*World Development Report
2016 - World Bank Group
2016-01-14
Digital technologies are*

spreading rapidly, but digital dividends--the broader benefits of faster growth, more jobs, and better services--are not. If more than 40 percent of adults in East Africa pay their utility bills using a mobile phone, why can't others around the world do the same? If 8 million entrepreneurs in China--one third of them women--can use an e-commerce platform to export goods to 120 countries, why can't entrepreneurs elsewhere achieve the same global reach? And if India can provide unique digital identification to 1 billion people in five years, and thereby reduce corruption by billions of dollars, why can't other countries replicate its success? Indeed, what's holding back countries from realizing the profound and transformational effects that digital technologies are supposed to deliver? Two main reasons. First, nearly 60 percent of the world's population are still offline and can't participate in the digital economy in any meaningful way. Second, and more

important, the benefits of digital technologies can be offset by growing risks. Startups can disrupt incumbents, but not when vested interests and regulatory uncertainty obstruct competition and the entry of new firms. Employment opportunities may be greater, but not when the labor market is polarized. The internet can be a platform for universal empowerment, but not when it becomes a tool for state control and elite capture. The World Development Report 2016 shows that while the digital revolution has forged ahead, its 'analog complements'--the regulations that promote entry and competition, the skills that enable workers to access and then leverage the new economy, and the institutions that are accountable to citizens--have not kept pace. And when these analog complements to digital investments are absent, the development impact can be disappointing. What, then, should countries do? They should formulate digital

development strategies that are much broader than current information and communication technology (ICT) strategies. They should create a policy and institutional environment for technology that fosters the greatest benefits. In short, they need to build a strong analog foundation to deliver digital dividends to everyone, everywhere.

Agriculture, Forestry and Fishery Statistics - Edward Cook 2020

Agriculture, forestry and fishery statistics provides a selection of recent, topical data. Information is presented for the European Union (EU) and its Member States, and is supplemented (when available) with data for the United Kingdom, EFTA members, candidate countries to the EU and potential candidates. This publication aims to cover some of the most popular data within the domain of agriculture, forestry and fishery statistics as well as some of the wider food chain. It may be viewed as an introduction to European

statistics in this area and provides a starting point for those who wish to explore the broad range of data that are freely available on Eurostat's website.

Cultural Mobility - Stephen Greenblatt 2010

Cultural Mobility offers a model for understanding the patterns of meaning that human societies create. It has emerged under the very distinguished editorial guidance of Stephen Greenblatt and represents a new way of thinking about culture and cultures with which scholars in many disciplines will need to engage.

Reshaping Accounting and Management Control Systems -

Katia Corsi 2017-03-21

This book examines the relationship between digital innovations on the one hand, and accounting and management information systems on the other. In particular it addresses topics including cloud computing, data mining, XBRL, and digital platforms. It presents an analysis of how new

technologies can reshape accounting and management information systems, enhancing their information potentialities and their ability to support decision-making processes, as well as several studies that reveal how managerial information needs can affect and reshape the adoption of digital technologies. Focusing on the four major aspects data management, information system architecture, external and internal reporting, the book offers a valuable resource for CIOs, CFOs and more generally for business managers, as well as for researchers and scholars. It is mainly based on a selection of the best papers - original double blind reviewed contributions - presented at the 2015 Annual Conference of the Italian Chapter of the Association for Information Systems (AIS).

Sustainable Development Report 2021 - Jeffrey Sachs
2021-10-14

The Sustainable Development Report 2021 features the SDG

Index and Dashboards, the first and widely used tool to assess country performance on the UN Agenda 2030 and the Sustainable Development Goals. The report analyses and outlines what needs to happen for the Decade of Action and Delivery of the SDGs. In order to build back better following the Covid-19 pandemic, especially low-income countries will need increased fiscal space. The report frames the implementation of the SDGs in terms of six broad transformations. The authors examine country performance on the SDGs for 193 countries using a wide array of indicators, and calculate future trajectories, presenting a number of best practices to achieve the historic Agenda 2030. The views expressed in this report do not reflect the views of any organizations, agency or programme of the United Nations. This title is available as Open Access on Cambridge Core.

