Sustainable Entrepreneurship - Christina Weidinger 2013-08-13

Sustainable Entrepreneurship stands for a business driven concept of sustainability which focusses on increasing both social as well as business value - so called Shared Value. This book shows why and how this unique concept has the potential to become the most recognised strategic management approach in our times. It aims to point out the opportunities that arise from putting sustainable entrepreneurship into practice. At the same time, this book is a wake-up call for all those companies and decision makers who underestimated Sustainable Entrepreneurship before or who are simply not aware of its greater dimension. Well structured chapters from different academic and business perspectives clearly outline how Sustainable Entrepreneurship contributes to solving the world's most challenging problems, such as Climate Change, Finance Crisis and Political Uncertainty, as well as to ensuring business success. The book provides a framework of orientation where the journey might go: What can a successful concept of SE look like? What are the key drivers for its realisation? What is the role of business in shaping the future of our society? The book also presents best practices and provides unique learnings as well as business insights from the international Sustainable Entrepreneurship Award (www.se-award.org). The Sustainable Entrepreneurship Award (short SEA) is an award for companies today who are thinking about tomorrow by making sustainable business practices an integral part of their corporate culture. Companies that receive the SEA are being recognised for the vision they have shown in combining economic and sustainable responsibility.

Entrepreneurship and Small Business - Paul Burns 2016-03-18

The new edition of this market-leading textbook provides a holistic introduction to the academic study of entrepreneurship and offers practical guidance for prospective entrepreneurs. Adopting a life-cycle view of a business from start-up to maturity, it explores the many stages and forms of entrepreneurship. With an international outlook and expert synthesis of both theoretical foundations and lessons from real-life business practice, the book offers a complete course guide, fostering entrepreneurial talent, thinking and skills. The author's engaging style and unrivalled expertise drawn from a long-ranging career (as an academic, accountant and entrepreneur) make the book accessible and authoritative. This is an ideal textbook for those studying Entrepreneurship or Small Business on undergraduate business or management degree courses, as well as on MBA programmes. It will also appeal to those looking to launch their own businesses. New to this Edition: - Updated international case studies from entrepreneurs and small businesses, ranging from Oman to Australia - First-hand, detailed stories from real-life entrepreneurs in brand new video interviews integrated throughout the text - Increased and integrated coverage of social and civic enterprise and hot topics such as effectuation and lean entrepreneurship

Entrepreneurship - Sílvia Manuel Brito 2018-04-04

Entrepreneurship is a powerful attitude that, in such a way, in the last few years, has become a discipline increasingly transversal to different areas of knowledge. Many times, we think about the things we want such as a good house, a brand new car, a beautiful relationship, a good friendship, and a good way to be in the world. Is that possible that you convert into an entrepreneur? This book shows some examples of that possibility, from simple people to a big organization. In all cases, if you become an entrepreneur, it will be for your taste and pleasure, a means to survive and enjoy the uncertainty, and rejoice that you have all these in your hands and will. Can you find out the trends and overcome the challenges? We would say yes.

It all depends on whether you want to develop and apply this attitude.

The Monk and the Riddle - Randy Komisar 2001

A book about how to make work pay and not just in cash, but in experience, satisfaction, and joy.

Enterprise and Culture - Colin Gray 2002-01-08

Enterprise and Culture is a uniquely wide-ranging, insightful and well-informed critical evaluation of the economic and social project of creating an enterprise culture. Colin Gray argues that the failure of small enterprise policy is not just a question of economics, but is also caused by psychological and cultural factors. The book demonstrates that the individualism at the centre of enterprise culture policies is, itself, the main impediment to the successful growth and development of small enterprises.

