Night Dogs - Kent Anderson 2012-02-29

The North Precinct of Portland, Oregon, is home to two kinds of cops: sergeants and lieutenants who've screwed up somewhere else, and patrol men who thrive on the action on the Avenue. Officer Hanson is the second kind, a veteran who has traded his bronze star for a badge. War is what Hanson knows, and in this battle for Portlands meanest streets, he's fighting not so much for the law as for his own code of justice. Hanson is a man who seems to fear nothing - except his own memories. And it is his past that could destroy him now: An enemy in the department is determined to bring him down by digging into his war record and resurrecting the darkest agonies of that nightmare time. And Hanson himself risks everything - his career, his equilibrium, even his life - when the only other survivor of his Special Forces unit comes back into his life. Doc Dawson is a drug dealer and a killer. . . but he's the one man Hanson can trust.

Education—with a new preface by the author "It is in no small part thanks to Alexander's account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system." —Adam Shatz, London Review of Books Seldom does a book have the impact of Michelle Alexander's *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander's unforgettable argument that "we have not ended racial caste in America; we have merely redesigned it." As the Birmingham News proclaimed, it is "undoubtedly the most important book published in this century about the U.S." Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement

today.

My Memoirs of the British South Africa Police, 1966-1981 - John Shaw 2015-08-15

Throughout the author's life in Northern Rhodesia (now Zambia) his father was a member of the Northern Rhodesia Police and the author sets about recording various incidents in the life of a youngster growing up in the numerous towns and police stations at which his father served. The family moved to Southern Rhodesia in 1964. Finalizing his secondary schooling at Chaplin School, Gwelo, Rhodesia, in 1965, the author joined the British South Africa Police (BSAP) in March 1966 and elected to go into the district branch of the Force. The author traces his career from a young patrol officer, through the various ranks and district police stations on which he served, to his retirement in August 1981 as a superintendent, in what was then Zimbabwe. He highlights the typical lifestyle associated with a district 'copper', including anecdotes from the Bush War that was raging. Apart from the lighter side of the book- hitting an elephant at Makuti at 1 a.m. in a Mini Moke; realizing five minutes before presenting his men on parade to the Officer Commanding, at an annual inspection, that he had left his trousers at home; attending an internal disciplinary hearing as the accused for being drunk off duty where the presiding officer commented that the

author's main defense witness appeared more drunk than the author and dismissed the case- there are some more serious chapters involving terrorist incidents, some of which are captured on an original station Incident Log which the author has included in the book.

We Dared to Win - Hannes Wessels 2018-04-19

A memoir from a Special Forces fighter about his experiences in the Rhodesian War and how combat has shaped his life. Andre Scheepers grew up on a farm in Rhodesia, learning about the bush from his African childhood friends, before joining the army. A quiet, introspective thinker, Andre started out as a trooper in the SAS before being commissioned into the Rhodesian Light Infantry Commandos, where he was engaged in fireforce combat operations. He then rejoined the SAS. Wounded thirteen times, his operational record is exceptional, even by the tough standards that existed at the time. He emerged as the SAS officer par excellence—beloved by his men, displaying extraordinary calm, courage, and audacious cunning during a host of extremely dangerous operations. Here, Andre writes vividly about his experiences, his emotions, and his state of mind during the war, and reflects candidly on what he learned and how war has shaped his life since. In addition to Andre's personal story, this book reveals more about some of the other men who were distinguished operators in SAS operations during the Rhodesian War. "Andre was the best of the best and the bravest of the brave." —Capt. Darrell Watt, ex-SAS and subject of *A Handful of Hard Men*