Doing Business 2013 - World Bank 2012-10-22

Tenth in a series of annual

reports comparing business regulations in 185 economies, Doing Business 2013 measures regulations affecting 11 areas of everyday business activity around the world.

Sharing Cities - Shareable
2018-03-13

"Sharing Cities: Activating the Urban Commons" showcases over a hundred sharing-related case studies and model policies from more than 80 cities in 35 countries. It both witnesses a growing global movement and serves as a practical reference guide for community-based solutions to urgent challenges faced by cities everywhere. This book is a call to action meant to inspire readers with ideas, raise awareness of the impressive range of local efforts, and strengthen the sharing movement worldwide. "Sharing Cities" shows that not only is another world possible, but that much of it is already here.

Mobility, Data Mining and Privacy - Fosca Giannotti
2008-01-12

Mobile communications and ubiquitous computing generate

large volumes of data. Mining this data can produce useful knowledge, yet individual privacy is at risk. This book investigates the various scientific and technological issues of mobility data, open problems, and roadmap. The editors manage a research project called GeoPKDD, Geographic Privacy-Aware Knowledge Discovery and Delivery, and this book relates their findings in 13 chapters covering all related subjects.

World Development Report 2019 - World Bank 2018-10-31
Work is constantly reshaped by technological progress. New ways of production are adopted, markets expand, and societies evolve. But some changes provoke more attention than others, in part due to the vast uncertainty involved in making predictions about the future. The 2019 World Development Report will study how the nature of work is changing as a result of advances in technology today. Technological progress disrupts existing systems. A new social contract is needed

to smooth the transition and guard against rising inequality. Significant investments in human capital throughout a person's lifecycle are vital to this effort. If workers are to stay competitive against machines they need to train or retool existing skills. A social protection system that includes a minimum basic level of protection for workers and citizens can complement new forms of employment. Improved private sector policies to encourage startup activity and competition can help countries compete in the digital age. Governments also need to ensure that firms pay their fair share of taxes, in part to fund this new social contract. The 2019 World Development Report presents an analysis of these issues based upon the available evidence.

L'elettrotecnica - 1918

The Routledge Companion to Intellectual Capital

James Guthrie 2017-09-22

The Routledge Companion to Intellectual Capital offers a

comprehensive overview of an important field that has seen a diverse range of developments in research in recent years. Edited by leading scholars and with contributions from top academics and practitioners from around the world, this volume will provide not just theoretical analysis but also evaluate practice through case studies. Combining theoretical and practice perspectives, this comprehensive Companion addresses the role of IC inside and between organisations and institutions and how these contribute to the IC of nations, regions and clusters. Drawing on an extensive range of leading contributors, The Routledge Companion to Intellectual Capital will be of interest to scholars who want to understand IC from a variety of perspectives, as well as students who are seeking an authoritative and comprehensive source on IC and knowledge management.

Adult Learning in the Social Context - Peter Jarvis
2012-04-27

This book is a logical

progression from The Sociology of Adult and Continuing Education. The author takes a completely new approach to the subject and puts forward a model of adult learning which is analysed in depth. This model arises from the results of a research project in which adults analysed their own learning experiences.

Reframing Consciousness - Roy Ascott 1999

We are in the middle of a process of complex cultural transformation, but to what extent is this matched by the transformation in the way we see ourselves? This book covers a wide-ranging discussion on the interaction between Art, Science and Technology, and goes on to challenge assumptions about 'reality'. Loosely themed around four key elements of Mind, Body, Art and Values, the editor leads the investigation through the familiar territories of interactive media and artificial life, combining them with new and ancient ideas about creativity and personal

identity. The contributing authors numb.

The Regulation of Entry - 2001

International Direct Investment - 1984

Catalogo dei libri in commercio - 1997

The United Nations world water development report 2019 - WWAP 2019-03-19

Access to water and sanitation is internationally recognized human right. Yet more than two billion people lack even the most basic of services. The latest United Nations World Water Development Report, Leaving No One Behind, explores the symptoms of exclusion and investigates ways to overcome inequalities.

