

Handbook Of Revolutionary Warfare A Guide To The Armed Phase Of The African Revolution Little New World Paperbacks

Thank you for reading **Handbook Of Revolutionary Warfare A Guide To The Armed Phase Of The African Revolution Little New World Paperbacks** . Maybe you have knowledge that, people have look hundreds times for their favorite readings like this Handbook Of Revolutionary Warfare A Guide To The Armed Phase Of The African Revolution Little New World Paperbacks , but end up in malicious downloads.

Rather than enjoying a good book with a cup of coffee in the afternoon, instead they juggled with some malicious bugs inside their computer.

Handbook Of Revolutionary Warfare A Guide To The Armed Phase Of The African Revolution Little New World Paperbacks is available in our book collection an online access to it is set as public so you can get it instantly.

Our books collection saves in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

Merely said, the Handbook Of Revolutionary Warfare A Guide To The Armed Phase Of The African

Revolution Little New World Paperbacks is universally compatible with any devices to read

A Guide to the Battles of the American Revolution - Theodore P. Savas 2006-08-19
A Guide to the Battles of the American Revolution is the first comprehensive account of every engagement of the Revolution, a war that began with a brief skirmish at Lexington Green on April 19, 1775, and concluded on the battlefield at the Siege of Yorktown in October 1781. In between were six long years of bitter fighting on land and at sea. The wide variety of combats blanketed the North American continent from Canada to the Southern colonies, from the winding coastal lowlands to the Appalachian Mountains, and from the North Atlantic to the Caribbean. Unlike existing accounts, A Guide to the Battles of the American Revolution presents each engagement in a unique way. Each battle entry offers a wide and rich but consistent template of information to

make it easy for readers to find exactly what they are seeking. Every entry begins with introductory details including the date of the battle, its location, commanders, opposing forces, terrain, weather, and time of day. The detailed body of each entry offers both a Colonial and British perspective of the unfolding military situation, a detailed and unbiased account of what actually transpired, a discussion of numbers and losses, an assessment of the consequences of the battle, and suggestions for further reading. Many of the entries are supported and enriched by original maps and photos. Fresh, scholarly, informative, and entertaining, A Guide to the Battles of the American Revolution will be welcomed by historians and general enthusiasts everywhere.
Small Wars Manual - United States. Marine Corps 1940

Why Comrades Go to War - Philip Roessler

2019-12-30

In October 1996, a group of ageing Marxists and unemployed youth coalesced to revolt against Mobutu Sese Seko, president of Zaire/Congo since 1965. Backed by a Rwanda-led regional coalition that drew support from Asmara to Luanda, the rebels of the AFDL marched over 1500 kilometers in seven months to crush the dictatorship. To the Congolese rebels and their Pan-Africanist allies, the vanquishing of the Mobutu regime represented nothing short of a "second independence" for Congo and Central Africa as a whole and the dawning of a new regional order of peace and security. Within fifteen months, however, Central Africa's "liberation peace" would collapse, triggering a cataclysmic fratricide between the heroes of the war against Mobutu and igniting the deadliest conflict since World War II. This book gives an account Africa's Great War. It argues that the seeds of Africa's Great War were sown in the

revolutionary struggle against Mobutu- the way the revolution came together, the way it was organized, and, paradoxically, the very way it succeeded. In particular, the book argues that the overthrow of Mobutu proved a Pyrrhic victory because the protagonists ignored the philosophy of Julius Nyerere, the father of Africa's liberation movements: they put the gun before the unglamorous but essential task of building the domestic and regional political institutions and organizational structures necessary to consolidate peace after revolution.

Fighting for Africa - Robert Johnson Jr.

