Functional Somatic Symptoms in Children and Adolescents - Kasia Kozłowska 2020

This open access book sets out the stress-system model for functional somatic symptoms in children and adolescents. The book begins by exploring the initial encounter between the paediatrician, child, and family, moves through the assessment process, including the formulation and the treatment contract, and then describes the various forms of treatment that are designed to settle the child's dysregulated stress system. This approach both provides a new understanding of how such symptoms emerge -- typically, through a history of recurrent or chronic stress, either physical or psychological -- and points the way to effective

assessment, management, and treatment that put the child (and family) back on the road to health and well-being.

All have been dressed by Bob Mackie. For nearly six decades, the iconic and incomparable Bob Mackie has been designing stunning,

unforgettable clothing. His unique, glamorous—sometimes hilarious—creations have appeared on Broadway stages, TV screens, runways, and red carpets worldwide. Going Stealth - Toby Cason Beauchamp 2010

This dissertation examines the ways various surveillance mechanisms have been deployed in relation to transgender and gender-nonconforming bodies and populations in the context of Western modernity. Bridging the emerging fields of surveillance studies and

transgender studies, I ask how transgender studies might be useful in better understanding surveillance and security practices, and how surveillance studies might further illuminate the regulation of gendered and racialized bodies in the U.S. and at U.S. borders. At its heart, this dissertation aims to show how transgender and gender-nonconforming bodies are inextricably bound up with questions of nationalism, state security, and military and government constructions of safety. The chapters examine surveillance sites ranging from identification documents to biometrics programs, and from medical surveillance of reproduction to airport X-rays. While focusing on surveillance mechanisms that are particularly linked to the global War on Terror, I also contextualize these practices in histories of bodily classification, militarization, and shifting constructions of deviance. Simultaneously, I trace genealogies of gender-nonconforming figures that have served as objects of scrutiny in contexts ranging from

medicine and law to immigration checkpoints. Importantly, this dissertation rethinks the very category of transgender, engaging the fact that bodies may be read as gender deviant in relation to racial, religious, and/or national appearance, or through perceived class status, disability or sexual practices. I ask how certain trans-identified bodies, able to comply with dominant standards of dress and behavior (themselves grounded in ideals of whiteness, citizenship, class privilege and compulsory heterosexuality), may be legible to surveillance mechanisms not as transgender, but as properly gendered and non-threatening. At the same time, I consider the ways contemporary surveillance technologies produce and make visible particular understandings of transgender bodies. Finally, I argue that if surveillance practices assume normative bodies, then gender-nonconforming bodies may confound, hamper, or render illegible those practices, offering insight into potential counter-surveillance tactics and

forms of resistance. In this way, rather than continuing to position trans and gender-nonconforming bodies as objects of curiosity and scientific scrutiny, I use the critical lens of transgender studies to examine ruptures and inconsistencies in state, medical, media and legal surveillance practices.

In a Queer Time and Place - J. Jack Halberstam 2005

The first full-length study of transgender representations in art, fiction, film, video, and music In her first book since the critically acclaimed *Female Masculinity*, Judith Halberstam examines the significance of the transgender body in a provocative collection of essays on queer time and space. She presents a series of case studies focused on the meanings of masculinity in its dominant and alternative forms' especially female and trans-masculinities as they exist within subcultures, and are appropriated within mainstream culture. In a *Queer Time and Place* opens with a probing

analysis of the life and death of Brandon Teena, a young transgender man who was brutally murdered in small-town Nebraska. After looking at mainstream representations of the transgender body as exhibited in the media frenzy surrounding this highly visible case and the Oscar-winning film based on Brandon's story, *Boys Don't Cry*, Halberstam turns her attention to the cultural and artistic production of queers themselves. She examines the "transgender gaze," as rendered in small art-house films like *By Hook or By Crook*, as well as figurations of ambiguous embodiment in the art of Del LaGrace Volcano, Jenny Saville, Eva Hesse, Shirin Neshat, and others. She then exposes the influence of lesbian drag king cultures upon hetero-male comic films, such as *Austin Powers* and *The Full Monty*, and, finally, points to dyke subcultures as one site for the development of queer counterpublics and queer temporalities. Considering the sudden visibility of the transgender body in the early twenty-first

century against the backdrop of changing conceptions of space and time, *In a Queer Time and Place* is the first full-length study of transgender representations in art, fiction, film, video, and music. This pioneering book offers both a jumping off point for future analysis of transgenderism and an important new way to understand cultural constructions of time and place.

