Amazon FBA and E-commerce With Shopify - Mark Miller 2020-07-22
 For sure, you've heard a lot about selling physical products on Amazon lately. But why Amazon? Simply because it's the biggest online store to ever have been - and probably that will ever be - created! If you're interested in e-commerce, Amazon is the right place for you. Another often-overlooked reason to sell on Amazon is its Prime clients. When you let Amazon handle the shipping, your products become eligible to be sold to millions of Amazon Prime clients that will receive any order of any size in just 2 days. So if you're asking yourself "Should I sell there?" the answer is YES! "But aren't there tons of competitors?" Yes, but IT'S NOT IMPORTANT! By opening its platform to third-party sellers, Amazon immediately created one of the biggest opportunities ever for entrepreneurs: it opened its store on its pages, selling to over 225 million clients! There are different ways you can sell on Amazon, but probably selling products with the distributor's own label is by far the best method to reach success. You're basically creating a brand with private labelling of a product that already sells well on Amazon. This not only makes you avoid having to reinvent the wheel, trying to create and market something new, but also making you compete for the "buy box". When you create your own brand, you distinguish yourself by being the only seller offering your product. This way you can keep all your profits, 100% of the time! The aim is to find a product, create a brand and sell more products in different countries that buy from Amazon. This book will guide you through the fundamentals of Amazon FBA. You will learn: - What Amazon FBA is - What are and how to use the algorithms - What the best market strategy is - Time is money - Finding products - Getting clicks ...and more! How to Source Products on Amazon FBA: A Beginners Guide to Sourcing Products to Private Label and Sell on Amazon - George Pain 2019-07-17

Are you getting started with Amazon FBA seller trying to figure out how to source products? Or are you wondering how to make money with Amazon FBA? This book is the answer to your questions. If you're reading this that likely means you've heard of "selling on Amazon", "Amazon FBA" or "private label products" being bandied around online or from other entrepreneurs. Perhaps you're already quite experienced in this field and are interested in how others run their business or perhaps you're simply curious about what the fuss is all about. In a nut shell,

Amazon FBA can be compared to what eBay was 10 years ago, in terms of the opportunity it provides to earn money online. The actual technicalities of how FBA and private labelling works will be covered in the next two chapters. For those that are merely curious about it, we'd guess it's because you've heard that it's a lucrative way for almost anyone to make money or a living from. Shit, maybe you've even heard that people are able to run their private label businesses from the beach and only spend an hour a day maintaining it. Despite a beautiful picture of working on the beach in leisure with your laptop by your side, sun shining overhead, and the calls of nature in the background as waves crash on the shore with birds soaring through the blue skies, trust us when we say it really isn't as fun or nice as it sounds. There's sand everywhere! Getting into your laptop, pants, bags, and if it's a windy day, it's just blowing sand on you and the friction can be so hard the sand actually stings you. The glare from the sun on the laptop makes it insanely hard to see what's happening, especially if you've got sunglasses on. The amount of shit you have to deal with while trying to work on the beach goes on and on but if there's only one takeaway from this book, save yourself the hassle and don't try to work on the beach for anything. Okay, rant over. It's possible you've heard claims of people making \$1,000 dollars a day and this could range from groups of housewives to the unemployed making bank in a ridiculously short amount of time. Some go even further to claim they've made millions in just their first year, and what do they do now that they're millionaires? They sell books, courses, and products about how they made they're millions. Not to rag on these people too much as we know some who are actually legit and know what they're talking about and doing, but a lot of these people out there going about touting their courses aren't offering a whole lot of value for what they're charging or are simply sharing outdated information as they aren't actively selling in the Amazon marketplace anymore as they now make their living from selling their education based products.
