The Four Fundamental Concepts of Psycho-Analysis - Jacques Lacan 2018-05-08

The author's writings, and especially the seminars for which he has become famous, have provoked intense controversies in French analytic circles, requiring as they do a radical reappraisal of the legacy bequeathed by Freud. This volume is based on a year's seminar, which is of particular importance because he was addressing a larger, less specialist audience than ever before, amongst whom he could not assume familiarity with his work. For his listeners then, and for his readers now, he wanted "to introduce a certain coherence into the major concepts on which psycho-analysis is based", namely the unconscious, repetition, the transference and the drive. In re-defining these four concepts he explores the question that, as he puts it, moves from "Is psycho-analysis a science?" to "What is a science that includes psycho-analysis?"

Paradigms of Jouissance - Jacques-Alain Miller

Lacan on Love - Bruce Fink 2017-09-05

Quintessentially fascinating, love intrigues and perplexes us, and drives much of what we do in life. As wary as we may be of its illusions and disappointments, many of us fall blindly into its traps and become ensnared time and again. Deliriously mad excitement turns to disenchantment, if not deadening repetition, and we wonder how we shall ever break out of this vicious cycle. Can psychoanalysis - with ample assistance from philosophers, poets, novelists, and songwriters - give us a new perspective on the wellsprings and course of love? Can it help us fathom how and why we are often looking for love in all the wrong places, and are fundamentally confused about "what love really is"? In this lively and wide-ranging exploration of love throughout the ages, Fink argues that it can. Taking within his compass a vast array of traditions - from Antiquity to the courtly love

poets, Christian love, and Romanticism - and providing an in-depth examination of Freud and Lacan on love and libido, Fink unpacks Lacan's paradoxical claim that "love is giving what you don't have." He shows how the emptiness or lack we feel within ourselves gets covered over or entwined in love, and how it is possible and indeed vital to give something to another that we feel we ourselves don't have. This first-ever commentary on Lacan's Seminar VIII, *Transference*, provides readers with a clear and systematic introduction to Lacan's views on love. It will be of great value to students and scholars of psychology and of the humanities generally, and to analysts of all persuasions.

The Lacanian Subject - Bruce Fink 1997

Lacanian psychoanalyst Bruce Fink lucidly guides readers through the labyrinth of Lacanian theory to provide the most penetrating view of Lacan's work to date. Revealing in-depth knowledge of Lacan's theoretical and clinical work, Fink shines a light on Lacan's

controversial notions about the Other, object a, the unconscious as structured like a language, alienation and separation, the paternal metaphor, *jouissance*, and sexual difference. *Lacan and the Ghosts of Modernity* - Marshall Needleman Armitator 2004

To understand the achievement of Jacques Lacan, one must turn to his roots. This book explores the grounding of Lacan's psychoanalytic work in the intellectual and artistic movements of the modernist period. More specifically, it examines masculine anxiety in the modernist novel in terms of Lacan's work on psychosis, masochism, and narcissism, viewed against the broader cultural context of the modernist era. In the process, this book illustrates how Lacan's intellectual apprenticeships and encounters (both real and imaginary) play out in his mature work, beginning with the first seminars of the 1950s. Like other thinkers of the early twentieth century, the trajectory of Lacan's psychoanalytic

career is shaped by tendentious confrontations with peers, forebears, and intellectual traditions.

Lacan and the Subject of Language (RLE: Lacan)

- Ellie Ragland-Sullivan 2014-02-05

Originally published in 1991, this volume tackles the diverse teachings of the great psychoanalyst and theoretician. Written by some of the leading American and European Lacanian scholars and practitioners, the essays attempt to come to terms with his complex relation to the culture of contemporary psychoanalysis. The volume presents useful insights into Lacan's innovative theories on the nature of language and the subject. Many of the essays probe the importance of psychoanalysis for problems of signifier and referent in the philosophy of language; others explore the difficulties men and women have in negotiating the sexual differences that divide them. A major contribution to the new reception of Jacques Lacan in the English-speaking world, *Lacan and the Subject of Language* will challenge those

who believe that they have already 'mastered' Lacanian thought. The insights offered here will pave the way for further developments.

