The Medieval Foundations of International Law - Dante Fedele 2021-04-26

Dante Fedele's new work of reference reveals the medieval foundations of international law

through a comprehensive study of a key figure of late medieval legal scholarship: Baldus de Ubaldis (1327-1400).

Snuff - Neil Jackson 2016-01-28

The phenomenon of so-called 'snuff movies' (films that allegedly document real acts of murder, specifically designed to 'entertain' and sexually arouse the spectator) represents a fascinating socio-cultural paradox. At once unproven, yet accepted by many, as emblematic of the very worst extremes of pornography and horror, moral detractors have argued that the mere idea of snuff constitutes the logical (and terminal) extension of generic forms that are dependent primarily upon the excitement, stimulation and, ultimately, corruption of the senses. *Snuff: Real Death and Screen Media* brings together scholars from film and media studies to assess the longevity of one of screen media's most enduring cultural myths.

Thorough, provocative, and well argued, the contributions to this volume address areas ranging from exploitation movies, the video industry, trends in contemporary horror cinema, pornography and Web 2.0.

Illegal Entrepreneurship, Organized Crime

and Social Control - Georgios A. Antonopoulos
2016-06-16

This book covers organized crime groups, empirical studies of organized crime, criminal finances and money laundering, and crime prevention, gathering some of the most authoritative and well-known scholars in the field. The contributions to this book are new chapters written in honor of Professor Dick Hobbs, on the occasion of his retirement. They reflect his powerful influence on the study of organized crime, offering a novel perspective that located organized crime in its socio-economic context, studied through prolonged ethnographic engagement. Professor Hobbs has influenced a generation of criminology researchers engaged in studying organized crime groups, and this work provides a both a look back and this influence and directions for future research. It will be of interest to researchers in criminology and criminal justice, particularly with a focus on organized crime and

financial crime, as well as those interested in corruption, crime prevention, and applications of ethnographic methods.

The X-Men Films - Claudia Bucciferro

2016-02-09

This edited collection focuses on the X-Men film franchise, with essays that considers the movies as popular culture products. Chapters in this volume address various aspects featured in individual films or throughout the series. The essays discuss such topics as gender, race, class, sexuality, disability, and a sense of "otherness" that pervades the franchise. Although the book focuses specifically on the X-Men films, an analysis that considers the X-Men's transformation from comics to movies will be included.

Threads and Traces - Carlo Ginzburg 2012-09-02

"This book is a translation of historian Carlo Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments,

Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction?

What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians"--Provided by publisher.

To the Digital Observer - Giacomo Calorio

2019-10-25T00:00:00+02:00

Nel 1979 Noël Burch pubblicava *To the Distant Observer*, uno dei testi più noti e discussi sul cinema giapponese. Cos'è cambiato quarant'anni dopo? Che ne è stato di quell'osservatore e di quella distanza? In un contesto digitale, polimorfo e convergente, il cinema giapponese è mutato nella sostanza, ma non solo: nuove pratiche discorsive e di fruizione hanno trasformato la sua ricezione all'estero, favorendo l'emergere di determinate sue espressioni a scapito di altre. Tra i nuovi osservatori digitali del cinema giapponese, rilocato su una moltitudine di schermi, troviamo non solo cinefili

a caccia di cult movies, ma anche folte schiere di “cosmopoliti pop” attratti da un’immagine diversamente giapponese. Nelle loro pratiche virtuali, sia gli uni che gli altri contribuiscono a portare in superficie e a riplasmare questa immagine: diffondendola e sollecitando nuovi tipi di performance culturale, ma anche disperdendone la “fragranza” e occultando tutto ciò che vi si cela dietro.

