The Only Daughter - A.b. Yehoshua 2023-04-11

From the internationally acclaimed, award-winning Israeli author, a stunning novella that brilliantly illuminates a young girl's crisis of faith and coming of age in Padua, Italy. Rachele Luzzato is twelve years old when she learns her father is gravely ill. While her family plans for her upcoming Bat-Mitzvah, Rachele finds herself cast as the Madonna in her school's Christmas play. Caught between spiritual poles, struggling to cope with her father's mortality, Rachele feels as if the threads of her everyday life are unravelling. A diverse circle of adults are there to guide young Rachele as she faces the difficult passing of childhood, including her charismatic Jewish grandfather, her maternal Catholic grandparents, and even an old teacher who believes the young girl might find solace in a nineteenth-century novel. These spiritual tributaries ultimately converge in Rachele's imagination, creating a fantasy that transcends the microcosm of her daily life with one simple hope: an end to the loneliness felt by an only daughter. In this wondrous story that combines the piercing wisdom of Nicole Krauss's *The History of Love*, the poignancy of Elena Ferrante's *My Brilliant Friend*; and the magical flight of Aimee Bender's *The Particular Sadness of Lemon Cake*, A. B. Yehoshua paints a warm and subtle portrait of a young girl at the cusp of her journey into adulthood.

Splithead - Julya Rabinowich 2011-02-03

'My father and I head towards a nervous breakdown as he attempts to erase three years of Communist indoctrination in the course of a single evening. I simply cannot comprehend that Lenin, the friend of all children, is now allegedly an arsehole.' When seven-year-old Mischka and her family flee the oppressive USSR for the freedom of Vienna, her world seems to divide neatly in two: there's life as she knew it before, and life as she must relearn it now. But even as she's busy dressing her new Barbie, perfecting her German and gorging on fresh fruit, Mischka is aware that there's part of her that can never escape her homeland,

with its terrifying folktales, its insidious anti-Semitism and its old family secrets. As her parents' marriage splinters and her sister retreats into silence, Mischka has to find her own way of living when her head and her heart are in two places at once. There is darkness galore in this novel. But there is also much comedy to be had in its twisted enchanted tales. It is as seductive and unsettling as similar work by Angela Carter or Margaret Atwood, while it shares a geography with *Everything Is Illuminated* and *If I Told You Once*.

The Leopard - Giuseppe Di Lampedusa 2007-11-06

Set in the 1860s, *The Leopard* tells the spellbinding story of a decadent, dying Sicilian aristocracy threatened by the approaching forces of democracy and revolution. The dramatic sweep and richness of observation, the seamless intertwining of public and private worlds, and the grasp of human frailty imbue *The Leopard* with its particular melancholy beauty and power, and place it among the greatest historical novels of our time. Although Giuseppe di Lampedusa had long had the book in mind, he began writing it only in his late fifties; he died at age sixty, soon after the manuscript was rejected as unpublishable. In his introduction, Gioacchino Lanza Tomasi, Lampedusa's nephew, gives us a detailed history of the initial publication and the various editions that followed. And he includes passages Lampedusa wrote for the book that were omitted by the original Italian editors. Here, finally, is the definitive edition of this brilliant and timeless novel. (Translated from the Italian by Archibald Colquhoun.)

Aesthetics of the Virtual - Roberto Diodato 2012-11-15

Reconfigures classic aesthetic concepts in relation to the novelty introduced by virtual bodies. Arguing that the virtual body is something new—namely, an entity that from an ontological perspective has only recently entered the world—Roberto Diodato considers the implications of this kind of body for aesthetics. Virtual bodies insert themselves into the space opened up by the famous distinction in Aristotle's *Physics* between natural and artificial beings—they are both. They are beings that are simultaneously events; they are images that are at once internal and external; they are ontological hybrids that exist only in the interaction between logical-computational text and human bodies endowed with technological prostheses. Pursuing this line of thought, Diodato reconfigures classic aesthetic concepts such as mimesis, representation, the relation between illusion and reality, the nature of images and imagination, and the theory of sensory knowledge. Roberto Diodato is Associate Professor of Aesthetics at the Catholic University of the Sacred Heart in Milan, Italy. Justin L. Harmon is a teaching assistant in the Philosophy Department at the University of Kentucky. Silvia Benso is Professor of Philosophy at the Rochester Institute of Technology.

