*Historical Dictionary of Italian Cinema* - Gino Moliterno 2020-12-08

Italian cinema is now regarded as one of the great cinemas of the world. Historically, however, its fortunes have varied. Following a brief moment of glory in the early silent era, Italian cinema appeared to descend almost into irrelevance in the early 1920s. A strong revival of the industry which gathered pace during the 1930s was abruptly truncated by the advent of World War II. The end of the war, however, initiated a renewal as films such as *Roma città aperta* (Rome Open City), *Sciuscià* (Shoeshine, 1946), and *Ladri di biciclette* (Bicycle Thieves, 1948), flagbearers of what soon came to be known as Neorealism, attracted unprecedented international acclaim and a reputation that only continued to grow in the following years as Italian films were feted worldwide. Ironically, they were celebrated nowhere more than in the United States, where Italian films consistently garnered the lion's share of the Oscars, with Lina Wertmüller becoming the first woman to ever be nominated for the Best Director award. This second edition of *Historical Dictionary of Italian Cinema* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on major movements, directors, actors, actresses, film genres, producers, industry organizations and key films. This book is an excellent resource for students, researchers, and anyone wanting to know more about Italian Cinema.

**Mysteries of the Dark Moon** - Demetra George 1992-05-22

Exploring the mystery, wisdom, and power of the dark phase of the moon's cycle--a lunar-based model for moving through the dark times in our lives with understanding, consciousness, and faith in renewal. The moon's dark phase has traditionally been a time of fear and superstition, a time associated with death and isolation. The mythical embodiment of these fears is the Dark Goddess. Known around the world by many names--Lilith, Kali, Hecate, and Morgana--the archetypal Dark Goddess represents death, sexuality, and the unconscious--the little understood, often feared aspects of life. Demetra George combines psychological, mythical, and spiritual perspective on the shadowy, feminine symbolism of the dark moon to reclaim the darkness from oppressive, fear-based images. George offers rites for rebirth and transformation that teach us to tap into the power of our dark times, maximizing the potential for renewal inherent in our inevitable periods of loss, depression, and anger.

**The Life of Merlin, Vita Merlini** - Geoffrey of Monmouth 2011-02-01

Vita Merlini, or The Life of Merlin, is a work by the Norman-Welsh author Geoffrey of Monmouth, composed in Latin around AD 1150. It retells incidents from the life of the Brythonic seer Merlin, and is based on traditional material about him. Merlin is described as a prophet in the text. There are a number of episodes in which he loses his mind and lives in the wilderness like a wild animal, like Nebuchadnezzar in the Book of Daniel. It is also the first work to describe the Arthurian sorceress Morgan le Fay, as Morgen. Geoffrey had written of Merlin in his two previous works, the *Prophetiae Merlini*, purported to be a series of prophecies from the sage, and the *Historia Regum Britanniae*, which is the first work presenting a link between Merlin and King Arthur. The *Vita Merlini* presents an account of Merlin much more faithful to the Welsh traditions about Myrddin Wyllt, the archetype behind Geoffrey's composite figure of Merlin. Whereas the *Historia* had Merlin associating with Arthur, his father Uther Pendragon, and his uncle Ambrosius in the 5th century, the *Vita*'s timeframe is during the late 6th century, and includes references to various figures from that period, including Gwenddoleu and Taliesin. Geoffrey attempts to synchronize the *Vita* with his earlier work by having Merlin mention he had been with Arthur long before.

Sailors are a notoriously superstitious lot - even if some won't admit it. Years of taking to the water, at the mercy of uncontrollable (and sometimes deadly) forces, have led even the wisest to seek ways of influencing the gods or fate. From bad omens and odd rituals to lucky tokens and forbidden words, the superstitions of the sea are legion. Many of these superstitions have refused to go away and quite a few have entered the general public consciousness. Some are amusing in their own right, others have fascinating origins, whilst for many there are bizarre anecdotal incidents which would appear to lend credence to these arcane beliefs. Illustrated with quirky cartoons, this book explores nautical superstitions from all over the world in an informative yet entertaining way. Includes superstitions about: Boatbuilding, naming and launching; Lucky and unlucky dates to sail; People, things and animals not to let on board; Signs and portents at sea; Words not to say (and their alternatives); Predicting the weather; Fishing; and much, much more!

*Epic Continent* - Nicholas Jubber 2019-08-27

Selected as one of NPR's Best Books of 2019 Selected by National Geographic as one of 12 "great books for travelers" "The prose is colourful and vigorous ... Jubber's journeying has indeed been epic, in scale and in ambition. In this thoughtful travelogue he has woven together colourful ancient and modern threads into a European tapestry that combines the sombre and the sparkling" *Spectator* 'A genuine epic' *Wanderlust* Award-winning travel writer Nicholas Jubber journeys across Europe exploring Europe's epic poems, from the *Odyssey* to *Beowulf*, the *Song of Roland* to the *Nibelungenlied*, and their impact on European identity in these turbulent times. These are the stories that made Europe. Journeying from Turkey to Iceland, award-winning travel writer Nicholas Jubber takes us on a fascinating adventure through our continent's most enduring epic poems to learn how they were shaped by their times, and how they have since shaped us. The

great European epics were all inspired by moments of seismic change: The *Odyssey* tells of the aftermath of the Trojan War, the primal conflict from which much of European civilisation was spawned. The *Song of the Nibelungen* tracks the collapse of a Germanic kingdom on the edge of the Roman Empire. Both the French *Song of Roland* and the Serbian *Kosovo Cycle* emerged from devastating conflicts between Christian and Muslim powers. *Beowulf*, the only surviving Old English epic, and the great Icelandic *Saga of Burnt Njal*, respond to times of great religious struggle - the shift from paganism to Christianity. These stories have stirred passions ever since they were composed, motivating armies and revolutionaries, and they continue to do so today. Reaching back into the ancient and medieval eras in which these defining works were produced, and investigating their continuing influence today, *Epic Continent* explores how matters of honour, fundamentalism, fate, nationhood, sex, class and politics have preoccupied the people of Europe across the millennia. In these tales soaked in blood and fire, Nicholas Jubber discovers how the world of gods and emperors, dragons and water-maidens, knights and princesses made our own: their deep impact on European identity, and their resonance in our turbulent times.

*The Story of the Year* - Hans Christian Andersen 2020-11-18

The new year had begun and January was already nearing its end, but it was still very cold. The sparrows found it strange, that the men had declared that it was the new year, as everyone knows that the year only begins with the coming of spring. However, spring was late and a few intrepid sparrows decided to go looking for it. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.
