans and flats is a classic French look, it's harder to pinpoint how Parisians unfailingly blend elegance and allure with such ease. In this sequel to her best seller Parisian Chic, the world's favorite style icon demonstrates

how to achieve her quintessentially Parisian look throughout the year. Her style secrets start with the building blocks of wardrobe staples--an LBD that can be dressed up or down, timeless riding boots you'll wear for a lifetime, or the perfect pair of jeans--which she combines with panache to suit every situation, adding seasonal items like costume bangles, a top in this season's on-trend color, or the right shade of lip color.

Water for Unity - Masaru Emoto 2015-06-21

A collection of short essays from 17 very well-known authors who have a solid scientific background or renown within their ancestral traditions. What they have in common is that each one, within their discipline, is aiming to use water's molecular structure and memory to improve our world. This book is connected to a worldwide movement which is going to organize at least four significant worldwide events during 2015 and 2016. The essayists themselves are part of this movement and readers can join too. They will experiment, for instance, with using intention to lower the radioactivity level of Fukushima's water. It is a very young movement but one that has already generated much interest."

Medicine Upside Down - Giorgio Mambretti 2013-03-01

Dr Hamer is a highly controversial figure: his patients love him, yet other doctors want to block him, and meanwhile he gathers acknowledgements, but at the same time he is put on trial as well. Many believe that most of the opposition against him is because his theories -- and above all his long list of patients who have been healed -- go completely against established medicine... How can it be that diseases like cancer can simply be an attempt of the brain to fix (which means to heal) some emotional traumas? And that identifying such traumas and solving them can equate to healing the body? This is the only book available in Italy which is really up-to-date and comprehensive, very clear and supported by some brilliant cartoons: all these qualities have turned it into a real best seller. At long last a book on Dr Hamer's new Germanic Medicine that is both really easy-to-read and comprehensive. Approach these controversial, yet fascinating theories with objectivity and open-mindedness.

Visotonic - Loredana Michelis 2013-03-01

Have you ever considered toning up your face through a series of exercises, just as you can do it for the rest of the body? It can be done... and it works! This method employs both some American miming and acting techniques as well as some muscular rehabilitation techniques used in hospitals. The result is that the face becomes more tonic and expressive (a combination which is impossible to achieve through plastic surgery!). It simply requires the use of your hands and takes up less than 15 minutes a day: the first results will appear just after three weeks.

mBraining Coloring Book - Grant Soosalu 2018-12-26

mBraining Wisdom Coloring Book - Bring Calmness and Wisdom to your Mind and Life... The growing new field of mBIT (multiple Brain Integration Techniques), also known as 'mBraining', shows that we have complex, functional and adaptive neural systems or 'brains' in our heart and gut regions. Research shows these brains are used in embodied cognition, decision-making and intuitive wisdom. Each of our multiple brains also has a 'highest expression' - the most integrative, adaptive and

generative way of being, which when aligned together allows for an emergence of deep intuitive wisdom. For the heart the highest expression is Compassion, for the head it is Creativity and for the gut it is Courage. This adult coloring book provides drawings that represent all of these aspects of the multiple brains and their highest expressions. Allowing you to immerse yourself in the creative endeavor of mindfully coloring in imagery that speaks to autonomic coherence and calmness, and to the heart, head and gut brains and their integrative emergent wisdom. We hope you enjoy many hours of mindful mBraining coloring and that this process evokes deep in your heart, mind and soul the desire to truly, really and deeply make a difference in the world. - Provides hours and hours of calming stress relief, mindful wisdom, flow and joyful, creative expression. - Images inspired by the new field of mBRAINING (multiple braining - head, heart, gut). - Designed to evoke the Highest Expressions of Compassion, Creativity and Courage. - Ancient spiritual wisdom meets modern neuroscience in practical application. - 20 beautiful drawings to color in along with 20 mindmaps to color, enhance and explore.

2012-2021 - The Dawn of the Sixth Sun - Sergio Magana "Ocelocoyotl" 2012-09-01

What happens on and after December 21, 2012? There has been much confusion and many predictions based on the Mayan calendar. Some people think time on Earth will end, but what if there was an intact and complete resource from the ancestors that will give us the wisdom we need for the shift and an understanding of the coming era? In "2012-2021: The Dawn of the Sixth Sun," Sergio Magana (Ocelocoyotl), mystic and teacher of the ancient Toltec/Aztec lineage of Mesoamerica, discloses an in-depth understanding from a rich and uninterrupted oral tradition, the meaning of the shift from the Fifth to the Sixth Sun, the possibilities presented to humanity at this time, and ancient teachings and practices designed to support this shift. The Toltecs knew how to interpret the mathematical or universal order that governs all of existence by measuring and observing cycles of time, and the impact they had on the Earth, human consciousness, and perception.