Why Psychoanalysis? - Alenka Zupančič 2008

In *Why Psychoanalysis*, Alenka Zupancic outlines the relationship between the ontological, the ethical and the aesthetical spheres of Freudian and Lacanian psychoanalysis. In three bold interventions she investigates the question of Being, Freedom and Comedy. Taking her departure from issues of sex, cause, and horror Zupancic reinterprets Kant's philosophical categories and outlines a unique theory of the subjekt. *Why Psychoanalysis* continues her seminal work *Ethics of the Real: Kant and Lacan* from 2000 and links it with more recent work about comedy. *Why Psychoanalysis* is suitable for beginners as well as for more advanced readers.

Reading Seminar XX - Suzanne Barnard
2012-02-01

Examines Lacan's key seminar on sexual

difference, knowledge, desire, and love.

The Seminar of Jacques Lacan - Jacques Lacan
1988

Often controversial, always inspired, French intellectual Jacques Lacan begins the twentieth year of his famous Seminar by weighing theories of the relationship between the desire for love and the attainment of knowledge from such influential and diverse thinkers as Aristotle, Marx, and Freud. From here he leads us through mathematics, philosophy, religion, and, naturally, psychoanalysis into an entirely new and unexpected way of interpreting the two most fundamental human drives. Anticipated by English-speaking readers for more than twenty years, this annotated translation presents Lacan's most sophisticated work on love, desire, and jouissance.

The Seminar of Jacques Lacan: The psychoses 1955-1956 - Jacques Lacan 1988

The Sinthome - Jacques Lacan 2016-10-31

‘Ten times, an elderly grey-haired man gets up on the stage. Ten times puffing and sighing. Ten times slowly tracing out strange multi-coloured arabesques that interweave, curling with the meanders of his speech, by turns fluid and uneasy. A whole crowd looks on, transfixed by this enigma-made-man, absorbing the ipse dixit and anticipating some illumination that is taking its time to appear. Non lucet. It’s shady in here, and the Théodores go hunting for their matches. Still, they say, cuicumque in sua arte perito credendum est, whosoever is expert in his art is to be lent credence. At what point is a person mad? The master himself poses the question. That was back in the day. Those were the mysteries of Paris forty years hence. A Dante clasping Virgil’s hand to be led through the circles of the Inferno, Lacan took the hand of James Joyce, the unreadable Irishman, and, in the wake of this slender Commander of the Faithless, made with heavy and faltering step onto the incandescent zone where symptomatic

women and ravaging men burn and writhe. An equivocal troupe was in the struggling audience: his son-in-law; a dishevelled writer, young and just as unreadable back then; two dialoguing mathematicians; and a professor from Lyon vouching for the seriousness of the whole affair. A discreet Pasiphaë was being put to work backstage. Smirk then, my good fellows! Be my guest. Make fun of it all! That's what our comic illusion is for. That way, you shall know nothing of what is happening right before your very eyes: the most carefully considered, the most lucid, and the most intrepid calling into question of the art that Freud invented, better known under its pseudonym: psychoanalysis'. Jacques-Alain Miller

The Psychoses - Jacques Lacan 2013-11-19
During the third year of his famous seminar, Jacques Lacan gives a concise definition of psychoanalysis: 'Psychoanalysis should be the science of language inhabited by the subject. From the Freudian point of view man is the

subject captured and tortured by language.' Since psychosis is a special but emblematic case of language entrapment, Lacan devotes much of this year to grappling with distinctions between the neuroses and the psychoses. As he compared the two, relationships, symmetries, and contrasts emerge that enable him to erect a structure for psychosis. Freud's famous case of Daniel Paul Schreber is central to Lacan's analysis. In demonstrating the many ways that the psychotic is 'inhabited, possessed by language', Lacan draws upon Schreber's own account of his psychosis and upon Freud's notes on this 'case of paranoia'. The analysis of language is both fascinating and enlightening.

My Teaching - Jacques Lacan 2008
Bringing together three previously unpublished lectures presented to the public by Lacan at the height of his career, and prefaced by Jacques-Alain Miller, My Teaching is a clear, concise introduction to the thought of the influential psychoanalyst after Freud.

Eros and Ethics - Marc De Kesel 2009-05-26

A comprehensive examination of Lacan's seminar on ethics.

