Just Ask! - Sonia Sotomayor 2019-09-03

Justice Sonia Sotomayor and award-winning artist Rafael Lopez create a kind and caring book about the differences that make each of us unique. A #1 New York Times bestseller! Winner of the Schneider Family Book Award! Feeling different, especially as a kid, can be tough. But in the same way that different types of plants and flowers make a garden more beautiful and enjoyable, different types of people make our world more vibrant and wonderful. In *Just Ask*, United States Supreme Court Justice Sonia Sotomayor celebrates the different abilities kids (and people of all ages) have. Using her own experience as a child who was diagnosed with diabetes, Justice Sotomayor writes about children with all sorts of challenges--and looks at the special powers those kids have as well. As the kids work together to build a community garden, asking questions of each other along the way, this book encourages readers to do the same: When we come across someone who is different from us but we're not sure why, all we have to do is Just Ask. Praise for *Just Ask*: * "Addressing topics too often ignored, this picture book presents information in a direct and wonderfully child-friendly way." --Booklist, *STARRED REVIEW* "An affirmative, delightfully diverse overview of disabilities." --Kirkus Reviews "A hopeful and sunny exploration of the many things that make us unique [with] dynamic and vibrant illustrations [that] emphasize each character's unique abilities. . . . A thoughtful and empathetic story of inclusion." --SLJ

110 Toddler Educational Activities at Home - Ann R. Sutton 2022-09-13

Practice Makes Perfect. Scratch That... Practice Makes Permanent —Especially for your Kid. Kids are like a blank space, an empty Microsoft Word document with a blinking cursor. They are waiting for you to write something, to steer the course. They look at what you do, the way you speak —even how you treat the dog. And whatever they learn from you and practice often is going to shape the rest of their lives. They observe and practice a lot of things. At this stage, the blank space is getting filled up with lessons they learned every day, whether good or bad, they become their character, their habit. That is why it's tough to get your kid to stop sucking at his/her thumbs if he or she does it very often. At a later age, you'll find the possibility of your kid unlearning these bad habits almost nonexistent. But if you ever want to make your kid fall in love with learning new stuff like it's a bad habit, then you should get it right the first time. So what if you could make learning a habit for your kid? And Instead of them sitting in front of the TV after school with a bag of Doritos, they could be learning stuff that will enhance their overall love for education. What if you could help your kid enjoy school more, make better grades, and reduce behavior problems at the same time? And what if you could do all these without any piece of self-doubt or

impostor syndrome that comes with homeschooling? If your answer is a resounding YES, then you just might get your kid to start learning awesome stuff before the end of the week because this book is packed with more than 100 never-seen-before ideas that will take you and your kid from zero to a hundred in being the perfect learning buddies. You will learn; ●Fun things to keep kids busy at home ●Creative activities to boost self-discipline ●At-home bonding activities to do with your toddler ●Activities to boost your toddler's development ●100+ learning activities for 2-year olds And many more. This book is not only geared toward making your kid fall in love with learning but also to foster a healthy relationship between you and your kid.

Wild and Free Nature - Ainsley Arment 2021-03-30

The companion to *The Call of the Wild + Free*: styled in the lush aesthetic of the Wild + Free brand, a four-color book offering outdoor activities and essays, that parents, educators, and caregivers can use to inspire their children. *Wild and Free Nature* is a beautiful, four-color resource book for parents, educators, and caregivers to enjoy doing hands-on activities outside with kids. One of the core philosophies behind *Wild + Free* is the belief that nature is the best classroom we could ever hope for. It unlocks the imagination and inspires creativity in ways that a schoolroom never could. Being out in nature has a number of benefits. Studies show that children are more likely to interact with kids of different ages and learn to problem solve in natural settings. Being in natural settings stimulates the brain and restores cognitive function. Children who spend time in natural settings also interact better with kids of all ages and learn to solve problems more easily. They build muscle and coordination and fend off obesity. It cultivates a sense of responsibility for caring for the earth, not to mention, encourages imaginative play, curiosity, and other qualities necessary to spark a love for investigation and learning. This resource book will help equip parents and adults who work with children to get them outdoors with activities such as: Build a treehouse in the woods. Cultivate a garden plot. Make land art and nature crafts. Create a mud kitchen in the backyard. Go for a nature walk each morning. Find a secret swimming hole. Go to the creek to learn about the water cycle. Plant a garden to see what will grow in your backyard. Raise monarch caterpillars and feed them milkweed until they transform into butterflies. Set up a birdwatching station in your front window equipped with binoculars, notebooks, and bird guides. Make a wilderness fort with the fallen branches from trees. With the same lush photography as *The Call of the Wild + Free*, this book includes step-by-step pictures that show parents how to do the activity, and essays on the importance of nature in a child's life.

Harlem Grown - Tony Hillery 2020-08-18

As featured on *Humans of New York* "Hartland's joyful folk-art illustrations bop from the gray-toned jazzy vibrancy of a bustling city

neighborhood to the colorful harvest of a lush urban farm.” —The New York Times “An inspiring picture book for youngsters with meaningful ties to the environment, sustainability, and community engagement.” —Booklist Discover the incredible true story of Harlem Grown, a lush garden in New York City that grew out of an abandoned lot and now feeds a neighborhood. Once in a big city called New York in a bustling neighborhood there was an empty lot. Nevaeh called it the haunted garden. Harlem Grown tells the inspiring true story of how one man made a big difference in a neighborhood. After seeing how restless they were and their lack of healthy food options, Tony Hillery invited students from an underfunded school to turn a vacant lot into a beautiful and functional farm. By getting their hands dirty, these kids turned an abandoned space into something beautiful and useful while learning about healthy, sustainable eating and collaboration. Five years later, the kids and their parents, with the support of the Harlem Grown staff, grow thousands of pounds of fruits and vegetables a year. All of it is given to the kids and their families. The incredible story is vividly brought to life with Jessie Hartland’s “charmingly busy art” (Booklist) that readers will pore over in search of new details as they revisit this poignant and uplifting tale over and over again. Harlem Grown is an independent, not-for-profit organization. The author’s share of the proceeds from the sale of this book go directly to Harlem Grown.

Planting the Wild Garden - Kathryn O. Galbraith 2015-03-03

Eloquent text and stunning illustrations combine to explore the many ways seeds are distributed, including animals, weather and wind, human action, and even the plants themselves. A farmer and her son carefully plant seeds in their garden. In the wild garden, many seeds are planted too, but not by farmers' hands. Different kinds of animals transport seeds, often without knowing it. Sometimes rain washes seeds away to a new location. And sometimes something extraordinary occurs, like when the pods of Scotch broom burst open explosively in the summer heat, scattering seeds everywhere like popcorn. Kathryn Galbraith's lyrical prose seamlessly combines with Wendy Halperin's elegant, crisp illustrations to show how many elements work together through the seasons to create and sustain the wild meadow garden.