Money, Labour and Land - Paul Cartledge
2005-06-29

The cultural wealth of the classical Greek world was matched by its material wealth, and there is abundant textual and archaeological evidence for both. However, radically different theoretical and methodological approaches have been used to interpret this evidence, and conflicts continue to rage as these different starting points produce clashing views on the significance and distribution of money, labour and land. *Money, Labour and Land* reflects the current explosion in ideas and research by assembling case-studies

from an international selection of renowned US, British and European scholars. Drawing on comparative historical and anthropological approaches, sociological, economic and cultural theory, and developments in epigraphy, legal history, numismatics and spatial archaeology, this volume will be of interest to all students and scholars of ancient economies.

Music and Democracy - Marko Kölbl 2021-11-30
Music and Democracy explores music as a resource for societal transformation processes. This book provides recent insights into how individuals and groups used and still use music to achieve social, cultural, and political participation and bring about social change. The contributors present outstanding perspectives on the topic: From the promise and myth of democratization through music technology to the use of music in imposing authoritarian, neoliberal or even fascist political ideas in the past and present up to music's impact on political systems, governmental representation,

and socio-political realities. The volume further features approaches in the fields of gender, migration, disability, and digitalization.

Convergence Media History - Janet Staiger
2009-07-01

Convergence Media History explores the ways that digital convergence has radically changed the field of media history. Writing media history is no longer a matter of charting the historical development of an individual medium such as film or television. Instead, now that various media from blockbuster films to everyday computer use intersect regularly via convergence, scholars must find new ways to write media history across multiple media formats. This collection of eighteen new essays by leading media historians and scholars examines the issues today in writing media history and histories. Each essay addresses a single medium—including film, television, advertising, sound recording, new media, and more—and connects that specific medium's

history to larger issues for the field in writing multi-media or convergent histories. Among the volume's topics are new media technologies and their impact on traditional approaches to media history; alternative accounts of film production and exhibition, with a special emphasis on film across multiple media platforms; the changing relationships between audiences, fans, and consumers within media culture; and the globalization of our media culture.

Everyday Crime, Criminal Justice and Gender in Early Modern Bologna - Sanne Muurling
2020-12

"Female protagonists are commonly overlooked in the history of crime; especially in early modern Italy, where women's scope of action is often portrayed as heavily restricted. This book redresses the notion of Italian women's passivity, arguing that women's crimes were far too common to be viewed as an anomaly. Based on over two thousand criminal complaints and investigation dossiers, Sanne Muurling charts

the multifaceted impact of gender on patterns of recorded crime in early modern Bologna. While various socioeconomic and legal mechanisms withdrew women from the criminal justice process, the casebooks also reveal that women - as criminal offenders and savvy litigants - had an active hand in keeping the wheels of the court spinning"--

Guide to the Software Engineering Body of Knowledge (Swebok(r)) - IEEE Computer Society 2014

In the Guide to the Software Engineering Body of Knowledge (SWEBOK(R) Guide), the IEEE Computer Society establishes a baseline for the body of knowledge for the field of software engineering, and the work supports the Society's responsibility to promote the advancement of both theory and practice in this field. It should be noted that the Guide does not purport to define the body of knowledge but rather to serve as a compendium and guide to the knowledge that has been developing and evolving over the

past four decades. Now in Version 3.0, the Guide's 15 knowledge areas summarize generally accepted topics and list references for detailed information. The editors for Version 3.0 of the SWEBOK(R) Guide are Pierre Bourque (Ecole de technologie superieure (ETS), Universite du Quebec) and Richard E. (Dick) Fairley (Software and Systems Engineering Associates (S2EA)).

