*The Great Shark Hunt* - Hunter S. Thompson 2011-09-06

The first volume in Hunter S. Thompson's bestselling Gonzo Papers offers brilliant commentary and outrageous humor, in his signature style. Originally published in 1979, the first volume of the bestselling "Gonzo Papers" is now back in print. The Great Shark Hunt is Dr. Hunter S. Thompson's largest and, arguably, most important work, covering Nixon to napalm, Las Vegas to Watergate, Carter to cocaine. These essays offer brilliant commentary and outrageous humor, in signature Thompson style. Ranging in date from the National Observer days to the era of Rolling Stone, The Great Shark Hunt offers myriad, highly charged entries, including the first Hunter S. Thompson piece to be dubbed "gonzo"—"The Kentucky Derby Is Decadent and Depraved," which appeared in Scanlan's Monthly in 1970. From this essay a new journalistic movement sprang which would change the shape of American letters. Thompson's razor-sharp insight and crystal clarity capture the crazy, hypocritical, degenerate, and redeeming aspects of the explosive and colorful '60s and '70s.

Black Looks - bell hooks 2014-10-10

In the critical essays collected in Black Looks, bell hooks interrogates old narratives and argues for alternative ways to look at blackness, black subjectivity, and whiteness. Her focus is on spectatorship—in particular, the way blackness and black people are experienced in literature, music, television, and especially film—and her aim is to create a radical intervention into the way we talk about race and representation. As she describes: "the essays in Black Looks are meant to challenge and unsettle, to disrupt and subvert." As students, scholars, activists, intellectuals, and any other readers who have engaged with the book since its original release in 1992 can attest, that's exactly what these pieces do.

Race and Epistemologies of Ignorance - Shannon Sullivan 2012-02-01

Offering a wide variety of philosophical approaches to the neglected philosophical problem of ignorance, this groundbreaking collection builds on Charles Mills's claim that racism involves an inverted epistemology, an epistemology of ignorance. Contributors, explore how different forms of ignorance linked to race are produced and sustained and what role they play in promoting racism and white privilege. They argue that the ignorance that underpins racism is not a simple gap in knowledge, the accidental result of an epistemological oversight. In the case of racial oppression, ignorance often is actively produced for purposes of domination and exploitation. But as these essays demonstrate, ignorance is not simply a tool of oppression wielded by the powerful. It can also be a strategy for survival, an important tool for people of color to wield against white privilege and white supremacy. The book concludes that understanding ignorance and the politics of such ignorance should be a key element of epistemological and social/political analyses, for it has the potential to reveal the role of power in the construction of what is known and provide a lens for the political values at work in knowledge practices. **Postcolonial Thought and Social Theory** - Julian Go 2016

'Postcolonial Thought and Social Theory' maps the convergences and differences between these two seemingly opposed bodies of thought. It explores the different waves of postcolonial thought, elaborates the postcolonial critique of social theory, and charts different strategies for crafting a postcolonial social science.

*Public Vows* - Nancy F. COTT 2009-06-30

We commonly think of marriage as a private matter between two people, a personal expression of love and

commitment. In this pioneering history, Nancy F. Cott demonstrates that marriage is and always has been a public institution. From the founding of the United States to the present day, imperatives about the necessity of marriage and its proper form have been deeply embedded in national policy, law, and political rhetoric. Legislators and judges have envisioned and enforced their preferred model of consensual, lifelong monogamy—a model derived from Christian tenets and the English common law that posits the husband as provider and the wife as dependent. In early confrontations with Native Americans, emancipated slaves, Mormon polygamists, and immigrant spouses, through the invention of the New Deal, federal income tax, and welfare programs, the federal government consistently influenced the shape of marriages. And even the immense social and legal changes of the last third of the twentieth century have not unraveled official reliance on marriage as a "pillar of the state." By excluding some kinds of marriages and encouraging others, marital policies have helped to sculpt the nation's citizenry, as well as its moral and social standards, and have directly affected national understandings of gender roles and racial difference. *Public Vows* is a panoramic view of marriage's political history, revealing the national government's profound role in our most private of choices. No one who reads this book will think of marriage in the same way again.

