Beginnings - Edward W. Said 1985

This reissued classic traces the ramifications and diverse understandings of the concept of "beginning" in history and offers valuable insights into the role of the intellectual and the goal of criticism.

[Orientalism](#) - Edward W. Said 2014-10-01

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

[From Oslo to Iraq and the Road Map](#) - Edward W. Said 2007-12-18

In his final book, completed just before his death, Edward W. Said offers impassioned pleas for the beleaguered Palestinian cause from one of its most eloquent spokesmen. These essays, which originally appeared in Cairo's *Al-Ahram Weekly*, London's *Al-Hayat*, and the *London Review of Books*, take us from the Oslo Accords through the U.S. led invasion of Iraq, and present information and perspectives too rarely visible in America. Said is unyielding in his call for truth and justice. He insists on truth about Israel's role as occupier and its treatment of the Palestinians. He pleads for new avenues of communication between progressive elements in Israel and Palestine. And he is equally forceful in his condemnation of Arab failures and the need for real leadership in the Arab world.

[Peace And Its Discontents](#) - Edward W. Said 2012-10-24

In works such as *Culture and Imperialism*, Said has compelled us to question our culture's most privileged myths. Now with this impassioned and incisive book, our foremost Palestinian-American intellectual challenges the official version of the Middle East "peace process." "He challenges and stimulates our thinking in every area."-- *Washington Post Book World*.

Culture and Imperialism - Edward W. Said 2012-10-24

A landmark work from the author of *Orientalism* that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida*. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, *Culture and Imperialism* reopens the dialogue between literature and the life of its time.

[Debating Orientalism](#) - Anna Bernard 2013-06-13

Edward Said continues to fascinate and stir controversy, nowhere more than with his classic work

Orientalism. Debating *Orientalism* brings a rare mix of perspectives to an ongoing polemic. Contributors from a range of disciplines take stock of the book's impact and appraise its significance in contemporary cultural politics and philosophy.

Edward Said about the Responsibility of the Intellectual - Jaydeep Chakrabarty 2015-05-28

Essay from the year 2015 in the subject American Studies - Literature, , language: English, abstract: It is commonly observed that the intellectuals are increasingly withdrawing themselves from the world and retiring into the insular cells of academic exercise. But Edward Said feels that as intellectuals are the best brains of society, they should have a genuine interest in the order of things in society and the world. This article examines Said's arguments and stakes about the role and responsibility of the intellectual. The present paper seeks to engage with certain crucial aspects of the Saidian formulations of and about the intellectuals. As an Arab Palestinian working as a professor of literature in an elite American institution, Said was fighting injustice and discrimination at all levels all through. This struggle against his overarching surroundings of power and politics also gets reflected in his deliberations on the role of the intellectuals in an increasingly globalized and conformist world.

[The End of the Peace Process](#) - Edward W. Said 2007-12-18

Soon after the Oslo accords were signed in September 1993 by Israel and Palestinian Liberation Organization, Edward Said predicted that they could not lead to real peace. In these essays, most written for Arab and European newspapers, Said uncovers the political mechanism that advertises reconciliation in the Middle East while keeping peace out of the picture. Said argues that the imbalance in power that forces Palestinians and Arab states to accept the concessions of the United States and Israel prohibits real negotiations and promotes the second-class treatment of Palestinians. He documents what has really gone on in the occupied territories since the signing. He reports worsening conditions for the Palestinians critiques Yasir Arafat's self-interested and oppressive leadership, denounces Israel's refusal to recognize Palestine's past, and—in essays new to this edition—addresses the resulting unrest. In this unflinching cry for civic justice and self-determination, Said promotes not a political agenda but a transcendent alternative: the peaceful coexistence of Arabs and Jews enjoying equal rights and shared citizenship.