Jacques Lacan - Elisabeth Roudinesco 1999

The author offers the story of a young man from the provinces determined to leave his family fortune and its old-fashioned values behind; the young doctor in Paris who set out to reinvent clinical psychotherapy and ended up transforming fundamental notions that shapes it all.

Lacan - Elisabeth Roudinesco 2014-03-18

Jacques Lacan continues to be subject to the most extravagant interpretations. Angelic to some, he is demonic to others. To recall Lacan's career, now that the heroic age of psychoanalysis is over, is to remember an intellectual and literary adventure that occupies a founding place in our modernity. Lacan went against the current of many of the hopes aroused by 1968, but embraced their paradoxes, and his language games and wordplay resonate

today as so many injunctions to replace rampant individualism with a heightened social consciousness. Widely recognized as the leading authority on Lacan, Élisabeth Roudinesco revisits his life and work: what it was - and what it remains.

Sensible Ecstasy - Amy Hollywood 2010-01-15

Sensible Ecstasy investigates the attraction to excessive forms of mysticism among twentieth-century French intellectuals and demonstrates the work that the figure of the mystic does for these thinkers. With special attention to Georges Bataille, Simone de Beauvoir, Jacques Lacan, and Luce Irigaray, Amy Hollywood asks why resolutely secular, even anti-Christian intellectuals are drawn to affective, bodily, and widely denigrated forms of mysticism. What is particular to these thinkers, Hollywood reveals, is their attention to forms of mysticism associated with women. They regard mystics such as Angela of Foligno, Hadewijch, and Teresa of Avila not as emotionally excessive or

escapist, but as unique in their ability to think outside of the restrictive oppositions that continue to afflict our understanding of subjectivity, the body, and sexual difference. Mystics such as these, like their twentieth-century descendants, bridge the gaps between action and contemplation, emotion and reason, and body and soul, offering new ways of thinking about language and the limits of representation.

The Lacanian Review 6 - Jacques-Alain Miller
2018-11

The Lacanian Review (TLR) is a semiannual English-language journal of psychoanalysis, with bilingual (French - English) presentations of texts by Jacques Lacan and Jacques-Alain Miller. TLR publishes writing from prominent international figures of the Lacanian Orientation, featuring new theoretical developments in psychoanalysis, testimonies of the pass, dialogues with other discourses, and articles on contemporary culture, politics, art and science. Each issue explores a theme

intersecting the symptoms of our era and emerging work in the New Lacanian School (NLS) and the World Association of Psychoanalysis (WAP). In issue 6 of The Lacanian Review (TLR), there is not a moment to lose. The acceleration of culture and the vertiginous pressure of the drive seem to collapse the instant to see, the time to understand and the moment to conclude. The urgent subject of the now cannot catch up to rapid cycles of political upheaval and social media streams turned into torrents of data. Production overflows consumption in a tidal wave of imaginary cacophony. How does psychoanalysis today respond to urgent times? For its 6th issue, The Lacanian Review (TLR) tasks the signifier, Urgent!, to orient the work of the New Lacanian School (NLS) in examining the urgent cases that occupy our clinic in preparation for the 2019 NLS Congress in Tel Aviv: ¡URGENT! Tracing the edge of the latest Lacan, Bernard Seynhaeve (President of the NLS) curated a series of newly

established texts by Jacques Lacan and Jacques-Alain Miller, translated by Russell Grigg, appearing in the first ever bilingual featured section of TLR. Four lessons from the seminars of Jacques-Alain Miller frame this issue. TLR 6 draws heavily from the work of the current Analysts of the School to explore four new fundamental concepts of psychoanalysis: Pass, Real Unconscious, Urgent Cases, and Satisfaction. Interviews with Angelina Harari (President of the WAP), Ricardo Seldes (Director of Pausa), and Lee Edelman (Professor of English Literature at Tufts University) elaborate fundamental concepts across the work of the School One, the clinic of applied analysis, and literary theory in dialogue with psychoanalysis. A groundbreaking orientation text by Éric Laurent from the 2018 Congress of the World Association of Psychoanalysis (WAP) will be published for the first time in English, along with clinical cases exploring transference and psychosis. And finally, approaching the problem

of temporality in psychoanalysis, this issue spans Freudian time-management to the logic of the cut in the Lacanian Orientation. TLR is published by the New Lacanian School (amp-nls.org) and distributed by the Lacanian Compass Bookshop (lacaniancompass.com) and Eurl Huysmans (ecf-echoppe.com).

