The Anarchist Cookbook - William Powell 2018-03-11

The Anarchist Cookbook will shock, it will disturb, it will provoke. It places in historical perspective an era when "Turn on, Burn down, Blow up" are revolutionary slogans of the day. Says the author "This book... is

not written for the members of fringe political groups, such as the Weatherman, or The Minutemen. Those radical groups don't need this book. They already know everything that's in here. If the real people of America, the silent majority, are going to survive, they must educate themselves. That is the purpose of this book." In what the author considers a survival guide, there is explicit information on the uses and effects of drugs, ranging from pot to heroin to peanuts. There is detailed advice concerning electronics, sabotage, and surveillance, with data on everything from bugs to scramblers. There is a comprehensive chapter on natural, non-lethal, and lethal weapons, running the gamut from cattle prods to sub-machine guns to bows and arrows.

**How We Fight for Our Lives** - Saeed Jones 2020-07-07

From award-winning poet Saeed Jones, *How We Fight for Our Lives*—winner of the Kirkus Prize and the Stonewall Book Award—is a “moving, bracingly honest memoir” (The New York Times Book Review) written at the crossroads of sex, race, and power. One of the best books of the year as selected by The New York Times; The Washington Post; NPR; Time; The New Yorker; O, The Oprah Magazine; Harper’s Bazaar; Elle; BuzzFeed; Goodreads; and many more. “People don’t just happen,” writes Saeed Jones. “We sacrifice former versions of ourselves. We sacrifice the people who dared to raise us. The ‘I’ it seems doesn’t exist until we are able to say, ‘I am no longer yours.’” Haunted and haunting, *How We Fight for Our Lives* is a stunning coming-of-age memoir about a young, black, gay man from the South as he fights to carve out a place for himself, within his family, within his country, within his own hopes, desires, and fears. Through a series of vignettes that chart a course

across the American landscape, Jones draws readers into his boyhood and adolescence—into tumultuous relationships with his family, into passing flings with lovers, friends, and strangers. Each piece builds into a larger examination of race and queerness, power and vulnerability, love and grief: a portrait of what we all do for one another—and to one another—as we fight to become ourselves. An award-winning poet, Jones has developed a style that’s as beautiful as it is powerful—a voice that’s by turns a river, a blues, and a nightscape set ablaze. *How We Fight for Our Lives* is a one-of-a-kind memoir and a book that cements Saeed Jones as an essential writer for our time.

The Marvelous Pigness of Pigs - Joel Salatin 2016-05-03

From Christian libertarian farmer Joel Salatin, a clarion call to readers to honor the animals and the land, and produce food based on spiritual principles. What on earth is THE MARVELOUS PIGNESS OF PIGS? It's an inspiring call to action for people of faith . . . a heartfelt plea to heed the Bible's guidance . . . It's an important and thought-provoking explanation of how by simply appreciating the marvelous pigness of pigs, we are celebrating the Glory of God. As a man of deep faith and student of the Bible, and as a respected and successful ecological family farmer, Joel Salatin knows that God created heaven and earth and meant for all living organisms to be true to their nature and their endowed holy purpose. He intended for us to respect and care for His gift of creation, not to ravage and mistreat it for our own pleasure or wealth. The example that inspires the book's title explains what Salatin means: when huge corporate farms confine pigs in cramped and dark pens, inject them with antibiotics and feed them herbicide-saturated food simply to increase profits, they are not respecting them as a creation of God or allowing them to express even their most rudimentary uniqueness - that special role that is part of His design. Every living organism has a God-given uniqueness to its life that must be honored and respected, and too often that is not happening today. Salatin shows us the long overlooked ethics and instructions in the Bible for how to eat, how to shop, how to think about how we farm and feed the world. Through scripture and Biblical stories, he shows us why it's more vital than ever to look to the

good book rather than corporate America when feeding the country and your family. Salatin makes a compelling case for Christian stewardship of the earth and how it relates to every action we take regarding our food. He also opens our eyes to a common misconception many Christians may have about environmentalism: it's not a bad thing, and definitely not just the province of secular liberals; it's really a very good thing, part of heeding God's Word. With warmth and with humor, but with no less piercing criticism of the industrial food complex, Salatin brings readers on a fascinating journey of farming, food and faith. Readers will not say grace over their plates the same way ever again.

