Before the Animation Begins - John Canemaker 1996-11-15
Chronicles the lives and work of the "inspirational sketch" artists who created the look and feel of Disney's films
Marvel Comics - Sean Howe 2013-10-01

The defining, behind-the-scenes chronicle of one of the

most extraordinary, beloved, and dominant pop cultural entities in America's history -- Marvel Comics - and the outsized personalities who made Marvel including Martin Goodman, Stan Lee, and Jack Kirby. "Sean Howe's history of Marvel makes a compulsively readable, riotous and

heartbreaking version of my favorite story, that of how a bunch of weirdoes changed the world...That it's all true is just frosting on the cake."

—Jonathan Lethem For the first time, Marvel Comics tells the stories of the men who made Marvel: Martin Goodman, the self-made publisher who forayed into comics after a get-rich-quick tip in 1939, Stan Lee, the energetic editor who would shepherd the company through thick and thin for decades and Jack Kirby, the WWII veteran who would co-create Captain America in 1940 and, twenty years later, developed with Lee the bulk of the company's marquee characters in a three-year frenzy. Incorporating more than one hundred original interviews with those who worked behind the scenes at Marvel over a seventy-year-span, Marvel Comics packs anecdotes and analysis into a gripping narrative of how a small group of people on the cusp of failure created one of the most enduring pop cultural forces in contemporary

America.

What We Don't Talk About -

Charlot Kristensen 2020-07-18

Adam and Farai are an interracial couple that have been together for two years. Farai has finally persuaded Adam to introduce her to his parents, but the visit to the in-laws turns out to be a horrible experience for Farai. Several situations during the introductory dinner make her feel uneasy and ostracised. When confronted about this experience Adam tries to play down the whole situation and does not show any understanding for his partner's concern. This puts a further strain on their relationship and Farai starts to wonder if she can be with a man who's family does not accept her and who is not willing to face the difficulties related to an interracial relationship. Examining important contemporary issues of race, bigotry and the difficulties that interracial couples face, *What We Don't Talk About* is the debut graphic novel from a burgeoning new comics talent.

Walt Kelly's Peter Wheat the

Complete Series: Volume Two -

Walt Kelly 2018-08-14

Walt Kelly's Peter Wheat

comics are renowned for their humor, artistic flair and appeal to both children and adults.

The Peter Wheat comic books

are extremely rare and have

never been collected as a

series before, due to their

scarcity and rarity. Between

1948 and 1951, Kelly drew

thirty-five issues of The

Adventures of Peter Wheat, a

sixteen page comic book given

away to bakeries to promote

Peter Wheat bread. The stories

were fairy tales starring Peter

Wheat, an elf-sized boy who

lived in a hollow tree on the

edge of a wheat field where he

and the Little Folk battle

Dragonel, Queen of the

Hornets, and later The Wizard.

Continuing in their quest to

reprint the rare and never

before collected Peter Wheat,

Hermes Press is proud to

announce Volume Two! Walt

Kelly's Peter Wheat the

Complete Series: Volume Two

picks up where Volume One

left off, starting with Issue #15

and continuing to Issue #25!

Under the Magnolia Trees -

Rebecca Morgan 2011-06-01
Description Using diaries written from an early age, Rebecca gives an evocative portrayal of her childhood in Hertfordshire. She reflects on her upbringing with her parents and her four siblings and tries to trace the origins of her mental health problems. She acknowledges the difficulties in her past such as her father's heavy drinking and the stresses within the family which pervade into her grown

up self. Many of the memories are happy ones but there is an underlying insecurity and anxiety which linger into her adult life. About the Author Rebecca Morgan was born in Hertfordshire in 1951. She obtained a degree in Modern History and Politics from Sheffield University in 1973, followed by a Post-Graduate Diploma in Librarianship from Birmingham Polytechnic in 1975. In 1978 she became a Chartered Librarian and has worked for 20 years for Sheffield Libraries, Archives and Information Service. She has experienced severe depression, postnatal depression and psychotic illness during her life. Rebecca is married with one son and lives in Sheffield. This is her second book, following her vivid picture of her years of mental illness in Hertfordshire and Sheffield portrayed in her first book: "The Nest of Sanity" also published by Chipmunka Publishing. Rebecca Morgan is a pseudonym.

Berry Fruit - Yanyun Zhao
2007-06-06

Highly valued for its unique flavors, textures, and colors, recent research has shown berry fruit to be high in antioxidants, vitamin C, fiber, folic acid, and other beneficial functional compounds. The food industry has also widely used berry fruits in beverages, ice cream, yogurts, and jams. With the rapidly growing popularity of this unique crop it is important to have a single resource for all aspects of the industry from production technologies to nutritional and health benefits. Drawing on the knowledge of leading international experts, Berry Fruit: Value-Added Products for Health Promotion is a comprehensive reference on the handling, use, and functional components of berry fruit. Beginning with an introduction to the current state of the industry, the book covers worldwide production and trends specific to each berry including annual,

perennial, and off-season systems. The contributors go into great detail regarding the chemical composition of berries including carbohydrates, organic acids, enzymes, vitamins, and minerals; phytochemicals; antioxidants; and the functionality of pigments such as anthocyanins. Chapters address quality and safety concerns during post-harvest handling and storage, deterioration and microbial safety for the fresh market, and techniques to extend shelf-life including cold-storage and controlled atmosphere packaging. Finally, an extensive section highlights processing technologies and the production of value-added foods such as freezing, dehydrating, and canning; preserves, jellies, and jams; and the intelligent use of processing by-products. Presenting scientific background, research results, and critical reviews, as well as case studies and references, Berry Fruit: Value-Added Products for Health Promotion