Anxiety - Jacques Lacan 2014-04-14

Jacques Lacan is widely recognized as a key figure in the history of psychoanalysis and one of the most influential thinkers of the 20th Century. In *Anxiety*, now available for the first time in English, he explores the nature of anxiety, suggesting that it is not nostalgia for the object that causes anxiety but rather its imminence. In what was to be the last of his year-long seminars at Saint-Anne hospital, Lacan's 1962-63 lessons form the keystone to this classic phase of his teaching. Here we meet for the first time the notorious *a* in its oral, anal, scopic and vociferated guises, alongside Lacan's exploration of the question of the 'analyst's desire'. Arriving

at these concepts from a multitude of angles, Lacan leads his audience with great care through a range of recurring themes such as anxiety between *jouissance* and desire, counter-transference and interpretation, and the fantasy and its frame. This important volume, which forms Book X of *The Seminar of Jacques Lacan*, will be of great interest to students and practitioners of psychoanalysis and to students and scholars throughout the humanities and social sciences, from literature and critical theory to sociology, psychology and gender studies.

Jacques Lacan and the Other Side of Psychoanalysis - Justin Clemens 2006-05-02

This collection is the first extended interrogation in any language of Jacques Lacan's Seminar XVII. Originally delivered just after the Paris uprisings of May 1968, Seminar XVII marked a turning point in Lacan's thought; it was both a step forward in the psychoanalytic debates and an important contribution to social and political

issues. Collecting important analyses by many of the major Lacanian theorists and practitioners, this anthology is at once an introduction, critique, and extension of Lacan's influential ideas. The contributors examine Lacan's theory of the four discourses, his critique of the Oedipus complex and the superego, the role of primal affects in political life, and his prophetic grasp of twenty-first-century developments. They take up these issues in detail, illuminating the Lacanian concepts with in-depth discussions of shame and guilt, literature and intimacy, femininity, perversion, authority and revolt, and the discourse of marketing and political rhetoric. Topics of more specific psychoanalytic interest include the role of *objet a*, philosophy and psychoanalysis, the status of knowledge, and the relation between psychoanalytic practices and the modern university. Contributors: Geoff Boucher, Marie-Hélène Brousse, Justin Clemens, Mladen Dolar, Oliver Feltham, Russell Grigg, Pierre-Gilles Guéguen, Dominique Hecq,

Dominiek Hoens, Éric Laurent, Juliet Flower MacCannell, Jacques-Alain Miller, Ellie Ragland, Matthew Sharpe, Paul Verhaeghe, Slavoj Žižek, Alenka Zupancic

On Feminine Sexuality - Jacques Lacan 1999

A startling psycholinguistic exploration of the boundaries of love and knowledge.

Sexuation - Renata Salecl 2000-07-24

A Lacanian investigation of sexuality and sexual difference.

Jacques Lacan - Sean Homer 2004-11-04

Jacques Lacan is one of the most challenging and controversial of contemporary thinkers, as well as the most influential psychoanalyst since Freud. Lacanian theory has reached far beyond the consulting room to engage with such diverse disciplines as literature, film, gender and social theory. This book covers the full extent of Lacan's career and provides an accessible guide to Lacanian concepts and his writing on: the imaginary and the symbolic; the Oedipus Complex and the meaning of the phallus; the

subject and the unconscious; the real; sexual difference. Locating Lacan's work in the context of contemporary French thought and the history of psychoanalysis, Sean Homer's Jacques Lacan is the ideal introduction to this influential theorist.