The Entrepreneurial Personality - Elizabeth Chell 2008-05-09

Is there such a thing as an 'entrepreneurial personality'? What makes someone an entrepreneur is a question that has intrigued the lay person and the scholar for many years, but can such a personality be identified or is it simply a socially constructed phenomenon? Elizabeth Chell pursues an alternative line of argument: to show that the entrepreneurial personality is, on the one hand, socially constructed, but on the other hand, presents consistency in behaviours, skills and competencies. This second edition of the highly acclaimed *The Entrepreneurial Personality* revisits the topic and updates the evidence from a multi-disciplinary perspective. The book carefully weaves together the arguments and views from economists, sociologists and psychologists in order to develop a strong conceptual foundation. It discusses the inferences that these experts have made about the nature of entrepreneurs and the entrepreneurial process, and explores whether such evidence has enabled psychometricians to develop robust instruments for assessing the characteristics of entrepreneurs. The evidence for a range of purported traits is reviewed and the models and research designs of interested social scientists are explained and evaluated. Throughout, Chell laces her argument richly with a set of cases derived from primary and secondary sources. This book presents a timely set of views on the entrepreneurial personality, and will be of great interest to academics in the fields of entrepreneurship, economics, management, applied psychology and sociology. This accessible text will also appeal to the interested general reader, as well as practitioners and consultants dealing with entrepreneurs in the field.

Portfolio Entrepreneurship in Slovakia - Branislav Zurik 2014-07-17

Business in the beginning of the 21-st century faces very turbulent times as the developments on the debt-crises have threatened the European market. These turbulent times are characterized by doubts on financial markets, the rising of state taxes and inflation, which turns also in difficulties for small and medium sized enterprises. Especially the group of small and medium sized enterprises, which cannot benefit from economies of scale and scope and other advantages, are threatened the most. It requires special alertness in spotting ideas and to combine resources to overcome this entrepreneurial disaster crossing Europe. Especially for small export-oriented countries like Slovakia, which depends on foreign trade, must handle this situations very patient and carefully in order to protect their own small and medium sized enterprises and thus its employment rate. [...] Accordingly this thesis represents a complex view about portfolio entrepreneurs with special focus on a region of the Slovak Republic, which is the country of analysis. It delivers new insights about the personality and abilities, capabilities, skills and traits of portfolio entrepreneurs. Thus delivers a special significance for the development of portfolio entrepreneurship,

which is derived from the entrepreneurship research. Furthermore this diploma thesis represents a kind of forerunner in this research area for the Slovak Republic as no comparable research done on this theme could be researched during the conducting of the analysis. The reader will have the chance to find out valuable information about the state of the art literature contributed by other authors in the theoretical part of this thesis. This literature research has been developed from English speaking literature and is notified at the end of the diploma thesis, what makes it affordable for subsequent studies. Subsequently, the results of this study, which has been built on the grounds of extensive literature review, will be presented in the results part. These results have been obtained by a series of in-depth interviews with researched successful portfolio entrepreneurs. In consequence the results come up with new, until now not researched results presented in a very user friendly kind, enriched by citations of portfolio entrepreneurs, expressed during the in-depth interview. [...]

Lovemarks - Kevin Roberts 2005-12-01

"Ideas move mountains, especially in turbulent times. Lovemarks is the product of the fertile-iconoclast mind of Kevin Roberts, CEO Worldwide of Saatchi & Saatchi. Roberts argues vociferously, and with a ton of data to support him, that traditional branding practices have become stultified. What's needed are customer Love affairs. Roberts lays out his grand scheme for mystery, magic, sensuality, and the like in his gloriously designed book Lovemarks." —Tom Peters Tom Peters, one of the most influential business thinkers of all time, described the first edition of Lovemarks: the future beyond brands as "brilliant." He also announced it as the "Best Business Book" published in the first five years of this century. Now translated into fourteen languages, with more than 150,000 copies in print, Lovemarks is back in a revised edition featuring a new chapter on the peculiarly human experience of shopping. The new chapter, "Diamonds in the Mine," is an insightful collection of ideas for producers and consumers, for owners of small stores and operators of superstores. So forget making lists! Shopping, says Kevin Roberts, is an emotional event. With this as a starting point, he looks at the history of shopping and how it has changed so dramatically over the last ten years. Using the Lovemark elements of Mystery, Sensuality, and Intimacy, Roberts delves into the secrets of success that can be used to create the ultimate shopping experience.

