Stitches - Anne Lamott
2013-10-29

The New York Times bestseller from the author of *Dusk, Night, Dawn, Hallelujah Anyway, Bird by Bird, and Almost Everything* “Lamott’s ...most insightful book yet, *Stitches* offers plenty of her characteristic witty wisdom...this slim, readable

volume [is] a lens on life, widening and narrowing, encouraging each reader to reflect on what it is, after all, that really matters.”—People
What do we do when life lurches out of balance? How can we reconnect to one other and to what’s sustaining, when evil and catastrophe seem inescapable? These questions lie at the heart of *Stitches*, Lamott’s profound follow-up to her New York Times–bestselling *Help, Thanks, Wow*. In this book Lamott explores how we find

meaning and peace in these loud and frantic times; where we start again after personal and public devastation; how we recapture wholeness after loss; and how we locate our true identities in this frazzled age. We begin, Lamott says, by collecting the ripped shreds of our emotional and spiritual fabric and sewing them back together, one stitch at a time. It's in these stitches that the quilt of life begins, and embedded in them are strength, warmth, humor, and humanity.

A Vehicle for Change - Éamon Ó Cofaigh 2022-05-13

An Open Access edition of this book will be available on the Liverpool University Press website and the OAPEN library. Since its invention, the automobile has been systematically 'consumed', to become part of the fabric of twentieth- and twenty-first-century society, its impact and perception making the car an accurate gauge of changing cultural norms and values. As it grew in popularity, the automobile conditioned the very texture of modern life, and the particularly car-centred society of contemporary France is an especially apt locus for examination. The ubiquity of

the automobile across all social strata provides us with a defined lens through which to examine the evolution of French society in the modern and post-modern eras. Taking the Second World War as a pivotal moment in recent French history, this book demonstrates how the automobile was both consumed and fetishized in distinct ways before and after this conflict. The ways in which society evolved from the pre- to the post-war period allow us to view French culture through the prism of the automobile as it embodied technological and social progress in twentieth-century France. The present volume seeks to explore and interrogate the processes of representation and mediation inherent in the evolving patterns of automobile consumption, and their subsequent impacts on local and national identity, framed by a detailed case study centred on France from the late-nineteenth century to the oil crisis of the early 1970s.

in general surgery today. There have been rapid advancements in hernia techniques in recent years, making most prior texts on the subject obsolete. These advancements involve significant evolution in both the techniques and strategies for hernia repairs, as well as the tools used to achieve these means. This text thoroughly addresses the multiple component separation techniques and options for locations of mesh repairs. It also discusses the revolution of hernia repair being facilitated by robotic surgery, which allows increased access to minimally invasive techniques for surgeons and thus increased access to minimally invasive surgical repairs for patients. This manual will be a valuable resource for interested surgeons to understand the variety of potential approaches to individual hernias, and to individually tailor the care of the hernia patient.

publication in 1974, acclaimed as one of the most exciting books in the history of American letters. It continues to inspire millions. A narration of a summer motorcycle trip undertaken by a father and his son, *Zen and the Art of Motorcycle Maintenance* becomes a personal and philosophical odyssey into fundamental questions on how to live. The narrator's relationship with his son leads to a powerful self-reckoning; the craft of motorcycle maintenance leads to an austere beautiful process for reconciling science, religion, and humanism. Resonant with the confusions of existence, this classic is a touching and transcendent book of life. This new edition contains an interview with Pirsig and letters and documents detailing how this extraordinary book came to be.

Sprawl Repair Manual - Galina Tachieva 2010-09-24

There is a wealth of research and literature explaining suburban sprawl and the urgent need to retrofit

suburbia. However, until now there has been no single guide that directly explains how to repair typical sprawl elements. The *Sprawl Repair Manual* demonstrates a step-by-step design process for the re-balancing and re-urbanization of suburbia into more sustainable, economical, energy- and resource-efficient patterns, from the region and the community to the block and the individual building. As Galina Tachieva asserts in this exceptionally useful book, sprawl repair will require a proactive and aggressive approach, focused on design, regulation and incentives. The *Sprawl Repair Manual* is a much-needed, single-volume reference for fixing sprawl, incorporating changes into the regulatory system, and implementing repairs through incentives and permitting strategies. This manual specifies the expertise that's needed and details the techniques and algorithms of sprawl repair within the context of reducing the financial and ecological

footprint of urban growth. The Sprawl Repair Manual draws on more than two decades of practical experience in the field of repairing and building communities to analyze the current pattern of sprawl development, disassemble it into its elemental components, and present a process for transforming them into human-scale, sustainable elements. The techniques are illustrated both two- and three-dimensionally, providing users with clear methodologies for the sprawl repair interventions, some of which are radical, but all of which will produce positive results.

Book Uncle and Me - Uma Krishnaswami 2016-09-01
Winner of the International Literacy Association Social Justice Literature Award
An award-winning middle-grade novel about the power of grassroots activism and how kids can make a difference. Every day, nine-year-old Yasmin borrows a book from

Book Uncle, a retired teacher who has set up a free lending library on the street corner. But when the mayor tries to shut down the rickety bookstand, Yasmin has to take her nose out of her book and do something. What can she do? The local elections are coming up, but she's just a kid. She can't even vote! Still, Yasmin has friends — her best friend, Reeni, and Anil, who even has a blue belt in karate. And she has family and neighbors. What's more, she has an idea that came right out of the last book she borrowed from Book Uncle. So Yasmin and her friends get to work. Ideas grow like cracks in the sidewalk, and soon the whole effort is breezing along nicely... Or is it spinning right out of control? An energetic, funny and quirky story about community activism, friendship, and the love of books.