*Panther Baby* - Jamal Joseph 2012-02-07

The former Black Panther offers "an inspiring, unapologetic account" of his life in the movement and in prison to becoming an acclaimed artist and academic (Kirkus Reviews). In the 1960s he exhorted students at Columbia University to burn their college to the ground. Today he's chair of their School of the Arts film division. Jamal Joseph's personal odyssey—from the streets of Harlem to Rikers Island and Leavenworth to the halls of academia—is as gripping as it is inspiring. As a teenager in the Bronx, Eddie Joseph was a high school honor student, slated to graduate early and begin college. But then he discovered the tenets of the Black Panther Party. By sixteen, his devotion to the cause landed him in prison on Rikers Island, charged with conspiracy as one of the infamous Panther 21. Though he was exonerated, Eddie—now called Jamal—soon landed back in prison after joining the "revolutionary underground." Sentenced to more than twelve years in Leavenworth, he earned three degrees there and found a new calling that would ultimately lead him into a new life. In raw, powerful prose, Jamal Joseph helps us understand what it meant to be a soldier inside the Black Panther movement. He recounts his harrowing imprisonment and his difficult path to manhood in a book filled with equal parts rage, despair, and hope. "Jamal Joseph is a long-distance intellectual freedom fighter who never lost his soul and his integrity—despite the ugly underside of America! Don't miss this powerful book!" —Cornel West

The Wages of Whiteness - David R. Roediger 1999

In an afterword to this new edition, Roediger discusses recent studies of whiteness and the changing face of labor itself. He surveys criticism of his work, accepting many objections whilst challenging others, especially the view that the study of working class racism implies a rejection of Marxism and radical politics.

Do It: Scenarios of the Revolution - Jerry Rubin 1970

"Jerry Rubin is the leader of 850 million Yippies. He's the 'noisiest ... incendiary ... on the Far Left,' according to Avant-Garde. Norman Mailer, in *Armies of the Night*, called Rubin 'the most militant, unpredictable, creative - therefore dangerous - hippie-oriented leader available on the New Left.' The Washington Post described Jerry as a 'debauched Apache dancer, a square who became a Yippie.' In a

previous life Jerry was a sports reporter and a straight college student."--Jacket.

**To Die for the People** - Huey Newton 2020-09-02

Long an iconic figure for radicals, Huey Newton is now being discovered by those interested in the history of America's social movements. This new release of a classic collection of his writings and speeches traces the development of Newton's personal and political thinking, as well as the radical changes that took place in the formative years of the Black Panther Party. More than just a historic record, Newton's prescience and foresight make these documents strikingly pertinent today. Huey Newton was the founder, leader and chief theoretician of the Black Panther Party, and one of America's most dynamic and important revolutionary philosophers.

**From #BlackLivesMatter to Black Liberation** - Keeanga-Yamahtta Taylor 2016-02-01

The author of *Race for Profit* carries out "[a] searching examination of the social, political and economic dimensions of the prevailing racial order" (Michelle Alexander, author of *The New Jim Crow*). In this winner of the Lannan Cultural Freedom Prize for an Especially Notable Book, Keeanga-Yamahtta Taylor "not only exposes the canard of color-blindness but reveals how structural racism and class oppression are joined at the hip" (Robin D. G. Kelley, author of *Freedom Dreams*). The eruption of mass protests in the wake of the police murders of Michael Brown in Ferguson, Missouri, and Eric Garner in New York City have challenged the impunity with which officers of the law carry out violence against black people and punctured the illusion of a post-racial America. The Black Lives Matter movement has awakened a new generation of activists. In this stirring and insightful analysis, activist and scholar Keeanga-Yamahtta Taylor surveys the historical and contemporary ravages of racism and the persistence of structural inequality, such as mass incarceration and black unemployment. In this context, she argues that this new struggle against police violence holds the potential to reignite a broader push for black liberation. "This brilliant book is the best analysis we have of the #BlackLivesMatter moment of the long struggle for freedom in America. Keeanga-Yamahtta Taylor has emerged as the most sophisticated and courageous radical intellectual of her generation." —Dr. Cornel West, author of *Race Matters* "A must read for everyone who is serious about the ongoing praxis of freedom." —Barbara Ransby, author of *Ella Baker and the Black Freedom Movement* "[A] penetrating, vital analysis of race and class at this critical moment in America's racial history." —Gary Younge, author of *The Speech: The Story Behind Dr. Martin Luther King Jr.'s Dream*