Holy Matter - Sara Ritchey 2014-04-01

A magnificent proliferation of new Christ-centered devotional practices—including affective meditation, imitative suffering, crusade, Eucharistic cults and miracles, passion drama, and liturgical performance—reveals profound changes in the Western Christian temperament of the twelfth century and beyond. This change has often been attributed by scholars to an increasing emphasis on God’s embodiment in the incarnation and crucifixion of Christ. In *Holy Matter*, Sara Ritchey offers a fresh narrative explaining theological and devotional change by journeying beyond the human body to ask how religious men and women understood the effects of God’s incarnation on the natural, material world. She finds a remarkable willingness on the part of medieval Christians to embrace the material world—its trees, flowers, vines, its worms and wolves—as a locus for divine encounter. Early signs that perceptions of the material world were shifting can be seen in reformed communities of religious women in the twelfth-century Rhineland. Here Ritchey finds that, in response to the constraints of gendered regulations and spiritual ideals, women created new identities as virgins who, like the mother of Christ, impelled the world’s re-creation—their notion of the world’s re-creation held that God created the world a second time when Christ was born. In this second act of creation God was seen to be present in the physical world, thus making matter holy. Ritchey then traces the diffusion of this new religious doctrine beyond the Rhineland, showing the profound impact it had on both women and men in professed religious life, especially Franciscans in Italy and Carthusians in England. Drawing on a wide range of sources including art, liturgy, prayer, poetry, meditative guides, and treatises of spiritual instruction, *Holy Matter* reveals an important transformation in late medieval devotional practice, a shift from metaphor to material, from gazing on images of a God made visible in the splendor of natural beauty to looking at the natural world itself, and finding there God’s presence and promise of salvation.

The Fanaticism of the Apocalypse - Pascal Bruckner 2013-04-25

The planet is sick. Human beings are guilty of damaging it. We have to pay. Today, that is the orthodoxy throughout the Western world. Distrust of progress and science, calls for individual and collective self-sacrifice to ‘save the planet’ and cultivation of fear: behind the carbon commissars, a dangerous and counterproductive ecological catastrophism is gaining ground. Modern society’s susceptibility to this kind of thinking derives from what Bruckner calls “the seductive attraction of disaster,” as exemplified by the popular appeal of disaster movies. But ecological catastrophism is harmful in that it draws attention away from other, more solvable problems and injustices in the world in order to focus on something that is portrayed as an Apocalypse. Rather than preaching catastrophe and pessimism, we need to develop a democratic and generous ecology that addresses specific problems in a practical way.

So Long, and Thanks for All the Fish - Douglas Adams 2008-12-30

Now celebrating the 42nd anniversary of *The Hitchhiker’s Guide to the Galaxy*, soon to be a Hulu original series! “A madcap adventure . . . Adams’s writing teeters on the fringe of inspired lunacy.”—United Press International Back on Earth with nothing more to show for his long, strange trip through time and space than a ratty towel and a plastic shopping bag, Arthur Dent is ready to believe that the past eight years were all just a figment of his stressed-out imagination. But a gift-wrapped fishbowl with a cryptic inscription, the mysterious disappearance of Earth’s dolphins, and the discovery of his battered copy of *The Hitchhiker’s Guide to the Galaxy* all conspire to give Arthur the sneaking suspicion that something otherworldly is indeed going on. God only knows what it all means. Fortunately, He left behind a Final Message of explanation. But since it’s light-years away from Earth, on a star surrounded by souvenir booths, finding out

what it is will mean hitching a ride to the far reaches of space aboard a UFO with a giant robot. What else is new? “The most ridiculously exaggerated situation comedy known to created beings . . . Adams is irresistible.”—The Boston Globe

A History of Colors - Manlio Brusatin 1991

Early Modern Italy, 1550-1796 - John A. Marino 2002

This volume provides a fresh and dynamic account of Early Modern Italy, covering such themes as politics, Italy’s experience of the absolutist state, the Counter-Reformation, society and economy in both town and country, family and gender, the arts and intellectual life, popular culture, and Italy’s distinctive role in Europe.

The Land of Hunger - Piero Camporesi 1996

In this highly original book, Camporesi explores the two worlds of feast and famine in early modern Europe. Camporesi brings together a mosaic of images from Italian folklore: phantasmagoric processions of giants, pigs, vagabonds, down-trodden rogues, charlatans and beggars in rags. He reconstructs a world inhabited by the strange forces of peasant culture, and describes the various rituals - carnivals, festivities, competitions and funerals - in which food played a central role. Camporesi’s description alternates between the lives of the “haves” and the “have-nots”. He moves from the starving underworld of “criminalized poverty”, where people were forced to develop the art of living at the expense of others simply in order to survive, to the gastronomic culture of the well-fed, with their excessive eating habits, oily foods and colourful table manners. “The Land of Hunger” is a graphic and engaging journey into the folk culture of early modern Europe. It will consolidate Camporesi’s reputation as one of the most original and imaginative historians of our time.

