*Hollywood Highbrow* - Shyon Baumann 2018-06-05

Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.

**The Soft Atlas of Amsterdam** - Jan Rothuizen 2015-02-15

Graphic designer Jan Rothuizen's best artwork results from simply walking along and encountering new people. For his art, he has wandered around global cities like Cairo, New York, Guangzhou, and Beirut, but his work had yet to treat the city in which he was born and raised--until now. *The Soft Atlas of Amsterdam* introduces the idea behind Rothuizen's wildly popular maps of cities. Including many never-before-seen drawings unique to this English-language edition, the atlas presents a fresh interpretation of Amsterdam's places and culture. The drawings, which are best described as written maps or graphic reportage, portray recognizable elements of each location, yet are stylized in a highly original manner that reflects Rothuizen's excellent eye for detail. From the Rijksmuseum to a robbed jewelry store, a heroin clinic to a student apartment, *The Soft Atlas of Amsterdam* is a delightful

tour through a vibrant European city. Full of fun surprises for both the armchair traveler and those who have lived in Amsterdam or visited, this is one collection of maps guaranteed to give readers a view of the city they've never seen before.

*The Age of Fallibility* - George Soros 2007-06-26

After reflecting on his support of a losing Democrat for president, George Soros steps back to revisit his views on why George Bush's policies around the world fall short in the arenas most important to Soros: democracy, human rights and open society. As a survivor of the Holocaust and a life-long proponent of free expression, Soros understands the meaning of freedom. And yet his differences with George Bush, another proponent of freedom, are profound. In this powerful essay Soros spells out his views and how they differ from the president's. He reflects on why the Democrats may have lost the high ground on these values issues and how they might reclaim it. As he has in his recent books, *On Globalization* and *The Bubble of American Supremacy*, Soros uses facts, anecdotes, personal experience and philosophy to illuminate a major topic in a way that both enlightens and inspires.

**Dead End in Norvelt** - Jack Gantos 2011-09-13

*Dead End in Norvelt* is the winner of the 2012 Newbery Medal for the year's best contribution to children's literature and the Scott O'Dell Award for Historical Fiction! Melding the entirely true and the wildly fictional, *Dead End in Norvelt* is a novel about an incredible two months for a kid named Jack Gantos, whose plans for vacation excitement are shot down when he is "grounded for life" by his feuding parents, and whose nose spews bad blood at every little shock he gets. But plenty of excitement (and shocks) are coming Jack's way once his mom loans him

out to help a feisty old neighbor with a most unusual chore—typewriting obituaries filled with stories about the people who founded his utopian town. As one obituary leads to another, Jack is launched on a strange adventure involving molten wax, Eleanor Roosevelt, twisted promises, a homemade airplane, Girl Scout cookies, a man on a trike, a dancing plague, voices from the past, Hells Angels . . . and possibly murder. Endlessly surprising, this sly, sharp-edged narrative is the author at his very best, making readers laugh out loud at the most unexpected things in a dead-funny depiction of growing up in a slightly off-kilter place where the past is present, the present is confusing, and the future is completely up in the air.