**The Magna Carta Manifesto** - Peter Linebaugh 2008

This book details the ways in which the Great Charter and its companion the Charter of the Forest have been used throughout the world across the centuries.

**A Taste of Power** - Elaine Brown 2015-05-20

"A stunning picture of a black woman's coming of age in America. Put it on the shelf beside *The Autobiography of Malcolm X*." —Kirkus Reviews Elaine Brown assumed her role as the first and only female leader of the Black Panther Party with these words: "I have all the guns and all the money. I can withstand challenge from without and from within. Am I right, Comrade?" It was August 1974. From a small Oakland-based cell, the Panthers had grown to become a revolutionary national organization, mobilizing black communities and white supporters across the country—but relentlessly targeted by the police and the FBI, and increasingly riven by violence and strife within. How Brown came to a position of power over this paramilitary, male-dominated organization, and what she did with that power, is a riveting, unsparing account of self-discovery. Brown's story begins with growing up in an impoverished neighborhood in Philadelphia and attending a predominantly white school, where she first sensed what it meant to be black, female, and poor in America. She describes her political awakening during the bohemian years of her adolescence, and her time as a foot soldier for the Panthers, who seemed to hold the promise of redemption. And she tells of her ascent into the upper echelons of Panther leadership: her tumultuous relationship with the charismatic Huey Newton, who would become her lover and her nemesis; her experience with the male power rituals that would sow the seeds of the party's demise; and the scars that she both suffered and inflicted in that era's paradigm-shifting clashes of sex and power. Stunning, lyrical, and acute, this is the indelible testimony of a black woman's battle to define herself. "A glowing achievement." —Los Angeles Times "Honest, funny, subjective, unsparing, and passionate. . . A Taste of Power weaves autobiography and political history into a story that fascinates and illuminates." —The

Washington Post

**Labor and Monopoly Capital** - Harry Braverman 1974

This widely acclaimed book, first published in 1974, was a classic from its first day in print. Written in a direct, inviting way by Harry Braverman, whose years as an industrial worker gave him rich personal insight into work, *Labor and Monopoly Capital* overturned the reigning ideologies of academic sociology. This new edition features an introduction by John Bellamy Foster that sets the work in historical and theoretical context, as well as two rare articles by Braverman, "The Degradation of Work in the Twentieth Century" (1975) and "Two Comments" (1976), that add much to our understanding of the book.

**Slavery and Social Death** - Orlando Patterson 2018-10-15

In a work of prodigious scholarship and enormous breadth, which draws on the tribal, ancient, premodern, and modern worlds, Orlando Patterson discusses the internal dynamics of slavery in sixty-six societies over time. These include Greece and Rome, medieval Europe, China, Korea, the Islamic kingdoms, Africa, the Caribbean islands, and the American South.

**Unequal Freedom** - Evelyn Nakano GLENN 2009-06-30

The inequalities that persist in America have deep historical roots. Evelyn Nakano Glenn untangles this complex history in a unique comparative regional study from the end of Reconstruction to the eve of World War II. During this era the country experienced enormous social and economic changes with the abolition of slavery, rapid territorial expansion, and massive immigration, and struggled over the meaning of free labor and the essence of citizenship as people who previously had been excluded sought the promise of economic freedom and full political rights. After a lucid overview of the concepts of the free worker and the independent citizen at the national level, Glenn vividly details how race and gender issues framed the struggle over labor and citizenship rights at the local level between blacks and whites in the South, Mexicans and Anglos in the Southwest, and Asians and haoles (the white planter class) in Hawaii. She illuminates the complex interplay of local and national forces in American society and provides a dynamic view of how labor and citizenship were defined, enforced, and contested in a formative era for white-nonwhite relations in America.