2011-01-15

Fighting for Africa captures the commitment and contributions of two men who dedicated their lives to the fight to free Africa from colonialism and racism. Ambassador Dudley Thompson, though born in the West Indies, became a British

barrister. Thompson lived in Africa, where he provided essential legal services to Jomo Kenyatta when he was a defendant in the infamous Mau Mau trials of the 1950s and when Kenyatta became the president of independent Kenya. In addition, Ambassador Thompson drafted the constitution for newly independent Tanzania and served as legal advisor to its president, Julius Nyerere. Bill Sutherland, born in the United States, took an early stand against war and militarism in the 1940s and, as a result, was imprisoned by the United States government with other peace advocates of the period, such as David Dellinger. Upon release from prison, Bill Sutherland emigrated to pre-independence Gold Coast, where he worked as an advisor to President Kwame Nkrumah. Both men were very instrumental in the early Pan-African movement and participated in the 1945 conference in Manchester, England. There they worked with such Pan-African greats as Amy Garvey, W.E.B. Du Bois, C.L.R. James, and

George Padmore. Fighting for Africa is a seminal text for college, university, and legal audiences in that it chronicles the development of the concept of Pan-Africanism and applies its tenets to the processes of de-colonization and nationalism (nation-building) in Africa. The text will be indispensable to students and scholars throughout the African Diaspora who desire a clear understanding of Pan-Africanism as both a philosophy and praxis.

The SAGE Handbook of Propaganda - Paul Baines 2019-11-25

The SAGE Handbook of Propaganda tells a radical new story about propaganda, fake news and information warfare and their toxic impact on the communications revolution of the past twenty years. It explains how propaganda invades the human psyche, in what ways it does so, and in what contexts. As a beguiling tool of political persuasion in times of war, peace, and uncertainty, propaganda incites people to take, often violent, action, consciously or

unconsciously. This pervasive influence is particularly prevalent in world politics and international relations today. In this interdisciplinary Handbook, the editors have gathered together a group of world-class scholars from Europe, America, Asia, and the Middle East, to discuss leadership propaganda, war propaganda, propaganda for peace marketing, propaganda as a psychological tool, terror-enhanced propaganda, and the contemporary topics of internet-mediated propaganda. This is the first book of its kind, shedding a harsh new light on many current forms and processes ranging from Islamist and Far Right, troll farms and fake news institutes, to the more salient everyday manipulative practices of corporations and brands as well as political parties. In its four parts, the Handbook offers researchers and academics of propaganda studies, peace and conflict studies, media and communication studies, political science and governance marketing, as well as intelligence

and law enforcement communities, a comprehensive overview of the tools and context of the development and evolution of propaganda from the twentieth century to the present: Part One: Concepts, Precepts and Techniques in Propaganda Research Part Two: Methodological Approaches in Propaganda Research Part Three: Tools and Techniques in Counter-Propaganda Research Part Four: Propaganda in Context
Guerrilla Warfare - Yank Levy 2013-10
This is a new release of the original 1942 edition.

The Guerrilla and how to Fight Him - 1962

Baron Von Steuben's Revolutionary War Drill Manual - United States. Army 1794
Facsimile of extremely rare 1794 edition of von Steuben's basic manual of military training and procedure — the official U.S. military guide until 1812. Formation of a company, marching, firings, inspection, more. 8 black-and-white illustrations.

Minimanual of the Urban Guerrilla - Carlos Marighella 2021-03-09

Minimanual of the Urban Guerrilla is a call to action, no matter how small. It is a small book which gives advice on how to overthrow an authoritarian regime, aiming at revolution. Minimanual was written to be concise and to describe the ways for successful revolution. This book has been fought over to keep in print time and time again after being banned in multiple countries, and while there are a few copies consistently recurring in print today, we wish to spread this important revolutionary text further. Eliminating its copyright. Do not let this minimanual be an isolated event, share it, keep it in your pocket to read, and spread it. If you have the means, print it from home as well from our zine library.