Fundamentals of Psychoanalytic Technique: A Lacanian Approach for Practitioners - Bruce Fink 2011-04-26

An introduction to psychoanalytic technique from a Lacanian perspective. What does it mean to practice psychoanalysis as Jacques Lacan did? How did Lacan translate his original theoretical insights into moment-to-moment psychoanalytic technique? And what makes a Lacanian approach to treatment different from other approaches? These are among the questions that Bruce Fink, a leading translator and expositor of Lacan's work, addresses in *Fundamentals of Psychoanalytic Technique* by describing and amply exemplifying the innovative techniques (such as punctuation, scansion, and oracular

interpretation) developed by Lacan to uncover unconscious desire, lift repression, and bring about change. Unlike any other writer on Lacan to date, Fink illustrates his Lacanian approach to listening, questioning, punctuating, scolding, and interpreting with dozens of actual clinical examples. He clearly outlines the fundamentals of working with dreams, daydreams, and fantasies, discussing numerous anxiety dreams, nightmares, and fantasies told to him by his own patients. By examining transference and countertransference in detail through the use of clinical vignettes, Fink lays out the major differences (regarding transference interpretation, self-disclosure, projective identification, and the therapeutic frame) between mainstream psychoanalytic practice and Lacanian practice. He critiques the ever more prevalent normalizing attitude in psychoanalysis today and presents crucial facets of Lacan's approach to the treatment of neurosis, as well as of his entirely different

approach to the treatment of psychosis. *Fundamentals of Psychoanalytic Technique* is an introduction to psychoanalytic technique from a Lacanian perspective that is based on Fink's many years of experience working as an analyst and supervising clinicians, including graduate students in clinical psychology, social workers, psychiatrists, psychotherapists, and psychoanalysts. Designed for a wide range of practitioners and requiring no previous knowledge of Lacan's work, this primer is accessible to therapists of many different persuasions with diverse degrees of clinical experience, from novices to seasoned analysts. Fink's goal throughout is to present the implications of Lacan's highly novel work for psychoanalytic technique across a broad spectrum of interventions. The techniques covered (all of which are designed to get at the unconscious, repression, and repetition compulsion) can be helpful to a wide variety of practitioners, often transforming their practices

radically in a few short months.

What Lacan Said About Women - Colette Soler 2020-10-06

The definitive work on Lacan's theory of the feminine. With exquisite prose and penetrating insights, Colette Soler shares her theoretical and clinical expertise in this vibrant new text. She spins out seductive explications of Lacan's thought on the controversial question of sexual difference. With the subtlety that these topics deserve, she takes up Lacan's conception of woman and her relation to masochism, femininity and hysteria, love and death, and the impossible sexual relation. Following more than the usual suspects, *What Lacan Said About Women* also explores the mother's place in the unconscious, how Lacan understands depression, and why depressives feel unloved. Soler's analysis examines the cultural implications of the texts that Lacan produced from the 1950s to the 1970s, such as the effects of science on contemporary conceptions of the

feminine. She gracefully bridges the gap still left open between psychoanalysis and cultural studies. Winner of the Prix Psyche for the best work published in the fields of psychology and psychoanalysis in 2003, this book will appeal to cultural critics, especially those in gender and women's studies, as well as to anyone involved in contemporary theory or clinical practice. This study will transform novices within the field of Lacanian theory into informed thinkers and it will substantially supplement and refine the knowledge of Lacanian veterans.

Reading Lacan's Seminar VIII - Gautam Basu Thakur 2020-03-23

This book provides 18 lively commentaries on Lacan's Seminar VIII, *Transference* (1960-61) that explore its theoretical and philosophical consequences in the clinic, the classroom, and society. Including contributions from clinicians as well as scholars working in philosophy, literature, and culture studies, the commentaries presented here represent a wide-range of

disciplinary perspectives on the concept of transference. Some chapters closely follow the structure of the seminar's sessions, while others take up thematic concerns or related sessions such as the commentary on sessions 19 to 22 which deal with Lacan's discussion of Claudel's Coûfontaine trilogy. This book is not a compendium to Lacan's seminar. Instead it attempts to capture through shorter contributions a spectrum of voices debating, deliberating, and learning with Lacan's concept. In doing so it can be seen to engage with transference conceptually in a manner that matches the spirit of Lacan's seminar itself. The book will provide an invaluable new resource for Lacan scholars working across the fields of psychoanalytic theory, clinical psychology, philosophy and cultural studies.

On the Names-of-the-Father - Jacques Lacan
2013-10-07

What astonishing success the Name-of-the-Father has had! Everyone finds something in it.