**Animal Liberation** - Peter Singer 2023-05-23

**The Wretched of the Earth** - Frantz Fanon 2007-12-01

The sixtieth anniversary edition of Frantz Fanon's landmark text, now with a new introduction by Cornel West First published in 1961, and reissued in this sixtieth anniversary edition with a powerful new introduction by Cornel West, Frantz Fanon's *The Wretched of the Earth* is a masterful and timeless interrogation of race, colonialism, psychological trauma, and revolutionary struggle, and a continuing influence on movements from Black Lives Matter to decolonization. A landmark text for revolutionaries and activists, *The Wretched of the Earth* is an eternal touchstone for civil rights, anti-colonialism, psychiatric studies, and Black consciousness movements around the world. Alongside Cornel West's introduction, the book features critical essays by Jean-Paul Sartre and Homi K. Bhabha. This sixtieth anniversary edition of Fanon's most famous text stands proudly alongside such pillars of anti-colonialism and anti-racism as Edward Said's *Orientalism* and *The Autobiography of Malcolm X*.

**The Making of the English Working Class** - E. P. Thompson 2016-03-15

A history of the common people and the Industrial Revolution: "A true masterpiece" and one of the Modern Library's 100 Best Nonfiction Books of the twentieth century (Tribune). During the formative years of the Industrial Revolution, English workers and artisans claimed a place in society that would shape the following centuries. But the capitalist elite did not form the working class—the workers shaped their own creations, developing a shared identity in the process. Despite their lack of power and the indignity forced upon them by the upper classes, the working class emerged as England's greatest cultural and political force. Crucial to contemporary trends in all aspects of society, at the turn of the nineteenth century, these workers united into the class that we recognize all across the Western world today. E. P. Thompson's magnum opus, *The Making of the English Working Class* defined early twentieth-century English social and economic history, leading many to consider him Britain's greatest postwar historian. Its publication in 1963 was highly controversial in academia, but the work has become a seminal text on the history of the working

class. It remains incredibly relevant to the social and economic issues of current times, with the Guardian saying upon the book's fiftieth anniversary that it "continues to delight and inspire new readers."

*Social Origins of Dictatorship and Democracy* - Barrington Moore 2015-12-08

A landmark in comparative history and a challenge to scholars of all lands who are trying to learn how we arrived at where we are now. -New York Times Book Review

**Monopoly Capital** - Paul A. Baran 1966

This landmark text by Paul Baran and Paul Sweezy is a classic of twentieth-century radical thought, a hugely influential book that continues to shape our understanding of modern capitalism. "This book... deals with a vital area of economics, has a unique approach, is stimulating and well written. It represents the first serious attempt to extend Marx's model of competitive capitalism to the new conditions of monopoly capitalism." — Howard J. Sherman, American Economic Review

*We Real Cool* - Bell Hooks 2004

Discusses what black males fear most, their longing for intimacy, the pitfalls of patriarchy, and the destruction of oppression through redemption and love.

*Omeros* - Derek Walcott 2014-09-09

Derek Walcott's *Omeros* is a poem in five books, of circular narrative design, titled with the Greek name for Homer, which simultaneously charts two currents of history: the visible history charted in events -- the tribal losses of the American Indian, the tragedy of African enslavement -- and the interior, unwritten epic fashioned from the suffering of the individual in exile.

*Blacks In and Out of the Left* - Michael C. Dawson 2013-04-30

The radical black left has largely disappeared from the struggle for equality and justice. Michael Dawson examines the causes and consequences, and argues that the conventional left has failed to take race seriously as a force in reshaping American institutions and civil society. Black politics needs to find its way back to its radical roots.

