Digital Kenya - Bitange Ndemo 2016-11-18

This book is open access under a CC BY 4.0 license. Presenting rigorous and original research, this volume offers key insights into the historical, cultural, social, economic and political forces at play in the creation of world-class ICT innovations in Kenya. Following the arrival of fiber-optic cables in 2009, Digital Kenya examines why the initial entrepreneurial spirit and digital revolution has begun to falter despite support from motivated entrepreneurs, international investors, policy experts and others. Written by engaged scholars and professionals in the field, the book offers 15 eye-opening chapters and 14 one-on-one conversations with entrepreneurs and investors to ask why establishing ICT start-ups on a continental and global scale remains a challenge on the "Silicon Savannah". The authors present evidence-based recommendations to help Kenya to continue producing globally impactful ICT innovations that improve the lives of those still waiting on the side-lines, and to inspire other nations to do the same.

The Angel at the Fence - Herman Rosenblat 2009-02

Herman Rosenblat was just 11 years old when German soldiers rounded up his family during a raid on a Jewish ghetto in Poland. Sent to

Buchenwald, Herman was put to work in the crematorium, shovelling dead bodies into the furnace, trying to survive in a world of hunger, fear and death. One day, walking by the fence, he saw a small girl on the other side. She smiled at him, and when he asked desperately if she had any food, she pulled an apple out of her pocket and threw it over the fence. As he ran off, afraid of being caught and shot, he heard her whisper come back tomorrow. For six months, they met every day. She threw him an apple or a hunk of bread. They never spoke, but the warmth of her smile and the food she gave him kept him alive and convinced him that she was an angel, sent to him by his mother. Herman was moved to another camp, and then eventually freed by Russian troops. He moved to England and then to New York. Fifteen years later, in 1957, Herman was set up on a blind date by a friend. Roma charmed him from the start with her warmth and beauty. It was only towards the end of their date that Herman touched on their shared history and asked her gently how she had survived the Holocaust. Roma explained that her family had bought forged papers to hide the fact that they were Jewish, and that they'd lived quietly on a farm next to a camp. She said that she had thrown apples over to fence to a starving young boy every day until he'd told her one day that he was being moved and not to come again. She'd always prayed that he had survived

From the Depths of Our Hearts - Pope Benedict XVI 2020

"The priesthood is going through a dark time", according to Pope Emeritus Benedict XVI and Robert Cardinal Sarah. "Wounded by the revelation of so many scandals, disconcerted by the constant questioning of their consecrated celibacy, many priests are tempted by the thought of giving up and abandoning everything." In this book, the pope emeritus and the prefect of the Congregation for Divine Worship and the Discipline of the Sacraments give their brother priests, and the whole Church, a message of hope. They honestly address the spiritual challenges faced by priests today, while pointing to deeper conversion to Jesus Christ as the key to faithful and fruitful priestly ministry and genuine reform. Benedict XVI and Cardinal Sarah "fraternally offer these reflections to the people of God and, of course, in a spirit of filial obedience, to Pope Francis", who has said, "I think that celibacy is a gift for the Church. . . . I don't agree with allowing optional celibacy, no." Responding to calls for refashioning the priesthood, including proposals from participants in the Amazonian Synod, two wise, spiritually astute pastors explain the importance of priestly celibacy for the good of the whole Church. Drawing on Vatican II, they present celibacy as not just "a mere precept of ecclesiastical law", but as a sharing in Jesus' sacrifice on the Cross and his identity as Bridegroom of the Church.

French Taste - Laura Calder 2010-04-05

The time is right for getting back to French home cooking and discovering how it has evolved, how easy it is for anyone to make, and

how appropriate it is for the moment. Laura Calder reminds us that we don't have to commit to mastering the entire canon of French cuisine to make a delectable chocolate mousse or a sole amandine. And just because we're in the mood for coq au vin doesn't mean we have to start dinner with a foie gras terrine and end with Grand Marnier soufflé. We can integrate a French dish into the menus already in our repertoire -- serve coq au vin as a main course, with gingerbread or ice-cream sundaes for dessert. Why not? French Taste is all about simplicity. If we get too caught up in the "how to" of French cooking, we miss the point. Yes, French cuisine has given the world impressive recipes and techniques, but the most valuable things the French have to offer when it comes to food are a sense of how to eat with joyful abandon, how to make food look as beautiful as it tastes and how to take time to enjoy good food in good company.

