The Colors of Learning - Rosemary Althouse 2003

Unique in its creativity and depth of understanding, *The Colors of Learning* will change the way that teachers think about and react to children's artwork. Promoting the integration of visual art into all early childhood curriculum areas, this volume will help early childhood professionals present in-depth art experiences to children so that they become engrossed in expressing their ideas and newly learned concepts through art media. This user-friendly volume features actual classroom dialogue throughout the text and many illustrations of children's art, including some in full color. Based on standards endorsed by the National Association for the Education of Young Children (NAEYC) and the National Art Education Association (NAEA), this important book focuses on: Lev Vygotsky's theory of social interactions in learning, showing how teacher-child and child-child relations become an important part of the art experience. Helping teachers to use more effective language to build children's conceptual knowledge and guide them in their art making. The use of many kinds of art media, providing examples of developmentally appropriate activities to improve children's thinking and learning. Moving away from art that is solely created to be "cute" and pleasing to adults to art experiences that develop the child's individual expression. "The authors have given the field of early education a valuable, usable gift—one that will have a great impact on young children's lives and those who teach them."

—From the Foreword by Carol Seefeldt "The Colors of Learning provides a new awareness of why and how to integrate art into all subject areas in early childhood curriculum . . . should help all teachers of young children to enhance and enjoy their teaching and the children's learning." —Meg Barden Cline, Lecturer (retired), University of Massachusetts at Amherst

The Art Teacher's Guide to Exploring Art and Design in the Community - Ilona Szekely 2021-09-09

How can community art build connection in diverse communities? Where is the art in

contemporary libraries? How do you bring subway art into the classroom? Drawing on an abundance of examples from Finland, Italy, New Zealand, Spain and the USA, including the NYC 2nd Ave Subway, the Detroit's Heidelberg Project, the Favel Painting Foundation and bicycle rack sculpture, Szekely inspires readers to look beyond the classroom walls to develop meaningful art experiences for students. She shows the myriad art forms, media expressions, and design professions that have the influence and potential to shape the local environment, reaching far beyond the traditional museum and gallery venue. Underpinned by a clear philosophical foundation, the field-tested approaches show readers how to go beyond the study of reproductions or dwelling on of the masters who are framed in art museums, instead having meaningful art experiences using everyday objects and diverse collective experiences. She also shows that innovative and exciting art lessons don't need large amounts of funding, transportation or even a museum within the local community. Each chapter includes photographs, talking points and key lesson ideas along with links to further resources.

How to Talk About Books You Haven't Read - Pierre Bayard 2010-08-10

In this delightfully witty, provocative book, literature professor and psychoanalyst Pierre Bayard argues that not having read a book need not be an impediment to having an interesting conversation about it. (In fact, he says, in certain situations reading the book is the worst thing you could do.) Using examples from such writers as Graham Greene, Oscar Wilde, Montaigne, and Umberto Eco, he describes the varieties of "non-reading"-from books that you've never heard of to books that you've read and forgotten-and offers advice on how to turn a sticky social situation into an occasion for creative brilliance. Practical, funny, and thought-provoking, *How to Talk About Books You Haven't Read*-which became a favorite of readers everywhere in the hardcover edition-is in the end a love letter to books, offering a whole new perspective on how we read and absorb them.

East 7th Street Stoop Portraits - Addison Thompson 2015-06-13

In the late afternoon, the buildings blocked the sun and in the dim light, my neighbors would come to sit on the steps of the stoops on East 7th Street between Avenues C and D. This block is known locally as "the old Doctors' block" with Renaissance Revival tenement buildings and a picturesque row of painted-brick brownstones. The block survived the terrible devastation of the surrounding blocks, as the neighborhood degenerated into a ghetto, due to urban decay and arson during the 1970s. These images first appeared in 1987 in "The New Gay Art" by Vince Aletti. Several of these images appeared in the documentary film "7th Street" by actor and auteur Josh Pais.