The Long Tail - Chris Anderson 2006-07-11

What happens when the bottlenecks that stand between supply and demand in our culture go away and everything becomes available to everyone? "The Long Tail" is a powerful new force in our economy: the rise of the niche. As the cost of reaching consumers drops dramatically, our markets are shifting from a one-size-fits-all model of mass appeal to one of unlimited variety for unique tastes. From supermarket shelves to advertising agencies, the ability to offer vast choice is changing everything, and causing us to rethink where our

markets lie and how to get to them. Unlimited selection is revealing truths about what consumers want and how they want to get it, from DVDs at Netflix to songs on iTunes to advertising on Google. However, this is not just a virtue of online marketplaces; it is an example of an entirely new economic model for business, one that is just beginning to show its power. After a century of obsessing over the few products at the head of the demand curve, the new economics of distribution allow us to turn our focus to the many more products in the tail, which collectively can create a new market as big as the one we already know. The Long Tail is really about the economics of abundance. New efficiencies in distribution, manufacturing, and marketing are essentially resetting the definition of what's commercially viable across the board. If the 20th century was about hits, the 21st will be equally about niches.

Runestone Saga: Children of Ragnarok - Cinda Williams Chima 2022-11-08

Sweeping adventure, breathtaking twists of fate, and immersive worlds based in Norse mythology are woven into this first volume of the Runestone Saga, from the New York Times bestselling author of the Seven Realms and Shattered Realms series. Since Ragnarok—the great war between the gods and the forces of chaos—the human realm of the Midlands has become a desperate and dangerous place, bereft of magic. Sixteen-year-old Eiric Halvorsen is among the luckier ones—his family has remained prosperous. But he stands to lose everything when he's wrongly convicted by a rigged jury of murdering his modir and stepfadir. Also at risk is Eiric's half-systir, Liv, who's under suspicion for her interest in seidr, or magic. Then a powerful jarl steps in: He will pay the blood price if Eiric will lead a mission to the fabled Temple at the Grove—the rich stronghold of the wyrdspinnors, the last practitioners of sorcery. Spellsinger, musician, and runecaster Reginn Eiklund has spent her life performing at alehouses for the

benefit of her master, Asger, a fire demon she is desperate to escape. After one performance that amazes even herself, two wyrdspINNers in the audience make Reginn an irresistible offer: return with them to the Temple to be trained in seidr, forever free of Asger. Eiric's, Liv's, and Reginn's journeys converge in New Jotunheim, a paradise fueled by magic and the site of the Temple. They soon realize that a great evil lurks beneath the dazzling surface and that old betrayals and long-held grudges may fuel another cataclysmic war. It will require every gift and weapon at their command to prevent it.

hospital was shut down, the building abandoned and left to rot deep in the woods. As the new kid in town, Neil Cady wants to see Graylock for himself. Especially since rumor has it that the building is haunted. He's got fresh batteries in his flashlight, a camera to document the adventure, and a new best friend watching his back. Callie Pike never imagined Donny Steel could fall in love with her, and she desperately wants to revel in their blazing passion. If only her own past hadn't returned to torment her. Why now? But someone clearly wants to destroy them, and laws, ethics, and locked

Reggaeton - Raquel Z. Rivera 2010-07-01

A hybrid of reggae and rap, reggaeton is a music with Spanish-language lyrics and Caribbean aesthetics that has taken Latin America, the United States, and the world by storm. Superstars—including Daddy Yankee, Don Omar, and Ivy Queen—garner international attention, while aspiring performers use digital technologies to create and circulate their own tracks. Reggaeton brings together critical assessments of this wildly popular genre. Journalists, scholars, and artists delve into reggaeton's local roots and its transnational dissemination; they parse the genre's aesthetics, particularly in relation to those of hip-hop; and they explore the debates about race, nation, gender, and sexuality generated by the music and its associated cultural practices, from dance to fashion. The collection opens with an in-depth exploration of the social and sonic currents that coalesced into reggaeton in Puerto Rico during