Jesuit Kaddish - James Bernauer, S.J.
2020-03-30

While much has been written about the Catholic Church and the Holocaust, little has been published about the hostile role of priests, in particular Jesuits, toward Jews and Judaism. Jesuit Kaddish is a long overdue study that examines Jesuit hostility toward Judaism before the Shoah and the development of a new understanding of the Catholic Church's relation to Judaism that culminated with Vatican II's landmark decree *Nostra aetate*. James Bernauer undertakes a self-examination as a member of

the Jesuit order and writes this story in the hopes that it will contribute to interreligious reconciliation. Jesuit Kaddish demonstrates the way Jesuit hostility operated, examining Jesuit moral theology's dualistic approach to sexuality and, in the case of Nazi Germany, the articulation of an unholy alliance between a sexualizing and a Judaizing of German culture. Bernauer then identifies an influential group of Jesuits whose thought and action contributed to the developments in Catholic teaching about Judaism that eventually led to the watershed moment of Nostra aetate. This book concludes with a proposed statement of repentance from the Jesuits and an appendix presenting the fifteen Jesuits who have been honored as "Righteous Among the Nations" by Israel's Yad Vashem Holocaust Center. Jesuit Kaddish offers a crucial contribution to the fields of Catholicism and Nazism, Catholic-Jewish relations, Jesuit history, and the history of anti-Semitism in Europe.

Handbook of Research on Examining Cultural Policies Through Digital Communication - Önay Dogan, Betül 2018-11-09

Culture is one of the most important elements for explaining individuals' behaviors within the social structure. It meets the various social needs of members of a society by directing how individuals must react to various events and how to act in specific circumstances. A planned and systematic process is required for disseminating this cultural accumulation as a policy, which is produced collectively by all members within their everyday life practices. The Handbook of Research on Examining Cultural Policies Through Digital Communication provides emerging research on this aspect of cultural policy, which is formed within the framework of this systematic process in a strategic manner and can be defined as various activities of the state intended for art, human sciences, and cultural inheritance. Creating such cultural policies involves the establishment of measures

and organizations required for the development of each individual, providing economic and social facilities, all of which are actions intended for directing society. Featuring coverage on a broad range of topics such as long-distance education, digital citizenship, and public diplomacy, this book is ideally designed for academicians, researchers, advanced-level students, sociologists, international and national organizations, and government officials.

A Theory of Craft - Howard Risatti 2009-12

What is craft? How is it different from fine art or design? In *A Theory of Craft*, Howard Risatti examines these issues by comparing handmade ceramics, glass, metalwork, weaving, and furniture to painting, sculpture, photography, and machine-made design from Bauhaus to the Memphis Group. He describes craft's unique qualities as functionality combined with an ability to express human values that transcend temporal, spatial, and social boundaries. Modern design today has taken over from craft the

making of functional objects of daily use by employing machines to do work once done by hand. Understanding the aesthetic and social implications of this transformation forces us to see craft as well as design and fine art in a new perspective, Risatti argues. Without a way of understanding and valuing craft on its own terms, the field languishes aesthetically, being judged by fine art criteria that automatically deny art status to craft objects. Craft must articulate a role for itself in contemporary society, says Risatti; otherwise it will be absorbed by fine art or design and its singular approach to understanding the world will be lost. *A Theory of Craft* is a signal contribution to establishing a craft theory that recognizes, defines, and celebrates the unique blend of function and human aesthetic values embodied in the craft object.

Giulia Gonzaga - Susanna Peyronel Rambaldi
2021-06-23T17:32:00+02:00

The life of Giulia Gonzaga - a leading figure in a

delicate time of transition in 16th-century Italian political, cultural and religious history - brings this period and its dramatic turning-points alive. A favoured disciple of Juan de Valdés and at the centre of his group of followers, as well as a loyal friend of the protonotary Pietro Carnesecchi, who was condemned for heresy and executed, Giulia Gonzaga was strongly tied to her class, her powerful dynasty and to family and political intrigues. Under the shadow of her family, she enjoyed a heterodox experience shared by many others, men and women alike, who were protagonists of an intellectual and spiritual dissent that was harshly repressed by the Church of Rome. Through the life of a woman, this book recounts the shifts in the political balance of power in Italy in the early years of Spanish dominion and how they mixed with religious dissent and with attempts to change the direction of the Church. It also recounts the relationships, friendships and solidarities of an aristocracy, male and female,

that sought to play a role in the bitter conflicts that had emerged in Italian society as the Reformation spread throughout Europe.

