The Family And The Nation -
No Author 2013-12-01
As we aspire for rising economic prosperity and a strong and confident India, this book forcefully reminds us of the values that make for a truly sustainable society, at the heart of which is the family. For it is not economic growth or military strength alone that will make India strong.

Sustainable success comes from values, and these can sustain a society and a nation even in times of hardship. The book expresses an ideal by which Indian society may prosper and speaks of how spirituality can help create a noble nation and a better world. It provides a valuable counterpoint to the modern-day emphasis on consumerism and

the philosophy of more is better, highlighting the sanctity of the natural world and its great power to evoke human creativity and love. Writing on this crucial subject are two iconic Indians. Together, Acharya Mahapragya and A.P.J. Abdul Kalam-- one a Jain muni revered as a saint, the other a visionary, a distinguished scientist and a former President of India-- bring their vast experience to bear on this important subject. As the authors put it, it's only a united and happy family that will lead to a strong nation, one that can be a true fulfilment of 5,000 years of India's civilization. The book takes up the difficult and pressing task of setting a new agenda in a time of radical social change. It shows us the path we need to follow to take India to its rightful place as a great nation.

mining the rural talent. Here, Dr. Kalam presents his dream of schools in India at 2020 as symbiotic nerve centres

connecting teachers, students and community; personifying

knowledge that exists in the world. He also makes a clarion call to accelerate the process of societal transformation. This would involve raising the standards of governance and safeguarding the sanctity of public institutions. The book uses the metaphor of a tree to describe the process of knowledge bearing fruits of prosperity in the contemporary globalized world where different phases, formative, adult working life, and post-50 experienced senior citizens, call for different kinds of learning. The book refers to a contextual contribution of a large number of Indian scientists and artists and proves that there is no age bar to blossom. He advocates creation of conditions that favour growth of diverse individual talents akin to a garden and calls for a scientific mind-set guided by conscience, consensus and by actions that take our social and moral values into account in building our own systems.

Inspiring Quotations by Indian President Dr. APJ Abdul Kalam
The Envoy - Zalmay Khalilzad
2016-03-22

Zalmay Khalilzad grew up in a traditional family in the ancient city of Mazar-i-Sharif, Afghanistan. As a teenager, Khalilzad spent a year as an exchange student in California, where after some initial culture shocks he began to see the merits of America's very different way of life. He believed the ideals that make American culture work, like personal initiative, community action, and respect for women, could make a transformative difference to his home country, the Muslim world and beyond. Of course, 17-year-old Khalilzad never imagined that he would one day be in a position to advance such ideas. With 9/11, he found himself uniquely placed to try to shape mutually beneficial relationships between his two worlds. As U.S. Ambassador to Afghanistan and Iraq, he helped craft two constitutions and forge governing coalitions. As U.S. Ambassador to the UN,

he used his unique personal diplomacy to advance U.S. interests and values. In *The Envoy*, Khalilzad details his experiences under three presidential administrations with candid behind-the-scenes insights. He argues that America needs an intelligent, effective foreign policy informed by long-term thinking and supported by bipartisan commitment. Part memoir, part record of a political insider, and part incisive analysis of the current Middle East, *The Envoy* arrives in time for foreign policy discussions leading up to the 2016 election.

Turning Points - A.P.J. Abdul Kalam 2017-08-16

It was like any other day on the Anna University campus in Chennai. As I was returning to my room in the evening, the vice-chancellor, Prof. A. Kalanidhi, fell in step with me. Someone had been frantically trying to get in touch with me through the day, he said. Indeed, the phone was ringing when I entered the room. When I answered, a voice at the other end said, "The

prime minister wants to talk with you.' Some months earlier, I had left my post as Principal Scientific Adviser to the Government of India to return to teaching. Now, as I spoke to the PM, Atal Bihari Vajpayee, my life was set for an unexpected change. Turning Points takes up the incredible Kalam story from where Wings of Fire left off. It brings together details from his career and presidency that are not generally known as he speaks out for the first time on certain points of controversy. It is a continuing saga, above all, of a journey - individual and collective - that will take India to 2020 and beyond as a developed nation.

Why We Dream - Alice Robb
2018-11-20

A science journalist explores the latest research on dreams—how they work, what they're for, and how we can reap the benefits. While on a research trip in Peru, science journalist Alice Robb became hooked on lucid dreaming—the uncanny phenomenon in which a sleeping person can realize that they're dreaming and even control the dreamed

experience. Finding these forays both puzzling and exhilarating, Robb dug deeper into the science of dreams at an extremely opportune moment: just as researchers began to understand why dreams exist. They aren't just random events; they have clear purposes. They help us learn and even overcome psychic trauma. Robb draws on fresh and forgotten research, as well as her experience and that of other dream experts, to show why dreams are vital to our emotional and physical health. She explains how we can remember our dreams better—and why we should. She traces the intricate links between dreaming and creativity, and even offers advice on how we can relish the intense adventure of lucid dreaming for ourselves. Why We Dream is both a cutting-edge examination of the meaning and purpose of our nightly visions and a guide to changing our dream lives in order to make our waking lives richer, healthier, and happier. "Robb offers a welcome