**In Love** - Amy Bloom 2022-03-08

NEW YORK TIMES BESTSELLER • A powerful memoir of a love that leads two people to find a courageous way to part—and a woman's struggle to go forward in the face of loss—that “enriches the reader's life with urgency and gratitude” (The Washington Post) “A pleasure to read . . . Rarely has a memoir about death been so full of life. . . . Bloom has a talent for mixing the prosaic and profound, the slapstick and the serious.”—USA Today ONE OF THE BEST BOOKS OF THE YEAR: NPR Amy Bloom began to notice changes in her husband, Brian: He retired

early from a new job he loved; he withdrew from close friendships; he talked mostly about the past. Suddenly, it seemed there was a glass wall between them, and their long walks and talks stopped. Their world was altered forever when an MRI confirmed what they could no longer ignore: Brian had Alzheimer's disease. Forced to confront the truth of the diagnosis and its impact on the future he had envisioned, Brian was determined to die on his feet, not live on his knees. Supporting each other in their last journey together, Brian and Amy made the unimaginably difficult and painful decision to go to Dignitas, an organization based in Switzerland that empowers a person to end their own life with dignity and peace. In this heartbreaking and surprising memoir, Bloom sheds light on a part of life we so often shy away from discussing—its ending. Written in Bloom's captivating, insightful voice and with her trademark wit and candor, *In Love* is an unforgettable portrait of a beautiful marriage, and a boundary-defying love.

**Citizen Illegal** - José Olivarez 2018-09-04

“Olivarez steps into the ‘inbetween’ standing between Mexico and America in these compelling, emotional poems. Written with humor and sincerity” (Newsweek). Named a Best Book of the Year by Newsweek and NPR. In this “devastating debut” (Publishers Weekly), poet José Olivarez explores the stories, contradictions, joys, and sorrows that embody life in the spaces between Mexico and America. He paints vivid portraits of good kids, bad kids, families clinging to hope, life after the steel mills, gentrifying barrios, and everything in between. Drawing on the rich traditions of Latinx and Chicago writers like Sandra Cisneros and Gwendolyn Brooks, Olivarez creates a home out of life in the in-between. Combining wry humor with potent emotional force, Olivarez takes on complex issues of race, ethnicity, gender, class, and immigration using an everyday language that invites the reader in, with a unique voice that makes him a poet to watch. “The son of Mexican immigrants, Olivarez celebrates his Mexican-American identity and examines how those two sides conflict in a striking collection of poems.” —USA Today

*Your Successful Farm Business* - Joel Salatin 2017

Twenty years ago Joel Salatin wrote *You Can Farm*, which has launched thousands of farm entrepreneurs around the world. With another 20 years of experience under his belt, bringing him to the half-century mark as a full-time farmer, he decided to build on that foundation with a sequel, a graduate level curriculum. Everyone who reads and enjoys that previous work will benefit from this additional information. In those 20 years, Polyface Farm progressed from a small family operation to a 20-person, 6,000-customer, 50-restaurant business, all without sales targets, government grants, or an off-farm nest egg. As a germination tray for new farmers ready to take over the 50 percent of America's agricultural equity that will become available over the next two decades, Polyface Farm in Virginia's Shenandoah Valley stands as a beacon of hope in a food and farming system floundering in dysfunction: toxicity, pathogenicity, nutrient deficiency, bankruptcy, geezers, and erosion. Speaking into that fear and confusion, Salatin offers a pathway to success, with production, profit, and pleasure thrown in for good measure.

