English for Competitive Examinations: (Includes Descriptive and Objective Tests) - Wren & Martin

This book has been designed by combining the goodness of the original Wren & Martin text, High School Grammar & Composition, and specialized content developed by a panel of competitive examination experts in the area of the English language. The USP is therefore adapting a classical text to the needs of the various admission and recruitment competitive examination aspirants. Its exhaustive coverage ensures that virtually no competitive examination remains untouched. Students preparing for descriptive tests such as UPSC (Compulsory English and General English Papers of Main Exams) and state PCS examinations, Judicial Services examination, Indian Forest Service examination, Statistical Services and many other examinations in which subjective papers/tests are mandatory will find this book immensely useful. The book is also a boon for those students who are preparing for objective tests such as Banking and Insurance, SSC, UPSC preliminary, Defence Services, Law entrance, Business School entrance examinations, and many other admission and recruitment examinations. A unique feature of this book is demonstration of the connectedness of the concepts and their applications visually, with the help of arrows and pointers. The aspirant will also find questions from recent examinations on virtually every page of the book. An index of examination-wise questions has been included so that the aspirant can choose the sections according to the targeted examination and focus more. Topic-wise distribution of questions in English examination papers - both descriptive and objective - will also help aspirants to undertake a very well directed test-prep program using the book.

This book has been prepared in such a way that it will be helpful for both the students and faculty.

A Student's Introduction to English Grammar - Rodney Huddleston
2021-11-30

A new edition of a successful undergraduate textbook on contemporary international Standard English grammar, based on Huddleston and Pullum's earlier award-winning work, *The Cambridge Grammar of the English Language* (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. Intended for students in colleges or universities who have little or no background in grammar or linguistics, this teaching resource contains numerous exercises and online resources suitable for any course on the structure of English in either linguistics or English departments. A thoroughly modern undergraduate textbook, rewritten in an easy-to-read conversational style with a minimum of technical and theoretical terminology.

Self-improvement in English - Hallam Walker Davis 1925

A Descriptive Grammar of English - Andrew Rossiter 2020-05-13

"Grammar" can often be seen as a dull and complicated art, with all sorts of dusty and quirky rules that are hard to understand and even harder to

explain. This Descriptive Grammar of English - by example - shakes off the dust to present the essential principles of modern English grammar as clearly as possible, showing the simple rules that determine the standard practices of modern English, both in writing and in speech, and illustrating their use through hundreds of simple examples and familiar expressions. Most native speakers generally follow the essential rules of English grammar as if by intuition; in many cases they will be quite unaware of what the rules are... even that they exist. But rules or principles or guidelines do exist, and without them it would be very difficult to communicate properly and coherently. Grammar is the highway code of any language, and people need either to learn it, or to absorb it subconsciously, in order to speak or write proficiently. Children master the rudiments of grammar in their native language by hearing, remembering, repeating and experimenting; and up to a point this is sufficient for everyday communication. However beyond a certain level, and more importantly when learning a second or foreign language, some awareness of the rules and principles of grammar becomes useful, and in many situations, vital. Some understanding of grammar is indeed essential for anyone wanting to teach English whether it be to native speakers or as a foreign language. By highlighting (literally) hundreds of short sentences and expressions, this Descriptive Grammar of English clearly illustrates and succinctly explains the rules that govern acceptable usage of the English language today. Where necessary, it uses colour coding to show up pertinent points and to contrast different structures or functions. This is not a grammar book for grammarians; it's a grammar book for anyone, and no prior knowledge of linguistics is required. As befits any discussion of grammar, it uses the expressions or jargon that are required to explain grammar, but also explains them by including a glossary of grammatical terms which will be of value to most readers. Originally conceived for the benefit of non-native speakers of English, particularly advanced EFL and ESL students and teachers of English as a foreign or second language, it is also very much suited for school and home use in English-speaking countries. In short it is for anyone who is looking for clear and example-based explanations of how

English works and is written and spoken. It covers all the main points of English grammar in a way that is understandable to any student. As well as explaining the essential aspects of English grammar, such as verbs and nouns and adjectives, it includes succinct and clearly illustrated sections on such important points as style word order and punctuation. It distinguishes where appropriate between the usages of written and spoken English, and between British English and American English. All the points covered in this grammar are copiously illustrated with examples from everyday English, including memorable and familiar expressions that are hard to forget. Children are not the only ones who learn their grammar by example.

English Grammar & Composition Very Useful for All Competitive Examinations - SC Gupta 2018-04-20

Nowadays English language section is asked in almost all competitive and recruitment examinations like SSC, Banking, CDS, State Level PSCs, etc. Otherwise too, being proficient in English is necessary in this fast modernizing world. Answers for all the questions have been given at the end of the section. As the book covers varied aspects of English language, it for sure will help aspirants score high in the upcoming national and state level competitive and recruitment examinations.

English General Nouns - Michaela Mahlberg 2005-01-01

This book proposes an innovative approach to general nouns. General nouns are defined as high-frequency nouns that are characterized by their textual functions. Although the concept is motivated by Halliday & Hasan (1976), the corpus theoretical approach adopted in the present study is fundamentally different and set in a linguistic framework that prioritizes lexis. The study investigates 20 nouns that are very frequent in mainstream English, as represented by the Bank of English Corpus. The corpus-driven approach to the data involves a critical discussion of descriptive tools, such as patterns, semantic prosodies, and primings of lexical items, and the concept of? local textual functions? is put forward

to characterize the functions of the nouns in texts. The study not only suggests a characterization of general nouns, but also stresses that functions of lexical items and properties of texts are closely linked. This link requires new ways of describing language.

Objective General English - SP Bakshi 2021-07-17

1. 'Objective General English' help in revising & preparing the concepts of English of many competitive exams 2. It is divided into four parts; 3. Guide to Objective Arithmetic - Khattar 2007-02

Teaching English using the internet and multiple intelligences approach (□□□□□□□□□□□□□□□□) - □□□ 2007-05-01

This book can be regarded as a resource book for teachers who would

society, and culture of the United States. It discusses the many languages and forms of language that have been used in the US - including standard and nonstandard forms of English, creoles, Native American languages, and immigrant languages from across the globe - and shows how this distribution and diversity of languages has helped shape and define America as well as an American identity. The volume introduces the basic concepts of sociolinguistics and the politics of language through cohesive, up-to-date and accessible coverage of such key topics as dialectal development and the role of English as the majority language, controversies concerning language use in society, languages other than English used in the US, and the policies that have directly or indirectly influenced language use. These topics are presented in such a way that students can examine the inherent diversity of the communicative systems used in the United States as both a form of cultural enrichment and as the basis for socio-political conflict. The author team outlines the different viewpoints on contemporary issues surrounding language in the US and contextualizes these issues within linguistic facts, to help students think critically and formulate logical discussions. To provide opportunities for further examination and debate, chapters are organized around key misconceptions or questions ("I don't have an accent" or "Immigrants don't want to learn English"), bringing them to the forefront for readers to address directly. Language and Linguistic Diversity in the US is a fresh and unique take on a widely taught topic. It is ideal for students from a variety of disciplines or with no prior knowledge of the field, and a useful text for introductory courses on language in the US, American English, language variation, language ideology, and sociolinguistics.

Speak - Laurie Halse Anderson 2011-05-10

The extraordinary, groundbreaking novel from Laurie Halse Anderson, with more than 2.5 million copies sold! The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself. *Speak* was a 1999 National Book Award Finalist for Young People's Literature.
