Draw Every Day, Draw Every Way (Guided Sketchbook) - Jennifer Orkin Lewis 2016-06-01
Conceived by Instagram's daily sketch sensation @augustwren, this guided journal encourages carving out a moment of self-expression every

day. To conquer the intimidating prospect of filling 365 blank pages, *Draw Every Day, Draw Every Way* is divided into monthly themes, with undated daily prompts that suggest what to draw each day. You can work through the journal from front to back, or jump around and draw whatever appeals to you at the time.

Monthly themes include: A month of nature
A month of your favorite things
A month of characters
A month of print and patterns

Jennifer Orkin Lewis (aka @augustwren) encourages experimentation with a one-page tutorial at the beginning of each month that outlines accessible ways to draw with different materials, such as ballpoint pens, colored pencils, paint, and collage. Coupled with sections of varying paper types, there is an unlimited canvas available to flourish artistically; brown craft paper pairs well with black ink and white pencil, black paper is great for white and metallic gel pens, and heavy white paper is included for painting. The journal is not only useful as a stress-reliever and as a mode of personal exploration, but also as a way of changing visual thinking. And when completed, it will serve as a reflection of its owner. With prompts, tutorials, and unique packaging, *Draw Every Day, Draw Every Way* is a must-have for those looking to sketch and doodle their way out

of an inspirational rut.

Hand-Lettering - Megan Wells 2018-08-01

The Philosophy of Psychology - George Botterill 1999-08-19

What is the relationship between common-sense, or 'folk', psychology and contemporary scientific psychology? Are they in conflict with one another? Or do they perform quite different, though perhaps complementary, roles? George Botterill and Peter Carruthers discuss these questions, defending a robust form of realism about the commitments of folk psychology and about the prospects for integrating those commitments into natural science. Their focus throughout the book is on the ways in which cognitive science presents a challenge to our common-sense self-image - arguing that our native conception of the mind will be enriched, but not overturned, by science. The Philosophy of Psychology is designed as a textbook for

upper-level undergraduate and beginning graduate students in philosophy and cognitive science, but as a text that not only surveys but advances the debates on the topics discussed, it will also be of interest to researchers working in these areas.

All Things Georgian - Joanne Major
2019-01-30

Take a romp through the long eighteenth-century in this collection of 25 short tales. Marvel at the Queen's Ass, gaze at the celestial heavens through the eyes of the past and be amazed by the equestrian feats of the Norwich Nymph. Journey to the debauched French court at Versailles, travel to Covent Garden and take your seat in a box at the theatre and, afterwards, join the mile-high club in a new-fangled hot air balloon. Meet actresses, whores and high-born ladies, politicians, inventors, royalty and criminals as we travel through the Georgian era in all its glorious and gruesome glory. In roughly chronological order, covering the reign of the four Georges, 1714-1730 and set within the framework of the main events of the era, these tales are accompanied by over 100 stunning color illustrations.