Mimesis - Erich Auerbach 2013-10-06

More than half a century after its translation into English, Erich Auerbach's *Mimesis* remains a masterpiece of literary criticism. A brilliant display of erudition, wit, and wisdom, his exploration of how great European writers from Homer to Virginia Woolf depicted reality has taught generations how to read Western literature. This new expanded edition includes a substantial essay in introduction by Edward Said as well as an essay, never before translated into English, in which Auerbach responds to his critics. A German Jew, Auerbach was forced out of his professorship at the University of Marburg in 1935. He left for Turkey, where he taught at the state university in Istanbul. There he wrote *Mimesis*, publishing it in German after the end of the war. Displaced as he was, Auerbach produced a work of great erudition that contains no footnotes, basing his arguments instead on searching, illuminating readings of key passages from his primary texts. His aim was to show how from antiquity to the twentieth century literature progressed toward ever more naturalistic and democratic forms of representation. This essentially optimistic view of European history now appears as a defensive--and impassioned--response to the inhumanity he saw in the Third Reich. Ranging over works in Greek, Latin, Spanish, French, Italian, German, and English, Auerbach

used his remarkable skills in philology and comparative literature to refute any narrow form of nationalism or chauvinism, in his own day and ours. For many readers, both inside and outside the academy, *Mimesis* is among the finest works of literary criticism ever written. This Princeton Classics edition includes a substantial introduction by Edward Said as well as an essay in which Auerbach responds to his critics.

Places of Mind - Timothy Brennan 2021-03-23

A New York Times Book Review Editors' Choice The first comprehensive biography of the most influential, controversial, and celebrated Palestinian intellectual of the twentieth century As someone who studied under Edward Said and remained a friend until his death in 2003, Timothy Brennan had unprecedented access to his thesis adviser's ideas and legacy. In this authoritative work, Said, the pioneer of postcolonial studies, a tireless champion for his native Palestine, and an erudite literary critic, emerges as a self-doubting, tender, eloquent advocate of literature's dramatic effects on politics and civic life. Charting the intertwined routes of Said's intellectual development, *Places of Mind* reveals him as a study in opposites: a cajoler and strategist, a New York intellectual with a foot in Beirut, an orchestra impresario in Weimar and Ramallah, a raconteur on national television, a Palestinian negotiator at the State Department, and an actor in films in which he played himself. Brennan traces the Arab influences on Said's thinking along with his tutelage under Lebanese statesmen, off-beat modernist auteurs, and New York literati, as Said grew into a scholar whose influential writings changed the face of university life forever. With both intimidating brilliance and charm, Said melded these resources into a groundbreaking and influential countertradition of radical humanism, set against the backdrop of techno-scientific dominance and religious war. With unparalleled clarity, Said gave the humanities a new authority in the age of Reaganism, one that continues today. Drawing on the testimonies of family, friends, students, and antagonists alike, and aided by FBI files, unpublished writings, and Said's drafts of novels and personal letters, *Places of Mind* synthesizes Said's intellectual breadth and influence into an unprecedented, intimate, and compelling portrait of one of the great minds of the twentieth century.

Social Science - Delanty, Gerard 2005-06-01

What is social science? Does social scientific knowledge differ from other kinds of knowledge, such as the natural sciences and common sense? What is the relation between method and knowledge? This concise and accessible book provides a critical discussion and comprehensive overview of the major philosophical debates on the methodological foundations of the social sciences. From its origins in the sixteenth century when a new system of knowledge was created around the idea of modernity, the author shows how the philosophy of social science developed as a reflection on some of the central questions in modernity. Visions of modernity have been reflected in the self-understanding of the social sciences. From the positivist dispute on explanation vs. understanding to controversies about standpoint to debates about constructivism and realism, Delanty outlines the major shifts in the philosophy of social science. He argues that social science is an intellectual framework for the transformation of the social world. The new edition is updated and expanded throughout with the latest developments in the field, including a new chapter on feminist standpoint epistemology, and additional material on neo-positivism, pragmatism, and reflexivity. This is one of the most ambitious and wide-ranging texts in recent years on debates on method and the contemporary situation of social science. It is of interest to undergraduate students and postgraduates as well as to professional researchers with an interest in the philosophy of the social sciences and social theory.

