This pocketbook presents, at a glance, selected key indicators on agriculture and food security, and is meant to serve as an easy-to- access and quick reference for all stakeholders and partners involved in policy formulation or decision making processes. The indicators are presented in two sections, one thematic and one country-specific; they are organized along four main themes: 1) The setting, which measures the state of the agricultural resource base by assessing the supply of land, labour, capital and inputs; 2) Hunger dimensions, to gauge the state of food insecurity and malnutrition, and highlight the four dimensions - availability, access, stability and utilization - that determine the scale of hunger and the shape of undernourishment; 3) Food supply, which evaluates the past and present productive capacity of world agriculture, together with the role of trade, in meeting the world's demand for food, feed and other products; 4) Environment, which examines the sustainability of agriculture in the context of the pressure it exerts on its ecological surroundings. The pocketbook is part of FAO's efforts to support national, regional and international partners in improving the availability of high quality and timely data, in view of sustainable agricultural development and zero hunger.

The American Crisis - Thomas Paine 2021-04-26T23:11:56Z

The American Crisis is a collection of articles by Thomas Paine, originally published from December 1776 to December 1783, that focus on rallying Americans during the worst years of the Revolutionary War. Paine used his deistic beliefs to galvanize the revolutionaries, for example by claiming that the British are trying to assume the powers of God and that God would support the American colonists. These articles were so influential that others began to adopt some of their more stirring phrases, catapulting them into the cultural consciousness; for example, the opening line of the first Crisis, which reads "These are the times

that try men's souls." This book is part of the Standard Ebooks project, which produces free public domain ebooks.