Apostles of Empire - Bronwen McShea 2022
Apostles of Empire contributes to ongoing research on the Jesuits, New France, and Atlantic World encounters, as well as on early modern French society, print culture, Catholicism, and imperialism.

Bibliophilos - Charalambos Dendrinos
2021-06-08

The present volume is a Festschrift in honour of the distinguished Byzantinist Costas N. Constantinides. The title of the volume, Bibliophilos: Books and Learning in the Byzantine World, reflects Professor Constantinides' major contribution to the fields of Greek palaeography, editions of Byzantine texts, Byzantine history, scholarship and education, and Cypriot manuscripts and culture. The volume is introduced by a preface and a *tabula gratulatoria* dedicated to the honorand,

followed by twenty articles, written by seasoned and younger scholars, who are former colleagues and students of Professor Constantinides. These articles, which appear in alphabetical order, offer new material and shed fresh light to the study of Greek manuscripts, binders and scribes, and the life, works and activities of Byzantine scholars, teachers and students, providing editions of unpublished texts, including letters and poems, and exploring various aspects of Byzantine and Cypriot history, literature, art, science and culture. In the process the authors often challenge earlier views and offer new interpretations and insights. *Bibliophilos* is a book for the student, teacher and scholar of Byzantium in particular, and for every bibliophile in general.

Assessment and Learning in Content and Language Integrated Learning (CLIL)

Classrooms - Mark deBoer 2020-11-17

This volume builds a conceptual basis for assessment promoting learning in Content and

Language Integrated Learning (CLIL) classrooms and proposes practical assessment approaches and activities that CLIL teachers can apply in the classroom. CLIL as an educational context is unique, as language and content learning happen simultaneously. The efficacy of such instruction has been studied extensively, but assessment in CLIL classrooms has drawn much less attention. The present volume aims to fill this gap. Arranged based on different ways that content and language are integrated in CLIL, the chapters in this book together build a solid theoretical basis for assessment promoting learning in CLIL classrooms. The authors discuss how assessment eliciting this integration yields insights into learners' abilities, but more importantly, how these insights are used to promote learning. The contributors to the volume together build the understanding of classroom-based assessment as cyclic, of teaching, learning, and assessment as inter-related, and of content and language in CLIL

classrooms as a dialectical unity. This volume will spark interest in and discussion of classroom-based assessment in CLIL among CLIL educators and researchers, enable reflection of classroom assessment practices, and foster collaboration between CLIL teachers and researchers. The assessment approaches and activities discussed in the volume, in turn, will help educators understand the scope of applications of assessment and inspire them to adapt these to their own classrooms.

Beyond Priesthood - Richard L. Gordon
2017-08-21

The last decade has seen a surge of scholarly interest in these religious professionals and a good number of high quality publications. Our volume, however, with its unique intercultural character and its explicit focus on appropriation and contestation of religious expertise in the Imperial Era is substantially different. Unlike the rather narrow focus of earlier studies of civic priests, the papers presented here examine a

wider range of religious professionals, their dynamic interaction with established religious authorities and institutions, and their contributions to religious innovation in the ancient Mediterranean world, from the late Hellenistic period through to Late Antiquity, from the City of Rome to mainland Greece, Asia Minor, Syria and Egypt, from Greek civic practice to ancient Judaism. A further advantage of our volume is the wide range of media of transmission taken into account. Our contributors look at both old and new materials, which derive not only from literary sources but also from papyri, inscriptions, and material culture. Above all, this volume assesses critically convenient terminological usage and offers a unique insight into a rich gamut of ancient Mediterranean religious specialists.