**Habeas Viscus** - Alexander G. Weheliye 2014-07-30

*Habeas Viscus* focuses attention on the centrality of race to notions of the human. Alexander G. Weheliye develops a theory of "racializing assemblages," taking race as a set of sociopolitical processes that discipline humanity into full humans, not-quite-humans, and nonhumans. This disciplining, while not biological per se, frequently depends on anchoring political hierarchies in human flesh. The work of the black feminist scholars Hortense Spillers and Sylvia Wynter is vital to Weheliye's argument. Particularly significant are their contributions to the intellectual project of black studies vis-à-vis racialization and the category of the human in western modernity. Wynter and Spillers configure black studies as an endeavor to disrupt the governing conception of humanity as synonymous with white, western man. Weheliye posits black feminist theories of modern humanity as useful correctives to the "bare life and biopolitics discourse" exemplified by the works of Giorgio Agamben and Michel Foucault, which, Weheliye contends, vastly underestimate the conceptual and political significance of race in constructions of the human. *Habeas Viscus* reveals the pressing need to make the insights of black studies and black feminism foundational to the study of modern humanity.

*How to Do Media and Cultural Studies* - Jane Stokes 2003-02-24

Providing a student guide to the process of research and writing for media and cultural studies, the author covers both quantitative and qualitative methods and includes a list of useful library resources and essential Web sites.

*Before the Mayflower* - Lerone Bennett 2018-08-09

This book grew out of a series of articles which were published originally in *Ebony* magazine. The book, like the series, deals with the trials and triumphs of a group of Americans whose roots in the American soil are deeper than those of the Puritans who arrived on the celebrated "Mayflower" a year after a "Dutch man of war" deposited twenty Negroes at Jamestown. This is a history of "the other Americans" and how they came to North America and what happened to them when they got here. The story begins in Africa with the great empires of the Sudan and Nile Valley and ends with the Second Reconstruction which Martin Luther King, Jr., and the "sit-in" generation are fashioning in the North and South. The story deals with the rise and growth of slavery and segregation and the continuing efforts of Negro Americans to answer the question of

the Jewish poet of captivity: "How shall we sing the Lord's song in a strange land?" This history is founded on the work of scholars and specialists and is designed for the average reader. It is not, strictly speaking, a book for scholars; but it is as scholarly as fourteen months of research could make it. Readers who would like to follow the story in greater detail are urged to read each chapter in connection with the outline of Negro history in the appendix.

*Politics on the Edges of Liberalism* - Benjamin Ardit 2007-01-10

An innovative exploration of ways of thinking and doing politics that challenge liberal assumptions. 'Politics on the edges of liberalism' refers to a grey zone where phenomena such as difference, populism, revolution and agitation turn the distinction between the inside and the outside of liberalism into a matter of dispute. Each chapter takes on one of these ideas, discussing the intellectual background animating the politics of the culture wars and its celebration of particularism over the universalism of classical liberal thought. Populism becomes a spectral recurrence rather than an outside of democracy. Agitation reappears in emancipatory politics, and the idea of revolution is thought through outside the Jacobin view of insurrection, overthrow and total re-foundation. This is truly interdisciplinary inquiry at the cutting edge of contemporary debates in politics, critical theory, philosophy and sociology. The author draws from an impressive range of thinkers such as Kant, Benjamin, Derrida, Freu

*Women, Race, & Class* - Angela Y. Davis 2011-06-29

From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

*Still Life with Woodpecker* - Tom Robbins 2003-06-17

"Robbins's comic philosophical musings reveal a flamboyant genius."—People *Still Life with Woodpecker* is a sort of a love story that takes place inside a pack of Camel cigarettes. It reveals the purpose of the moon, explains the difference between criminals and outlaws, examines the conflict between social activism and romantic individualism, and paints a portrait of contemporary society that includes powerful Arabs, exiled royalty, and pregnant cheerleaders. It also deals with the problem of redheads.

**Long Walk to Freedom** - Nelson Mandela 2008-03-11

The book that inspired the major new motion picture *Mandela: Long Walk to Freedom*. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's anti-apartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life—an epic of struggle, setback, renewed hope, and ultimate triumph.

