Heartbreak: A Personal and Scientific Journey - Florence Williams 2022-02-01

Florence Williams explores the fascinating, cutting-edge science of heartbreak while seeking creative ways to mend her own. When her twenty-five-year marriage unexpectedly falls apart, journalist Florence Williams expects the loss to hurt. What she doesn't expect is that she'll end up in the hospital, examining close-up the way our cells listen to loneliness. She travels to the frontiers of the science of "social pain" to learn why heartbreak hurts so much and why so much of the conventional wisdom about it is wrong. Searching for insight as well as personal strategies to game her way back to health, Williams tests her blood for genetic markers of grief, undergoes electrical shocks in a laboratory while looking at pictures of her ex, and

ventures to the wilderness in search of awe as an antidote to loneliness. For readers of *Wild and Lab Girl*, *Heartbreak* is a remarkable merging of science and self-discovery that will change the way we think about loneliness, health, and what it means to fall in and out of love. Personal Souths - Douglas B. Chambers 2012-04-25
Personal Souths, a collection of 20 interviews with famous southern writers, will mark the 50th anniversary of *The Southern Quarterly*, one of the oldest scholarly journals (founded in 1962) dedicated to southern studies. The figures interviewed range from Erskine Caldwell, Eudora Welty and Tennessee Williams (all from the 1970s), to a virtual Who's-Who of southern literature in the second half of the twentieth century. All of these interviews were originally published in the

journal in the 1980s, 1990s and 2000s, and are collected here for the first time. The South is represented broadly, with writers from eight states; at least four represent the "mountain South" (Donald Harrington, Bobbie Ann Mason, Robert Morgan, Lee Smith), while another four typify a "cosmopolitan South" (Reynolds Price, Mary Lee Settle, Elizabeth Spencer, Tennessee Williams). The greatest number of voices, at least eight of the authors, speak for or from the "poor white South" (Larry Brown, Erskine Caldwell, Harry Crews, Donald Harrington, Bobbie Ann Mason, Robert Morgan, Del Shores, Lee Smith). Though there is only one African American writer, Ernest J. Gaines, another interview (William Styron, Pulitzer Prize-winning author of *The Confessions of Nat Turner*) also focuses on a conversation about African American literature. The interviews are all fascinating. Not only do they reveal the personalities of these southern literary stars,

they also represent a self-conscious community of writers. It is a testament to the quality of *The Southern Quarterly* that many of these writers, when discussing their most important contemporaries, often refer to other writers whose interviews are also in this collection. These first-hand discussions will continue to illuminate and inform our understanding of their creative work.

Primal Loss - Leila Miller
2017-05-20

Seventy now-adult children of divorce give their candid and often heart-wrenching answers to eight questions (arranged in eight chapters, by question), including: What were the main effects of your parents' divorce on your life? What do you say to those who claim that "children are resilient" and "children are happy when their parents are happy"? What would you like to tell your parents then and now? What do you want adults in our culture

to know about divorce? What role has your faith played in your healing? Their simple and poignant responses are difficult to read and yet not without hope. Most of the contributors-- women and men, young and old, single and married--have never spoken of the pain and consequences of their parents' divorce until now. They have often never been asked, and they believe that no one really wants to know. Despite vastly different circumstances and details, the similarities in their testimonies are striking; as the reader will discover, the death of a child's family impacts the human heart in universal ways.

Fault Lines - Karl Pillemer, Ph.D. 2020-09-08

Real solutions to a hidden epidemic: family estrangement. Estrangement from a family member is one of the most painful life experiences. It is devastating not only to the individuals directly involved--collateral damage can extend upward, downward, and across generations, More than 65 million Americans suffer such rifts, yet little guidance exists on how to cope with and overcome them. In this book, Karl Pillemer combines the advice of people who have successfully reconciled with powerful insights from social science research. The result is a unique guide to mending fractured families. Fault Lines shares for the first time findings from Dr. Pillemer's

ten-year groundbreaking Cornell Reconciliation Project, based on the first national survey on estrangement; rich, in-depth interviews with hundreds of people who have experienced it; and insights from leading family researchers and therapists. He assures people who are estranged, and those who care about them, that they are not alone and that fissures can be bridged. Through the wisdom of people who have "been there," Fault Lines shows how healing is possible through clear steps that people can use right away in their own families. It addresses such questions as: How do rifts begin? What makes estrangement so painful? Why is it so often triggered by a single event? Are you ready to reconcile? How can you overcome past hurts to build a new future with a relative? Tackling a subject that is achingly familiar to almost everyone, especially in an era when powerful outside forces such as technology and mobility are lessening family