The Rhyme of the Flying Bomb - Mervyn Peake 1973

This fills an important gap in the canon of Peake’s works in print. Although written after the Second World War, The poem uses it for its theme. While its central characters, The sailor And The child are symbolic, this was not consciously planned. Pe

Feminist Theory and Christian Theology - Serene Jones 2000-01-01

This long-awaited text charts clearly and comprehensively the enormously important area of feminist theory -- and brings it into fruitful conversation with Christian theology. Jones introduces the primary concerns that animate feminist theory through discussion of critical texts and through women’s narratives. She shows how they pose uncomfortable questions, and leave no corner of the Christian tradition unchallenged. Jones unfolds feminist theory in three broad categories that analyze human identity and gender, oppression, and ethics. She then illustrates their potential for illuminating theological categories of experience, truth, text, and norm to revitalize three key traditional Christian doctrines: faith, sin, and church.

Lucretius: De Rerum Natura V - Monica R. Gale 2008-11-01

The Development of the Modern State - Gianfranco Poggi 1978

The institutional features and the past and future role of the state should be a central concern of contemporary sociological and political theory, but until now they have been sadly neglected. Lately, in particular, the state’s increasing involvement in the management of industrial and industrializing societies has made it even more important to understand its past development, its current activities, and the related trends in its structure and in its relation to the larger society. As a contribution to this task, Gianfranco Poggi reviews the main phases in the institutional history of the modern state. Restating a typology elaborated, among others by Max Weber, he outlines first the feudal system of rule, then the late-medieval *Ständestaat* and the absolutist state. Next the book discusses the nineteenth-century constitutional state, seen as the most accomplished embodiment of the modern, Western state. Finally, it points out the major developments which have occurred since the end of the last century in the relationship between the state and society, and identifies the threat these pose to the persistence of Western political values. Throughout,

the discussion draws upon an impressive body of literature on the modern state (much of it not available in English) from the fields of history, law, and the social sciences.

Modern Epic - Franco Moretti 1996

Having coined a new term modern epic, the author analyses the phenomenon, & attempts to situate the works of e.g. Joyce, Proust & Musil within our literary tradition.

An Aristotelian Feminism - Sarah Borden Sharkey 2016-08-01

This book articulates the theoretical outlines of a feminism developed from Aristotle's metaphysics, making a new contribution to feminist theory. Readers will discover why Aristotle was not a feminist and how he might have become one, through an investigation of Aristotle and Aristotelian tradition. The author shows how Aristotle's metaphysics can be used to articulate a particularly subtle and theoretically powerful understanding of gender that may offer a highly useful tool for distinctively feminist arguments. This work builds on Martha Nussbaum's 'capabilities approach' in a more explicitly and thoroughly hylomorphic way. The author shows how Aristotle's hylomorphic model, developed to run between the extremes of Platonic dualism and Democritean atomism, can similarly be used today to articulate a view of gender that takes bodily differences seriously without reducing gender to biological determinations. Although written for theorists, this scholarly yet accessible book can be used to address more practical issues and the final chapter explores women in universities as one example. This book will appeal to both feminists with limited familiarity with Aristotle's philosophy, and scholars of Aristotle with limited familiarity with feminism.

Carnal Hermeneutics - Richard Kearney 2015-09-01

Building on a hermeneutic tradition in which accounts of carnal embodiment are overlooked, misunderstood, or underdeveloped, this work initiates a new field of study and concern. Carnal Hermeneutics provides a philosophical approach to the body as interpretation. Transcending the traditional dualism of rational understanding and embodied sensibility, the volume argues that our most carnal sensations are already interpretations. Because interpretation truly goes "all the way down," carnal hermeneutics rejects the opposition of language to sensibility, word to flesh, text to body. In this volume, an impressive array of today's preeminent philosophers seek to interpret the surplus of meaning that arises from our carnal embodiment, its role in our experience and understanding, and its engagement with the wider world.

