**Zombielicious** - Timothy McGivney 2010

Amidst a zombie outbreak, Walt, athletic and confident, meets shy and quiet Joey, the attraction between them both instant and electric. With strength in numbers, they band together alongside fellow survivors; Jill, an ex-porn star turned nurse who's made a startling discovery about her past; Ace, a disgruntled security guard who just can't live up to certain short comings; and Molly, the fiery redhead unwilling to give up on her dreams of stardom. In this apocalyptic new world of the dead, an anything-goes attitude has become the law of the land and lust, betrayal, true love and redemption are all just a gunshot away.

**The Road** - Cormac McCarthy 2007-03-20  
NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father

and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*.

*Dog Blood* - David Moody 2010-06-08

On the heels of Patient Zero and Pride and Prejudice with Zombies— the electrifying sequel to Hater where humanity fights itself to the death against a backdrop of ultimate apocalyptic destruction The Earth has been torn into two parts by an irreversible division. Whether due to nature, or the unknown depths of the mind itself, everyone is now either Human or Hater. Victim or killer. Governments have fallen, command structures have collapsed, and relationships have crumbled. Major cities have become refugee camps where human survivors cower together in fear. Amidst this indiscriminate carnage, Danny McCoyne is on a mission to find his daughter Ellis, convinced that her shared Hater condition means her allegiance is to people like him. Free of inhibitions, unrestricted by memories of peace, and driven by instinct, children are pure Haters, and may well define the future of the Hater race. But, as McCoyne makes his way into the heart of human territory, an incident on the battlefield sets in place an

unexpected chain of events, forcing him to question everything he believes he knows about the new order that has arisen, and the dynamic of the Hate itself.

*The Gates* - Iain Rob Wright 2015-10-27

"Guy Granger is a Coast Guard captain in search of his kids. Mina Magar is a photojournalist taking pictures of horror she had never imagined. Rick Bastion is a fading popstar with his head in a bottle and little care about survival. Tony Cross is stuck on the Iraq-Syria Border, but fighting insurgents is no longer a priority. There's much worse threat to world peace now. Follow them all as they try to stay alive" -- back cover.

American International Pictures - Rob Craig  
2019-02-19

American International Pictures was in many ways the "missing link" between big-budget Hollywood studios, "poverty-row" B-movie factories and low-rent exploitation movie distributors. AIP first targeted teen audiences with science fiction, horror and fantasy, but soon grew to encompass many genres and demographics--at times, it was indistinguishable from many of the "major" studios. From Abby to Zontar, this filmography lists more than 800 feature films, television series and TV specials by AIP and its partners and subsidiaries. Special attention is given to American International Television (the TV arm of AIP) and an appendix lists the complete AITV catalog. The author also

discusses films produced by founders James H. Nicholson and Samuel Z. Arkoff after they left the company.

*The End* - G. Michael Hopf 2014-01-07

A man fights to protect his family in this postapocalyptic survival novel—the first in the *New World* series. Young Gordon Van Zandt valued duty and loyalty to country above all, so after 9/11, he dropped out of college and joined the Marine Corps. This idealism vanished one fateful day in a war-torn city in Iraq. Ten years later, he is still struggling with the ghosts of his past when a new reality is thrust upon him and his family: North America, Europe and the Far East have all suffered a devastating Super-EMP attack, which causes catastrophic damage to the nation's power grid and essential infrastructures. Everything from cell phones to

cars to computers cease to function, putting society at a standstill. With civilization in chaos, Gordon must fight for the limited and fast dwindling resources. He knows survival requires action and cooperation with his neighbors, but as the days wear on, so does all sense of civility within his community—and so he must make some of the most difficult decisions of his life in order to ensure his family's safety.

**Bar None** - Tim Lebbon 2008-08-01

British Fantasy Award-Winner & World Fantasy Award-Nominee Tim Lebbon Delivers a Stunning Post-Apocalyptic Road Novel Six months have passed since the end of the world, leaving a handful of survivors holed up in a Welsh manor with little to do but survive. They've made the best of things, planting food, drinking their way through the cellar's wine and ale, and reminiscing about the way life used to be. But with supplies running thin, everything is about to change... The arrival of a stranger named Michael sheds new light on their circumstances.