Re-engaging the African Diasporas - Charles Quist-Adade 2016-08-17

Re-engaging the African Diasporas: Pan-Africanism in the Age of Globalization is the

second volume in the Kwame Nkrumah International Conference series, and brings together twenty selected papers presented at the Third Kwame Nkrumah International Conference held at Kwantlen Polytechnic University on August 19-21, 2014. Two premises inform this volume: (1) If the history of slavery and its vestiges divided and continue to divide the continent and its Diasporas, modern technology should be harnessed to bridge that divide, and (2) the continent's development is a boon to the development of what the African Union has dubbed Africa's "Sixth Region". The book threads together papers that seek to give academic and intellectual impetus to tie the continent's development to that of the African Diaspora. The goal is to end the inertia and inward-looking on the part of scholars and academics in both Africa and "African International" or "Global Africa," and re-engage one another in more productive ways. By harnessing the enormous resources available in

our internet age and riding the cresting wave of globalization, the task of re-engagement will be vastly enhanced, and the debates and discussions in this volume will serve to facilitate this re-engagement. A main highlight of the conference was a special tribute to Nelson Mandela to honour his death in December, 2013 and celebrate 20 years of South African independence. In these papers, scholars examine Mandela's role in the transition of South Africa from a racist state to a democratic nation. They critically examine how the ANC's policies have impacted post-Apartheid South Africa and question what alternatives remain for the future.

Fighting for Africa - Robert Johnson Jr

2010-03-01

This book reveals contributions of two men who dedicated their lives to freeing Africa from colonialism and racism. An ideal text for university and legal audiences, this book chronicles the development of the concept of Pan-Africanism and applies its tenets to the

processes of de-colonization and nationalism (nation-building) in Africa.

The Anarchist Cookbook - William Powell

2018-03-11

The Anarchist Cookbook will shock, it will disturb, it will provoke. It places in historical perspective an era when "Turn on, Burn down, Blow up" are revolutionary slogans of the day. Says the author "This book... is not written for the members of fringe political groups, such as the Weatherman, or The Minutemen. Those radical groups don't need this book. They already know everything that's in here. If the real people of America, the silent majority, are going to survive, they must educate themselves. That is the purpose of this book." In what the author considers a survival guide, there is explicit information on the uses and effects of drugs, ranging from pot to heroin to peanuts. There i detailed advice concerning electronics, sabotage, and surveillance, with data on everything from bugs to scramblers. There is a

comprehensive chapter on natural, non-lethal, and lethal weapons, running the gamut from cattle prods to sub-machine guns to bows and arrows.

The war of the American Revolution - Robert W. Coakley 1975

The Palgrave Handbook of African Political Economy - Samuel Ojo Oloruntoba 2020-06-23

This handbook constitutes a specialist single compendium that analyses African political economy in its theoretical, historical and policy dimensions. It emphasizes the uniqueness of African political economy within a global capitalist system that is ever changing and complex. Chapters in the book discuss how domestic and international political economic forces have shaped and continue to shape development outcomes on the continent. Contributors also provoke new thinking on theories and policies to better position the continent's economy to be a critical global force.

The uniqueness of the handbook lies in linking theory and praxis with the past, future, and various dimensions of the political economy of Africa.

War - Air University (U.S.) 1970

Guerrilla Warfare - Ernesto Che Guevara 2022-11-22

Che Guevara's classic text on revolutionary tactics and strategy. Since *Guerrilla Warfare* was first published in 1961, it has joined the canon of classic military literature, consulted by revolutionaries and counterrevolutionaries alike. In this book, Che Guevara outlines the lessons he learned as a guerrilla soldier in the Cuban revolution and explains how a small group of dedicated fighters grew in strength with the support of the Cuban people, overcoming the odds to vanquish the US-backed dictator's army and overthrow the dictatorship. *Guerrilla Warfare* is both an insightful account of one of the decisive revolutionary movements of the

twentieth century and a timeless resource for freedom fighters the world over. This edition includes Che's corrections and his suggestions for further revisions to the text—revisions his murder in 1967 prevented him from making.

The Pan-African Imperative - Michael Williams 2021-11-15

This book argues that the principles of Pan-Africanism are more important than ever in ensuring the liberation of the people Africa, those at home and abroad, and the rapid development of the African continent. The writings and practice of Osagyefo Dr. Kwame Nkrumah, Ghana's first post-independence prime minister and president, were key in laying out a vision for post-independence Africa. Now, in an effort to counter the deluge of neo-liberal thinking that has engulfed so much of the debate on African development in recent decades, Michael Williams illuminates just how important a role an Nkrumaist intellectual framework can play in providing an accurate diagnosis of, and

effective solution to, Africa's development crisis. This is done by examining Nkrumah's vision of the critical role Pan-Africanism must play in the development of the continent. Raising vitally important questions about Africa's development and the quality of life of its populations, this book will be a key text for researchers of African politics, development studies, and the Pan-African movement.