The Complete MAUS - Art Spiegelman 2011
Maus I: A Survivor's Tale and Maus II - the complete story of Vladek Spiegelman and his wife, living and surviving in Hitler's Europe. By addressing the horror of the Holocaust through cartoons, the author captures the everyday reality of fear and is able to explore the guilt, relief and extraordinary sensation of survival - and how the children of survivors are in their own way affected by the trials of their parents. A contemporary classic of immeasurable significance.

The Beatles Story - Arthur Ranson 2018-02-20
The original long-lost Beatles graphic novel! This is the

extraordinary graphic novel charting the creation, evolution and break-up of the fab four, originally published in 1981. The Beatles Story is an exceptionally illustrated account of the band from one of the leading artists of his generation, the UK's Arthur Ranson (Batman, Judge Dredd, Button Man). Written by Angus Allan it includes fascinating insights into Paul McCartney and John Lennon's first encounter, their early gigs in Hamburg's Kaiser Keller, through to the recording of the legendary Abbey Road album and the band's break-up. First published in the pages of legendary UK youth magazine Look In, this beautifully illustrated account is a treat for both the devoted Beatles admirer and new fans alike. This new edition is published in the Treasury of British Comics line, a series devoted to restoring lost comics classics.

Sports Math - Roland B. Minton
2016-11-03

Can you really keep your eye on the ball? How is massive data collection changing sports? Sports science courses are growing in popularity. The author's course at Roanoke College is a mix of physics, physiology, mathematics, and statistics. Many students of both genders find it exciting to think about sports. Sports problems are easy to create and state, even for students who do not live sports 24/7. Sports are part of their culture and knowledge base, and the opportunity to be an expert on some area of sports is invigorating. This should be the primary reason for the growth of mathematics of sports courses: the topic provides intrinsic motivation for students to do their best work. From the Author: "The topics covered in Sports Science and

Sports Analytics courses vary widely. To use a golfing analogy, writing a book like this is like hitting a drive at a driving range; there are many directions you can go without going out of bounds. At the driving range, I pick out a small target to focus on, and that is what I have done here. I have chosen a sample of topics I find very interesting. Ideally, users of this book will have enough to choose from to suit whichever version of a sports course is being run." "The book is very appealing to teach from as well as to learn from. Students seem to have a growing interest in ways to apply traditionally different areas to solve problems. This, coupled with an enthusiasm for sports, makes Dr. Minton's book appealing to me."—Kevin Hutson, Furman University

regarding not the words of their elders concerning Sir Garnet Wolseley, and what happened, long, long ago, after the battle of Chibok Hill.

Thirdly, the price of grain had risen to six shillings a saa, and famine threatened; fourthly, the Shehu and Shuwa sheiks were quarrelling again; and, fifthly, there was a very bad smallpox ju-ju abroad in the land (a secret society whose "secret" was to offer His Majesty's liege subjects the choice between being infected with smallpox, or paying heavy blackmail to the society).

Lastly, there was acrimonious correspondence with the All-Wise Ones (of the Secretariat in "Aiki Square" at Zungeru), who, as usual, knew better than the man on the spot, and bade him do either the impossible or the disastrous. And across all the Harmattan was blowing hard, that terrible wind that carries the Saharan dust a hundred miles to sea, not so much as a sand-storm, but as a mist or fog of dust as fine as flour, filling the eyes, the lungs, the pores of the skin,

the nose and throat; getting into the locks of rifles, the works of watches and cameras, defiling water, food and everything else; rendering life a burden and a curse. The fact, moreover, that thirty days' weary travel over burning desert, across oceans of loose wind-blown sand and prairies of burnt grass, through breast-high swamps, and across unbridged boatless rivers, lay between him and Kano, added nothing to his satisfaction. For, in spite of all, satisfaction there was, inasmuch as Kano was rail-head, and the beginning of the first stage of the journey Home. That but another month lay between him and "leave out of Africa," kept George Lawrence on his feet. From that wonderful and romantic Red City, Kano, sister of Timbuktu, the train would take him, after a three days' dusty journey, to the rubbish-heap called Lagos, on the Bight of Benin of the wicked West African Coast. There he would embark on the good ship Appam, greet her commander, Captain Harrison, and sink into

Meantime, for George
Lawrence--disappointment,
worry, frustration, anxiety,

malarial ulcers, and that great
depression which comes of
monotony indescribable,
weariness unutterable, and
loneliness unspeakable.