If the survivors can reach Cornwall, a few days' journey south, they will find a safe haven, called Bar None, quite possibly the last Pub on earth. As the survivors make their way across the Welsh countryside, they will experience a world gone strange, where frightening beings fly high overhead, where flora and fauna press in to fill the void left by the fall of man, and in the wreckage of civilization, where less fortunate survivors twisted by plagues, hunger, and fear stalk human prey.

If you only had eight hours left to live, what would you do? For Chris Smith, that decision has been made for him. He's infected, and returns home to find the rest of his family undead or missing, save his youngest daughter Maisie. He's never been much of a father, but can he make up for it now in the final few hours of his life and find somewhere safe for her to survive?

*Militainment, Inc.* - Roger Stahl 2009-12-04  
Militainment, Inc. offers provocative, sometimes

disturbing insight into the ways that war is presented and viewed as entertainment—or "militainment"—in contemporary American popular culture. War has been the subject of entertainment for centuries, but Roger Stahl argues that a new interactive mode of militarized entertainment is recruiting its audience as virtual-citizen soldiers. The author examines a wide range of historical and contemporary media examples to demonstrate the ways that war now invites audiences to enter the spectacle as an interactive participant through a variety of channels—from news coverage to online video games to reality television. Simply put, rather than presenting war as something to be watched, the new interactive militainment presents war as something to be played and experienced vicariously. Stahl examines the challenges that this new mode of militarized entertainment poses for democracy, and explores the controversies and resistant practices that it has

inspired. This volume is essential reading for anyone interested in the relationship between war and media, and it sheds surprising light on the connections between virtual battlefields and the international conflicts unfolding in Iraq and Afghanistan today.

**The Day After The Day After** - Steven Church  
2010-02-10

Steven Church grew up in the 1970s and '80s in Lawrence, Kansas, a town whose predictable daily rhythms give way easily to anxiety—and a place that, since Civil War times, has been a canvas for sporadic scenes of havoc and violence in the popular imagination. Childhood was quiet on the surface, but Steven grew up scared—scared of killer tornadoes, winged monkeys, violent movies, authority figures, the dissolution of his parents' marriage, and most of all in Reagan's America, nuclear war. His fantasies of nuclear meltdown, genetic mutation, and post-apocalyptic survival find a focal point in 1982 when filming begins in Lawrence for The

Day After, a film which would go on to become the second-highest Nielsen-rated TV movie. Despite cheesy special effects, melodramatic plotlines, and the presence of Steve Guttenberg, the movie had an instant and lasting impact on Church, and an entire generation. Combining interview, personal essay, film criticism, fact, and flights of imagination, Church's richly layered and darkly comic memoir explores the meaning of Cold War fears for his generation and their resonance today.

**The Palgrave Handbook of the Southern Gothic** - Susan Castillo Street 2016-07-26  
This book examines 'Southern Gothic' - a term that describes some of the finest works of the

American Imagination. But what do 'Southern' and 'Gothic' mean, and how are they related? Traditionally seen as drawing on the tragedy of slavery and loss, 'Southern Gothic' is now a richer, more complex subject. Thirty-five distinguished scholars explore the Southern Gothic, under the categories of Poe and his Legacy; Space and Place; Race; Gender and Sexuality; and Monsters and Voodoo. The essays examine slavery and the laws that supported it, and stories of slaves who rebelled and those who escaped. Also present are the often-neglected issues of the Native American presence in the South, socioeconomic class, the distinctions among the several regions of the South, same-sex relationships, and norms of gendered behaviour. This handbook covers not only iconic figures of Southern literature but also other less well-known writers, and examines gothic imagery in film and in contemporary television programmes such as True Blood and True Detective.