The International Vehicle Aerodynamics Conference - IMechE 2014-11-12

Aerodynamics has never been more central to the development of cars, commercial vehicles, motorbikes, trains and human powered vehicles, driven by the need for efficiency: reducing carbon dioxide emissions, reducing fuel consumption, increasing range and alleviating problems associated with traffic congestion. Reducing vehicle weight makes it more challenging to ensure that they are stable and handle well over a wide range of environmental conditions. Lighter structures are also more vulnerable to aerodynamically induced vibration. Alongside this, customers demand an environment that is quiet, comfortable and maintains their vision of the world around them in all weathers. These aims must be met by designing vehicles that engage customers emotionally, promoting the brand values of manufacturers and operators. This can only be done by collaboration between designers and aerodynamicists. Examine the latest developments in vehicle aerodynamic development Explore opportunities to network and share experiences around different areas Focus on future challenges and the engineering knowledge and technology required to resolve them Discuss other areas of development including handling and stability, tyre aerodynamics and modelling, aeroacoustics and fluid structure interaction

No Friend but the Mountains - Behrouz Boochani 2019-02-11

Winner of Australia's richest literary award, *No Friend but the Mountains* is Kurdish-Iranian journalist and refugee Behrouz Boochani's account of his detainment on Australia's notorious Manus Island prison. Composed entirely by text message, this work represents the harrowing experience of stateless and imprisoned refugees and migrants around the world. In 2013, Kurdish-Iranian journalist Behrouz Boochani was illegally detained on Manus Island, a refugee detention centre off the coast of Australia. He has been there ever since. This book is the result.

Laboriously tapped out on a mobile phone and translated from the Farsi. It is a voice of witness, an act of survival. A lyric first-hand account. A cry of resistance. A vivid portrait of five years of incarceration and exile. Winner of the Victorian Prize for Literature, *No Friend but the Mountains* is an extraordinary account — one that is disturbingly representative of the experience of the many stateless and imprisoned refugees and migrants around the world. "Our government jailed his body, but his soul remained that of a free man." — From the Foreword by Man Booker Prize-winning author Richard Flanagan

Crosslingual Implementation of Linguistic Taggers Using Parallel Corpora - Hani Safadi 2010-04-27

This book addresses the problem of creating linguistic taggers for resource-poor languages using existing taggers in resource rich languages. Linguistic taggers are classifiers that map individual words or phrases from a sentence to a set of tags. Linguistic taggers are usually trained using supervised learning algorithms. The proposed approach does not require that the input sentence be translated into the source language. Instead, projection of linguistic tags is accomplished through the use of a parallel corpus, which is a collection of texts that are available in a source language and a target language. The correspondence between words of the source and target language allows to project tags from source to target language words. A parallel corpus of the source and target languages might not be readily available for many language pairs. To deal with this problem, we describe a system for automatic acquisition of aligned, bilingual corpora from pre-specified domains on the World Wide Web.

The 27 Challenges Managers Face - Bruce Tulgan 2014-09-09

For more than twenty years, management expert Bruce Tulgan has been asking, "What are the most difficult challenges you face when it comes to managing people?" Regardless of industry or job title, managers cite the same core issues—27 recurring challenges: the superstar whom the manager is afraid of losing, the slacker whom the manager cannot figure out how to motivate, the one with an attitude problem, and the two who

cannot get along, to name just a few. It turns out that when things are going wrong in a management relationship, the common denominator is almost always unstructured, low substance, hit-or-miss communication. The real problem is that most managers are "managing on autopilot" without even realizing it—until something goes wrong. And if you are managing on autopilot, then something almost always does. *The 27 Challenges Managers Face* shows exactly how to break the vicious cycle and gain control of management relationships. No matter what the issue, Tulgan shows that the fundamentals are all you need. The very best managers hold ongoing one-on-one conversations that make expectations clear, track performance, offer feedback, and hold people accountable. For every workplace problem—even the most awkward and difficult—*The 27 Challenges Managers Face* shows how to tailor conversations to solve situations familiar to every manager. Tulgan offers clear approaches for turning around bad attitudes, reducing friction and conflict, improving low performers, retaining top performers, and even addressing your own personal burnout. *The 27 Challenges Managers Face* is an indispensable resource for managers at all levels, one anyone managing anyone will want to keep on hand. One challenge at a time, you'll see how the most effective managers use the fundamentals of management to proactively resolve (nearly) any problem a manager could face.