the 1990s. Contributors consider reggaeton in relation to that island, Panama, Jamaica, and New York; Cuban society, Miami's hip-hop scene, and Dominican identity; and other genres including reggae en español, underground, and dancehall reggae. The reggaeton artist Tego Calderón provides a powerful indictment of racism in Latin America, while the hip-hop artist Welmo Romero Joseph discusses the development of reggaeton in Puerto Rico and his refusal to embrace the upstart genre. The collection features interviews with the DJ/rapper El General and the reggae performer Renato, as well as a translation of "Chamaco's Corner," the poem that served as the introduction to Daddy Yankee's debut album. Among the volume's striking images are photographs from Miguel Luciano's series Pure Plantainum, a meditation on identity politics in the bling-bling era, and photos taken by the reggaeton videographer Kacho López during the making of the documentary *Bling'd: Blood, Diamonds, and Hip-*

Agent, Person, Subject, Self - Paul Kockelman
2013

This book offers both a naturalistic and critical theory of signs, minds, and meaning-in-the-world. It provides a reconstructive rather than deconstructive theory of the individual, one which both analytically separates and theoretically synthesizes a range of faculties that are often confused and conflated: agency (understood as a causal capacity), subjectivity (understood as a representational capacity), selfhood (understood as a reflexive capacity), and personhood (understood as a sociopolitical

capacity attendant on being an agent, subject, or self). It argues that these facilities are best understood from a semiotic stance that supersedes the usual intentional stance. And, in so doing, it offers a pragmatism-grounded approach to meaning and mediation that is general enough to account for processes that are as embodied and embedded as they are articulated and enminded. In particular, while this theory is focused on human-specific modes of meaning, it also offers a general theory of meaning, such that the agents, subjects and selves in question need not always, or even usually, map onto persons. And while this theory foregrounds agents, persons, subjects and selves, it does this by theorizing processes that often remain in the background of such (often erroneously) individuated figures: ontologies (akin to culture, but generalized across agentive collectivities), interaction (not only between people, but also between people and things, and anything outside or in-between), and

infrastructure (akin to context, but generalized to include mediation at any degree of remove).

Golden Gulag - Ruth Wilson Gilmore

2007-01-08

Since 1980, the number of people in U.S. prisons has increased more than 450%. Despite a crime rate that has been falling steadily for decades, California has led the way in this explosion, with what a state analyst called "the biggest prison building project in the history of the world."

Golden Gulag provides the first detailed

explanation for that buildup by looking at how political and economic forces, ranging from global to local, conjoined to produce the prison boom. In an informed and impassioned account, Ruth Wilson Gilmore examines this issue through statewide, rural, and urban perspectives to explain how the expansion developed from surpluses of finance capital, labor, land, and state capacity. Detailing crises that hit California's economy with particular ferocity, she argues that defeats of radical struggles, weakening of labor, and shifting patterns of capital investment have been key conditions for prison growth. The results—a vast and expensive prison system, a huge number of incarcerated young people of color, and the increase in punitive justice such as the "three strikes" law—pose profound and troubling questions for the future of California, the United States, and the world. Golden Gulag provides a rich context for this complex dilemma, and at the same time challenges many cherished assumptions about

who benefits and who suffers from the state's commitment to prison expansion.

Jawbone - Mónica Ojeda 2022-02-08

"Was desire something like being possessed by a nightmare?" Fernanda and Annelise are so close they are practically sisters: a double image, inseparable. So how does Fernanda end up bound on the floor of a deserted cabin, held hostage by one of her teachers and estranged from Annelise? When Fernanda, Annelise, and their friends from the Delta Bilingual Academy convene after school, Annelise leads them in thrilling but increasingly dangerous rituals to a rhinestoned, Dior-scented, drag-queen god of her own invention. Even more perilous is the secret Annelise and Fernanda share, rooted in a dare in which violence meets love. Meanwhile, their literature teacher Miss Clara, who is obsessed with imitating her dead mother, struggles to preserve her deteriorating sanity. Each day she edges nearer to a total break with reality. Interweaving pop culture references and

horror concepts drawn from from Herman Melville, H. P. Lovecraft, and anonymous "creepypastas," Jawbone is an ominous, multivocal novel that explores the terror inherent in the pure potentiality of adolescence and the fine line between desire and fear.