Overcoming Orientalism - Tamara Sonn 2021-05-28

Orientalism is the term applied to scholarship that reduces Islam and Muslims to stereotypes of ignorance and violence in need of foreign control. It has been used to rationalize Europe's colonial domination of most of the Muslim world and continued American-led interventions in the post-colonial period. In the past 30 years it has been represented by claims that a monolithic Islam and equally monolithic West are distinct civilizations, sharing nothing in common and, indeed, involved in an inevitable "clash" from which only one

can emerge the winner. Most recently, it has appeared in Alt Right rhetoric. Anti-Muslim sentiment, measured in public opinion polls, hate crime statistics, and legislation, is reaching record levels. Since John Esposito published his first book nearly 40 years ago, he has been guiding readers beyond such politically charged stereotypes. The essays in this volume highlight the contributions of scholars from a variety of disciplines who, like -- and often inspired by -- John Esposito, recognize the misleading and politically dangerous nature of Orientalist polarizations. They present Islam as a multi-faceted and dynamic tradition embraced by communities in globally interconnected but substantially diverse contexts over the centuries. The contributors follow Esposito's lead, stressing the profound commonalities among religions and replacing Orientalist discourse with holistic analyses of the complex historical phenomena that affect developments in all societies. In addition to chapters focusing on diversity among Muslims and interfaith relations, this collection includes chapters assessing the secular bias at the root of Orientalist scholarship, and contemporary iterations of Orientalism in the form of Islamophobia.

Reflections on Exile and Other Essays - Edward W. Said 2000

With their powerful blend of political and aesthetic concerns, Edward W. Said's writings have transformed the field of literary studies. This long-awaited collection of literary and cultural essays offers evidence of how much the fully engaged critical mind can contribute to the reservoir of value, thought, and action essential to our lives and culture.

The Legacy of Edward W. Said - William V. Spanos 2009

Preserving and honoring the intellectual voice that spoke with the urgency, generosity, and grace of the best of humanity

Representations of the Intellectual - Edward W. Said 1996-04-02

In these impassioned and inspiring essays, based on his 1993 Reith Lectures, Edward Said explores what it means to be an intellectual today. Are intellectuals merely the servants of special interests or do they have a larger responsibility? In these wide-ranging essays, one of our most brilliant and fiercely independent public thinkers addresses this question with extraordinary eloquence. Said sees the the intellectual as an exile and amateur whose role it is "to speak the truth to power" even at the risk of ostracism or imprisonment. Drawing on the examples of Jonathan Swift and Theodor Adorno, Robert Oppenheimer and Henry Kissinger, Vietnam and the Gulf War, Said explores the implications of this idea and shows what happens when intellectuals succumb to the lures of money, power, or specialization.

Musical Elaborations - Edward W. Said 1991

Filling a significant gap in contemporary cultural studies, *Musical Elaborations* examines the intersection of the public and private meaning of music. Incorporating the music criticism of Adorno, musical ideas from literary works by Proust, and criticism by Benjamin and de Man into his work, noted critic Edward W. Said discusses performers such as Glenn Gould, Arturo Toscanini, and Alfred Brendel and such composers as Beethoven, Wagner, and Strauss.

Power, Politics, and Culture - Edward Said 2014-07-08

No single book has encompassed the vast scope of Edward Said's erudition quite like *Power, Politics and Culture* - a collection of his interviews from the last three decades. In these twenty-nine interviews, Said addresses everything from Palestine to Pavarotti, from his nomadic upbringing under colonial rule to his politically active and often controversial life in America, and reflects on Austen, Beckett, Conrad, Naipaul, Mahfouz and Rushdie as well as fellow critics Bloom, Derrida and Foucault. Said speaks here with his usual candour, acuity and eloquence - confirming that he was in his lifetime among the truly most important intellects of our century.

Conversations with Edward Said - Tariq Ali 2006

A late public intellectual and advocate for the Palestinian cause discusses in his final, provocative interview such topics as his approach to the study of culture, his dislocated existence, his love of literature and music, and his initiation into politics.

