**Physiologus** - 1979

One of the most popular and widely read books of the Middle Ages, "Physiologus" contains allegories of beasts, stones, and trees both real and imaginary, infused by their anonymous author with the spirit of Christian moral and mystical teaching. Accompanied by an introduction that explains the origins, history, and literary value of this curious text, this volume also reproduces twenty woodcuts from the 1587 version. Originally composed in the fourth century in Greek, and translated into dozens of versions through the centuries, "Physiologus" will delight readers with its ancient tales of ant-lions, centaurs, and hedgehogs and their allegorical significance. An elegant little book . . . still diverting to look at today. . . . The woodcuts reproduced from the 1587 Rome edition are alone worth the price of the book. Raymond A. Sokolov, "New York Times Book Review"

*Trends in Contemporary Italian Narrative 1980-2007* - Gillian Ania 2009-05-05

The 'new Italian narrative' that began to be spoken about in the 1980s was not associated with a single writer or movement but with an eclectic and varied production. The eight essays that make up this volume set out to give a flavour of the breadth and range of recent trends and

developments. The collection opens with two essays on crime fiction. In the first, Luca Somigli examines novels dealing with topical issues or recent history and which reveal a strong indigenous and regional tradition, while in the second, Nicoletta McGowan discusses the particular case of a noir by Claudia Salvatori. They are followed by essays on two of Italy's best-known contemporary writers: Marina Spunta's essay explores the representation of space, place and landscape in the work of Gianni Celati and photographer Luigi Ghirri, while Darrell O'Connell analyses the fiction of Vincenzo Consolo, and his struggle to find a means of representing an ethical stance within fiction. Two essays then examine the role of the anthology for young writers: Charlotte Ross and Derek Duncan in the context of lesbian and gay writing, looking at identity politics and the problematics of categorization; Monica Jansen and Inge Lanslots in that of the "Young Cannibals", and their often unsettling non-literary language and orientation towards cinema, pop music and slang. The penultimate essay, by Jennifer Burns, discusses the literature of migrants to Italy, focusing on questions of identity, memory, mobility and language, while the final contribution, by Gillian Ania, is a study of apocalypse and dystopia in contemporary writing, looking at novels by Vassalli, Capriolo, Avoledo and Pispisa. "This volume examines Italian narrative from the 1980s to the present, from the original viewpoint of genres, categories, trends, rather than author-based analyses. It highlights the innovations of the last twenty years, incorporating into the various themes well known writers like Consolo, Celati and Vassalli, with relative newcomers like Avoledo and Pispisa. The contributors to the volume, academics from the UK, Ireland, Canada, Belgium, cover a wide range of themes which have come to the fore during this period, ranging from detective stories (both the giallo and the noir) to lesbian and gay writing, to immigration literature in Italian, to the study of apocalypse and dystopia. The themes are contextualized in the socio-political and cultural changes taking place in Italy, and parallel to this the temporal moments of the narratives are in turn related to their historical realities. This is a richly woven account which presents post '80s Italian narrative from a new and stimulating angle, in eight

lucid and informative essays which will be welcomed by all those interested in contemporary fiction in its cultural context." —Professor Anna Laura Lepschy, Department of Italian, University College London

*Religious Narratives in Italian Literature after the Second Vatican Council* - Jenny Ponzio 2019-03-18

This book presents a semiotic study of the re-elaboration of Christian

narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative.

**Puccini** - Julian Budden 2005

Julian Budden provides a look at the process of putting an opera together, the cut-and-slash of nineteenth-century Italian opera, -the struggle to find the right performers for the debut of La Boheme, Puccini's anxiety about completing Turandot (he in fact died of cancer before he did so), and his animosity toward his rival Leoncavallo (whom he called Leonasino or "lion-ass"). Budden provides an analysis of the operas themselves, examining the music act by act. He highlights, among other things, the influence of Wagner on Puccini--alone among his Italian contemporaries, Puccini followed Wagner's example in bringing the motif into the forefront of his narrative, sometimes voicing the singer's unexpressed thoughts, sometimes sending out a signal to the audience of which the character is unaware. And Budden also paints a portrait of Puccini the man--talented but modest, a man who had friends from every walk of life: shopkeepers, priests, wealthy landowners, fellow artists. -- From publisher's description.

**The Secrets of Rome** - Corrado Augias 2014-04-22

From Italy's popular author Corrado Augias comes the most intriguing exploration of Rome ever to be published. In the mold of his earlier histories of Paris, New York, and London, Augias moves perceptively through twenty-seven centuries of Roman life, shedding new light on a cast of famous, and infamous, historical figures and uncovering secrets and conspiracies that have shaped the city without our ever knowing it. From Rome's origins as Romulus's stomping ground to the dark atmosphere of the Middle Ages; from Caesar's unscrupulousness to Caravaggio's lurid genius; from the notorious Lucrezia Borgia to the seductive Anna Fallarino, the marchioness at the center of one of Rome's most heinous crimes of the post-war period, Augias creates a sweeping account of the passions that have shaped this complex city: at once both a metropolis and a village, where all human sentiment—bravery and cowardice, industriousness and sloth, enterprise and laxity—find their interpreters and stage. If the history of humankind is all passion and uproar, then, as the author notes, "for centuries Rome has been the mirror of this history, reflecting with excruciating accuracy every detail, even those that might cause you to avert your gaze."

*Vipero. L'uomo serpente. Beast Quest* - Adam Blade 2019

**On Ugliness** - Umberto Eco 2011

Beauty and ugliness are two sides of the same coin; by ugliness we usually mean the opposite of beauty and we often define the first in order to understand the nature of the second. But the various depictions of ugliness over the centuries are richer and more unpredictable than is commonly thought. The striking images and anthological quotations in *On Ugliness* lead us on an extraordinary journey through the passions, terrors and nightmares of almost three thousand years, where acts of rejection go hand in hand with touching instances of empathy, and an aversion to deformity is accompanied by seductive violations of all classical canons. With his characteristic wit and erudition, Umberto Eco draws on examples in art and literature from ancient times to the present day. Abundantly illustrated with demons, madmen, vile enemies and disquieting presences, with freaks and the living dead, *On Ugliness* is conceived for a vast and diverse readership, and is an invaluable companion volume to *On Beauty*.