Veii - Jacopo Tabolli 2019-02-01

Reputed to be the richest city of Etruria, Veii was one of the most important cities in the ancient Mediterranean world. It was located ten

miles northwest of Rome, and the two cities were alternately allied and at war for over three hundred years until Veii fell to Rome in 396 BCE, although the city continued to be inhabited until the Middle Ages. Rediscovered in the seventeenth century, Veii has undergone the longest continuous excavation of any of the Etruscan cities. The most complete volume on the city in English, *Veii* presents the research and interpretations of multiple generations of Etruscan scholars who are at the forefront of the discipline. Their essays are grouped into four parts. The first provides a general overview of archaeological excavation at Veii and discusses the different types of methodologies employed over the years. The second part narrates the history of Etruscan occupation of the city and its role in the greater Mediterranean world. The third section examines the surviving material culture of Veii, including pottery, painting, sculpture, metalworking, and architectural terracottas. Finally, the legacy of Veii is

discussed, and a chronology of the site is presented. This pioneering research offers all students of the ancient Mediterranean a new understanding of the development of Veii and its territory from the late Bronze Age to the Roman conquest, as well as of the interactions of Veii with nearby sites and territories in central Tyrrhenian Italy.

Palinsesto - Luca Barra

2015-01-01T00:00:00+01:00

Il palinsesto è la sequenza di tutto ciò che viene trasmesso in televisione nella giornata, nella settimana, nel mese. Ma è anche un mosaico di contenuti eterogenei, è un processo di composizione sempre presente per gli addetti ai lavori, è l'elemento che definisce l'identità e il 'sapore' dell'offerta per gli spettatori. Luca Barra affronta per la prima volta in modo sistematico il tema del palinsesto: gli strumenti e le regole del buon programmatore, le logiche che sottostanno alla sua composizione, l'evoluzione storica dei palinsesti italiani, gli effetti del digitale e del

multichannel. Un volume fondamentale per comprendere l'elemento principe della grammatica televisiva e i suoi sviluppi futuri.

Law and Ethics in Greek and Roman

Declamation - Eugenio Amato 2015-03-10

Ancient declamation—the practice of delivering speeches on the basis of fictitious scenarios—defies easy categorization. It stands at the crossroads of several modern disciplines. It is only within the past few decades that the full complexity of declamation, and the promise inherent in its study, have come to be recognized. This volume, which contains thirteen

essays from an international team of scholars, engages with the multidisciplinary nature of declamation, focusing in particular on the various interactions in declamation between rhetoric, literature, law, and ethics.

Contributions pursue a range of topics, but also complement each other. Separate essays by Brescia, Lentano, and Lupi explore social roles—their tensions and expectations—as defined through declamation. With similar emphasis on historical circumstances, Quiroga Puertas and Tomassi consider the adaptation of rhetorical material to frame contemporary realities. Schwartz draws attention to the sometimes hazy borderline between declamation and the courtroom. The relationship between laws and declamation, a topic of abiding importance, is examined in studies by Berti, Breij, and Johansson. Also with an eye to the complex interaction between laws and declamation, Pasetti offers a narratological analysis of cases of poisoning. Citti discovers the

concept of natural law represented in declamatory material. While looking at a case of extreme cruelty, Huelsenbeck evaluates the nature of declamatory language, emphasizing its use as an integral instrument of performance events. Zinsmaier looks at discourse on the topic of torture in rhetorical and legal contexts.

Venice and the Veneto during the Renaissance: the Legacy of Benjamin Kohl - Knapton, Michael 2014

Benjamin G. Kohl (1938-2010) taught at Vassar College from 1966 till his retirement as Andrew W. Mellon Professor of the Humanities in 2001. His doctoral research at The Johns Hopkins University was directed by Frederic C. Lane, and his principal historical interests focused on northern Italy during the Renaissance, especially on Padua and Venice. His scholarly production includes the volumes *Padua under the Carrara, 1318-1405* (1998), and *Culture and Politics in Early Renaissance Padua* (2001), and the online database *The Rulers of Venice, 1332-1524*

(2009). The database is eloquent testimony of his priority attention to historical sources and to their accessibility, and also of his enthusiasm for collaboration and sharing among scholars.