On Late Style - Edward Said 2014-07-08

On Late Style examines the work produced by great artists -Beethoven, Thomas Mann, Jean Genet among them - at the end of their lives. Said makes it clear that, rather than the resolution of a lifetime's artistic endeavour, most of the late works discussed are rife with contradiction and almost impenetrable

complexity. He helps us see how, though these works often stood in direct contrast to the tastes of society, they were, just as often, announcements of what was to come in the artist's discipline - works of true artistic genius.

Representations of the Intellectual - Edward W. Said 2012-10-24

In these six essays--delivered on the BBC as the prestigious Reith Lectures--Edward Said addresses the ways in which the intellectual can best serve society in the light of a heavily compromised media and of special interest groups who are protected at the cost of larger community concerns. Said suggests a recasting of the intellectual's vision to resist the lures of power, money, and specialization. In these pieces, Said eloquently illustrates his arguments by drawing on such writers as Antonio Gramsci, Jean-Paul Sartre, Regis Debray, Julien Benda, and Theodore Adorno, and by discussing current events and celebrated figures in the world of science and politics: Robert Oppenheimer, Henry Kissinger, Dan Quayle, Vietnam and the Gulf War. Said sees the modern intellectual as an editor, journalist, academic, or political adviser--in other words, a highly specialized professional--who has moved from a position of independence to an alliance with powerful corporate, institutional, or governmental organizations. He concludes that it is the exile-immigrant, the expatriate, and the amateur who must uphold the traditional role of the intellectual as the voice of integrity and courage, able to speak out against those in power.

The Edward Said Reader - Edward W. Said 2000

Includes essays and excerpts from the author's memoir, "Out of Place," as well as his thoughts on politics, history, literature, music, and cultural studies.

Culture and Resistance - Edward W. Said 2003

In his latest book of interviews, Edward W. Said discusses the centrality of popular resistance to his understanding of culture, history, and social change. He reveals his latest thoughts on the war on terrorism, the war in Afghanistan, and the Israeli-Palestinian conflict, and lays out a compelling vision for a secular, democratic future in the Middle East--and globally. Edward Said is Professor of English and Comparative Literature at New York's Columbia University, and is world-renowned for his research in comparative literature and his incisive political commentary. He's the author of twenty books which have been translated into 30 languages. He writes regularly for newspapers around the world, including *The Guardian* in London, *Le Monde Diplomatique* and the Arab-language daily *al-Hayat* and *Al-Ahram*. He is also the music critic for *The Nation*. He is a leading teacher, thinker and writer who is admired for his passionate intellectual voice on behalf of the voiceless. A pathbreaking intellectual and renowned political activist, Said never consents to being pigeonholed. His writing and teaching often deals with the West's cultural domination of the East and South through intellectual dispossession.

Covering Islam - Edward W. Said 2015-08-19

In this classic work, now updated, the author of *Culture and Imperialism* reveals the hidden agendas and distortions of fact that underlie even the most "objective" coverage of the Islamic world. From the Iranian hostage crisis through the Gulf War and the bombing of the World Trade Center, the American news media have portrayed "Islam" as a monolithic entity, synonymous with terrorism and religious hysteria. At the same time, Islamic countries use "Islam" to justify unrepresentative and often repressive regimes. Combining political commentary with literary criticism, *Covering Islam* continues Edward Said's lifelong investigation of the ways in which language not only describes but also defines political reality.

Out of Place - Edward W. Said 2012-10-24

From one of the most important intellectuals of our time comes an extraordinary story of exile and a celebration of an irrecoverable past. A fatal medical diagnosis in 1991 convinced Edward Said that he should leave a record of where he was born and spent his childhood, and so with this memoir he rediscovers the lost Arab world of his early years in Palestine, Lebanon, and Egypt. Said writes with great passion and wit about his family and his friends from his birthplace in Jerusalem, schools in Cairo, and summers in the mountains above Beirut, to boarding school and college in the United States, revealing an unimaginable world of rich, colorful characters and exotic eastern landscapes. Underscoring all is the confusion of identity the young Said experienced as he came to terms with the dissonance of being an American citizen, a Christian and a Palestinian, and, ultimately, an outsider. Richly detailed, moving, often profound, *Out of Place* depicts a young man's coming of age and the genesis of a great modern thinker.