The Essential Guide to Children and Separation - Jennifer Croly 2013-08-23
Parents, grandparents, extended family, friends, teachers, youth workers and counsellors all need to know how to support children through the divorce process and in the years that follow. Each child will react differently, but some issues are common to all: the need to be listened to, coping with the grief that follows the destruction of the original family unit; having divided loyalties, dealing with the organisation necessary when a child has two homes; coming to terms with step-parents and

step-families. This book is written with personal and professional insight, and also contains interviews with children who have gone through the adjustment process. It sheds light, brings hope and encouragement to anyone who is trying to help children through one of the most difficult of life's experiences.

Other Roads Less Traveled - Charles Shannon Mallory, DD 2014-02-20

In a provocative manner, Bishop Mallory crosses boundaries of orthodoxy and raises some issues not commonly discussed, such as a possible Christian approach to reincarnation, betrayal as a normal part of life, the common thread in all religions, praying for one's enemies by name, and not believing everything you think. In *Other Roads Less Traveled*, he presents a collection of sermons and meditations that ask and answer a wide range of questions: • Who is God to you? • What happens when we die? • What's the meaning of life? • What's the value of prayer? • What's the good of other world religions like Judaism, Islam, Hinduism, Taoism, and Buddhism? • How do we fight a war on terrorism? Practical and down-to-earth, *Other Roads Less Traveled* is a compilation of work derived from fifty years in the ministry. It reflects Dr. Mallory's experiences living and working in more than a dozen third-world countries, including eighteen years in Africa where

he and his family lived under the apartheid regime of South Africa and the deadly reign of Idi Amin in Uganda. With the overarching theme of truth and justice, Mallory's messages gather together his many experiences of a worldwide ministry.

Rules of Estrangement -

Joshua Coleman, PhD
2021-03-02

A guide for parents whose adult children have cut off contact that reveals the hidden logic of estrangement, explores its cultural causes, and offers practical advice for parents trying to reestablish contact with their adult children. "Finally, here's a hopeful, comprehensive, and compassionate guide to navigating one of the most painful experiences for parents and their adult children alike."—Lori Gottlieb, psychotherapist and New York Times bestselling author of *Maybe You Should Talk to Someone* Labeled a silent epidemic by a growing number of therapists and researchers, estrangement is one of the most disorienting and painful

experiences of a parent's life. Popular opinion typically tells a one-sided story of parents who got what they deserved or overly entitled adult children who wrongly blame their parents. However, the reasons for estrangement are far more complex and varied. As a result of rising rates of individualism, an increasing cultural emphasis on happiness, growing economic insecurity, and a historically recent perception that parents are obstacles to personal growth, many parents find themselves forever shut out of the lives of their adult children and grandchildren. As a trusted psychologist whose own daughter cut off contact for several years and eventually reconciled, Dr. Joshua Coleman is uniquely qualified to guide parents in navigating these fraught interactions. He helps to alleviate the ongoing feelings of shame, hurt, guilt, and sorrow that commonly attend these dynamics. By placing estrangement into a cultural context, Dr. Coleman helps parents better

understand the mindset of their adult children and teaches them how to implement the strategies for reconciliation and healing that he has seen work in his forty years of practice. Rules of Estrangement gives parents the language and the emotional tools to engage in meaningful conversation with their child, the framework to cultivate a healthy relationship moving forward, and the ability to move on if reconciliation is no longer possible. While estrangement is a complex and tender topic, Dr. Coleman's insightful approach is based on empathy and understanding for both the parent and the adult child.