Who one's father is isn't immediately obvious, hardly being visible to the naked eye. Paternity is first and foremost determined by one's culture. As Lacan said, "The Name-of-the-Father creates the function of the father." But then where does the plural stem from? It isn't pagan, for it is found in the Bible. He who speaks from the burning bush says of Himself that He doesn't have just one Name. In other words, the Father has no proper Name. It is not a figure of speech, but rather a function. The Father has as many names as the function has props. What is its function? The religious function par excellence, that of tying things together. What things? The signifier and the signified, law and desire, thought and the body. In short, the symbolic and the imaginary. Yet if these two become tied to the real in a three-part knot, the Name-of-the-Father is no longer anything but mere semblance. On the other hand, if without it everything falls apart, it is the symptom of a failed knotting. - Jacques-Alain Miller

The Object Relation - Jacques Lacan

2021-01-19

'The unfulfilled and unsatisfied mother around whom the child ascends the upward slope of his narcissism is someone real. She is right there, and like all other unfulfilled creatures, she is in search of what she can devour, quaerens quem devoret. What the child once found as a means of quashing the symbolic unfulfilment is what he may possibly find across from him again as a wide-open maw... To be devoured is a grave danger that our fantasies reveal to us. We find it at the origin, and we find it again at this turn in the path where it yields us the essential form in which phobia presents. We find it again when we look at the fears of Little Hans... With the support of what I have shown you today, you will better see the relationships between phobia and perversion... I will go so far as to say that you will interpret the case better than did Freud himself.' Extract from Chapter XI 'It's no accident that what has been perceived but

dimly, yet perceived nevertheless, is that castration bears just as much relation to the mother as to the father. We can see in the description of the primordial situation how maternal castration implies for the child the possibility of devoration and biting. In relation to this anteriority of maternal castration, paternal castration is a substitute.' Extract from Chapter XXI '[In the case of little Hans] the initial transformation, which will prove decisive, [is] the transformation of the biting into the unscrewing of the bathtub, which is something utterly different, in particular for the relationship between the protagonists. Voraciously to bite the mother, as an act or an apprehension of her altogether natural signification, indeed to dread in return the notorious biting that is incarnated by the horse, is something quite different from unscrewing, from ousting, the mother, and mobilising her in this business, bringing her into the system as a whole, for this first time as a mobile element

and, by like token, an element that is equivalent to all the rest.’ Extract from Chapter XXIII

The Ethics of Psychoanalysis - Jacques Lacan
2014-12-01

A charismatic and controversial figure, Lacan is one of the most important thinkers of the twentieth century and his work has revolutionized linguistics, philosophy, literature, psychology, cultural and media studies. He gained his reputation as a lecturer, disseminating his ideas to audiences that included Jean-Paul Sartre and Luce Irigaray amongst other hugely influential names. *The Ethics of Psychoanalysis* is a transcript of his most important lecture series. Including influential readings of Sophocles' *Antigone* and Elizabethan courtly love poetry in relation to female sexuality, *The Ethics of Psychoanalysis* remains a powerful and controversial work that is still argued over today by the likes of Judith Butler and Slavoj Žižek.

Joyce and Lacan - Daniel Bristow 2016-07-15

What happens when the intellectual giant of twentieth-century literature, James Joyce, is made an object of consideration and cause of desire by the intellectual giant of modern psychoanalysis, Jacques Lacan? This is what Joyce and Lacan explores, in the three closely interrelated areas of reading, writing, and psychoanalysis, by delving into Joyce's own relationship with psychoanalysis in his lifetime. The book concentrates primarily on his last text, *Finnegans Wake*, the notorious difficulty of which arises from its challenging the intellect itself, and our own processes of reading. As well as the centrality of the *Wake*, concepts of Joycean ontology, sanity, singularity, and sexuality are excavated from sustained analysis of his earliest writings onward. To be 'post-Joycean', as Lacan describes it, means then to be in the wake not only of Joyce, but also of Lacan's interventions on the Irish writer made in the mid-70s. It was this encounter that gave rise to concepts that have gained currency in today's

psychoanalytic theory and practice, and importance in wider critical contexts. The notions of the *sinthome*, *lalangue*, and Lacan's use of topology and knot theory are explored within, as well as new theories being launched. The book will be of interest to psychoanalysts, literary theorists, and students and teachers of literature, theory, or the works of Joyce and Lacan.

