## **#Obsession** - Seyedeh Tina Sadri, M.A. L.M.F.T 2016-04-22

#Obsession: freeing yourself from social media disorder by Seyedeh Tina Sadri, M.A. L.M.F.T. and Randall Frakes There is a real epidemic of social media addiction in this country and abroad - wherever anyone has access to the Internet. When a British youth tries to kill himself because he cannot take the perfect "selfie," we know humankind has crossed a line into dangerous and toxic territory. Beneath the surface topic of social media disorder, this book is really about self-esteem related disorders that lead to over-reliance on outside validation. Because it is new and pervasive, especially to a young generation raised under its influence and never knowing anything different, social media is the main culprit for behavior disorders plaguing otherwise balanced individuals. This book explores the outer extremes of the disorder and then furnishes several important, yet simple, processes by which to restore psychological balance. Social Media is a positive tool in our lives when used properly. This book serves as a guide on how to interact with social media in a healthy way. People are becoming more and more obsessed with communicating an idealized version of themselves to strangers and creating an electronic ghost personality that exists only because

certain facts are edited out. This is one of the first and most enlightening books on this growing epidemic of social media addiction. It is a fascinating exploration of social media, but also a way to see yourself in the many amazing case histories - and decide if you are a victim of this modern malady. #Obsession will appeal to anyone who uses social media, which is nearly everyone on the planet, even people in third world countries.

Pulitzer Prize winner Tracy Kidder memorably records the drama, comedy, and excitement of one company's efforts to bring a new microcomputer to market. Computers have changed since 1981, when *The Soul of a New Machine* first examined the culture of the computer revolution. What has not changed is the feverish pace of the high-tech industry, the go-for-broke approach to business that has caused so many computer companies to win big (or go belly up), and the cult of pursuing mind-bending technological innovations. *The Soul of a New Machine* is an essential chapter in the history of the machine that

revolutionized the world in the twentieth century.

If you're an author or thinking of becoming an author, then you need this book because it sets out exactly how to build two of the core funnels every non-fiction author needs to have in place if they want to use their book to grow their business. If you're not an author but you own a business. You still need funnels. Even though the funnels in the book are built around a book, they will work just as well for any other lead magnet and low-cost offer. Most business owners put off building marketing funnels because either they don't know what tools to use, they're worried about the cost, they don't know how to do it (and they're maybe a little scared of the technology), or they don't know what to write on the pages or in the emails. Rob has your back: Rob tells you exactly what software tools to use and gives you the links you need. You can get started for as little as

\$30/month total, and both of the tools recommended have 14-day free trials, which is long enough to try out everything in the book. Rob has built your funnels for you. All you have to do is follow the click-by-click instructions to load them into the software and tailor them to your business. Rob has even written the follow-up emails. All you have to do is load them up (again, the book shows you how) and tailor them to your business. And if you register your copy of the book, you'll get 2 weeks of free "Get Sh\*t Done" email coaching to make sure you implement what's in the book. It's as close to 'done for you' as a book can be! PS. Remember: Rob has done all the 'heavy lifting' for you in the book: the funnels are built and the emails are written. All you have to do is tailor them to your business. PPS. And register your book after buying to get 2 weeks of free Get Sh\*t Done coaching