Christian America? - Christian Smith 2000-04-13

In recent decades Protestant evangelicalism has become a conspicuous and--to many Americans, worrisome--part of this country's cultural and political landscape. But just how unified is the supposed constituency of the Christian Coalition? And who exactly are the people the Christian Right

claims to represent? In the most extensive study of American evangelicals ever conducted, Christian Smith explores the beliefs, values, commitments, and goals of the ordinary men and women who make up this often misunderstood religious group. The result is a much-needed contribution to the discussion of issues surrounding fundamental American freedoms and the basic identity of the United States as a pluralistic nation. Based on data from a three-year national study, including more than 200 in-depth interviews of evangelicals around the country, *Christian America?* assesses the common stereotype of evangelicals as intolerant, right-wing, religious zealots seeking to impose a Christian moral order through political force. What Smith finds instead are people vastly more diverse and ambivalent than this stereotype suggests. On issues such as religion in education, "family values," Christian political activism, and tolerance of other religions and

morality, evangelicals are highly disparate and conflicted. As the voices of interviewees make clear, the labels "conservative" and "liberal" are too simplistic for understanding their approaches to public life and political action.

developmental research, behavioral psychology, attachment theory, and legal issues to substantiate their opinions. With a number of publications on child custody available, there is an essential need for a text focused on translating the research associated with the most important topics within the family court. This book addresses this gap in the literature by presenting an organized and in-depth analysis of the current research and offering specific recommendations for applying these findings to the evaluation process. Written by experts in the child custody arena, chapters cover issues associated with the most important and complex issues that arise in family court, such as attachment and overnight timesharing with very young children, dynamics between divorced parents and children's potential for resiliency, co-parenting children with chronic medical conditions and developmental disorders, domestic violence during

separation and divorce, gay and lesbian co-parents, and relocation, among others. The scientific information provided in these chapters assists forensic mental health professionals to proffer empirically-based opinions, conclusions and recommendations. Parenting Plan Evaluations is a must-read for legal practitioners, family law judges and attorneys, and other professionals seeking to understand more about the science behind child custody evaluations.

The Voice of the Past - Paul Thompson 2017-02-24
Oral history gives history back to the people in their own words. And in giving a past, it also helps them towards a future of their own making. Oral history and life stories help to create a truer picture of the past and the changing present, documenting the lives and feelings of all kinds of people, many otherwise hidden from history. It explores personal and family relationships and uncovers the secret cultures of work. It connects public and private experience, and it highlights the experiences of migrating between cultures. At the same time it can bring courage to the old, meaning to communities, and contact between

generations. Sometimes it can offer a path for healing divided communities and those with traumatic memories. Without it the history and sociology of our time would be poor and narrow. In this fourth edition of his pioneering work, fully revised with Joanna Bornat, Paul Thompson challenges the accepted myths of historical scholarship. He discusses the reliability of oral evidence in comparison with other sources and considers the social context of its development. He looks at the relationship between memory, the self and identity. He traces oral history through its own past and weighs up the recent achievements of a movement which has become international, with notably strong developments in North America, Europe, Australia, Latin America, South Africa and the Far East, despite resistance from more conservative academics. This new edition combines the classic text of *The Voice of the Past* with many new sections, including especially the

worldwide development of different forms of oral history and the parallel memory boom, as well as discussions of theory in oral history and of memory, trauma and reconciliation. It offers a deep social and historical interpretation along with succinct practical advice on designing and carrying out a project, *The Voice of the Past* remains an invaluable tool for anyone setting out to use oral history and life stories to construct a more authentic and balanced record of the past and the present.

Forever and One Day - Deidre Robinson 2019-08-12

Thirty-three-year-old Savannah appears to have everything to the average outsider looking in - a successful and fulfilling job, a loving parent, an active love life, and beauty. But something is missing. After a series of unfortunate events, which begin after the death of the beloved matriarch of her family, Eileen, Savannah's life falls apart. Does she have the strength to put it back together? Inspired by events in Ms. Robinson's own life, *Forever and One Day* questions the meaning of life and what society considers to be normal. Which is more important - appearances to society or inner peace and happiness? Impressive and thought-provoking, it is a portrait of a woman desperate for comfort, yet seeking liberation from the generational patterns that rule her world.
