**Future Wise** - David Perkins 2014-08-04

How to teach big understandings and the ideas that matter most  
Everyone has an opinion about education, and teachers face pressures from Common Core content standards, high-stakes testing, and countless other directions. But how do we know what today's learners will really need to know in the future? Future Wise: Educating Our Children for a Changing World is a toolkit for approaching that question with new insight. There is no one answer to the question of what's worth teaching, but with the tools in this book, you'll be one step closer to constructing a curriculum that prepares students for whatever situations they might face in the future. K-12 teachers and administrators play a crucial role in building a thriving society. David Perkins, founding member and co-director of Project Zero at Harvard's Graduate School of Education, argues that curriculum is one of the most important elements of making students ready for the world of tomorrow. In Future Wise, you'll learn concepts, curriculum criteria, and techniques for prioritizing content so you can guide students toward the big understandings that matter. Understand how learners use knowledge in life after graduation Learn strategies for teaching critical thinking and addressing big questions Identify top priorities when it comes to disciplines and content areas Gain curriculum design skills that make the most of learning across the years of education Future Wise presents a brand new framework for thinking about education. Curriculum can be one of the hardest things for teachers and administrators to change, but David Perkins shows that only by reimagining what we teach can we lead students down the road to functional knowledge. Future Wise is the practical guidebook you need to embark on this important quest.

**Wise Children** - Angela Carter 2018-10-17

In Brixton, Nora and Dora Chance – twin chorus girls born and bred south of the river – are celebrating their 75th birthday. Over the river in Chelsea, their father and greatest actor of his generation Melchior Hazard turns 100 on the same day. As does his twin brother Peregrine. If, in fact, he's still alive. And if, in truth, Melchior is their real father after all... Wise Children is adapted for the stage from Angela Carter's last novel about a theatrical family living in South London. It centres around twin chorus girls, Nora and Dora Chance, whose lives are brimming with mystery, illegitimacy and scandal. Dora narrates the story as her older self, looking back on a tumultuous life, throughout which she and her sister have loved to sing and dance. A big, bawdy tangle of theatrical joy and heartbreak, Wise Children is a celebration of show business, family, forgiveness and hope. Expect show girls and Shakespeare, sex and scandal, music, mischief and mistaken identity – and butterflies by the thousand.

The Postmodern Chronotope - Paul Smethurst 2000

The Postmodern Chronotope is an innovative interdisciplinary study of the contemporary. It will be of special interest to anyone interested in relations between postmodernism, geography and contemporary fiction. Some claim that postmodernism questions history and historical bases to culture; some say it is about loss of affect, loss of depth models, and superficiality; others claim it follows from the conditions of post-industrial society; and others cite commodification of place, Disneyfication, simulation and post-tourist spectacle as evidence that postmodernism is wedded to late capitalism. Whatever postmodernism is, or turns out to have been, it is bound up in rethinking and reworking space and time, and Paul Smethurst's intervention here is to introduce the postmodern chronotope as a term through which these spatial and temporal shifts might be apprehended. The postmodern chronotope constitutes a postmodern world-view and postmodern way of seeing. In a sense it is the natural successor to a modernist way of seeing defined through cubism, montage and relativity. The book is arranged as follows: - Part 1 is an interdisciplinary study casting a wide net across a range of cultural, social and scientific activity, from chaos theory to cinema, from architecture to performance art, from IT to tourism. - Part 2 offers original readings of a selection of postmodern novels, including Graham Swift's *Waterland* and *Out of this World*, Peter Ackroyd's *Hawksmoor* and *First Light*, Alasdair Gray's *Lanark*, J. M. Coetzee's *Foe*, Marina Warner's *Indigo*, Caryl Phillips' *Cambridge*, and Don DeLillo's *The Names* and *Ratner's Star*.

**The Bloody Chamber, Wise Children, Fireworks** - Angela Carter 2018-04-10

An omnibus of works by the great British writer that showcases her hauntingly erotic fabulism and the subversive richness of her imagination. In *The Bloody Chamber*, Angela Carter's famous collection of deeply unsettling stories inspired by fairy tales, we see a Beauty who turns into a Beast, Little Red Riding Hood's grandmother stoned as a werewolf, and Bluebeard as a murderous, porn-addicted businessman. In the surreally delightful novel *Wise Children*, an elderly woman recounts the colorful life she and her identical twin sister led as vaudeville performers. And the early story collection *Fireworks* reveals Carter taking her first forays into the fantastical writing that was to become her unforgettable legacy. As critic Laura Miller has argued, "Most contemporary literary fiction with a touch of magic owes something to Angela Carter's trailblazing." This Everyman's Library omnibus gathers the best of Angela Carter in one astonishing volume.

**Shakespeare in Children's Literature** - Erica Hateley 2010-12-21

*Shakespeare in Children's Literature* looks at the genre of Shakespeare-for-children, considering both adaptations of his plays and children's novels in which he appears as a character. Drawing on feminist theory and sociology, Hateley demonstrates how Shakespeare for children utilizes the ongoing cultural capital of "Shakespeare," and the pedagogical aspects of children's literature, to perpetuate anachronistic forms of identity and authority.