I Prefer to See Clearly - Loredana De Michelis 2013-03-01

Defective eyesight can be corrected in a natural way... but nobody has ever bothered to tell us! In our society, which regards conditions such as

acne or obesity on a par with calamities or epidemics, eyesight defects are still viewed as irreversible problems, and both people and science seem resigned to it. However, theories on their reversibility have always existed, and after all the eyesight is a set of co-operating abilities: so don't let anyone tell you that you must accept this shortcoming, and that you must stop looking for improvements! The eye is not an organ: it is instead an extension of the brain, and, just like the brain, its sophisticated capabilities are still mostly unexplored... Loredana De Michelis is one of the best Italian sight-trainers and this handbook represents her intelligent and effective approach and it is great fun too! Includes an easy and ground breaking method to improve the most common eyesight disorders. You are not forced to live with them and wear glasses: Leonardo da Vinci invented these wonderful "stenoopic holes" specs, nowadays widely available on the internet, and the author explains a series of simple related exercises!

I Am Your Mirror - Matteo Rizzato 2014-03-21

Mirror neurons are one of the most extraordinary discoveries of contemporary neuroscience. They explain, on a scientific level, why we understand other people's behavior to a deep degree. They were discovered by Professor Giacomo Rizzolatti, who wrote the preface to this book. Our aim here is to provide basic knowledge of the key concepts of this discovery through the use of clear language and many illustrations. The book also covers the effects of mirror neurons in our daily lives and in the mechanisms that regulate social interactions, so we can learn how to handle them in a more effective way.

Better Eyesight - William H. Bates 2000-12-14

Artists, teachers, army officers, housewives, elderly people, parents, and children with vision problems write about their experiences with the Bates Method and giving up their glasses in *Better Eyesight*. Major eye conditions (myopia, astigmatism, farsightedness, presbyopia, amblyopia, strabismus, cataract, glaucoma, blindness) are discussed by Bates, other ophthalmologists, the medical community, and readers. The significance of this literature is both historical and immediate. For the first time, the connection between eyestrain to shoulder and neck pain, headaches, and other muscular tension is discussed.

One Tribe at a Time - Jim Gant 2014-03-26

"Major Jim Gant, a man seen by many of us as the 'perfect insurgent,'--an inspiring, gifted, courageous leader... -- GENERAL DAVID H. PETRAEUS (U.S. Army, Ret.) THE PAPER THAT ROCKED OSAMA BIN LADEN Team members during the May 2, 2011 U.S. military raid that killed Osama Bin Laden seized piles of Al Qaeda intelligence. One piece of evidence found in Bin Laden's personal sleeping quarters was an English language copy of Jim Gant's *One Tribe at a Time*. It contained notes in the margins consistent with others identified as written by Osama Bin Laden. A directive from Osama Bin Laden to his intelligence chief was also discovered. It identified Jim Gant by name as an impediment to Al Qaeda's operational objectives for eastern Afghanistan. Bin Laden

ordered that Gant be assassinated. "[One Tribe at a Time] was hugely important...at a time when I was looking for ideas on Afghanistan...[Gant] was the first to write it down, in a very coherent fashion, very readable, very encouraging frankly...and there is enormous power in that." -- General David H. Petraeus (U.S. Army, Ret.) quoted in *American Spartan: The Promise, The Mission, and The Betrayal of Special Forces Major Jim Gant* by Ann Scott Tyson Washington Post reporter Ann Scott Tyson read "One Tribe at a Time," and - informed by her combat

experience in Afghanistan and Iraq and her eight years as a reporter in China - she realized that Jim's paper made sense. She decided to write a story about Jim entitled, "Jim Gant, the Green Beret who could win the war in Afghanistan." After the article appeared in January 2010, as Jim was in Washington, D.C., attending Pashto language training, he met Ann and the two fell in love. She followed his mission in Afghanistan and wrote *AMERICAN SPARTAN: The Promise, the Mission, and the Betrayal of Special Forces Major Jim Gant*.