A Complicated Legacy - Robert H. Stucky 2014-05-23

If movies and books like *Belle*, *Twelve Years a Slave*, *The Butler*, *The Help*, *A Time to Kill*, and *Amistad* have moved you, you'll love *A Complicated Legacy*, a novel by Baltimore writer Robert H. Stucky based on the true story of Elijah Willis, a white South Carolina planter, and Amy - the love of his life, the mother of his children, and his slave. Taking place in the decade leading up to the Civil War, it is written with a cinematic eye for atmosphere and setting, a linguist's ear for dialogue, and a historian's grasp of the powerful social forces and momentous events of the time. It is a riveting tale of personal transformation in facing the tide of sweeping social change. Elijah Willis fought family opposition, public opinion, and the law to free his family of choice and leave them his entire inheritance. In so doing, his and Amy's story becomes a microcosm of the human struggles that made the Civil War and the Abolition of Slavery both necessary and inevitable. Set in rural South Carolina, Baltimore, and Cincinnati, this vivid saga weaves history and humanity in a compelling testimony to the power of relationships to shape our destinies, even a century and a half later.

Narrative Machines: Modern Myth, Revolution, & Propaganda - James Curcio 2017-07-24

Will the future be like a Reality TV show where we compete to have human rights? Will you be popular and relatable enough to successfully crowdfund your healthcare? Tune in 20 years hence and find out. Many will mark 2015 to 2017 as the transitional moment the nihilistic id came into plain view in American culture and politics. But it is hardly the product of any single movement or idea, and it is hardly

unprecedented. Narrative Machines uses a cut-up, pastiche approach to analyze how sub-cultural and fringe ideas permeate the mainstream, especially through the Internet- from Aleksandr Dugin's faux-postmodern Traditionalism to the cult of personality Reality TV show that has taken over every media outlet, from the gnostic horror of Nick Land's Dark Enlightenment to the Calvinism of identity politics, from the millenarian fervor of Transhumanism to the utopian nightmare of Fascism. A retrofuturist aesthetic unites them all, an "occulted theology", allegedly secular recreations of the religious impulse, accidental rewrites of the metaphysics of the past.

Compiling ten years of writing and research with a series of palimpsest artworks, this assemblage was created for the outsider artists and insider theorists, and everyone else that lives at the fringes. For those opposed to a world formed by a single, monolithic myth, and yet still seek a collective dream in the fractured panopticon of the present. As Antonin Artaud said in *The Theater and Its Double*, "All writing is filth." Help us give birth to an abomination.

Philosophical Project This book will help decode the political repercussions of art and media, using the work of theorists such as Delanda, Bataille, Baudrillard, Gray, Zizek, and Benjamin as a springboard. *Art Project* A series of illustrations accompany the text, using a mix of collage, bricolage and palimpsest repainting, a style inspired by Adbusters, artists of artifice like Bowie and Warhol, satirists of fascist and pop culture like Laibach and NSK. This cut up, derivative method is explored theoretically within the text. We recognize that in a world where nothing is original, everything is source material for appropriation to new purposes. This aesthetic clearly involve a certain wink in the general direction of 90s Utopian-Dystopian Industrial and alt culture, updated as a dark LSD vision of 2015-17 Internet, a series of love (and hate) notes pieced together of other sources and painstakingly re-created and subsumed. These pieces will appear in a variety of art shows, and a forthcoming full-color collectors edition.

Early Buddhist Narrative Art - Patricia Eichenbaum Karetzky 2000

Early Buddhist Narrative Art is a pictorial journey through the transmission of the narrative cycle based on the life of the historical Buddha. Karetzky, while demonstrating the various evolutions that the image of the Buddha underwent, maintains that there is an underlying homogeneity of the tradition in the cultures of India, Central Asia, China and Japan. The author, while focusing on the visual representation of the Buddhist narrative, goes into some detail regarding the importance of scriptures in each society, and how the written tradition informed the pictorial. Over seventy photos fill this book, which will be of interest to scholars of art history, Eastern religion and Buddhism in particular.

