**What One Can Invent** - Hans Christian Andersen 2020-10-05

Once upon a time, a young man dreamed of becoming a writer and making a living from his pen. But there was a problem. The writers of the previous centuries had already exhausted all the subjects and he no longer knew what to write about! This is why he went to see a fortune teller, hoping that she could help him... Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language,

and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

**A History of Reading** - Alberto Manguel 2014-08-26

At one magical instant in your early childhood, the page of a book—that string of confused, alien ciphers—shivered into meaning, and at that moment, whole universes opened. You became, irrevocably, a reader. Noted essayist and editor

Alberto Manguel moves from this essential moment to explore the six-thousand-year-old conversation between words and that hero without whom the book would be a lifeless object: the reader. Manguel brilliantly covers reading as seduction, as rebellion, and as obsession and goes on to trace the quirky and fascinating history of the reader's progress from clay tablet to scroll, codex to CD-ROM.

*Norah Borges* - Eamon McCarthy 2020-09-01

Norah Borges (1901–98) was the sister of the celebrated Argentine writer Jorge Luis Borges. She first began producing art in Switzerland, where her family was trapped during the First World War, and travelled to Spain before returning to her native Argentina with her new styles of painting. In the 1920s, her work was published on the covers of important cultural magazines, but she is now largely forgotten. In her works, Borges created a world full of almost angelic figures – describing it as a smaller, more perfect world – mostly a serene space dominated

by women. This book explores how Borges created that space and developed her own unique style of painting, studying the connections she made with the leading artists and writers of her time.

*If They Give You Lined Paper, Write Sideways* - Daniel Quinn 2007

In Ishmael, Daniel Quinn offered new ways of seeing and understanding human history, and our collective future. His message was transformative for millions of people, and Ishmael continues to attract tens of thousands of new readers each year. Subsequent works, such as *The Story of B* and *My Ishmael*, expanded upon his insights and teachings, but only now does he finally tackle the one question he has

been asked hundreds of times but has never taken on: "How do you do what you do?" In *If They Give You Lined Paper, Write Sideways* Quinn elucidates for readers the methods behind his own thought processes, challenging and ultimately empowering them to view the world for themselves in creative, perhaps even revolutionary ways. *If They Give You Lines Paper, Write Sideways* also includes Quinn's never-before-published essays "The New Renaissance" and "Our Religions." There is a scientific consensus that global warming is approaching a tipping point beyond no return faster than had previously been predicted. Quinn has long portrayed humans as "a species of beings, which, while supposedly rational, are destroying the very planet they live on." So what are we to do? There has never been a plan for the future - and there never will be. But something extraordinary will happen in the next two or three decades; the people of our culture will learn to live sustainably - or not. Either way,

it will be extraordinary. The sooner we understand this reality, the greater the chances that human society will transform itself so that the human race might have a future.

**The Renaissance Vihuela & Guitar in**

## **Sixteenth-Century Spain** - FRANK W.

KOONCE 2010-10-07

Scholarly editions, which serve different purposes than performance editions, are not often designed with the modern guitarist in mind. For instance, Renaissance vihuela tablatures are usually transcribed with the open first string as G, not E. Most are presented in double-staff notation, a medium that is superior for realizing counterpoint but unconventional as guitar notation. Furthermore, these editions sometimes give idealized, but not realistic, solutions for voicing, note duration, and other matters that need to be considered within the limitations of our instrument. Guitarists who try to play from these editions essentially are faced with the task of transcribing the transcription! This 188-page anthology is designed as a companion volume to the *Baroque Guitar in Spain and the New World* (MB21122). It includes representative selections, edited for modern guitar, from the seven books for vihuela

that were published in Spain between 1536 and 1576. As well as being fun and entertaining music for all to enjoy, these collections are intended to help bridge the gap between scholarly editions and performance editions by providing a hands-on introduction to tablature transcription and to issues concerning historically informed performance of early music on the guitar. A 188-page anthology, edited for modern guitar, from the seven books for vihuela that were published in Spain between 1536 and 1576. **Platero and I** - Juan Ramón Jiménez 2000 : "One of the great classics of modern Spanish literature. Sheer descriptive magic." —Time "An

exquisite book—rich, shimmering, truly incomparable.” —The New Yorker “This enchanting dialogue, or is it a monologue, between a man and his burro has been translated with great skill and sympathy.” —Winthrop Sargeant In this translated Spanish classic, Juan Ramón Jiménez tells his burro Platero about their native Andalusian village of Moguer. Their dialogue creates an evanescent portrait of provincial Spain—its streets, homes, animals, children, and eccentrics. With the pure-hearted, silent burro sometimes a witness, sometimes a participant, the routines of daily life take on a certain poignancy. Jiménez anxiously searches for and removes the long green thorn from Platero’s hoof, and the donkey tenderly nuzzles him. On their way home one evening, Platero brays to his girlfriend burro in a field and trots hesitatingly, unwillingly past. Together Platero and his master make friends with the parrot, belonging to a local French doctor, whose sole and frequent pronouncement is “Ce

n’est rien.” Both prolific and profound, Juan Ramón Jiménez (1881-1958) wrote over seventy books, winning the 1956 Nobel Prize in literature. He has been hailed by The New Republic as “not only the dean of Hispanic poets, but a pioneer and the source of all those who wrote in the Spanish tongue after him.” The translator, poet and scholar, Antonio de Nicolás, received his education in Spain, India and the United States. A prolific writer, he has contributed to learned journals, magazines and book reviews and has published a number of books.

**Public Spectacles of Violence** - Rielle Navitski  
2017

In *Public Spectacles of Violence* Rielle Navitski examines the proliferation of cinematic and photographic images of criminality, bodily injury, and technological catastrophe in early twentieth-century Mexico and Brazil, which were among Latin America's most industrialized nations and later developed two of the region's

largest film industries. Navitski analyzes a wide range of sensational cultural forms, from nonfiction films and serial cinema to illustrated police reportage, serial literature, and fan magazines, demonstrating how media spectacles of violence helped audiences make sense of the political instability, high crime rates, and social inequality that came with modernization. In both nations, sensational cinema and journalism--influenced by imported films--forged a common public sphere that reached across the racial, class, and geographic divides accentuated by economic growth and urbanization. Highlighting the human costs of modernization, these media constructed everyday experience as decidedly modern, in that it was marked by the same social ills facing industrialized countries. The legacy of sensational early twentieth-century visual culture remains felt in Mexico and Brazil today, where public displays of violence by the military, police, and organized crime are hypervisible.

*Platero and I* - Juan Ramón Jiménez 2011

*Platero and I*, written by Juan Ramón Jiménez, 1956 winner of the Nobel Prize for Literature, has been translated into the main languages of Western Europe and even into Hebrew. As *Don Quixote* is a great Spanish classic of the Golden Age, *Platero and I* has become a classic of the twentieth century. It is known as the 'Andalusian

elegy' and is centred on the town of Moguer and its surrounding countryside. It follows the journey of the author and his donkey Platero. Like Dostoyevsky in his book *The Idiot* the donkey's braying inspires and captures the author. The book is not only for children but for adults as well, evoking for us memories of our childhood years. As with Lewis Carroll's *Alice in Wonderland*, this is an allegory of the deepest human emotions and thoughts. Throughout the narrative Juan Ramón speaks about Man and his world, dreaming of a better world and a brighter dawn. --Book Jacket.