Entrepreneurship, Innovation and Business Clusters - Panos G. Piperopoulos 2016-04-29

In Entrepreneurship, Innovation and Business Clusters, Panos Piperopoulos provides a comprehensive introduction to what entrepreneurship is all about, how and why entrepreneurs innovate and how innovation systems operate. Small and medium enterprises (SMEs) constitute the backbone of most economies, so the author examines their characteristics and the crucial role played by the owners and entrepreneurs who innovate to ensure the survival and continued growth of their firms. He also includes the particular phenomena that arise where the entrepreneurs are either female or from ethnic groups, or where the context is that of a developing region or country. The importance of co-operative strategic alliances and networks between firms is discussed, along with how these strengthen SMEs' competitiveness. The concept of open innovation has been proposed as a new paradigm for the management of innovation and the author presents a hypothetical model for enhancing the competitiveness and performance of SMEs by properly utilizing employees' creative potential, emotional intelligence, tacit knowledge and innovative ideas. The contemporary model of business clusters, involving partnerships with competitors, agents, universities, research centres and local, regional and national governments is discussed. The ways, means and methods through which SMEs' competitiveness and innovation can be enhanced within business clusters is illustrated by cases that identify four types of SMEs, that behave differently and play different roles in the networks and clusters of which they form a part, but all of whose performance and competitiveness is a function of their position and role in the wider scheme of things.

Small Business Management and Entrepreneurship - David Stokes 2006

Now in its 5th edition this comprehensive, practically focused and highly accessible text explores the contexts, choices and strategies facing the small business venture, including extensive coverage of planning a new venture. Pedagogical features developed in response to market feedback include running case material to explore the same case situation from a number of different but interrelated angles, annotated further reading, new chapter-end real world case studies, learning objectives and linked chapter summaries – providing a student- and lecturer-friendly learning environment. Historically informed performance (HIP) has provoked heated debate amongst musicologists, performers and cultural sociologists. In The Art of Re-enchantment: Making Early Music in the Modern Age, author Nick Wilson answers many salient questions surrounding HIP through an in-depth analysis of the early music movement in Britain from the 1960s to the present day.

Enterprise Development in SMEs and Entrepreneurial Firms: Dynamic Processes - Ndubisi, Nelson Oly 2013-02-28

In order to increase the economic opportunities available, enterprise development plays a crucial role in the progression of socio-economic development for small and medium enterprises. Enterprise Development in SMEs and Entrepreneurial Firms: Dynamic Processes explores the process of enterprise development and its reconstruction of entrepreneurial identities, critical competencies as well as market turnaround for SMEs. This book aims to be a critical resource in the understanding of enterprise strategies adopted and lessons learned for management development. It is a successful resource for students, researchers and professionals interested in the growth SMEs.

Small Business Management - David Stokes 2000-10-01

Entrepreneurship in the Balkans - Veland Ramadani 2013-05-13

This book represents a comprehensive state-of-the-art picture of entrepreneurship and small business management issues in the Balkans region. It provides major theoretical and empirical evidence that offers a brighter view of these fields and aims to open up opportunities for greater dialogue in public policy. The readers would be able to enhance their knowledge on small businesses and innovation issues in the Balkans. An outcome of a long lasting endeavour, this book includes contributions of highly reputed authors and experts from the Balkans' countries. Features forewords by two well-known personalities of this field, Leo Paul Dana and Alain Fayolle.

Innovation and Entrepreneurship - Elias G. Carayannis 2014-10-29

This book aims to meet the needs of education and training in modern techniques of innovation and entrepreneurship, and focuses on the detailed presentation of successful business practices. As today's global economic landscape is changing rapidly, the ability of businesses to introduce new products and services to the market faster than their competitors is perhaps their most distinct competitive advantage. This becomes obvious by the significant market share that the most innovative companies gain while increasing profitability. Extensive research in this field has demonstrated that companies that are constantly innovating normally double their profits compared to others. Moreover, establishing successful practices and policies of innovation management, through which ideas evolve from conception through evaluation to implementation and commercialization, become the basis for economic growth at the firm, industry, national, regional, and global levels. Taking Greece as an example, this volume identifies systemic weaknesses in development of new products, risk capital, patenting, broadband penetration, lifelong training, investment in research on the part of firms, high-tech exports, and employment in medium-high-technology manufacturing that place the country at the bottom of the European Union in economic performance and threaten its potential to achieve sustainable growth. To address these weaknesses in Greece and similar countries around the world, the authors present a comprehensive overview of the principles of innovation and entrepreneurship, with particular respect to their relationships to knowledge,

learning, and creativity. Drawing from a strong theoretical foundation, and illustrated through in-depth case studies and examples from both private and public sectors, the authors present a framework for innovation management that integrates research, education, practical application, and policy. Specific topics include technology transfer, intellectual property rights management, the practice of knowledge management intellectual capital investment, business incubators, and Cooperation Research and Development Agreements (CRADAs).