Bush War Rhodesia 1966-1980 - Peter Baxter 2014-07-19

It has been over three decades since the Union Jack was lowered on the colony of Rhodesia, but the bitter and divisive civil war that preceded it has continued to endure as a textbook counterinsurgency campaign fought between a mobile, motivated and highly trained Rhodesian security establishment and two constituted

liberations movements motivated, resourced and inspired by the ideals of communist revolution in the third world. A complicated historical process of occupation and colonization set the tone as early as the late 1890s for what would at some point be an inevitable struggle for domination of this small, landlocked nation set in the southern tropics of Africa. The story of the Rhodesian War, or the Zimbabwean Liberation Struggle, is not only an epic of superb military achievement, and revolutionary zeal and fervor, but is the tale of the incompatibility of the races in southern Africa, a clash of politics and ideals and, perhaps more importantly, the ongoing ramifications of the past upon the present, and the social and political scars that a war of such emotional underpinnings as the Rhodesian conflict has had on the modern psyche of Zimbabwe. The Rhodesian War was fought with finely tuned intelligence-gathering and -analysis techniques combined with a fluid and mobile armed response. The practitioners of both have justifiably been celebrated in countless histories, memoirs and campaign analyses, but what has never been attempted has been a concise, balanced and explanatory overview of the war, the military mechanisms and the social and political foundations that defined the crisis. This book does all of that. The Rhodesian War is explained in digestible detail and in a manner that will allow enthusiasts of the elements of that struggle - the iconic exploits of the Rhodesian Light Infantry, the SAS, the Selous Scouts, the Rhodesian African Rifles, the Rhodesia Regiment, among other well-known fighting units - to embrace the wider picture in order to place the various episodes in context

The Pig Book - Citizens Against Government Waste 2013-09-17

The federal government wastes your tax dollars worse than a drunken sailor on shore leave. The 1984 Grace Commission uncovered that the Department of Defense spent \$640 for a toilet seat and \$436 for a hammer. Twenty years later things weren't much better. In 2004, Congress spent a record-breaking \$22.9 billion dollars of your money on 10,656 of their pork-barrel projects. The war on terror has a lot to do with the record \$413 billion in deficit spending, but it's also the result of pork over the last 18 years the likes of: - \$50 million for an indoor rain forest in Iowa - \$102 million to study screwworms which were long ago eradicated from American soil - \$273,000 to combat goth culture in Missouri - \$2.2 million to renovate the North Pole (Lucky for Santa!) - \$50,000 for a tattoo removal program in California - \$1 million for ornamental fish research Funny in some instances and jaw-droppingly stupid and wasteful in others, The Pig Book proves one

thing about Capitol Hill: pork is king!

Fighting and Writing - Luise White 2021-03-05

In *Fighting and Writing* Luise White brings the force of her historical insight to bear on the many war memoirs published by white soldiers who fought for Rhodesia during the 1964–1979 Zimbabwean liberation struggle. In the memoirs of white soldiers fighting to defend white minority rule in Africa long after other countries were independent, White finds a robust and contentious conversation about race, difference, and the war itself. These are writings by men who were ambivalent conscripts, generally aware of the futility of their fight—not brutal pawns flawlessly executing the orders and parroting the rhetoric of a racist regime.

Moreover, most of these men insisted that the most important aspects of fighting a guerrilla war—tracking and hunting, knowledge of the land and of the ways of African society—were learned from Black playmates in idealized rural childhoods. In these memoirs, African guerrillas never lost their association with the wild, even as white soldiers boasted of bringing Africans into the intimate spaces of regiment and regime.

Lipstick on a Pig - Torie Clarke 2006-02-06

Torie Clarke, renowned and respected in political and business circles as one of the nation's most gifted communicators, offers a complete guide to the new age of transparency. Clarke's message is refreshing and straightforward: No more spin. Always a dubious proposition, spin has become increasingly vulnerable as information sources have proliferated; spin is simply no longer viable. Or put another way, "You can put lipstick on a pig, but it's still a pig." Distilling her twenty-five years of experience and wisdom into eight concise rules, Clarke counsels that politicians and executives need to tell the truth early, often, and in plain language. Clarke's experience is incomparable: She was the Pentagon's communications chief during the early years of George W. Bush's presidency and, prior to that, a high-ranking adviser to the first President Bush and to Senator John McCain. She illustrates her lessons with riveting behind-the-scenes accounts of some of our country's crucial moments over the last two decades -- for instance, as Assistant Secretary of Defense for Public Affairs under Defense Secretary Donald