**In a Queer Time and Place** - J. Jack Halberstam 2005

The first full-length study of transgender representations in art, fiction, film, video, and music In her first book since the critically acclaimed *Female Masculinity*, Judith Halberstam examines the significance of the transgender body in a provocative collection of essays on queer time and space. She presents a series of

case studies focused on the meanings of masculinity in its dominant and alternative forms' especially female and trans-masculinities as they exist within subcultures, and are appropriated within mainstream culture. In a Queer Time and Place opens with a probing analysis of the life and death of Brandon Teena, a young transgender man who was brutally murdered in small-town Nebraska. After looking at mainstream representations of the transgender body as exhibited in the media frenzy surrounding this highly visible case and the Oscar-winning film based on Brandon's story, *Boys Don't Cry*, Halberstam turns her attention to the cultural and artistic production of queers themselves. She examines the "transgender gaze," as rendered in small art-house films like *By Hook or By Crook*, as well as figurations of ambiguous embodiment in the art of Del LaGrace Volcano, Jenny Saville, Eva Hesse, Shirin Neshat, and others. She then exposes the influence of lesbian drag king cultures upon hetero-male comic films, such as *Austin Powers* and *The Full Monty*, and, finally, points to dyke subcultures as one site for the development of queer counterpublics and queer temporalities. Considering the sudden visibility of the transgender body in the early twenty-first century against the backdrop of changing conceptions of space and time, *In a Queer Time and Place* is the first full-length study of transgender representations in art, fiction, film, video, and music. This pioneering book offers both a jumping off point for future analysis of transgenderism and an important new way to understand cultural constructions of time and place.

**Imperial Leather** - Anne McClintock 2013-10-01

*Imperial Leather* chronicles the dangerous liaisons between gender, race and class that shaped British imperialism and its bloody dismantling. Spanning the century between Victorian Britain and the current struggle for power in South Africa, the book takes up the complex relationships between race and sexuality, fetishism and money, gender and violence, domesticity and the imperial market, and the gendering of nationalism within the zones of imperial and anti-imperial power.

**How Capitalism Underdeveloped Black America** - Manning Marable 2015-11-02

"How Capitalism Underdeveloped Black America is one of those paradigm-shifting, life-changing texts that has not lost its currency or relevance—even after three decades. Its provocative treatise on the ravages of late capitalism, state violence, incarceration, and patriarchy on the life chances and struggles of black working-class men and women shaped an entire generation, directing our energies to the terrain of the prison-industrial complex, anti-racist work, labor organizing, alternatives to racial capitalism, and challenging patriarchy—personally and politically."—Robin D. G. Kelley "In this new edition of his classic text . . . Marable can challenge a new generation to find solutions to the problems that constrain the present but not our potential to seek and define a better future."—Henry Louis Gates, Jr. "[A] prescient analysis."—Michael Eric Dyson *How Capitalism Underdeveloped Black America* is a classic study of the intersection of racism and class in the United States. It has become a standard text for courses in American politics and history, and has been central to the education of thousands of political activists since the 1980s. This edition is presented with a new foreword by Leith Mullings.

**Brainwashed** - Tom Burrell 2010-06

Black people are not dark-skinned white people, says advertising visionary Tom Burrell. In fact, they are a lot more. They are survivors of the Middle Passage and centuries of humiliation and deprivation, who have excelled against the odds, constantly making a way out of no way! At this point in history, the idea of black inferiority sh...

**Histories of Racial Capitalism** - Justin Leroy 2021-02-09

The relationship between race and capitalism is one of the most enduring and controversial historical debates. The concept of racial capitalism offers a way out of this impasse. Racial capitalism is not simply a permutation, phase, or stage in the larger history of capitalism—since the beginning of the Atlantic slave trade and the colonization of the Americas, capitalism, in both material and ideological senses, has been racial, deriving social and economic value from racial classification and stratification. Although Cedric J. Robinson popularized the term, racial capitalism has remained undertheorized for nearly four decades. *Histories of Racial Capitalism* brings together for the first time distinguished and rising scholars to consider the utility of the concept across historical settings. These scholars offer dynamic accounts of the relationship between social relations of exploitation and the racial terms through which they were organized, justified, and contested. Deploying an eclectic array of methods, their works range from

indigenous mortgage foreclosures to the legacies of Atlantic-world maroons, from imperial expansion in the continental United States and beyond to the racial politics of municipal debt in the New South, from the ethical complexities of Latinx banking to the postcolonial dilemmas of extraction in the Caribbean. Throughout, the contributors consider and challenge how some claims about the history and nature of capitalism are universalized while others remain marginalized. By theorizing and testing the concept of racial capitalism in different historical circumstances, this book shows its analytical and political power for today's scholars and activists.