Art/talk - Alwynne Mackie 1989

This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo, Egypt. Although these women are part of a modernizing middle class, they also voluntarily adopt a traditional symbol of female subordination. How can this paradox be explained? An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle--as accommodating protest. These women, most of them clerical workers in the large government bureaucracy, are ambivalent about working outside the home, considering it a change which brings new burdens as well as some important benefits. At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity. The new veiling expresses women's protest against this. MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma, involving elements of both resistance and acquiescence.

Calliope - Mark Pucci 2013-07-21

Calliope is a literary novel. In its simplest form, it is the story of a man longing to become the young, idealistic person he once was when the world seemed completely open to promise. It is the desire to re-experience life with all the naiveté and hope of romantic youth. In its allegorical form, the story explores such themes as purpose, morality, social convention, materialism and happiness. When the protagonist meets an orange-haired girl, his life is forever altered. Her name is Calliope, and what occurs throughout the rest of the novel is a wild, episodic fugue. The flight becomes a frenetic interlacing through wilderness and civilization, this being an allusion to Jean-Jacques Rousseau's Discourse on Inequality. The wilderness comes to represent a path back to the primal self, while civilization is more dubious representing both the potential for corruption, as well as the great heights of artistic and rational endeavors. Yet while on the journey, the protagonist is forced to look at life anew in part due to the somewhat unscrupulous efforts of Calliope. Morality is examined through the eyes of Calliope, who is by all intensive purposes Greek, which means pre-Christian. Her moral code is not affected by the guilt of Christianity. Her nakedness throughout the novel in part symbolizes a complete lack of shame. As for her beliefs, an understanding of Friedrich Nietzsche's perspectivism best represents her values. This allows the protagonist an opportunity to erase everything

that he has learned. All custom, all forms of etiquette, religious belief, habit and convention must be forgotten in order to re-experience the world with the sense of wonderment he so eagerly longs for. With no ties to the world, he embarks upon an epic voyage of silliness and profound examination. Lured along by this electric, orange-haired muse, he becomes convinced that she is either bent upon his supreme salvation or utter damnation. What is so amazing about the entire journey is where they both end up—a location which seems to be the last place the protagonist was in complete control of his destiny. Therefore, a true chance to begin again is perhaps realized.

How Humans Learn - Joshua Eyler 2018-11-19
Even on good days, teaching is a challenging profession. One way to make the job of college instructors easier, however, is to know more about the ways students learn. *How Humans Learn* aims to do just that by peering behind the curtain and surveying research in fields as diverse as developmental psychology, anthropology, and cognitive neuroscience for insight into the science behind learning. The result is a story that ranges from investigations of the evolutionary record to studies of infants discovering the world for the first time, and from a look into how our brains respond to fear to a reckoning with the importance of gestures and language. Joshua R. Eyler identifies five broad themes running through recent scientific inquiry--curiosity, sociality, emotion, authenticity, and failure--devoting a chapter to each and providing practical takeaways for busy teachers. He also interviews and observes college instructors across the country, placing theoretical insight in dialogue with classroom experience.

The Conversation That Matters Most - Dewitt Rowe 2010-05-03

In *The Conversation That Matters Most*, DeWitt Rowe takes his readers on a unique and fascinating journey of self-exploration and discovery. The author not only guides us toward a complete reevaluation of how we view success; he convinces us that the way we define it and pursue it must also be reexamined. How often do we stop and question the assumptions that have defined us? Are we more intelligent than we have been led to believe? Do our idiosyncrasies make us strange...or simply unique? How often do we make a decision based on what's expected of us, rather than on our innate sense of what works? DeWitt delves into areas that are rarely discussed, areas that reward us with a richness of comprehension, awareness, discovery, and wisdom. Every page is a reminder of the control we have over our lives if only we can understand how to use that control in a positive and result-oriented manner. Utilizing this book's guides and lessons, we can be assured of a fuller and more satisfying life.