Rumsfeld, she was at the Pentagon on September 11, 2001, and she recounts her experience that day as Rumsfeld's office strove to inform, instruct, and reassure the public. Clarke shows that a policy of transparency not only protects you, but that you even stand to gain from it -- because once you figure out that you can't put lipstick on a pig, you've actually learned something far more powerful: not to create a pig in the first place. Her lessons for getting your message out include: Tell your own story -- especially if it's bad news -- on your own terms, before someone else tells it on theirs. It will allow you to survive controversy and will also enhance your reputation. It's about one thing. Be ready and able to explain yourself to the proverbial man on the street in a clear, simple sentence or two. Admit your mistakes, because the truth will out. Entertaining, approachable, and full of crucial insight and practical guidance, *Lipstick on a Pig* will be indispensable for business leaders, public figures, and anyone working in media relations. With humor and savvy, Clarke's vision offers truly new opportunities for communications in the Information Age.

The Road to Kalamata - Mike Hoare 1989-10-15

The Road to Kalamata is the real-life adventure story of the 4 Commando team of mercenary soldiers, as told by their leader, Col. Mike Hoare. At the close of 1960, the newly formed independent state of Katanga in central Africa recruited Hoare and his team to suppress a rebellion by the Baluba, a fierce tribe of warriors rumored to be cannibals and known to torture and dismember any enemy soldiers unlucky enough to be captured. The events recounted in this book occurred in the Congo during the Katanga campaign of 1961. With insight that only an officer with extensive battlefield experience can bring to this subject, Colonel Hoare chronicles the metamorphosis of 4 Commando from a loose assembly of individuals into a highly organized fighting unit, while also taking the reader inside the minds and hearts of men who sell their military skills for money. What emerges is a compelling and complex portrait of genuine adventurers, "a breed of men which," writes Hoare, "has almost vanished from the face of the earth." Paladin Press is pleased to

make available once again this engaging, colorful and thoughtful account, originally published in 1989, complete with a new foreword by the 20th century's most famous mercenary and one of its most eloquent storytellers.

Lord of the Flies - William Golding 2003-12-16
Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Invasive Wild Pigs in North America - Kurt C. VerCauteren 2019-12-12
Throughout North America, non-native wild pigs have become an ecologically and economically destructive invasive species. Though they are regarded as a popular game species by some, provide economic benefits to others, and are even engrained into societal heritage in some areas, wild pigs are responsible for an extraordinary amount of damage in both natural

and anthropogenic systems throughout North America. As the density and range of wild pig habitat have substantially increased over the last several decades, the magnitude and diversity of their negative impacts are not yet fully realized or quantified. With various conflicts continually emerging, wild pig management is difficult and expensive to achieve. As a result, wild pigs represent one of the greatest wildlife management challenges North America faces in the 21st century. *Invasive Wild Pigs in North America: Ecology, Impacts, and Management* addresses all aspects of wild pig biology, ecology, damage, and management in a single comprehensive volume. It assimilates and organizes information on the most destructive introduced vertebrate species in the United States, establishing a foundation from which managers, researchers, policy makers, and other stakeholders can build upon into the future. The book provides comprehensive coverage of wild pig biology and ecology, techniques for management and research, and regional chapters. It is an asset to readers interested in wild pigs, the resources they impact, and how to mitigate those impacts, and establishes a vision of the future of wild pigs in North America. Features: Compiles valuable knowledge for a broad audience including wild pig managers, researchers, adversaries, and enthusiasts from across North America Addresses taxonomy, morphology, genetics, physiology, spatial ecology, population dynamics, diseases and parasites, and the naturalized niche of wild pigs Includes chapters on damage to resources, management, research methods, human dimensions and education, and policy and legislation Contains full color images and case studies of interesting and informative situations being created by wild pigs throughout North America Includes a chapter on wild pigs at the wildland-urban interface, a more recent and especially challenging issue *Africa* - Great Britain. Iron Fist From The Sea - Douw Steyn 2015-01-19
This seminal work documents the clandestine