antidote to the medicine administered by most sleep gurus.” —New Yorker

Childhood of Kalam - Srijan Pal Singh 2020-01-01

Greatness is not by accident. Greatness is a quality processed, honed and learnt over a lifetime of learning and hard work. Great human beings are built when a curious mind is met with life changing lessons, often early in the childhood. Just like the nature and quality of a tree is decided by the characteristic of the seed and how it is sown, the worth of a human life is shaped in the early stage of childhood. Often these life teachings as a growing up child, transform into the values which set the boundaries of one's adult actions and govern one's

decisions. We all know Dr. Kalam as an eminent teacher, an excellent President, an exception scientist, a talented rocket scientist, a team man, an institution builder and a man of ethics and integrity. But what went behind the scenes, in the formative days of "Little Kalam" which shaped him slowly but surely into Dr. Kalam - the man we remember and admire. This books aspires to take you in this early history of childhood of Kalam tracking "Little Kalam" as he begins his first steps into the sands of Rameshwaram - which one day will translate into a march to the Rashtrapati Bhawan.

Dr. A.P.J. Abdul Kalam:
Biography Of A Sainly
Scientist - A.K. Gandhi
2021-01-01

Dr. Kalam was born and brought up in a multi-religious,

multi-ethnic community, and this type of milieu had a profound effect on his personality. He gave equal respect to all faiths and religions; and he did not pay only lip-service to different religions. During his life, he visited the saints and seers of all faiths, discussed with them and learnt from them. He learnt what divinity and spirituality actually meant, and brought out a blended form. For him, religion is a connecting thread. He was quite at ease when he quoted from the Gita or the Hadith, or for that matter, from the holy texts of other faiths. In this book, we have made a solemn endeavour to read his mind, how he thought at every turn of his life; and this will help the readers to understand the intricacies of his thinking and how he was guided for a mission in his life. To understand him well, we have also narrated a number of incidents, accidents and events of his life, that would contribute to holistic understanding about him. He

took up the challenges and worked on them wholeheartedly; whenever he failed, he overcame his negativity and came out a stronger man than ever. This is the beauty of his character, and this makes him one of the most popular public figures of all times. May his soul rest in peace! —K. Senthil Kumar, IAS
Advantage India - A.P.J. Abdul Kalam 2015-10-15

A visionary's bequest to the nation On the way from Delhi to Jaunpur in eastern Uttar Pradesh is the dusty town of Badshahpur. Even in this nondescript settlement, people receive money via mobile transfer from family members working in distant cities. There are computer training centres offering diploma courses in Bhojpuri, Hindi and English. Here is an example of India's numerous remote towns that have skipped the stage of basic learning and landed straight into digital literacy as they strive to keep up with the times. In his last book, A.P.J. Abdul Kalam, writing with Srijan Pal Singh, draws upon

examples ranging from entrepreneurship in places like Badshahpur to a sophisticated missile programme like Agni to show how it can be 'Advantage India' in the final lap of the journey to 2020--the landmark year by which he had envisioned the country could transform into an economic power. How can the new initiatives--such as Make in India, Swachh Bharat, smart cities and skill development for the youth--be used to unleash the country's vast potential? Advantage India offers the answer--a movement driven by every home and school to educate the new generation and give a fresh meaning to citizenship.

My Journey - Avul Pakir Jainulabdeen Abdul Kalam

Inspirational stories from the life of the author.

A Manifesto For Change - V. Ponraj 2014-07-01

In 1998, a book was published that was surprisingly ahead of its times. It was called India 2020 and proposed that India could soon be one of the top five economies of the world. The nation had set off a series of nuclear tests and was facing worldwide sanctions. A new government had taken charge, and the economy was facing a tough time. It was not the best of times to predict that India had it in her to get on the fast track to development. The vision presented in the book would go on to inspire, directly

or indirectly, many sectors of the economy to work for and achieve high growth. The book has since sold hundreds of thousands of copies. In *A Manifesto for Change*, its author A.P.J. Abdul Kalam, writing with co-author V. Ponraj, offers a sequel. As focused then as now on his dream of a developed India by 2020, the eleventh President of India examines what we need to get right to accomplish that essential goal: harnessing the stupendous energy of our youth to contribute to growth, a united Parliament that makes full use of its time for constructive debate and rises above petty party politics to achieve the larger national vision, and a plan of action that looks at development from the grassroots to giant strides in infrastructure and bridging the urban-rural disparity. It is time to leave behind the politics of antagonism and disruption behind, he suggests. As reward: a developed India as befits this beautiful land.

India 2020 - A P J Abdul Kalam 2014-08-01

In this ground-breaking vision document, first published in 1998, Dr A.P.J. Abdul Kalam and Y.S. Rajan offer a blueprint for India to be counted among the world's top five economic powers by the year 2020. They cite growth rates and development trends to show that the goal is not unrealistic. Past successes—the green revolution and satellite-based communication linking remote regions of the country, for instance—bear them out. The same sense of purpose can make us a prosperous, strong nation in a matter of years, assert Kalam and Rajan. This is a book that every citizen who hopes for a better India must read.