Piracy effect. Norme, pratiche e studi di caso - Roberto Braga 2013

The Informal Economy and Employment in Brazil - D. Coletto 2010-10-25

This book presents some in-depth cases regarding specific informal economic activities in Brazil. Using an ethnographic approach, the author shows the social and economic processes that allow the informal economy to be reproduced, revealing the complex and heterogeneous relations between the formal and the informal parts of economy.

The New Frontiers of Fashion Law - Rossella Esther Cerchia 2021-01-13

Fashion law encompasses a wide variety of issues that concern an article of clothing or a fashion accessory, starting from the moment

they are designed and following them through distribution and marketing phases, all the way until they reach the end-user. Contract law, intellectual property, company law, tax law, international trade, and customs law are of fundamental importance in defining this new field of law that is gradually taking shape. This volume focuses on the new frontiers of fashion law, taking into account the various fields that have recently emerged as being of great interest for the entire fashion world: from sustainable fashion to wearable technologies, from new remedies to cultural appropriation to the regulation of model weight, from advertising law on the digital market to the impact of new technologies on product distribution. The purpose is to stimulate discussion on contemporary problems that have the potential to define new boundaries of fashion law, such as the impact of the heightened ethical sensitivity of consumers (who increasingly require effective solutions), that a comparative law perspective

renders more interesting. The volume seeks to sketch out the new legal fields in which the fashion industry is getting involved, identifying the new boundaries of fashion law that existing literature has not dealt with in a comprehensive manner.

Controversies in the Contemporary World -
Adriano Fabris 2019-08-07

Inspired by Marcelo Dascal's theory of controversies, this volume includes studies in the theory of controversies, studies of the history of controversy forms and their evolution, and case-studies of particular historical and current controversies. The purpose of this volume is to identify a taxonomy of controversies and also to sense a line of development for the phenomenon of controversies itself. At the same time, we want to ask ourselves about the impact and the spread of controversies in the contemporary world, eminently intended as a heuristic element facilitating knowledge. For all these reasons, the fundamental aim of the volume is to provide the

reader with a selection of current theoretical and practical perspectives on controversies, and to offer a broad picture of the complex range of definitions, meanings and practices connected to them.

Knowledge of the Pragmatici - Thomas Duve
2020

Knowledge of the pragmatici analyses pragmatic normative literature in colonial Ibero-America. It explores the circulation and the functions of these media in the Iberian peninsula, New Spain, Peru, New Granada and Brazil.

Media Convergence and Deconvergence - Sergio Sparviero 2017-10-20

This edited volume explores different meanings of media convergence and deconvergence, and reconsiders them in critical and innovative ways. Its parts provide together a broad picture of opposing trends and tensions in media convergence, by underlining the relevance of this powerful idea and emphasizing the misconceptions that it has generated. Sergio

Sparviero, Corinna Peil, Gabriele Balbi and the other authors look into practices and realities of users in convergent media environments, ambiguities in the production and distribution of content, changes to the organization of media industries, the re-configuration of media markets, and the influence of policy and regulations. Primarily addressed to scholars and students in different fields of media and communication studies, Media Convergence and Deconvergence deconstructs taken-for-granted concepts and provides alternative and fresh analyses on one of the most popular topics in contemporary media culture. Interpreting the Seventh Century BC - Xenia
Charalambidou 2017

This book has its origin in a conference held at
the British School at Athens in 2011 which
aimed to explore the range of new
archaeological information now available for the
seventh century in Greek lands. It presents
material data, combining accounts of recent
discoveries (which often enable reinterpretation
of older finds), regional reviews, and
archaeologically focused critique of historical
and art historical approaches and
interpretations. The aim is to make readily
accessible the material record as currently

understood and to consider how it may contribute to broader critiques and new directions in research. The geographical focus is the old Greek world encompassing Macedonia and Ionia, and extending across to Sicily and southern Italy, considering also the wider trade circuits linking regional markets. The book does not aim for the pan-Mediterranean coverage of recent works: given that much of the latest innovative and critical scholarship has focused on the western Mediterranean in particular, it is necessary to bring old Greece back under the spotlight and to expose to critical scrutiny the often Athenocentric interpretative frameworks which continue to inform discussion of other parts of the Mediterranean.

