Progressive Racism - David Horowitz 2016-04-26

Progressive Racism is about the transformation of the civil rights movement from a cause opposing racism—the denigration of individuals on the basis of their skin color - into a movement endorsing race preferences and privileges for select groups based on their skin color. It describes the tragic changes of this cause under the leadership of racial extortionists like Al Sharpton, who took a movement in support of American pluralism and turned it into a movement governed by a lynch mob mentality in which white Americans are regarded as guilty before the fact and African Americans are regarded as innocent even when the facts prove them guilty, even when their crimes are committed against

other African Americans. The author of Progressive Racism, David Horowitz, is a witness to these events and betrayals. Horowitz was a participant in the civil rights movement of the 1960s, and in 2001 led a national campaign against a proposal for “slavery reparations” that would have required Hispanic, Asian and other Americans who had no role in slavery to pay reparations to African Americans who were never slaves. Progressive Racism examines how the term “racism” has been drained of its original meaning and is now used as a weapon to bludgeon opponents into silence. It describes how the so-called civil rights movement has become an oppressor of African Americans by supporting a failed school system that blights the lives of millions of African American children and a welfare system that has destroyed the black family and created a “underclass” dependent on government charity. It is

an indictment of the hypocrisy that today governs discourse on race issues, so that a lynch mob in Ferguson, Missouri seeking to hang a police officer because he was white can be described as a civil rights protest and be supported by the first African American president of the United States.

During the last two decades, African American writers have emerged as a distinct and dominant force in world literature. This reference book offers lively, concise, and current information about the lives and imaginative works of 79 contemporary African American novelists. Each of the alphabetically arranged entries begins with a biographical sketch of the author, offers a judicious critical assessment of the author's major works, provides a representative sample of the critical responses the author's books have elicited, and concludes with a selected bibliography that lists the author's publications as well as useful secondary material. Included are entries for major figures, such as Toni Morrison, Alice Walker, James Baldwin, and Ralph Ellison, but many noteworthy young writers also receive the attention they deserve. Forty-one of the 79 writers discussed are women, and roughly a dozen of the novelists have identified themselves as gay, lesbian, or bisexual. The Scholarship Shark - Pam Andrews 2016-11-21

All the good jobs require at least a college degree and many of them require post-graduate work. At the same time, the costs of education are skyrocketing leading students to pile up enormous levels of debt. It's no way to begin a life. went through this process with my son recently, and we were-with God's help-able to come up with \$700,000 in scholarships that pay for his undergraduate work and graduate school and I've found that the way to win a scholarship isn't to apply for everything in sight, but to target those that fit who your son or daughter is, and what they want to do and to go after them hard. The Scholarship Shark offers a roadmap that will allow parents, guidance counselors, and others who mentor students to use a use a combination of faith and works to zero in on the right scholarship opportunities regardless of GPA, class rank, or test scores. The book is a combination of hardcore advice and our family's personal testimony of how we made this happen, and how God helped us.