sea borne operations undertaken by South Africa's 4 Reconnaissance Commando Regiment. It breathtakingly reveals the versatility and effectiveness of this elite unit which worked with a range of other South African and Rhodesian forces, including the Rhodesian SAS, to engage in a range of raiding and war fighting activities. These operations saw the clandestine reconnaissance of harbors, the sinking of enemy shipping and the destruction of shore installations in Angola and Mozambique. Just some of the tasks undertaken by this extraordinary maritime capability which totaled no more than 45 operators, both black and white! With unparalleled access to previously secret material, the authors, both of whom worked to develop 4 Recce's operating capabilities, trace the origins of the Regiment back to the 1970's when the South African's determined the need for a maritime force projection capability. They relate how maritime doctrine was developed within South Africa's wider Special Forces capability and how joint operational approaches were configured with the South African Navy. This saw the development of a range of swimmer, reconnaissance, diving and boat operator training courses, along with the design of specialist raiding craft and amphibious assault platforms, which were originated to operate from the Navy's existing shipping and submarines. All of which demonstrated the immense potential of this newly emergent force and the resourcefulness of its individual operators. Required to successfully complete a grueling selection process, the operators of 4 Recce were relentlessly tested to prove their physical and mental mettle, not to mention their leadership skills and initiative. Steyn and Söderlund's chronological analysis of the operations undertaken by 4 Recce and the South African Navy is stunning to behold. They impartially detail the secret and specialized actions which saw both success and failure. From Cabinda on the West Coast to Tanzania on the East, 4 Recce, and whose existence and capability was largely kept secret even within the South African Defence Force, conducted numerous clandestine raids. They attacked shipping and strategic targets such as oil facilities, transport infrastructure and even ANC

offices. And sometimes the raids did go wrong, spectacularly so in one instance when two operators were killed and Captain Wynand Du Toit was captured. He was later paraded in front of the world's media, much to the embarrassment of the South African government. This is a fascinating work and one that will enthrall anyone with an interest in Special Forces operations. Profusely illustrated with many previously unpublished photographs, it stands as a testament to the author's endeavors as, respectively, the former Operations Commander of 4 Recce and the former Commander Task Group of the SA Navy - as well as the incredible operators of 4 Recce. Explosive and compulsive, *Iron Fist from the Sea* takes you right to the raging surf; to the adrenaline and fear that is sea borne raiding...
Cattle Plague - Clive Spinae 2012-12-06
Cattle Plague: A History is divided into five sections, dealing with the nature of the virus, followed by a chronological history of its occurrence in Europe from the Roman Empire to the final 20th century outbreaks; then administrative control measures through legislation, the principal players from the 18th century, followed by an analysis of some effects, political, economic and social. Then follows attempts at cure from earliest times encompassing superstition and witchcraft, largely Roman methods persisting until the 19th century; the search for a cure through inoculation and the final breakthrough in Africa at the end of the 19th century. The last section covers the disease in Asia and Africa. Appendices cover regulations now in force to control the disease as well as historical instructions, decrees and statutes dating from 1745-1878.

DEADCORE - Randy Chandler 2010-09
DEADCORE: 4 HARDCORE ZOMBIE NOVELLAS
Join authors Randy Chandler, Ben Cheetham, Edward M. Erdelac, and David James Keaton as they unleash the carnage while breathing new life, and death, into the zombie genre.
FANGORIA MAGAZINE REVIEW "As the book's title indicates, **DEADCORE** achieves all extremes. Violent, perverse, depraved—and, as such, quite recommended." **THE STORIES DEAD JUJU BY RANDY CHANDLER** He's the mystery man on the news. Where he shows up, the shit