Warfare in the American Homeland - Joy James 2007-06-29

The United States has more than two million people locked away in federal, state, and local prisons. Although most of the U.S. population is non-Hispanic and white, the vast majority of the incarcerated—and policed—is not. In this compelling collection, scholars, activists, and current and former prisoners examine the sensibilities that enable a penal democracy to thrive. Some pieces are new to this volume; others are classic critiques of U.S. state power. Through biography, diary entries, and criticism,

the contributors collectively assert that the United States wages war against enemies abroad and against its own people at home. Contributors consider the interning or policing of citizens of color, the activism of radicals, structural racism, destruction and death in New Orleans following Hurricane Katrina, and the FBI Counterintelligence Program designed to quash domestic dissent. Among the first-person accounts are an interview with Dhoruba Bin Wahad, a Black Panther and former political prisoner; a portrayal of life in prison by a Plowshares nun jailed for her antinuclear and antiwar activism; a discussion of the Puerto Rican Independence Movement by one of its members, now serving a seventy-year prison sentence for sedition; and an excerpt from a 1970 letter by the Black Panther George Jackson chronicling the abuses of inmates in California's Soledad Prison. Warfare in the American Homeland also includes the first English translation of an excerpt from a pamphlet by

Michel Foucault and others. They argue that the 1971 shooting of George Jackson by prison guards was a murder premeditated in response to human-rights and justice organizing by black and brown prisoners and their supporters. Contributors. Hishaam Aidi, Dhoruba Bin Wahad (Richard Moore), Marilyn Buck, Marshall Eddie Conway, Susie Day, Daniel Defert, Madeleine Dwertman, Michel Foucault, Carol Gilbert, Sirène Harb, Rose Heyer, George Jackson, Joy James, Manning Marable, William F. Pinar, Oscar Lòpez Rivera, Dylan Rodríguez, Jared Sexton, Catherine von Bulow, Laura Whitehorn, Frank B. Wilderson III

The Oxford Handbook of the Cold War -

Richard H. Immerman 2013-01-31

The Oxford Handbook of the Cold War offers a broad reassessment of the period war based on new conceptual frameworks developed in the field of international history. Nearing the 25th anniversary of its end, the cold war now emerges as a distinct period in twentieth-

century history, yet one which should be evaluated within the broader context of global political, economic, social, and cultural developments. The editors have brought together leading scholars in cold war history to offer a new assessment of the state of the field and identify fundamental questions for future research. The individual chapters in this volume evaluate both the extent and the limits of the cold war's reach in world history. They call into question orthodox ways of ordering the chronology of the cold war and also present new insights into the global dimension of the conflict. Even though each essay offers a unique perspective, together they show the interconnectedness between cold war and national and transnational developments, including long-standing conflicts that preceded the cold war and persisted after its end, or global transformations in areas such as human rights or economic and cultural globalization. Because of its broad mandate, the volume is

structured not along conventional chronological lines, but thematically, offering essays on conceptual frameworks, regional perspectives, cold war instruments and cold war challenges. The result is a rich and diverse accounting of the ways in which the cold war should be positioned within the broader context of world history.

Black Power Encyclopedia: From "Black is Beautiful" to Urban Uprisings [2 volumes] -

Akinyele Umoja 2018-07-11

An invaluable resource that documents the Black Power Movement by its cultural representation and promotion of self-determination and self-defense, and showcases the movement's influence on Black communities in America from 1965 to the mid-1970s. • Gives students and general readers a comprehensive overview of the Black Power Movement and an understanding of its importance within the turbulence and politics of the 1960s and 1970s in the United States as well as in the context of modern-day civil rights • Provides insight into

important concepts such as Black self-determination, Black consciousness, independent Black politics, and independent institutions • Features contributions from premier Black Power scholars as well as Black Power activists • Offers topical and biographical entries, a timeline of events, and a bibliography of key print and nonprint sources of additional information

Modern Warfare - Roger Trinquier 1964

Military Science for Revolutionaries - Johann Joseph Most 1978

On Guerrilla Warfare - Mao Tse-tung
2012-03-06

The first documented, systematic study of a truly revolutionary subject, this 1937 text remains the definitive guide to guerrilla warfare. It concisely explains unorthodox strategies that transform disadvantages into benefits.