In a small Oregon fishing town, five very different women navigate these new barriers alongside age-old questions surrounding motherhood, identity, and freedom. Ro, a single high-school teacher, is trying to have a baby on her own, while also writing a biography of Eivør, a little-known 19th-century female polar explorer. Susan is a frustrated mother of two, trapped in a crumbling marriage. Mattie is the adopted daughter of dotting parents and one of Ro's best students, who finds herself pregnant with nowhere to turn. And Gin is the gifted, forest-dwelling herbalist, or "mender," who brings all their fates together when she's arrested and put on trial in a frenzied modern-day witch hunt. Stuff They Don't Want You to Know - Ben Bowlin 2022-10-11

"Interesting...Bowlin's calmly rational approach to the subject of conspiracy theories shows the importance of logic and evidence."—Booklist "A page-turning book to give to someone who believes in pizza pedophilia or that the Illuminati rule the world."—Kirkus Reviews The co-hosts of the hit podcast Stuff They Don't Want You to Know, Ben Bowlin, Matthew Frederick, & Noel Brown, discern conspiracy fact from fiction in this sharp, humorous, compulsively readable, and gorgeously illustrated book. In times of chaos and uncertainty, when trust is low and economic disparity is high, when political institutions are crumbling and cultural animosities are building, conspiracy theories find fertile ground. Many are wild, most are untrue, a few are hard to ignore, but all of them share one vital trait: there's a seed of truth at their center. That seed carries the sordid, conspiracy-riddled history of our institutions and corporations woven into its DNA. Ben Bowlin, Matt Frederick, and Noel Brown host the popular iHeart Media podcast, Stuff They Don't Want You To Know. They are experts at exploring, explaining, and interrogating today's emergent conspiracies—from chem trails and biological testing to the secrets of lobbying and the indisputable evidence of UFOs. Written in a smart, witty, and conversational style, elevated with amazing illustrations, Stuff They Don't Want You to Know is a vital book in understanding the nature of conspiracy and using truth as a powerful weapon against ignorance, misinformation, and lies.

**A Natural History of the Future** - Rob Dunn 2021-11-09

"An arresting vision of this relentless natural world"—New York Times Book Review A leading ecologist argues that if humankind is to survive on a fragile planet, we must understand and obey its iron laws Our species has amassed unprecedented knowledge of nature, which we have tried to use to seize control of life and bend the planet to our will. In A Natural History of the Future, biologist Rob Dunn argues that such efforts are futile. We may see ourselves as life's overlords, but we are instead at its mercy. In the evolution of antibiotic resistance, the power of natural selection to create biodiversity, and even the surprising life of the London Underground, Dunn finds laws of life that no human activity

can annul. When we create artificial islands of crops, dump toxic waste, or build communities, we provide new materials for old laws to shape. Life's future flourishing is not in question. Ours is. As ambitious as Edward Wilson's Sociobiology and as timely as Elizabeth Kolbert's The Sixth Extinction, A Natural History of the Future sets a new standard for understanding the diversity and destiny of life itself.

A Libertarian Walks Into a Bear - Matthew Hongoltz-Hetling 2020-09-15

A tiny American town's plans for radical self-government overlooked one hairy detail: no one told the bears. Once upon a time, a group of libertarians got together and hatched the Free Town Project, a plan to take over an American town and completely eliminate its government. In 2004, they set their sights on Grafton, NH, a barely populated settlement with one paved road. When they descended on Grafton, public funding for pretty much everything shrank: the fire department, the library, the schoolhouse. State and federal laws became meek suggestions, scarcely heard in the town's thick wilderness. The anything-goes atmosphere soon caught the attention of Grafton's neighbors: the bears. Freedom-loving citizens ignored hunting laws and regulations on food disposal. They built a tent city in an effort to get off the grid. The bears smelled food and opportunity. A Libertarian Walks Into a Bear is the sometimes funny, sometimes terrifying tale of what happens when a government disappears into the woods. Complete with gunplay, adventure, and backstabbing politicians, this is the ultimate story of a quintessential American experiment -- to live free or die, perhaps from a bear.