Why the Garden Club Couldn't Save Youngstown -

Sean Safford 2009-01-31

In this book, Sean Safford compares the recent history of Allentown, Pennsylvania, with that of Youngstown, Ohio. Allentown has seen a noticeable rebound over the course of the past twenty

years. Facing a collapse of its steel-making firms, its economy has reinvented itself by transforming existing companies, building an entrepreneurial sector, and attracting inward investment. Youngstown was similar to Allentown in its industrial history, the composition of its labor force, and other important variables, and yet instead of adapting in the face of acute economic crisis, it fell into a mean race to the bottom. Challenging various theoretical perspectives on regional socioeconomic change, *Why the Garden Club Couldn't Save Youngstown* argues that the structure of social networks among the cities' economic, political, and civic leaders account for the divergent trajectories of post-industrial regions. It offers a probing historical explanation for the decline, fall, and unlikely rejuvenation of the Rust Belt. Emphasizing the power of social networks to shape action, determine access to and control over information and resources, define the contexts

in which problems are viewed, and enable collective action in the face of externally generated crises, this book points toward present-day policy prescriptions for the ongoing plight of mature industrial regions in the U.S. and abroad.

Understanding Financial Accounts - OECD 2017-11-06

Understanding Financial Accounts seeks to show how a range of questions on financial developments can be answered with the framework of financial accounts and balance sheets, by providing non-technical explanations illustrated with practical examples.

Essentials of Marketing Communications - Jim Blythe 2006

Essentials of Marketing Communications 3rd edition gives students a concise overview of the strategic and tactical decision-making processes involved in marketing communications. It also links the current theories of marketing communications to consumer behaviour issues as well as explaining how

marketing communications works in the real world. The text is ideal for those studying marketing communications for the first time.

The Balanced Scorecard - Robert S. Kaplan 2005

Intellectual Capital in the Digital Economy - Patricia Ordóñez de Pablos 2020-04-21

This book presents a global view of digital and knowledge-based economies and analyses the role of intellectual capital, intellectual capital reports and information technology in achieving sustained competitive advantages in the globalized economy.

Intellectual Capital in the Digital Economy reviews the state of the art in the field of intellectual capital and intellectual capital reports, exploring core concepts, strengths and weaknesses, gaps, latest developments, the main components of intellectual capital, the main sections of the reports, and indicators of each component. It presents experiences from pioneering companies and

institutions in measuring intellectual capital around the world. It incorporates an interdisciplinary and cross-sectorial approach, offering a comparative view of intellectual capital reports elaborated in different regions of the world. This book presents case studies and experiences on the building of intellectual capital reports in organizations. In addition, the book discusses the benefits and challenges of building intellectual capital reports in smart economies and societies. This book is of direct interest to researchers, students and policymakers examining intellectual capital and the knowledge-based economy.

Community Action and Planning - Gallent, Nick 2016-04-20

Analyses the contexts, drivers and outcomes of community action and planning in the global north: from emergent neighbourhood planning in England to the community-based housing movement in New York, and from active citizenship in the Dutch new

towns to associative action in Marseille.

Grande dizionario della lingua italiana - Salvatore Battaglia 1961

Advances in Sociological Knowledge - Nikolai Genov
2013-06-29

Das englischsprachige Buch zieht eine Bilanz der widersprüchlichen intellektuellen Entwicklung der Soziologie über ein halbes Jahrhundert. Die Disziplin braucht diese Aufarbeitung der eigenen Erfahrung, um mit den neuen sozialen und kognitiven Herausforderungen fertig zu werden.

The First Outstanding 50 Years of "Università Politecnica delle Marche" - Sauro Longhi 2020-01-03

The book describes significant multidisciplinary research findings at the Università Politecnica delle Marche and the expected future advances. It addresses some of the most dramatic challenges posed by today's fast-growing, global society and the changes it has caused, while also discussing

solutions to improve the wellbeing of human beings. The book covers the main research achievements made in the social sciences and humanities, and includes chapters that focus on understanding mechanisms that are relevant to all aspects of economic and social interactions among individuals. In line with Giorgio Fuà's contribution, the interdisciplinary research being pursued at the Faculty of Economics of Università Politecnica delle Marche is aimed at interpreting the process of economic development in all of its facets, both at the national and local level, with a particular focus on profit and non-profit organizations. Various disciplines are covered, from economics to sociology, history, statistics, mathematics, law, accounting, finance and management.

