The Rules of the Game - Andrew Gordon 2013-02-21

Foreword by Admiral Sir John Woodward. When published in hardcover in 1997, this book was praised for providing an engrossing education not only in naval strategy and tactics but in Victorian social attitudes and the influence of character on history. In juxtaposing an operational with a cultural theme, the author comes closer than any historian yet to explaining what was behind the often described operations of this famous 1916 battle at Jutland. Although the British fleet was victorious over the Germans, the cost in ships and men was high, and debates have raged within British naval circles ever since about why the Royal Navy was unable to take advantage of the situation. In this book Andrew Gordon focuses on what he calls a fault-line between two incompatible styles of tactical leadership within the Royal Navy and different understandings of the rules of the games.

Daily Cornbread - Stephanie Stokes Oliver 2011-09-14

Heart & Soul founding editor Stephanie Stokes Oliver shows African American women how to soothe the soul, satisfy the mind, and revive the body 365 days a year. Written in an affirming style that is prescriptive but never preachy, fun but not frivolous, Daily Cornbread is a day-by-day compendium of Oliver's creative ideas for leading an enjoyable and fulfilling life. On January 2, for example, Oliver suggests taking time out to "get happy" (do something that makes you happy an hour a day); to schedule a personal retreat; and to develop a strategic plan for the upcoming year. Reminiscent of Sarah Ban Breathnach's Simple Abundance and Iyanla Vanzant's Acts of Faith: Daily Meditations for People of Color, but with a special emphasis on nurturing the body as well as the mind, Daily Cornbread shows African American women how to make each day better.

Victoria's Scottish Lion - Adrian Greenwood 2015-07-06

From humble Glasgow beginnings, Colin Campbell rose to become Scotland's finest general and a favourite of Queen Victoria. In his fifty-year career he fought through the Peninsula, the Crimea, China and India, and still found time to contain a slave revolt, a Chartist revolution and Ireland's Tithe War. Through a combination of personal courage, compassionate leadership and genius for military strategy he became an idol for the men who served under him. This undisputed hero, whose memory has grown faint beside celebrated warriors of the Victorian age, was a soldier ahead of his time - the first working-class field marshal, with strong humanitarian leanings and an instinct for harnessing the power of the press. In the first major biography of Campbell since 1880 his career is radically reinterpreted and the life of this very private man is revealed. 'Victoria's Scottish Lion' has been shortlisted for The Society for Army Historical Research's 2015 Templar Prize.

Queen Victoria - Michael Ledger-Lomas 2021

"The Spiritual Lives series features biographies of prominent men and women whose eminence is not primarily based on a specifically religious contribution. Each volume provides a general account of the figure's life and thought, while giving special attention to his or her religious contexts, convictions, doubts, objections, ideas, and actions. Many leading politicians, writers, musicians, philosophers, and scientists have engaged deeply with religion in significant and resonant ways that have often been overlooked or underexplored. Some of the volumes will even focus on men and women who were lifelong unbelievers, attending to how they navigated and resisted religious questions, assumptions, and settings. The books in this series will therefore recast important figures in fresh and thought-provoking ways"--

Fit Work for Women - Sandra Burman 2013-04-02

This book presents a collection of papers which discuss the origins of the domestic ideal and its effects on activities usually undertaken by women: not only on women's wage work, but also on activities either not defined as work or accorded an ambiguous status. It discusses the formation of the ideology of domesticity, philanthropy and its effects on official policy and on women, landladies in the nineteenth and twentieth centuries, working-class radical suffragists, and Labour Party and trade union attitudes to feminists. Modern society of 1979, when the book was first published, is analysed in a discussion of militancy and acquiescence among women wage workers, a look at how and why the legal system reinforces activity specialisation according to gender, and an examination of why both pre-pre-war capitalism and the modern Welfare State have been unable to meet the needs of dependents. This collection reflects the increasing recognition that in order to understand women's roles today, it is necessary to examine not only their current manifestations, but also their origins and early development.

From Spinster to Career Woman - Arlene Young 2019-05-30

The late Victorian period brought a radical change in cultural attitudes toward middle-class women and work. Anxiety over the growing disproportion between women and men in the population, combined with an awakening desire among young women for personal and financial freedom, led progressive thinkers to advocate for increased employment opportunities. The major stumbling block was the persistent conviction that middle-class women - "ladies" - could not work without relinquishing their social status. Through media reports, public lectures, and fictional portrayals of working women, *From Spinster to Career Woman* traces advocates' efforts to alter cultural perceptions of women, work, class, and the ideals of womanhood. Focusing on the archetypal figures of the hospital nurse and the typewriter, Arlene Young analyzes the strategies used to transform a job perceived as menial into a respected profession and to represent office work as progressive employment for educated women. This book goes beyond a standard examination of historical, social, and political realities, delving into the intense human elements of a cultural shift and the hopes and fears of young women seeking independence. Providing new insights into the Victorian period, *From Spinster to Career Woman* captures the voices of ordinary women caught up in the frustrations and excitements of a new era.

A History of England, Julius Caesar to Queen Victoria - H. O. Arnold-Forster 2018-08-14

A book "written in simple language, sufficiently full to serve for reference, and at the same time sufficiently interesting to be read as well as to be consulted," was the purpose of H. O. Arnold-Forster when he condensed his previously published series, "Things New and Old" into one volume. This book covers the time of Julius Caesar's landing in

"Britannia" in 55 B.C. to the death of Queen Victoria in 1901 A. D. It includes the original maps and notes along with additional editorial footnotes. H. O. Arnold-Forster's book was used in Charlotte Mason's schools for the study of English history. Although originally published over 100 years ago, the characters and events are worthy of study today. The past is presented in a way that allows the present to be enriched with the wealth of all that has gone before.

The Letters of Queen Victoria: A Selection From Her Majesty's Correspondence Between the Years 1837 and 1861 (Complete) - Queen of Great Britain Victoria 1907

Entrusted by His Majesty the King with the duty of making a selection from Queen Victoria's correspondence, we think it well to describe briefly the nature of the documents which we have been privileged to examine, as well as to indicate the principles which have guided us throughout. It has been a task of no ordinary difficulty. Her Majesty Queen Victoria dealt with her papers, from the first, in a most methodical manner; she formed the habit in early days of preserving her private letters, and after her accession to the Throne all her official papers were similarly treated, and bound in volumes. The Prince Consort instituted an elaborate system of classification, annotating and even indexing many of the documents with his own hand. The result is that the collected papers form what is probably the most extraordinary series of State documents in the world. The papers which deal with the Queen's life up to the year 1861 have been bound in chronological order, and comprise between five and six hundred volumes. They consist, in great part, of letters from Ministers detailing the proceedings of Parliament, and of various political memoranda dealing with home, foreign, and colonial policy; among these are a few drafts of Her Majesty's replies. There are volumes concerned with the affairs of almost every European country; with the history of India, the British Army, the Civil List, the Royal Estates, and all the complicated machinery of the Monarchy and the Constitution. There are letters from monarchs and royal personages, and there is further a whole series of volumes dealing with matters in which the Prince Consort took a special interest. Some of them are arranged chronologically, some by subjects. Among the most interesting volumes are those containing the letters written by Her Majesty to her uncle Leopold, King of the Belgians, and his replies.¹ The collection of letters from and to Lord Melbourne forms another hardly less interesting series. In many places Queen Victoria caused extracts, copied from her own private Diaries, dealing with important political events or describing momentous interviews, to be inserted in the volumes, with the evident intention of illustrating and completing the record.
