Understanding Basic Music Theory - Catherine Schmidt-Jones 2018-01-28

The main purpose of the book is to explore basic music theory so thoroughly that the interested student will then be able to easily pick up whatever further theory is wanted. Music history and the physics of sound are included to the extent that they shed light on music theory. The main premise of this course is that a better understanding of where the basics come from will lead to better and faster comprehension of more complex ideas. It also helps to remember, however, that music theory is a bit like grammar. Catherine Schmidt-Hones is a music teacher from Champaign, Illinois and she has been a pioneer in open education since 2004. She is currently a doctoral candidate at the University of Illinois in the Open Online Education program with a focus in Curriculum and Instruction.

My First Piano Adventure: Lesson Book A with CD - 2007-01-01

(Faber Piano Adventures ). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key

names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. View Helpful Introductory Videos Here

**Orchestral Song Cycles** - Charles Villiers Stanford 2019-01-31

Charles Villiers Stanford wrote two cycles of songs for baritone with orchestra and chorus, setting nautical verses by the popular poet Henry Newbolt. From its premiere at the Leeds Musical Festival in October 1904, Songs of the Sea was a great success; Songs of the Fleet followed in 1910 and was transparently modeled on it (even quoting from the earlier work). Both works became very popular among amateur choral societies. Songs of the Sea was published in full score a year after its composition; it now appears in a critical edition for the first time in the present volume, which also includes the first publication of the orchestral version of Songs of the Fleet. Both works demonstrate Stanford's mastery of orchestral technique and sureness of touch. Newbolt's texts alternate between heroic and sentimental moods; Stanford responded with music that is dramatic and atmospheric indeed, with some of the most remarkable textures of his whole oeuvre.