Moving Data - Pelle Snickars 2012-07-10

The iPhone has revolutionized not only how people communicate but also how we consume and produce culture. Combining traditional and social media with mobile connectivity, smartphones have redefined and expanded the dimensions of everyday life, allowing individuals to personalize media as they move and process constant flows of data. Today, millions of consumers love and live by their iPhones, but what are the implications of its special technology on society, media, and culture? Featuring an eclectic mix of original essays, *Moving Data* explores the iPhone as technological prototype, lifestyle gadget, and platform for media creativity. Media experts, cultural critics, and scholars consider the device's newness and usability—even its "lickability"—and its "biographical" story. The book illuminates patterns of consumption; the fate of solitude against smartphone ubiquity; the economy of the App Store and its perceived "crisis of choice"; and the distance between the accessibility of digital information and the protocols governing its use. Alternating between critical and conceptual analyses, essays link the design of participatory media to the iPhone's technological features and sharing routines, and they follow the extent to which the pleasures of gesture-based interfaces are redefining media use and sensory experience. They also consider how user-led innovations, collaborative mapping, and creative empowerment are understood and reconciled through changes in mobile surveillance, personal rights, and prescriptive social software. Presenting a range of perspectives and arguments, this book reorients the practice and study of media critique.

The Holy Land - Alda Merini 2002

Merini, like Dante, represents the story of the Exodus of the Israelites from Egypt, in its literal and allegorical senses. The forty poems of *The Holy Land* recall Moses at Mount Sinai, the Israelites' forty years in the desert, and Jesus' fast in the wilderness. For Merini, it seems, the Holy Land is not the Promised Land of Canaan, but the forty years spent getting there, coming to terms with the terrifying atrocities of hell, the mystical ecstasies of paradise, and the "intense pain...of plunging back into the banality of daily living." Merini's wandering may be understood as the poet's search for the obscure laws which govern her visions, metamorphoses, and creations.

The Flavors of Modernity - Gian-Paolo Biasin 2017-03-14

From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in *To the Lighthouse*, food has figured prominently in world literature. But perhaps nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as

Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The Leopard*. Similarly, Biasin shows how food is used by writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate. In Praise of Reading and Fiction - Mario Vargas Llosa 2011-04-12

On December 7, 2010, Mario Vargas Llosa was awarded the Nobel Prize in Literature. His Nobel Lecture is a resounding tribute to fiction's power to inspire readers to greater ambition, to dissent, and to political action. "We would be worse than we are without the good books we have read, more conformist, not as restless, more submissive, and the critical spirit, the engine of progress, would not even exist," Vargas Llosa writes. "Like writing, reading is a protest against the insufficiencies of life. When we look in fiction for what is missing in life, we are saying, with no need to say it or even to know it, that life as it is does not satisfy our thirst for the absolute—the foundation of the human condition—and should be better." Vargas Llosa's lecture is a powerful argument for the necessity of literature in our lives today. For, as he eloquently writes, "literature not only submerges us in the dream of beauty and happiness but alerts us to every kind of oppression."

Steinbeck in Vietnam - John Steinbeck 2012-03-29

Although his career continued for almost three decades after the 1939 publication of *The Grapes of Wrath*, John Steinbeck is still most closely associated with his Depression-era works of social struggle. But from Pearl Harbor on, he often wrote passionate accounts of America's wars based on his own firsthand experience. Vietnam was no exception. Thomas E. Barden's *Steinbeck in Vietnam* offers for the first time a complete collection of the dispatches Steinbeck wrote as a war correspondent for *Newsday*. Rejected by the military because of his reputation as a subversive, and reticent to document the war officially for the

Johnson administration, Steinbeck saw in *Newsday* a unique opportunity to put his skills to use. Between December 1966 and May 1967, the sixty-four-year-old Steinbeck toured the major combat areas of South Vietnam and traveled to the north of Thailand and into Laos, documenting his experiences in a series of columns titled *Letters to Alicia*, in reference to *Newsday* publisher Harry F. Guggenheim's deceased wife. His columns were controversial, coming at a time when opposition to the conflict was growing and even ardent supporters were beginning to question its course. As he dared to go into the field, rode in helicopter gunships, and even fired artillery pieces, many detractors called him a warmonger and worse. Readers today might be surprised that the celebrated author would risk his literary reputation to document such a divisive war, particularly at the end of his career. Drawing on four primary-source archives—the Steinbeck collection at Princeton, the Papers of Harry F. Guggenheim at the Library of Congress, the Pierpont Morgan Library's Steinbeck holdings, and the archives of *Newsday*—Barden's collection brings together the last published writings of this American author of enduring national and international stature. In addition to offering a definitive edition of these essays, Barden includes extensive notes as well as an introduction that provides background on the essays themselves, the military situation, the social context of the 1960s, and Steinbeck's personal and political attitudes at the time.