*New Blood* - Eddie Falvey 2021-01-15  
The taste for horror is arguably as great today as it has ever been. Since the turn of the millennium, the horror genre has seen various developments emerging out of a range of contexts, from new industry paradigms and distribution practices to the advancement of subgenres that reflect new and evolving fears. *New Blood* builds upon preceding horror scholarship to offer a series of critical perspectives on the genre since the year 2000, presenting a collection of case studies on topics as diverse as the emergence of new critical categories (such as the contentiously named 'prestige horror'), new subgenres (including 'digital folk horror' and 'desktop horror') and horror on-demand ('Netflix horror'), and including analyses of key films such as *The Witch* and *Raw* and TV shows like *Stranger Things* and *Channel Zero*. Never losing sight of the horror genre's ongoing political economy, *New Blood* is an exciting contribution to film and

horror scholarship that will prove to be an essential addition to the shelves of researchers, students and fans alike.

**Sites of Memory, Sites of Mourning** - Jay Winter  
2014-05-15

Jay Winter's powerful study of the 'collective remembrance' of the Great War offers a major reassessment of one of the critical episodes in the cultural history of the twentieth century. Dr Winter looks anew at the culture of commemoration and the ways in which communities endeavoured to find collective solace after 1918. Taking issue with the prevailing 'modernist' interpretation of the European reaction to the appalling events of 1914-18, Dr Winter instead argues that what characterised that reaction was, rather, the

attempt to interpret the Great War within traditional frames of reference. Tensions arose inevitably. Sites of Memory, Sites of Mourning is a profound and moving book of seminal importance for the attempt to understand the course of European history during the first half of the twentieth century.

Flowers of Time - Mark Payne 2020-10-13

An exploration of postapocalyptic fiction, from antiquity to today, and its connections to political theory and other literary genres The literary lineage of postapocalyptic fiction—stories set after civilization’s destruction—is a long one, spanning the biblical tale of Noah and Hesiod’s Works and Days to the works of Mary Shelley, Octavia Butler, Cormac McCarthy, and many others. Traveling from antiquity to the present, Flowers of Time reveals how postapocalyptic fiction differs from other genres—pastoral poetry, science fiction, and the maroon narrative—that also explore human capabilities beyond the constraints of civilization. Mark Payne places postapocalyptic fiction into conversation with such theorists as Aristotle, Jean-Jacques Rousseau, Claude Lévi-

Strauss, and Carl Schmitt, illustrating how the genre functions as political theory in fictional form. Payne shows that rather than argue for a particular way of life, postapocalyptic literature reveals what it would be like to inhabit that life. He considers the genre’s appeal in our own historical moment, contending that this fiction is the pastoral of our time. Whereas the pastoralist and the maroon could escape to real-world hills and fashion their own versions of freedom, on a fully owned and occupied Earth, only an apocalyptic event can create a space where such freedoms are feasible once again. Flowers of Time looks at how fictional narratives set after the world’s devastation represent new conditions and possibilities for life and humanity.

*Zombie Apocalypse! Horror Hospital* - Stephen Jones 2014-06-19

London is in turmoil following riots and the Trafalgar Square Massacre. A doctor in a big East End hospital, already hard hit by

government cutbacks and increasing social unrest, starts to get reports of something having happened at All Hallows church . . . Then, the first of the injured, including policemen and soldiers, start to be brought in, but the nurses and doctors on the day shift still can't make sense of what the victims are talking about. Soon their resources begin to be overwhelmed. Some of the injured begin to 'change' and soon the hospital, like so many other buildings throughout the city, is on lockdown. But as things grow increasingly chaotic outside, for those trapped within the old hospital building, both staff and patients, things quickly become infinitely worse as the dead return to life and stalk the corridors in search of flesh.

*When The Cicadas Stop Singing* - Zachary Ashford 2021-09-21

When the poison gas first leaked out of the ground, mankind thought the horror would be over in no time. When the lizard-men followed, swarming the land, slaughtering

indiscriminately, those who survived scattered to the hills and the forests. Most did not last long. But Cora, who found refuge and made a home in the mountains where she lives with the memory of her dead son, still fights. Tenacious, she lives wild and protects that home from the lizards who seek to kill her. Until now. Because man has arrived, and he is not friendly. In this terrifying fight for survival, Zachary Ashford blends the thrills of the creature feature genre with the claustrophobic atmosphere of a home invasion.
