**Word 2007** - Connie Morrison 2007-05-02

Word 2007: Beyond the Manual is written for the experienced Word user who would find an introductory manual boring, condescending, and a waste of time. Basic features of word-processing in general or of Word in particular are not discussed. Features new to Word 2007 are emphasized, as are complex features that, though available in earlier versions of Word, were not readily accessible. The narrative is fast-paced, concise, and respectful of the reader's familiarity with earlier versions of the program.

*Microsoft Office Word 2007 a Beginners Guide - William R. Mills 2010*

I started teaching computer classes a couple of years ago. It seemed that almost all of my students were generally saying the same thing: I bought a book on how to use this program but I just don't understand what is in the book. I think you have to be a computer nerd to understand this stuff. Microsoft Office Word 2007 is a very powerful word processor program, but it doesn't have to be complicated or hard to use. I decided to write an easy to understand book on how to use the Microsoft Office Word 2007. This book has easy to follow step by step directions on how to use word 2007.