Handbook of Revolutionary Warfare - Kwame

Nkrumah 1969

The Influence of Sea Power Upon History, 1660-1783 - Alfred Thayer Mahan 1918

Today, war is more complicated than it has ever been. When considering military strategy, a commander must be aware of several theaters of war. There's ground strength, air power, naval combat and even cyber warfare. In the late 19th century, however, the true military might of a nation rested primarily on the strength of its navy. In 1890, United States Navy Captain Alfred Thayer Mahan published a book titled "The Influence of Sea Power Upon History." The monumental text addressed the importance of both military and commercial fleets in the success of a nation in war and peacetime. Mahan begins with a discussion of the elements he considers to be the key to a nation's success on the seas. He theorizes that a ground force could not sustain the pressure of a naval blockade. Mahan then applies his principles to wars of the

past. He analyzes the use of a navy in various engagements and considers the resulting influence on the outcome of the wars. The book was readily accepted by commanders and tacticians all over the world and his principles and theories were utilized throughout the 20th century. His arguments, along with technological advances, were influential in the strengthening of the United States Navy. Presently, Mahan's work is considered the most important work on naval strategy in history. *Psychological Operations in Guerrilla Warfare* - Tayacán 2021-04-10
"Psychological Operations in Guerrilla Warfare" by Tayacán (translated by Joanne Omang). Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and

formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

The Life and Work of Kwame Nkrumah - Kwame Arhin 1993

A book about the late Dr. Kwame Nkrumah, President of Ghana from 1960 to 1966

CIA - A. M. Nagy 2011-08-01

Guerrilla warfare is essentially a political war. Therefore, its area of operations exceeds the territorial limits of conventional warfare, to penetrate the political entity itself: the "political animal" that Aristotle defined. In effect, the human being should be considered the priority objective in a political war. And conceived as the military target of guerrilla war, the human being has his most critical point in his mind. Once his mind has been reached, the "political animal" has been defeated, without necessarily receiving bullets. Guerrilla warfare is born and grows in the political environment; in the constant

combat to dominate that area of political mentality that is inherent to all human beings and which collectively constitutes the "environment" in which guerrilla warfare moves, and which is where precisely its victory or failure is defined. This conception of guerrilla warfare as political war turns Psychological Operations into the decisive factor of the results. The target, then, is the minds of the population, all the population: our troops, the enemy troops and the civilian population. This book is a manual for the training of guerrillas in psychological operations, and its application to the concrete case of the Christian and democratic crusade being waged in Nicaragua by the Freedom Commandos. Note: In this text the editor has replaced the phrase Sandinista with "Government" as this manual should be a guide to fight and conquer any oppressive government.

Notices of Sullivan's Campaign - Henry O'Reilly
1842

Fighting for Time - Charles D. Melson
2021-02-05

This military study examines the evolution of the Rhodesian armed services during the complex conflicts of the Cold War era. Through the 1960s and 1970s, Africa endured a series of conflicts involving Rhodesia, South Africa, and Portugal in conflict with the Frontline States. The Cold War brought outside influences, including American interest at the diplomatic, economic, and social level. In *Fighting for Time*, military historian Charles D. Melson sheds new light on this complex and consequential period through analysis of the Rhodesian military. Drawing on a wealth of primary sources, Melson examines the Rhodesian military's evolution into a special operations force conducting intelligence-driven operations. Along the way, he identifies key lessons to be learned from this low-intensity conflict at the level of "tactics, techniques, and procedures." Melson looks closely at the military response to the emerging revolutionary threat

and the development of general and special-purpose units. He addresses the critical use of airpower as a force multiplier supporting civil, police, and army efforts ranging from internal security and border control to internal and external combat operations; the necessity of full-time joint command structures; and the escalation of cross-border attacks and unconventional responses as the conflict evolved.