Integrated Reporting - Chiara Mio 2016-08-11

This book is a timely addition to the fast-growing international debate on

Integrated Reporting, which offers a holistic view of the evolution and practice of Integrated Reporting. The book covers the determinants and consequences of Integrated Reporting, as well as examining some of the most relevant issues (particularly in the context of the United States) in the debate about Integrated Reporting.

RenGen - Patricia Martin
2007-06-28

Ideas - and the forms in which they are expressed - are the new currency. Yet many companies, the media, and even the general population mistakenly see America as an intellectual and cultural wasteland defined by reality television and fast food.

RenGen is about the rise of the next "renaissance generation" - an emerging section of the American public who are enlightened, creative, and eager to challenge the status quo. RenGen draws a new picture of the American consumer as a thinking, expressive person and examines the factors that are

giving rise to this renaissance, including: a new class of workers dedicated to creating innovation a growing desire to express new ideas and concepts aesthetically and, a new respect for learning-fueled by the Internet, a medium that links ideas, information, and visuals and connects people across communities Based on original research, RenGen gives leaders a lens through which to consider important business decisions.

[Determinants of Information Technology Outsourcing: A Cross-Sectional Analysis](#) -

Lawrence Loh 2018-11-10

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough

to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Produttività - 1957

Network, Smart and Open -

Rita Lamboglia 2018-02-04

This book presents a collection of original research papers addressing the relationship between information systems (IS) and innovation. “Open”, “Smart” and “Network” are three keywords that are currently guiding information systems (IS) innovation, enhancing IS potentialities and their ability to support decision-making processes. The book discusses the relevance of these three new concepts in connection with technological and organizational innovations

(i.e. cloud, smart technologies and networking), and the role they play in the development of accounting and management information systems. The book’s primary aim is to investigate how these innovations could influence information systems (with a particular focus on accounting and management information systems) by enhancing their information potentialities and improving accounting methodologies, performance measurement systems, data management, information systems architectures, and external and internal reporting. The book is based on a selection of the best papers—original double-blind reviewed contributions—presented at the 2016 Annual Conference of the Italian Chapter of the Association for Information Systems (AIS).

Alliance Advantage - Yves L. Doz 1998

Argues that corporations need to pursue joint ventures--even those with their competition--and offers strategies for

creating profitable
partnerships

Net Worth - John Hagel 1999

Argues that in the future, customers will control and provide information about themselves only through intermediaries that work in their interest

Business History - Franco Amatori 2013-03-01

This major new textbook on business history brings together the expertise of two internationally renowned authors to provide a thorough overview of the developments in business - from just before the industrial revolution right up to the present day. Business History is global in scope and looks at the major players - Europe, the US and Japan - as well as emerging economies, such as China and India. Focusing mainly on 'big business', Amatori and Colli critically analyze 'the firm' and its interaction with the evolution of economic, technological and political systems at the micro and macro levels. This up-to-date textbook is an exceptional

resource for students on economic and business history courses, as well as for practitioners interested in broadening their understanding of business.

Principles of Marketing - Gary M. Armstrong 2018

An introduction to marketing concepts, strategies and practices with a balance of depth of coverage and ease of learning. Principles of Marketing keeps pace with a rapidly changing field, focussing on the ways brands create and capture consumer value. Practical content and linkage are at the heart of this edition. Real local and international examples bring ideas to life and new feature 'linking the concepts' helps students test and consolidate understanding as they go. The latest edition enhances understanding with a unique learning design including revised, integrative concept maps at the start of each chapter, end-of-chapter features summarising ideas and themes, a mix of mini and major case studies to

illuminate concepts, and critical thinking exercises for applying skills.