Fragmented Democracy - Jamila Michener 2018-03-22

Medicaid is the single largest public health insurer in the United States, covering upwards of 70 million Americans. Crucially, Medicaid is also an intergovernmental program that yokes poverty to federalism: the federal government determines its broad contours, while states have tremendous discretion over how Medicaid is designed and implemented. Where some locales are generous and open handed, others are tight-fisted and punitive. In *Fragmented Democracy*, Jamila Michener demonstrates the consequences

of such disparities for democratic citizenship. Unpacking how federalism transforms Medicaid beneficiaries' interpretations of government and structures their participation in politics, the book examines American democracy from the vantage point(s) of those who are living in or near poverty, (disproportionately) Black or Latino, and reliant on a federated government for vital resources.

The Transnational History of a Chinese Family - Haiming Liu 2005

Family and home are one word--jia--in the Chinese language. Family can be separated and home may be relocated, but jia remains intact. It signifies a system of mutual obligation, lasting

responsibility, and cultural values. This strong yet flexible sense of kinship has enabled many Chinese immigrant families to endure long physical separation and accommodate continuities and discontinuities in the process of social mobility. Based on an analysis of over three thousand family letters and other primary sources, including recently released immigration files from the National Archives and Records Administration, Haiming Liu presents a remarkable transnational history of a Chinese family from the late nineteenth century to the 1970s. For three generations, the family lived between the two worlds. While the immigrant generation worked hard in an herbalist business and asparagus farming, the younger generation crossed back and forth between China and America, pursuing proper education, good careers, and a meaningful life during a difficult period of time for Chinese Americans. When social instability in China and hostile racial environment in America prevented the family

from being rooted in either side of the Pacific, transnational family life became a focal point of their social existence. This well-documented and illustrated family history makes it clear that, for many Chinese immigrant families, migration does not mean a break from the past but the beginning of a new life that incorporates and transcends dual national boundaries. It convincingly shows how transnationalism has become a way of life for Chinese American families.

Seeing Race Again - Kimberlé Williams
Crenshaw 2019-02-05

Every academic discipline has an origin story complicit with white supremacy. Racial hierarchy and colonialism structured the very foundations of most disciplines' research and teaching paradigms. In the early twentieth century, the academy faced rising opposition and correction, evident in the intervention of scholars including W. E. B. Du Bois, Zora Neale Hurston, Carter G. Woodson, and others. By the

mid-twentieth century, education itself became a center in the struggle for social justice. Scholars mounted insurgent efforts to discredit some of the most odious intellectual defenses of white supremacy in academia, but the disciplines and their keepers remained unwilling to interrogate many of the racist foundations of their fields, instead embracing a framework of racial colorblindness as their default position. This book challenges scholars and students to see race again. Examining the racial histories and colorblindness in fields as diverse as social psychology, the law, musicology, literary studies, sociology, and gender studies, *Seeing Race Again* documents the profoundly contradictory role of the academy in constructing, naturalizing, and reproducing racial hierarchy. It shows how colorblindness compromises the capacity of disciplines to effectively respond to the wide set of contemporary political, economic, and social crises marking public life today.

Pumpkin - Julie Murphy 2021-05-25

Return to the beloved world of Julie Murphy's #1 New York Times bestselling *Dumplin'*—now a popular Netflix feature film starring Jennifer Aniston—in this fabulously joyful, final companion novel about drag, prom, and embracing your inner Queen. Waylon Russell Brewer is a fat, openly gay boy stuck in the small West Texas town of Clover City. His plan is to bide his time until he can graduate, move to Austin with his twin sister, Clementine, and finally go Full Waylon so that he can live his Julie-the-hills-are-alive-with-the-sound-of-music-Andrews truth. So when Clementine deviates from their master plan right after Waylon gets dumped, he throws caution to the wind and creates an audition tape for his favorite TV drag

show, *Fiercest of Them All*. What he doesn't count on is the tape getting accidentally shared with the entire school. . . . As a result, Waylon is nominated for prom queen as a joke. Clem's girlfriend, Hannah Perez, also receives a joke nomination for prom king. Waylon and Hannah decide there's only one thing to do: run—and leave high school with a bang. A very glittery bang. Along the way, Waylon discovers that there is a lot more to running for prom court than campaign posters and plastic crowns, especially when he has to spend so much time with the very cute and infuriating prom king nominee Tucker Watson. Waylon will need to learn that the best plan for tomorrow is living for today . . . especially with the help of some fellow queens. . . .