goes down. The dead are rising, the immigration issue has reached the boiling point, the living are screwed, and unspeakable acts are being performed upon all involved. In this tale of *Zombies Gone Wild*, yes the dead walk but just where the hell are they going and why? *Dead Juju* gives you the hardcore truth, if you're ghoulish enough to handle it. **NIGHT OF THE JIKININKI BY EDWARD M. ERDELAC** After a comet is observed in the western sky of feudal Japan, a murdered inmate rises from the dead and attacks his fellow prisoners. Three disparate men: a casteless bandit, a mad, child-eating monk, and a renowned but sadistic samurai band together to escape the walled and moat-surrounded prison as it fills with the walking and ravenous dead. **ZEE BEE & BEE (A.K.A. PROPELLER HATS FOR THE DEAD) BY DAVID JAMES KEATON** At a "Zombie Bed & Breakfast" tourist trap, guests pay for the thrill of a staged zombie assault during an apocalyptic scenario, acted out by sluggish hotel workers who are well-versed in the zombie genre. But soon the script doesn't go as planned, the guests become uncooperative, and the actors are taking their roles very seriously these days. **ZOMBIE SAFARI BY BEN CHEETHAM** Survivors of a zombie apocalypse have carved out new existences on islands, only visiting the mainland to hunt zombies. But things start to go wrong. Zombies don't die as they should. Hunters go missing. A trip that's supposed to be fun turns into a struggle for survival as four men make a discovery that causes them to question not only what it means to be a zombie, but what it means to be human.

Wild Pigs - C.A. Tisdell 2013-10-22

Wild Pigs: Environmental Pest or Economic Resource? presents the beneficial and adverse effects on forests of wild pigs. This book provides the formulation of policies for the management or control of wild pigs. Organized into 10 chapters, this book begins with an overview of relevant worldwide aspects of wild pigs and provides information about feral pigs in Australia. This text then examines the difficulties of controlling wild pigs in agriculture and evaluates the economic damages to landholders.

Other chapters consider the methods of assessing the hunting value of a species for recreational purposes. This book discusses as well the value of wild pigs in Australia and the relative significance of various species for hunting purposes in Australia. The final chapter deals with the adverse effects of wild pigs on agriculture, wildlife, forestry, and natural ecosystems. This book is a valuable resource for agricultural economists, agriculturalists, conservationists, foresters, recreational hunters, and pastoralists.

Mad Dog Killers - Ivan Smith 2012

During that long, hot summer of 1964, Ivan Smith, a mercenary volunteer in the *Arme Nationale Congolais*, came to witness and understand fear, the law of the jungle and the lust for killing that permeates Africa. A member of 'Mad Mike' Hoare's 5 Commando Group he and his companions were nominally soldiers but there was little in the way of campaigns, tactics and discipline. Of conventional warfare there was none. Loyalty to country or unit did not exist and the fear of death was the only commander. Many more mercenaries died from an accidental discharge, in a drunken shoot-out or from a bullet in the back than were ever killed in action by Simba rebels. Nearly half a century later, Ivan Smith re-lives the nightmare that was the Congo.

King Leopold's Rule in Africa - Edmund Dene Morel 1905

Bush Pig - District Cop - Ivan Smith 2014-06-19

This is the story of one man's service in the British South Africa Police of Rhodesia during his service of nearly fifteen years, between the years 1965 and 1979, and in many ways forms a sequel to the author's book *Mad Dog Killers*. The struggle to keep Rhodesia out of black nationalist hands started in late 1964 and ended with the Mugabe regime in 1982. It is also a story of a policeman engaged in that war as a member of the paramilitary BSAP Support unit, the Police Anti-Terrorist Unit and as an ordinary member of the force that had always been designated the country's first line of defense. Most of the service was on remote rural district stations, often in the middle of the "front line". The account tells of one man's learning to be a policeman and a police public prosecutor and

about the eccentricities of some of the circuit magistrates. A policeman has a lot to learn about life, and in the BSA Police he was expected to jump in at the deep end from the start. It is also the story of the strange struggle by Rhodesian-born policemen in a force where the majority were English-born, at a time when Rhodesia was in rebellion against Britain. The author's senior officers, though fiercely loyal to the force, were British and required to join the rebellion. It tells of his resentment at the lack of drive by senior officers in the fight against terrorist atrocities. There is additional insight into the Utopian life

in Rhodesia, especially in rural areas, when it was still possible to hunt buck for the police mess rations, where there was no electricity or other modern amenities and where the single quarters were in ancient buildings enclosed by a wraparound gauzed-in veranda - a life gone now forever. It is also a story of a young man who grew up in Salisbury, his sexual excesses and sadness. The British Queen Mother was patron of the force all her life and was very proud of her association with it.
