[No Small Potatoes: Junius G. Groves and His Kingdom in Kansas](#) - Tonya Bolden 2018-10-16

Discover the incredible true story of how one of history's most successful potato farmers began life as a slave and worked until he was named the "Potato King of the World"! Junius G. Groves came from humble beginnings in the Bluegrass State. Born in Kentucky into slavery, freedom came when he was still a young

man and he intended to make a name for himself. Along with thousands of other African Americans who migrated from the South, Junius walked west and stopped in Kansas.

Working for a pittance on a small potato farm was no reason to feel sorry for himself, especially when he's made foreman. But Junius did dream of owning his own farm, so he did the next best thing. He rented the land and worked hard! As he built his empire, he also built a family, and he built them both on tons and tons and tons of potatoes. He never quit working hard, even as the naysayers doubted him, and soon he was declared Potato King of the World and had five hundred acres and a castle to call his own. From award winning author Tonya Bolden and talented illustrator Don Tate comes a tale of perseverance that reminds us no matter where you begin, as long as you work hard, your creation can never be called small potatoes.

The Sunflower Cast a Spell to Save Us from the Void -

Jackie Wang 2021-01-26

Jackie Wang's magnetic and spellbinding debut collection of poetry that attempts to speak in the language of dreams. In *The Sunflower*, Wang follows the sunflower's many dream guises—its evolving symbolism in literature, society, and the author's own dream life using a mathopoetic technique to generate poems using the Fibonacci sequence (a pattern found in the seed spirals of sunflower). *The Sunflower Cast a Spell to Save Us from the Void* embodies what Wang calls oneiric poetry: a poetry that attempts to speak in the language of dreams. Although dreams, in psychoanalytic discourse, have been conceptualized as a window

into the unconscious, Wang's poetry emphasizes the social dimension of dreams, particularly the use of dreams to index historical trauma and social processes.

Sunflowers - Stephen A. Harris 2018-06-15

From iconic paintings by Vincent van Gogh to their much-spat seeds at baseball games, the massive, golden blossoms of sunflowers have become a part of our literary and visual cultures and daily lives, inspiring artists and poets and used by advertisers to promote countless products. But sunflowers are only the most recognizable members of the world's largest family of plants, Asteraceae, which includes lettuce, chrysanthemums, asters, dahlias, and weeds. And in this book, Stephen A. Harris unearths the extraordinary history of this entire sunflower bouquet. Unraveling the interplay between human cultures and the biology of these spectacular blooms over the last six thousand years, Sunflowers explores our persistent fascination with this family and how our uses of the plants have changed over millennia. Found in almost all

habitats, from the driest deserts and tallest mountains to grasslands and urban wastelands, the sunflower family includes more than 32,000 species. It produces hugely popular and economically valuable ornamental flowers, as well as familiar flavorings such as tarragon and artemesia, and its members are also used in the production of antimalarial drugs, artificial sweeteners, insecticide, and fish poisons. Illustrated with many rarely seen images of the sunflower family, this beautiful volume sheds surprising new light on these familiar, sunniest of flowers.

50 Sunflowers to Knit, Crochet & Felt - Kristin Nicholas
2013-03-19

Sunflowers are bold and bright flowers that have inspired painters and designers for years. Master knitter and designer Kristin Nicholas grows her own field of colorful sunflowers and now brings the iconic sunflower to fiber life using knitting, crochet, felting, and embroidery. Included are designs for over thirty different sunflower blooms and buds in a variety of sizes, plus eight different leaf and vine designs, and a host of critters who live in a sunflower field—from birds and honeybees, to butterflies and caterpillars—a total of fifty

items. Laid out like the previous books in the series, the book includes all the useful information you need for making the flowers—which needles, crochet hooks, embroidery needles, and types of yarns to use, plus a special explanation of how to choose yarn that felts well. In the "How to Work with Color" section, photographs of actual sunflowers are translated into stitched samples that give the reader visual cues on how to combine colors in their crafting. Organized into knitted and crocheted items, with additional instructions incorporated for felting, the "How-To" section includes full step-by-step pattern instructions and charts where appropriate. The last part of the book features over fifteen projects for using the sunflowers in many and varied ways, from embellishing mittens, to decorating a grapevine wreath to a felted potholder, to making a child's toy, and more!