Scandinavian Noir - Wendy Lesser 2020-05-05

"Even those unmoved by its subject will thrill to [*Scandinavian Noir*], a beautifully crafted inquiry into fiction, reality, crime and place . . . Perhaps when it comes to fiction and reality, what we need most are critics like Lesser, who can dissect the former with the tools of the latter." --Kate Tuttle, *The New York Times Book Review* An in-depth and personal exploration of Scandinavian crime fiction as a way into Scandinavian culture at large For nearly four decades, Wendy Lesser's primary source of information about three Scandinavian countries--Sweden, Norway, and Denmark--was mystery and crime novels, and the murders committed and solved in their pages. Having never visited the region, Lesser constructed a fictional Scandinavia of her own making, something between a map, a portrait, and a cultural history of a place that both exists and does not exist. Lesser's Scandinavia is disproportionately populated with police officers, but also with the stuff of everyday life, the likes of which are relayed in great detail in the novels she read: a fully realized world complete with its own traditions, customs, and, of course, people. Over the course of many years, Lesser's fictional Scandinavia grew more and more solidly visible to her, yet she never had a strong desire to visit the real countries that corresponded to the made-up ones. Until, she writes, "between one day and the next, that no longer seemed sufficient." It was time to travel to Scandinavia. With vivid storytelling and an astonishing command of the literature, Wendy Lesser's *Scandinavian Noir: In Pursuit of a Mystery* illuminates the vast, peculiar world of Scandinavian noir--first as it appears on the page, then as it grows in her mind, and finally, in the summer of 2018, as it exists in reality. Guided by sharp criticism, evocative travel writing, and a whimsical need to discover "the difference between existence and imagination, reality and dream," *Scandinavian Noir* is a thrilling and inventive literary adventure from a masterful writer and critic.

Rhetorics of Belonging - Anna Bernard 2013

The crisis in Israel/Palestine has long been the world's most visible military conflict. Yet the region's cultural and intellectual life remains all but unknown to most foreign observers, which means that literary texts that make it into circulation abroad tend to be received as historical documents rather than aesthetic artefacts. *Rhetorics of Belonging* examines the diverse ways in which Palestinian and Israeli world writers have responded to the expectation that they will narrate the nation, invigorating critical debates about the political and artistic value of national narration as a reading and writing practice. It considers writers whose work is rarely discussed together, offering new readings of the work of Edward Said, Amos Oz, Mourid Barghouti, Orly Castel-Bloom, Sahar Khalifeh, and Anton Shammas. This book helps to restore the category of the nation to contemporary literary criticism by attending to a context where the idea of the nation is so central a part of everyday experience that writers cannot not address it, and readers cannot help but read for it. It also points a way toward a relational literary history of Israel/Palestine, one that would situate Palestinian and Israeli writing in the context of a history of antagonistic interaction. The book's findings are relevant not only for scholars working in postcolonial studies and Israel/Palestine studies, but for anyone interested in the difficult and unpredictable intersections of literature and politics.

Edward Said - Adel Iskandar 2010

This indispensable volume, a comprehensive and wide-ranging resource on Edward Said's life and work, spans his broad legacy both within and beyond the academy. The book brings together contributions from

31 luminaries to engage Said's provocative ideas.

The Public Intellectual - Helen Small 2008-04-15

Humanism and Democratic Criticism - Edward W. Said 2004

The final collection of writings by the late intellectual and author of *Culture and Imperialism* emphasizes the importance of humanism in today's complex, dangerous, and high-tech world, explaining why humanistic values and democratic principles are essential in an era of heightened animosity, aggression, and violence.

Edward Said and Education - Zeus Leonardo 2020-04-02

This volume offers a deep interpretation of Edward Said's literary thought towards the development of educational criticism. Insofar as Said's academic career was built around the contours of literary analysis, Leonardo demonstrates how Said's work propels scholarship on schooling in ways that enrich our ability to generate insights about the educational enterprise. The book draws from four main themes of Said's work – knowledge construction as part of empire, representations and reconstruction of the intellectual, the exile condition, and contrapuntal analysis. These themes cohere in providing the elements of educational criticism and placing them in the wider context of a rapidly changing sociality and educational system. The author reviews key arguments in the field whilst contributing new analyses designed to elicit wide-ranging discussions. *Edward Said and Education* is a valuable teaching resource for undergraduate and postgraduate students of education studies, postcolonial studies, and ethnic studies.