**The Assassination of Fred Hampton** - Jeffrey Haas 2019-11-05

Read the story behind the award-winning film *Judas and the Black Messiah* On December 4, 1969, attorney Jeff Haas was in a police lockup in Chicago, interviewing Fred Hampton's fiancée. Deborah Johnson described how the police pulled her from the room as Fred lay unconscious on their bed. She heard one officer say, "He's still alive." She then heard two shots. A second officer said, "He's good and dead now." She looked at Jeff and asked, "What can you do?" *The Assassination of Fred Hampton* remains Haas's personal account of how he and People's Law Office partner Flint Taylor pursued Hampton's assassins, ultimately prevailing over unlimited government resources and FBI conspiracy. Fifty years later, Haas writes that there is still an urgent need for the revolutionary systemic changes Hampton was organizing to accomplish. Not only a story of justice delivered, this book spotlights Hampton as a dynamic community leader and an inspiration for those in the ongoing fight against injustice and police brutality.

**The Political Brain** - Drew Westen 2008-05-06

*The Political Brain* is a groundbreaking investigation into the role of emotion in determining the political life of the nation. For two decades Drew Westen, professor of psychology and psychiatry at Emory University, has explored a theory of the mind that differs substantially from the more "dispassionate" notions held by most cognitive psychologists, political scientists, and economists—and Democratic campaign strategists. The idea of the mind as a cool calculator that makes decisions by weighing the evidence bears no relation to how the brain actually works. When political candidates assume voters dispassionately make decisions based on "the issues," they lose. That's why only one Democrat has been re-elected to the presidency since Franklin Roosevelt—and only one Republican has failed in that quest. In politics, when reason and emotion collide, emotion invariably wins. Elections are decided in the marketplace of emotions, a marketplace filled with values, images, analogies, moral sentiments, and moving oratory, in which logic plays only a supporting role. Westen shows, through a whistle-stop journey through the evolution of the passionate brain and a bravura tour through fifty years of American presidential and national elections, why campaigns succeed and fail. The evidence is overwhelming that three things determine how people vote, in this order: their feelings toward the parties and their principles, their feelings toward the candidates, and, if they haven't decided by then, their feelings toward the candidates' policy positions. Westen turns conventional political analyses on their head, suggesting that the question for Democratic politics isn't so much about moving to the right or the left but about moving the electorate. He shows how it can be done through examples of what candidates have said—or could have said—in debates, speeches, and ads. Westen's discoveries could utterly transform electoral arithmetic, showing how a different view of the mind and brain leads to a different way of talking with voters about issues that have tied the tongues of Democrats for much of forty years—such as abortion, guns, taxes, and race. You can't change the structure of the brain. But you can change the way you appeal to it. And here's how...

**Dusk of Dawn** - William Edward Burghardt Du Bois 2014

W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. *Dusk of Dawn*, published in 1940, is an explosive autobiography of the foremost African American scholar of his time. Du Bois writes movingly of his own life, using personal experience to elucidate the systemic problem of race. He reflects on his childhood, his education, and his intellectual life, including the

formation of the NAACP. Though his views eventually got him expelled from the association, Du Bois continues to develop his thoughts on separate black economic and social institutions in *Dusk of Dawn*. Readers will find energetic essays within these pages, including insight into his developing Pan-African consciousness. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by Kwame Anthony Appiah, this edition is essential for anyone interested in African American history.

**From Puritanism to Postmodernism** - Richard Ruland 2016-04-14