Il fattore umano dell'impresa. L'Azienda Elettrica Municipale di Milano e il welfare aziendale nell'Italia del secondo dopoguerra - Augusto Ciuffetti 2017

Crossing the Quality Chasm - Institute of Medicine 2001-08-19

Second in a series of publications from the Institute of Medicine's Quality of Health Care in America project Today's health care providers have more research findings and more technology available to them than ever before. Yet recent reports have raised serious doubts about the quality of health care in America. *Crossing the Quality Chasm* makes an urgent call for fundamental change to close the quality gap. This book recommends a sweeping redesign of the American health care system and provides overarching principles for specific direction for policymakers, health care

leaders, clinicians, regulators, purchasers, and others. In this comprehensive volume the committee offers: A set of performance expectations for the 21st century health care system. A set of 10 new rules to guide patient-clinician relationships. A suggested organizing framework to better align the incentives inherent in payment and accountability with improvements in quality. Key steps to promote evidence-based practice and strengthen clinical information systems. Analyzing health care organizations as complex systems, *Crossing the Quality Chasm* also documents the causes of the quality gap, identifies current practices that impede quality care, and explores how systems approaches can be used to implement change.

De Ingeneis: Text - Mariano Taccola 1984

English description: With the rediscovery of Mariano Taccola's technical manuscripts, a primary source has been found for drawings and texts in treatises and

sketchbooks of Francesco di Giorgio Martini. Taccola first conceived a new subject in Renaissance literature: rational descriptions and illustrations of utilitarian structures built by master masons, carpenters, millwrights, and artisans in the service of military lords. Taccola's complex and fascinating manuscript is being published fully in facsimile. It was a gift to Johann Albrecht Widmannstetter who studied law (1533-1542) in Siena, probably at the Studio or University where Taccola had been secretary while writing in the building arts. The volume that Taccola entitled "Liber primus leonis" and "Liber secundis draconis" was modified into a "Notebook" when he, in 1435-1438, added many small sketches around each main drawing existing on a folio, and added quires of paper after Book II for additional and later drawings. This edition includes, in the editors' introduction, a short biography of Mariano Taccola, a history of his "Notebook", a description of its sections, an

account of Taccola's contribution to the history of technology, and a study of his influence. Each of Taccola's several hundred drawings is identified, his Latin texts and notes are all transcribed and then translated into English. In one Appendix, the editors illustrate and interpret eight drawings identified as copies of Taccola's originals lost from his "Notebook", and a second Appendix concerns the designs of mills, pile-drivers, and water-supply devices of a Machine Complex that other engineers developed from prototypes in Taccola's "Notebook". German description: Mit der Wiederentdeckung der technischen Handschriften Mariano Taccolas wurde auch die Quelle für die Zeichnungen und Texte in den Abhandlungen und Skizzenbüchern Francesco di Giorgio Martinis entdeckt. Taccola behandelte als erster ein neues Thema in der Renaissance-literatur: die rationale Beschreibung und Illustration von Zweckbauten.

Das Werk, das Taccola ursprünglich als "Liber primus leonis" und "Liber secundus draconis" angelegt hatte, bekam nach und nach den Charakter eines Notizbuchs, als den Hauptzeichnungen mehrere kleinere Skizzen hinzugefügt und mehrere lose Blätter mit technischen Zeichnungen beigelegt wurden. Die Handschrift war ein Geschenk an Johann Albrecht Widmannstetter, der sich einige Jahre in Siena aufhielt. Aus der Sammlung dieses Humanisten gelangte sie anschliessend nach München. Die vorliegende Faksimileausgabe enthält neben einer kurzen Biographie Mariano Taccolas die Geschichte dieses Notizbuchs, eine Beschreibung der einzelnen Abschnitte sowie Taccolas Bedeutung für

Wissenschaft und Technik der Renaissance. Jede der mehreren hundert Zeichnungen wird erläutert, Taccolas lateinische Beschreibungen der Maschinen werden in Transkription wiedergegeben und ins Englische übersetzt. Ein Anhang enthält die Zeichnungen zu Mühlen, Pfahlrammen und Entwurfszeichnungen zu Wasserleitungssystemen, die später nach Taccolas Modellen aus dem "Notebook" entwickelt wurden.

Corporate Governance Strengthening Latin American Corporate Governance The Role of Institutional Investors - OECD 2011-07-01

This report reflects long-term, in-depth discussion and debate by participants in the Latin American Roundtable on Corporate Governance.