Guerrilla Warfare - Che Guevara 2006

A new, authorized and revised edition of a classic 1960s text on revolution by Che Guevara.

Red Army's Do-it-Yourself, Nazi-Bashing

Guerrilla Warfare Manual, The - Lester Grau

2011-05-28

A selection of the Military Book Club. This third edition of the *The Partisan's Companion* is the last-and-best Red Army manual used to train partisans to fight the Nazi invader. Its usefulness outlived World War II. It was later used to train 'third-world' guerrillas in their

wars of national liberation in the 1950s-70s and even the Fedayeen guerrillas who fought U.S. and coalition forces in Iraq. Once upon a time, the Boy Scout Manual concentrated almost exclusively on camping, field craft and first aid. The *Partisan's Companion* adds guns, demolitions, hand-to-hand combat, assorted mayhem and multiple forms of Nazi-bashing. It is like the old Boy Scout Manual on steroids. When Germany invaded the Soviet Union, the Red Army was hard pressed to cope with the 'Invincible' Wehrmacht. The initial partisan resistance efforts also had problems. No locals were welcome, and the only guerrillas recognized by Moscow were surrounded Red Army units and units of loyal party members who were sent into unfamiliar territory to battle the Nazis. The initial training manual was a reprint from the Russian Civil War, and most of these units were wiped out. Finally the Soviets began recruiting partisans from the local community—but with Red Army officers and

secret police agents. The partisan effort improved. By the end of 1942, it was obvious that Germany was losing the war. The partisan ranks grew as did the training requirements for the partisan commanders. The 1942 edition of the Partisan's Companion helped quickly train new guerrillas to a common standard. Besides field craft, it covers partisan tactics, German counter-guerrilla tactics, demolitions, German and Soviet weapons, scouting, camouflage, anti-tank warfare and anti-aircraft defense for squad and platoon-level instruction. It contains the Soviet lessons of two bitter years of war and provides a good look at the tactics and training of a mature partisan force. The partisans moved and lived clandestinely, harassed the enemy, and supported the Red Army through reconnaissance and attacks on the German supply lines. They were also the agents of Soviet power and vengeance in the occupied regions. Soviet historians credit the partisans with tying down ten percent of the German army and with killing

almost a million enemy soldiers. They clearly frustrated German logistics and forced the Germans to periodically sideline divisions to hunt the partisans. The partisans, and this third edition, were clearly part of the eventual Soviet victory over Germany. Les Grau is a retired US Army officer who fought guerrillas in South Vietnam and left on a stretcher. Consequently, his appreciation for guerrilla tactics came early in his career. The Army later taught him Russian, and his tours of duty included frequent trips to the Soviet Union and elsewhere. He has is the author of three books on the Soviet-Afghan War, including *The Other Side of the Mountain: Mujahideen Tactics in the Soviet-Afghan War* (with Ali Jalali). Mike (Misha) Gress grew up in the wilds of Siberia where everyone's dad, including his own, was a veteran of the fight against the Nazis. He joined the Soviet Army and served in the infantry (motorized rifle) forces, and afterward produced *The Soviet-Afghan War: How a Superpower Fought and Lost* with Les

Grau.

Undergrounds in Insurgent, Revolutionary and Resistance Warfare - Us Army Special Operations Command 2017-09

Since the original publication of *Undergrounds in Insurgent, Revolutionary, and Resistance Warfare* in 1963, much has changed, but much remains relevant. The Internet, the globalization of media, the demise of Soviet Communism and the Cold War, and the rise of Islamic fundamentalism have all impacted the nature and functionality of undergrounds. The original study's observation, however, that for every guerilla fighter, there are from two to twenty-seven underground members is still true. Likewise, the report's main thesis--that the underground part of an insurgency is the sine qua non of all such movements--is demonstrably accurate today. This book examines the anatomy of undergrounds in various insurgencies of recent history. Our goal is to continue the groundbreaking work performed in the original

study and update it with insights from the post-Cold War world. Primary source material for this book comes from the Tier I and Tier II Case Studies written as part of the Assessing Revolutionary and Insurgent Strategies project. Hence, these case studies should be used as companion documents for this study.