Faking, Forging, Counterfeiting - Daniel Becker 2018-03-31

Forgeries are an omnipresent part of our culture and closely related to traditional ideas of authenticity, legality, authorship, creativity, and innovation. Based on the concept of mimesis,

this volume illustrates how forgeries must be understood as autonomous aesthetic practices - creative acts in themselves - rather than as mere rip-offs of an original work of art. The proceedings bring together research from different scholarly fields. They focus on various mimetic practices such as pseudo-translations, imposters, identity theft, and hoaxes in different artistic and historic contexts. By opening up the scope of the aesthetic implications of fakes, this anthology aims to consolidate forging as an autonomous method of creation.

World Cinema On Demand - Stefano Baschiera 2022-05-05

World Cinema on Demand brings together diverse contributions by leading film and media scholars to examine world cinema's dialogue with the transformations that took place during 2010-2014, engaging directly with ongoing debates surrounding national cinema, transnational identity, and cultural globalization, as well as ideas about genre, fandom and

cinophilia. The contributions look at individual national patterns of online distribution, engaging with archives, SVODS and torrent communities. The essays also investigate the cross-cultural presence of world cinema in non-domestic online markets (such as Europe's, for example). As a result, the volume sheds light on geo-politically specific issues of film circulation, consumption and preservation within a range of culturally diverse filmmaking contexts, including case studies from India, Nigeria, Mexico and China. In this way, the collection maps the impact of different online formats of distribution in the understanding of World Cinema, underlining the links between distribution and media provisions as well as engaging with new forms of intermediation.

Women and the Mafia - Giovanni Fiandaca
2007-09-04

The insightful essays in this book shine a new light on the roles of women within criminal networks, roles that in reality are often less

traditional than researchers used to think. The book seeks to answer questions from a wide range of academic disciplines and traces the portrait of women tied to organized crime in Italy and around the world. The book offers up accounts of mafia women, and also tales of severe abuse and violence against women.

Reading Roman Declamation - Martin T. Dinter 2016-01-01

As a genre situated at the crossroad of rhetoric and fiction, declamatio offers the freedom to experiment with new forms of discourse. Placing the literariness of (Ps)Quintilian's oeuvre into the spotlight, this volume showcases declamation as a realm of genuine literary creation with its own theoretical underpinning, literary technique and generic conventions. It is of interest to students and scholars of rhetoric and Roman Literature.

Spatial and Temporal Dimensions for Legal History - Massimo Meccarelli 2016-07-01

<http://dx.doi.org/10.12946/gplh6><http://www.epub>

li.de/shop/buch/53894"The spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law. Despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today, it still has not been the object of a focused inquiry. Against this background, the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue. The aim of this volume, however, is not to offer abstract methodological considerations, but rather to rely both on concrete studies, out of which a reflection on this conjunction emerges, as well as on the reconstruction of certain research lines featuring a spatiotemporal component. This analytical approach makes a contribution by providing some suggestions for the employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical attitudes reflecting a monistic

conception of space and time (as well as a Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the flexibility of those instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes, but also to achieve new and compelling interpretations of legal history. As far as the relationship between space and law is concerned, the book analyses experiences in which space operates as a determining factor of law, e.g. in terms of a field of action for law. Moreover, it outlines the attempted scales of spatiality in order to develop legal historical research. With reference to the connection between time and law, the volume sketches the

possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline."
