Yukio Mishima's Spring Snow is the first novel in his

masterful tetralogy, The Sea of Fertility. Here we meet Shigekuni Honda, who narrates this epic tale of what he believes are the successive reincarnations of his friend, Kiyooki Matsugae. It is 1912 in Tokyo, and the hermetic world of the ancient aristocracy is being breached for the first time by outsiders — rich provincial families unburdened by tradition, whose money and vitality make them formidable contenders for social and political power. Shigekuni Honda, an aspiring lawyer and his childhood friend, Kiyooki Matsugae, are the sons of two such families. As they come of age amidst the growing tensions between old and new, Kiyooki is plagued by his simultaneous love for and loathing of the spirited young woman Ayakura Satoko. But Kiyooki's true feelings only become apparent when her sudden engagement to a royal prince shows him the magnitude of his passion — and leads to a love affair both doomed and inevitable.

[A Season on the Allegheny](#) - Robert T. Hilliard 2012-05-08
"A Season on the Allegheny" is a rollicking account of a year spent hunting on the Allegheny National Forest. Author Robert Hilliard tracks down more than deer, turkey, and grouse - he captures the Forest's magnificent past and finds the people who are still making history on the Allegheny today. He also pursues the many controversies that swirl around Pennsylvania's only National Forest, including anti-logging protests, Wilderness designations, and ecoterrorism. "A Season on the Allegheny" also uncovers the quiet but powerful impact of hunter-based conservation groups on National Forests. It documents the many ways - from habitat improvements to legal aid - in which groups such as the Ruffed Grouse Society, National Wild Turkey Federation, and Pheasants Forever have spent countless

hours and dollars making the Allegheny National Forest a better place.

Stories of the Vikings - Mary

MacGregor 2018-02-07

THE history of the Vikings is not, as you might think, the story of a band of sea-pirates who roved the seas in search of plunder. It is rather the story of a race of brave and hardy Northmen who became sea-rovers because the rights and the freedom which their fathers had cherished were being taken from them. Their fathers had lived on their own lands and had been freemen, but the sons were asked to become king's men and hold their land only at the king's pleasure. Rather than give up their ancient rights many of the Northmen became Vikings, and to them the sea-roving life was a noble one, full of high enterprise and ambition. It was no easy matter to become a member of a Viking band. Even a great chief, before he could be admitted, must prove his strength and give an account of the deeds of prowess he had already done. Thus it was an honour to belong to a band of Vikings, an honour which spurred the lads of the North to bold deeds, to mighty feats,

that they might be counted worthy to become members of one or another of the famous bands. It is of the customs and battles, of the lives and deaths of these wild Northmen that I have told you in this little book. As these men are, as you will hear, ancestors of our own, you will perhaps wish to know more about them than I have been able to tell you. If that is so, when you grow older, you can read the Sagas or histories of these Northmen which were written by the Skalds, or, as we would call them, the poets of those olden days. In these Sagas you will meet with many strange adventures and see many great battlefields which you will not find in this little book.

Here we see mutated rats gone bad ("Graveyard Shift"); a cataclysmic virus that threatens humanity ("Night Surf," the basis for The Stand); a possessed, evil lawnmower ("The Lawnmower Man"); unsettling children from the heartland ("Children of the Corn"); a smoker who will try anything to stop ("Quitters, Inc."); a reclusive alcoholic who begins a gruesome transformation ("Gray Matter"); and many more shadows and visions that will haunt you long after the last page is turned.

from her birth in Newcastle-on-Tyne, England through her presidency of the National American Woman Suffrage Association. Shaw immigrated with her genteel but financially pressed family to America in 1851. They settled first in New Bedford and then in Lawrence, Massachusetts, finally migrating in 1859 to a pioneer farmstead in northern Michigan, where Anna performed much of the subsistence labor during her father's long absences. The first part of her narrative emphasizes her efforts to gain an education and take up a

ministerial career. After two years at Albion College, she attended Boston Theological School (1876-1878) and accepted a pastorate in East Dennis, Cape Cod, after graduation; later she also took temporary charge of the Congregational Church in Dennis. After her ordination had been blocked by members of the New England Conference of the Methodist Episcopal Church opposed to ordaining women, Shaw was ordained by the 1880 Conference of the Methodist Protestant Church in Tarrytown, N.Y.