Experiential Learning for Entrepreneurship - Denis Hyams-Ssekasi 2018-06-30

This topical new book provides an illuminating overview of enterprise education, and poses the question as to whether current establishments have adequate systems in place to prepare students for the world of work. Addressing the increasing need for graduates with practical skills and expertise in the labour market, this collection of insightful chapters analyses the opportunities that are available for aspiring entrepreneurs to develop enterprise skills and experience key aspects of starting and running a business, whilst in a supported environment such as an educational program or incubator scheme. With comprehensive discussion of higher education initiatives and empirical examples of experiential learning in the workplace, this book is an important and timely read for those researching business enterprise, entrepreneurship and higher education more generally.

Entrepreneurship - David Stokes 2010

Subsequently, the results of this study, which has been built on the grounds of extensive literature review, will be presented

Business Incubation - How to Manage the Know-how Transfer - Marco Thom 2011-11-23

Master's Thesis from the year 2011 in the subject Business economics - Business Management, Corporate Governance, grade: 1,0, Anglia Ruskin University (Lord Ashcroft Business Faculty), course: Entrepreneurship / Business Incubation, language: English, abstract: Entrepreneurial know-how is a critical issue for the success of an innovative business formation. It is the business incubator's mission to transfer the required know-how to the entrepreneur. This inductive study explores the practiced know-how transfer processes. The research methods are various and used in a mixed combination, by analysing secondary data of best practices, by the use of interviews with experts, and by a questionnaire survey with business incubators. The results show that the know-how transfer is mostly done in a long lasting resource consuming process due to the belief that the entrepreneur must be capable of facing all entrepreneurial challenges in a way that shows a high level of quality. The entrepreneur must have special abilities and skills in various fields. Besides profound technical and business managerial know-how, the entrepreneur must have many personal qualifications for the entrepreneurship as well as the ability to recognise opportunities and to make decisions. Based on these findings the dissertation presents a conceptual framework of an efficient know-how management - the Next Practice Approach (NPA). The NPA designs the know-how transfer process with a clearly lower consumption of resources on the incubators' and entrepreneurs' side. The entrepreneur must acquire considerably less know-how and executes the business formation even faster and with a higher quality compared with the currently practiced processes.

The Huawei Story - Tian Tao 2014-12-10

Huawei is a prominent company among the most successful and most internationalized in China. This book offers insights to Western readers, allowing them to truly understand Huawei, its management philosophy and culture, and the special leadership approaches of Ren Zhengfei.

Transnational Entrepreneurship - Mathew J. Manimala 2019-06-26

This edited volume develops an understanding of the strategies, processes, issues and concerns involved when small and medium-sized enterprises (SMEs) go international with their local products/services and vice versa. It is a compendium of eighteen selected chapters on the subject, supported by an introductory chapter. The contributions are organized in four parts based on the sub-themes they deal with. The first part, containing the introductory chapter, provides different perspectives on transnational entrepreneurship, returnee entrepreneurship and their linkages with the internationalization process. The subsequent parts have chapters dealing with three sub-themes of the subject - the internal factors (individual and firm-level resources), the external factors (entrepreneurial ecosystem), and the process of organizational transformation and change, respectively, in the context of SME internationalization. Special issues and challenges being faced by SME entrepreneurs in emerging economies have been highlighted in this book, discussing key contemporary issues with regard to internationalization in the three dimensions outlined above. Further, the book explains how an entrepreneur can engineer the transformation of his/her organization into an international SME. This book is a very useful resource for entrepreneurs and policy-makers in general, and for academics and researchers in particular, as it provides an overview of the contemporary research in the critical areas of SME internationalization and transnational entrepreneurship by highlighting the linkages between them with special reference to emerging economies.

Small Business Management - Justin Longenecker 2015-05-11

Help your students realize their dreams of small business success with *Small Business Management: Launching and Growing New Ventures*, Sixth Canadian Edition. This text incorporates current theory and practice relating to starting, managing, and growing small firms.