Political Terrorism - A.J. Jongman 2017-07-28
While there is no easy way to define terrorism, it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear, demoralization, and political friction in the population under attack. At one time a marginal field of study in the social sciences, terrorism is now very much in center stage. The 1970s terrorist attacks by the PLO, the Provisional Irish Republican Army, the Popular Front for the Liberation of Palestine, the Japanese Red Army, the Unabomber, Aum Shinrikyo, Timothy McVeigh, the World Trade Center attacks, the assault on a school in Russia,

and suicide bombers have all made the term terrorism an all-too-common part of our vocabulary. This edition of Political Terrorism was originally published in the 1980s, well before some of the horrific events noted above. This monumental collection of definitions, conceptual frameworks, paradigmatic formulations, and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism. This is a carefully constructed guide to one of the most urgent issues of the world today. When the first edition was originally published, Choice noted, This extremely useful reference tool should be part of any serious social science collection. Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose--from property to liberty, life to limbs--should be forewarned against.

Casebook on Insurgency and Revolutionary

Warfare - American University (Washington, D.C.). Special Operations Research Office 1962 This casebook provides summary descriptive accounts of 23 revolutions that have occurred in seven geographic areas of the world, mostly since World War 2. Each revolution is described in terms of the environment in which it occurred, the form of the revolutionary movements it self, and the results which were accomplished. The casebook is designed: (1) to present a comprehensive introduction to the subject of revolutions; (2) to illustrate the types of political, military, cultural, social, and economic conditions under which revolutions have occurred; and (3) to examine the general characteristics of prior revolutionary movements and some operational problems experienced in waging, or countering, revolutionary warfare.

The Oxford Handbook of American Elections and Political Behavior - Jan E. Leighley
2012-02-16

The Oxford Handbooks of American Politics are

the essential guide to the study of American political life in the 21st Century. With engaging contributions from the major figures in the field The Oxford Handbook of American Elections and Political Behavior provides the key point of reference for anyone working in American Politics today

Kwame Nkrumah - Jeffrey S. Ahlman 2021-04-23
A new biography of Ghana's Kwame Nkrumah, one of the most influential political figures in twentieth-century African history. As the first prime minister and president of the West African state of Ghana, Kwame Nkrumah helped shape the global narrative of African decolonization. After leading Ghana to independence in 1957, Nkrumah articulated a political vision that aimed to free the country and the continent—politically, socially, economically, and culturally—from the vestiges of European colonial rule, laying the groundwork for a future in which Africans had a voice as equals on the international stage. Nkrumah spent his

childhood in the maturing Gold Coast colonial state. During the interwar and wartime periods he was studying in the United States. He emerged in the postwar era as one of the foremost activists behind the 1945 Manchester Pan-African Congress and the demand for an immediate end to colonial rule. Jeffrey Ahlman's biography plots Nkrumah's life across several intersecting networks: colonial, postcolonial, diasporic, national, Cold War, and pan-African. In these contexts, Ahlman portrays Nkrumah not only as an influential political leader and thinker but also as a charismatic, dynamic, and complicated individual seeking to make sense of a world in transition.

Postcolonialism - Robert J. C. Young 2016-10-17
This seminal work—now available in a 15th anniversary edition with a new preface—is a thorough introduction to the historical and theoretical origins of postcolonial theory. Provides a clearly written and wide-ranging account of postcolonialism, empire, imperialism,

and colonialism, written by one of the leading scholars on the topic Details the history of anti-colonial movements and their leaders around the world, from Europe and Latin America to Africa and Asia Analyzes the ways in which freedom struggles contributed to postcolonial discourse by producing fundamental ideas about the

relationship between non-western and western societies and cultures Offers an engaging yet accessible style that will appeal to scholars as well as introductory students

Casebook on Insurgency and Revolutionary Warfare, Volume I - Paul J. Tompkins 2013-10
