Good Strategy/Bad Strategy - Richard Rumelt 2011-06-09

When Richard Rumelt's *Good Strategy/Bad Strategy* was published in 2011, it immediately struck a chord, calling out as bad strategy the mish-mash of pop culture, motivational slogans and business buzz speak so often and misleadingly masquerading as the real thing. Since then, his original and pragmatic ideas have won fans around the world and continue to help readers to recognise and avoid the elements of bad strategy and adopt good, action-oriented strategies that honestly acknowledge the challenges being faced and offer straightforward approaches to overcoming them. Strategy should not be equated with ambition, leadership, vision or planning; rather, it is coherent action backed by an argument. For Rumelt, the heart of good strategy is insight into the hidden power in any situation, and into an appropriate response - whether launching a new product, fighting a war or putting a man on the moon. Drawing on examples of the good and the bad from across all sectors and all ages, he shows how this insight can be cultivated with a wide variety of tools that lead to better thinking and better strategy, strategy that cuts through the hype and gets results.

*The Most Dangerous Game* - Richard Connell 2020-04-21

From one of America's most popular short story writers and an Academy Award nominee: the O. Henry Award-winning tale that inspired the movie *The Hunt*. A subject of mysterious rumors and superstition, the deserted Caribbean Island was shrouded in an air of peril. To Sanger Rainsford, who fell off a yacht and washed up on its shores, the abandoned isle was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful tale “has inspired serial killers, films and stirred controversy in schools. A century on, the story continues to thrill” (*The Telegraph*). “[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted.” —*Criterion*

**Loved** - Martina Lauchengco 2022-04-12

Most tech companies get marketing wrong because they don't know how to do product marketing right. The next in the bestselling SVPG series, *LOVED* shows what leaders like Apple, Netflix, Microsoft, and Salesforce do well and how to apply it to transform product marketing at your

company. The best products can still lose in the marketplace. Why? They are beaten by products with stronger product marketing. Good product marketing is the difference between “also-ran” products versus products that lead. And yet, product marketing is widely misunderstood. Although it includes segmenting customers, positioning your product, creating product collateral, and supporting sales teams, great product marketing achieves much more. It directs the best way to bring your product to market. It shapes what the world thinks about your product and category. It inspires others to tell your product’s story. Part of the bestselling series including INSPIRED and EMPOWERED, LOVED explains the fundamentals of best-in-class product marketing for product teams, marketers, founders and any leader with a product and a vision. Sharing her personal stories as a former product and marketing leader at Microsoft and Netscape, and as an advisor to Silicon Valley startups, venture capitalist, and UC Berkeley engineering graduate school lecturer, Martina Lauchengco distills decades of lessons gleaned from working with hundreds of companies to make LOVED the definitive guide to modern product marketing. With dozens of stories from the trenches of market leaders as well as newer startups with products just beginning their journey, the book shows you: the centrality of product marketing to any product’s success the key skills and actions required to do it well the four fundamentals of product marketing and how to apply them how to hire, lead, and organize product marketing how product marketers optimize crucial collaboration with other functions one-sheet frameworks, tools and agile marketing practices that help simplify and elevate product marketing LOVED is an invitation to rethink tired notions of product marketing and practice a more dynamic, customer and market-centric version that creates raving fans and helps products achieve their full market potential.

**The Innovator's Method** - Nathan Furr 2014-08-19

Have you ever come up with an idea for a new product or service but didn’t take any action because you thought it would be too risky? Or at work, have you had what you thought could be a big idea for your company—perhaps changing the way you develop or distribute a product, provide customer service, or hire and train your employees? If you have, but you haven’t known how to take the next step, you need to understand what the authors call the innovator’s method—a set of tools emerging from lean start-up, design thinking, and agile software development that are revolutionizing how new ideas are created, refined, and brought to market. To date these tools have helped entrepreneurs, designers, and software developers manage uncertainty—through cheap and rapid experiments that systematically lower failure rates and risk. But many managers and leaders struggle to apply these powerful tools within their organizations, as they often run counter to traditional managerial thinking and practice. Authors Nathan Furr and Jeff Dyer wrote this book to address that very problem. Following the breakout success of *The Innovator’s DNA*—which Dyer wrote with Hal Gregersen and bestselling author Clay Christensen to provide a framework for generating ideas—this book shows how to make those ideas actually happen, to commercialize them for success. Based on their research inside corporations and successful start-ups, Furr and Dyer developed the innovator’s method, an end-to-end process for creating, refining, and bringing ideas to market. They show when and how to apply the tools of their method, how to adapt them to your business, and how to answer

commonly asked questions about the method itself, including: How do we know if this idea is worth pursuing? Have we found the right solution? What is the best business model for this new offering? This book focuses on the “how”—how to test, how to validate, and how to commercialize ideas with the lean, design, and agile techniques successful start-ups use. Whether you’re launching a start-up, leading an established one, or simply working to get a new product off the ground in an existing company, this book is for you.

**The Saffron Kitchen** - Yasmin Crowther 2007-08-28

In a powerful debut novel that moves between the crowded streets of London and the desolate mountains of Iran, Yasmin Crowther paints a stirring portrait of a family shaken by events from decades ago and worlds away. On a rainy day in London the dark secrets and troubled past of Maryam Mazar surface violently, with tragic consequences for her daughter, Sara, and her newly orphaned nephew. Maryam leaves her English husband and family and returns to the remote Iranian village where her story began. In a quest to piece their life back together, Sara follows her mother and finally learns the terrible price Maryam once had to pay for her freedom, and of the love she left behind. Set against the breathtaking beauty of two very different places, this stunning family drama transcends culture and is, at its core, a rich and haunting narrative about mothers and daughters.

Communities in Action - National Academies of Sciences, Engineering, and Medicine 2017-04-27

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's

health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

The Beauty Industry Survival Guide - Tina Alberino 2015-01-01

My name is Tina Alberino, and I wrote this book to save you. This is not another lame book full of generic beauty business advice. This book serves as the literary equivalent of a kick in the ass and a punch to the throat. You hold in your hands compendium of harsh lessons and a raw depiction of the true nature of this industry. The vast majority of these lessons aren't taught in schools and don't appear in textbooks; they're learned through experience--often in a way that is less-than-gentle. This book will help you navigate this tumultuous industry. The waters run deep, the currents are swift, and the tides shift quickly. The journey can certainly be treacherous. Don't learn these lessons the hard way. Learn how to avoid scoundrel salon owners and crackpot contracts, build a loyal following of glamorous gals and gallant gents, and land your first big break before graduation day!