Telling Histories - 2022-06-08

The proliferation of historical novels with more or less overt metafictional traits in the late seventies and eighties in Britain is a particularly arresting phenomenon at a time when historians are openly questioning the validity of the traditional concept of history understood as a scientific search for knowledge. This apparent contradiction justifies the attempt made by the contributors of this volume to analyze the relationship between history and literature in English. The reader will find four preliminary essays on The End of the Classical Period establishing the characteristics of the appropriation of history since the appearance of Sir Walter Scott's historical romances with special emphasis on the Victorian novel (Dickens, Eliot, Mrs Humphry Ward),

the Irish ballad and Post-Independence Indian historical fiction, as a necessary preface to the main group of essays on The Postmodernist Era devoted to establishing the common as well as the individually distinctive traits in the writings of some of the most accomplished contemporary writers in English: the more centered British novelists Margaret Drabble, Julian Barnes and William Golding as well as the more ex-centric Angela Carter, Salman Rushdie and Jeanette Winterson plus the playwright Caryl Churchill, and the black American novelist David Bradley.

While the children seemed happy on the outside, deep inside they were suffering from the hidden trauma that so many adopted children carry with them. Because of the rejection, neglect, and abandonment they experience in the first few months of life, some adopted children are imprinted with the subconscious belief that at their core they are unlovable and worthless, even if their new parents are nurturing and loving. *What Every Adoptive Parent Needs to Know* offers adoptive parents and parents-to-be a solution. By following the threads of the Richards' moving story, clarified by insightful analysis and practical advice from family therapist Kate Cremer-Vogel, readers of this compelling book discover it is never too late to heal the wounded heart of a child. This remarkable true-life story of raising two adopted children is a tale of hope and resilience, of two parents unprepared for their children's psychological wounds that only time would reveal. Most importantly, it shows that profound healing is possible when adoptive families realize that traditional parenting is not enough.

*Beasts at Bedtime* - Liam Heneghan 2018-05-15

Talking lions, philosophical bears, very hungry caterpillars, wise spiders, altruistic trees, companionable moles, urbane elephants: this is the magnificent menagerie that delights our children at bedtime. Within the entertaining pages of many children's books, however, also lie profound teachings about the natural world that can help children develop an educated and engaged appreciation of the dynamic environment they inhabit. In *Beasts at Bedtime*, scientist (and father) Liam Heneghan examines the environmental underpinnings of children's stories. From Beatrix Potter to Harry Potter, Heneghan unearths the universal insights into our inextricable relationship with nature that underlie so many classic children's stories. Some of the largest environmental challenges in coming years—from climate instability, the extinction crisis, freshwater depletion, and deforestation—are likely to become even more severe as this generation of children grows up. Though today's young readers will bear the brunt of these environmental calamities, they will also be able to contribute to environmental solutions if prepared properly. And all it takes is an attentive eye: Heneghan shows how the nature curriculum is already embedded in bedtime stories, from the earliest board books like *The Rainbow Fish* to contemporary young adult classics like *The Hunger Games*. *Beasts at Bedtime* is an awakening to the vital environmental education children's stories can provide—from the misadventures of *The Runaway Bunny* to more overt tales like *The Lorax*. Heneghan serves as our guide, drawing richly upon his own adolescent and parental experiences, as well as his travels in landscapes both experienced and imagined. Organized into thematic sections, the

work winds its way through literary forests, colorful characters, and global environments. This book entralls as it engages. Heneghan as a guide is as charming as he is insightful, showing how kids (and adults) can start to experience the natural world in incredible ways from the comfort of their own rooms. *Beasts at Bedtime* will help parents, teachers, and guardians extend those cozy times curled up together with a good book into a lifetime of caring for our planet.

*The Pleasure of the Feminist Text* - Susanne Gruss 2009-01

"I would regard myself as a feminist writer, because I'm a feminist in everything else and one can't compartmentalise these things in one's life." (Angela Carter) "When I became a feminist in 1968, I felt that I'd come home: the first home I ever had that was feminine. And it was very wild and theatrical and erotic, the early feminism." (Michèle Roberts) Angela Carter and Michèle Roberts share a keen interest in gender and sexual identity, but many of their topics seem to mark them as opposites: Roberts's fascination with the impact of religion, motherhood and autobiography on female identity covers areas that Carter shuns in her writings. In reading these two authors parallel and in contrast to each other, this monograph follows a triple objective: it provides a comprehensive critical introduction to the works of Roberts, explores aspects of Carter's work that have not yet been analyzed sufficiently (religion, motherhood, and masculinity), and uses both authors to explore motifs and strategies of feminist writing. The analyses of both authors' works are supplemented by close readings of a wide range of theoretical perspectives (especially French feminism and psychoanalysis) and concise theoretical outlines of the topics covered (radical feminism, religion, motherhood and fatherhood, masculinity, fairy tales, romances and chick lit, and history and auto/biography).

*Children of Faith* - Sandra L. Haner 2011-04-15

If you are looking for a quality children's Bible study with a proven track record, then Stacey Smith's *Children of Faith* is just what you need. For many years, we incorporated *Children of Faith* into our church curriculum with tremendous success. The simple structure and solid, biblically-based lessons were easy to use and gave the children a Christian foundation for life. Stacey is a wonderful teacher, mother, and homeschooler, and a superb writer you can count on. Dr. Randy Colver, author, pastor and teacher at Coweta Community Church I home-schooled my four children for twelve years while using Stacey's *Children of Faith* as my Bible curriculum. The Scriptures became very practical and well understood as we studied, prayed, and used the crafts. My children used the prayer guide for years. I believe there are many more children and adults who would genuinely grow in their love and knowledge of our Lord Jesus Christ. Sharlott Williams