The Politics of Dispossession - Edward W. Said 2012-10-24

Ever since the appearance of his groundbreaking *The Question of Palestine*, Edward Said has been America's most outspoken advocate for Palestinian self-determination. As these collected essays amply prove, he is also our most intelligent and bracingly heretical writer on affairs involving not only Palestinians but also the Arab and Muslim worlds and their tortuous relations with the West. In *The Politics of Dispossession* Said traces his people's struggle for statehood through twenty-five years of exile, from the PLO's bloody 1970 exile from Jordan through the debacle of the Gulf War and the ambiguous 1994 peace accord with Israel. As frank as he is about his personal involvement in that struggle, Said is equally unsparring in his demolition of Arab icons and American shibboleths. Stylish, impassioned, and informed by a magisterial knowledge of history and literature, *The Politics of Dispossession* is a masterly synthesis of scholarship and polemic that has the power to redefine the debate over the Middle East.

Essays in Understanding, 1930-1954 - Hannah Arendt 2011-04-13

Few thinkers have addressed the political horrors and ethical complexities of the twentieth century with the insight and passionate intellectual integrity of Hannah Arendt. She was irresistibly drawn to the activity of understanding, in an effort to endow historic, political, and cultural events with meaning. *Essays in Understanding* assembles many of Arendt's writings from the 1930s, 1940s, and into the 1950s. Included

here are illuminating discussions of St. Augustine, existentialism, Kafka, and Kierkegaard: relatively early examinations of Nazism, responsibility and guilt, and the place of religion in the modern world: and her later investigations into the nature of totalitarianism that Arendt set down after *The Origins of Totalitarianism* was published in 1951. The body of work gathered in this volume gives us a remarkable portrait of Arendt's developments as a thinker—and confirms why her ideas and judgments remain as provocative and seminal today as they were when she first set them down.

Edward Said - 2015-03-25

This collection is an enterprise of discovery and critical inquiry into the legacy of one of late modernity's greatest public intellectuals, Edward Said. Noted contributors, including Bill Ashcroft, John Docker, Lisa Lowe, Hsu-ming Teo and Patrick Wolfe, address an array of intellectual, political and cultural issues in their engagement with Said's oeuvre. Exciting new scholarship highlights the ways in which humanities in the twenty-first century can engage with Said's legacy, which includes his imbrications of culture and imperialism, his cosmopolitan critique of the idea of 'clash of civilisations', and his belief that the intellectual needs to maintain 'intellectual performances' on many fronts. The individual chapters achieve a sense of balance between the two poles of Said's persona: the brilliant and intimidating literary and music critic who invested deeply in an inclusive and democratic vision of humanism and the outspoken public intellectual who kept alive the truth of Palestine and the dangers of a settler colonial ethos.

Joseph Conrad and the Fiction of Autobiography - Edward W. Said 2008-01-08

Edward W. Said locates Joseph Conrad's fear of personal disintegration in his constant re-narration of the past. Using the author's personal letters as a guide to understanding his fiction, Said draws an important parallel between Conrad's view of his own life and the manner and form of his stories. The critic also argues that the author, who set his fiction in exotic locations like East Asia and Africa, projects political dimensions in his work that mirror a colonialist preoccupation with "civilizing" native peoples. Said then suggests that this dimension should be considered when reading all of Western literature. First published in 1966, Said's critique of the Western self's struggle with modernity signaled the beginnings of his groundbreaking work, *Orientalism*, and remains a cornerstone of postcolonial studies today.

Black Skin, White Masks - Frantz Fanon 2017-05-09

Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Frantz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

After the Last Sky - Edward W. Said 1993

Hardly a day passes without some mention of Palestinians in the press, but they remain virtually unknown. Portrayed as either murderous terrorists or pitiful refugees, they have become prisoners of these images.