Jacques Lacan's Return to Freud - Philippe Julien 1995-07

Philippe Julien's *JACQUES LACAN'S RETURN TO FREUD* is an introduction to basic Lacanian thought and to the historical development of that thought from its earliest stirrings in 1932 to its efflorescence between 1953 and Lacan's death in 1981. The book's inspired focus on the stages of Lacan's transformatoin of the concepts of the real, the symbolic, and the imaginary offers a new take on the French analyst's emergence not as a 'Lacanian, ' but as a 'Freudian.'

Feminine Sexuality - Jacques Lacan 1985

Reexamines Freud's concepts of male and female sexual identity and discusses how feminine sexuality fits into modern psychoanalytic doctrine

Transference - Jacques Lacan 2017-09-05

"Alcibiades attempted to seduce Socrates, he wanted to make him, and in the most openly avowed way possible, into someone instrumental and subordinate to what? To the object of Alcibiades's desire – *ágalma*, the good object. I would go even further. How can we analysts fail to recognize what is involved? He says quite clearly: Socrates has the good object in his stomach. Here Socrates is nothing but the envelope in which the object of desire is found. It is in order to clearly emphasize that he is nothing but this envelope that Alcibiades tries to show that Socrates is desire's serf in his relations with Alcibiades, that Socrates is enslaved to Alcibiades by his desire. Although Alcibiades was aware that Socrates desired him, he wanted to see Socrates's desire manifest

itself in a sign, in order to know that the other – the object, *ágalma* – was at his mercy. Now, it is precisely because he failed in this undertaking that Alcibiades disgraces himself, and makes of his confession something that is so affectively laden. The daemon of Αἰδώς (*Aidós*), Shame, about which I spoke to you before in this context, is what intervenes here. This is what is violated here. The most shocking secret is unveiled before everyone; the ultimate mainspring of desire, which in love relations must always be more or less dissimulated, is revealed – its aim is the fall of the Other, A, into the other, a." Jacques Lacan

Death, Dying, and Mysticism - Thomas Cattoi
2015-04-01

Contemporary society tends to conceal death and the dying process from public view, seeking to erase them from our consciousness. This attitude of denial stands in great contrast to the approach of the great spiritual traditions of humanity, for which the dying process was an

integral and often crucial part of our own spiritual practice. This volume offers a sample of reflections from scholars and practitioners on the theme of death and dying from scholars and practitioners, ranging from the Christian tradition to Hinduism, Lacanian psychoanalysis, while also touching on the themes of the afterlife and near-death experiences.

The Lacanian Review 7 - Jacques-Alain Miller
2019-05

The Lacanian Review (TLR) is a semiannual English-language journal of psychoanalysis, with bilingual (French - English) presentations of texts by Jacques Lacan and Jacques-Alain Miller. TLR publishes writing from prominent international figures of the Lacanian Orientation, featuring new theoretical developments in psychoanalysis, testimonies of the pass, dialogues with other discourses, and articles on contemporary culture, politics, art and science. Each issue explores a theme intersecting the symptoms of our era and

emerging work in the New Lacanian School (NLS) and the World Association of Psychoanalysis (WAP). In our Post-Truth era, reality is under attack. The contemporary moment is disoriented by fake news, chatbots, conspiracy theories and a digital flood of leaks, lies and revelations. On hold with automated phone answering services, one pleads to just talk to a real person. But we are also complicit, enjoying online avatars, virtual reality, augmented reality and cryptocurrency fueled binges. Over a century ago, psychoanalysis learned from psychotic subjects that chasing after reality is folly. Reality is just another delusion in the service of the fantasy. To find an orientation amidst the proliferating loss of belief in reality experienced today, psychoanalysis must shift the question to find an exit from the reality trap. In its 7th issue, *The Lacanian Review* interrogates what is real in psychoanalysis. TLR7 introduces a landmark translation by Philip Dravers of the late Lacan's

momentum and polyphonic address, "The Third," followed by texts exploring the Borromean clinic. Marie-Helene Brousse curates a dossier that approaches the subject of the real through dialogue with quantum physics and new work by Philippe de Georges and Clotilde Leguil. Interviews with Matteo Barsuglia, astrophysicist at the National Center for Scientific Research in France and Catherine Pépin, researcher at the Institute of Theoretical Physics (IPhT) of the Atomic Energy Center at Saclay (France), advance a critical conversation between two discourses that delineates what we call reality and real. Three new translations of Jacques-Alain Miller, published for the first time in English, examine truth, fiction and science in relation to the real as the impossible, but also the contingent. These lessons question whether we are in a Post-Truth era or the era of the Lying-Truth. Attesting to the singular experience of the real in psychoanalysis, TLR 7 presents three testimonies of the pass of current Analysts of the

School. Clinical cases, the politics of the real, biotechnology, and Lady Gaga with Hamlet are all assembled in this issue of The Lacanian Review, a journal which might not be of a semblant. Get Real!TLR is published by the New Lacanian School (amp-nls.org) and distributed by the Lacanian Compass Bookshop (lacaniancompass.com) and Eurl Huysmans (ecf-echope.com).

Desire and its Interpretation - Jacques Lacan
2021-02-01

What does Lacan show us? He shows us that desire is not a biological function; that it is not correlated with a natural object; and that its object is fantasized. Because of this, desire is extravagant. It cannot be grasped by those who might try to master it. It plays tricks on them. Yet if it is not recognized, it produces symptoms. In psychoanalysis, the goal is to interpret—that is, to read—the message regarding desire that is harbored within the symptom. Although desire upsets us, it also inspires us to invent artifices

that can serve us as a compass. An animal species has a single natural compass. Human beings, on the other hand, have multiple compasses: signifying montages and discourses. They tell you what to do: how to think, how to enjoy, and how to reproduce. Yet each person's fantasy remains irreducible to shared ideals. Up until recently, all of our compasses, no matter how varied, pointed in the same direction: toward the Father. We considered the patriarch to be an anthropological invariant. His decline accelerated owing to increasing equality, the growth of capitalism, and the ever-greater domination of technology. We have reached the end of the Father Age. Another discourse is in the process of taking the former's place. It champions innovation over tradition; networks over hierarchies; the draw of the future over the weight of the past; femininity over virility. Where there had previously been a fixed order, transformational flows constantly push back any and all limits. Freud was a product of the Father

Age. He did a great deal to save it. The Catholic Church finally realized this. Lacan followed the way paved by Freud, but it led him to posit that the father is a symptom. He demonstrates that here using Hamlet as an example. What people have latched onto about Lacan's work—his formalization of the Oedipus complex and his emphasis on the Name-of-the-Father—was merely his point of departure. Seminar VI already revises this: the Oedipus complex is not the only solution to desire, it is merely a normalized form thereof; it is, moreover, a pathogenic form; it does not exhaustively explain desire's course. Hence the eulogy of perversion with which this seminar ends: Lacan views perversion here as a rebellion against the identifications that assure the maintenance of social routines. This Seminar predicted "the revamping of formally established conformisms and even their explosion." We have reached that point. Lacan is talking about us.

Lacan's Four Fundamental Concepts of

Psychoanalysis - Roberto Harari 2020-09-08
The informal tone of these ten lectures by Roberto Harari reflects their original character as classes held at El Centro de Extension Psicoanalitica del Centro Cultural General, San Martin Buenos Aires. Destined for a wider audience than just the psychoanalytical camp, Harari's work presents the Lacanian endeavor without presupposition of specialized knowledge—and yet without conceding intellectual subtlety. Harari provides an introductory display of essential themes developed in Lacan's Four Fundamental Concepts of Psychoanalysis, and offers his own insightful reading of the text's central ideas. These ten classes, sparked by the crucial Seminar XI within the teaching of Lacan, reframe a wide range of questions in psychoanalysis for the professional in the field, scholars and students across disciplines, and interested lay readers. Harari is so at ease with Lacan's oeuvre that he can dismantle and

rebuild its structure so that order and logic suddenly appear inherent to Lacan's way of thinking. The unconscious, transference, repetition, and the drive are here reintroduced, not only to do justice to Freud's insights, but also to link these concepts to the larger question of the complex relationships between psychoanalysis, religion, and science. Harari's didactic approach and his analytic style come together to bring us one step closer to understanding Lacan and one step closer to understanding ourselves.
