How to Make Money Selling Used Books on Amazon - Gerald Zimmerman

2014-09-05

Making money online is the goal of many people today, and there is a plethora of things that you can sell on line. This is one that I did very well with, and so can YOU. Here are the opening paragraphs from this excellent book on making money online: "If you are reading this book, then you are probably like millions of others who are looking for a good way to earn some extra money online. Right? Of course, I'm right. That's why you are here. "I have been in exactly the same place as you. And have scoured the web looking for just the right thing, the right combination, to help support my family and our way of life. "I started doing this before the financial downturn that we are suffering through right now. I was looking for extra money in the checkbook. And I found it in a number of places. But today, with things as they are, it is often a matter of making money to live on rather than just getting some extra money. And it is with that in mind that I am writing this book." So What Is This Way That I Can Make Money? The source of some good cash that I found was selling used books online through Amazon, the largest online retailer in the world. Amazon has over 200,000,000 credit card numbers on file, and they actually help you to sell your books. You list them online through Amazon, millions of people look at those listings every day, and untold numbers of books are sold daily, including yours! What Does It Cost To Get Started? Actually, it will cost you little or nothing to get started. Finding those books around the house, on shelves, on top of the dresser, in the closets, in the attic is the first place to start your business. Research the pricing and list the book on Amazon. Then, watch the sales start to come in. There are also a lot of places you can go to find used books at reasonable prices which you can then list with a higher price than you paid. I'll reveal those places in the pages of this book. How Much Can I Make Selling Used Books Online? Of course, the answer to that question is really how much do you want to earn. There are many people who do it as a hobby and make a hundred or so monthly. And then there are people who do it as a business and make several thousand dollars monthly. That is up to you. I always remind myself that Amazon began in someone's garage, selling used books online. Today, they are

one of the largest businesses in America. So how much can you make? The sky is the limit! In Reality, What Will This Book Do For ME? In this book, I'll tell you: How to find books - How to increase your inventory of books -- How to research for the right price to list your book at -- Detailed instructions on how to list your book and how to rate its condition -- How to package your book for shipment -- The best way to ship and add postage -- And other important information that you should be aware of. The Final Conclusion Then Is: So how can you go wrong with this book? You can start with what you have around the house, add to your inventory from other sources, package books daily for shipment, and get instant access to your profits through PayPal. Sell a few ... Sell a lot. It really is up to you. And, you can start today. Really now, what more could you ask?

How to Make Money Online by Selling eBooks - Bri 2015-05-09
There has never been a better time to be a freelance writer than now. Not only are you able to write articles and content that appear in newspapers and magazines for money, but there are also numerous opportunities to write content that will appear on the web. Websites are always looking for good writers to write their content and companies constantly advertise for writing jobs. Another great and increasingly popular way to make money online is by selling eBooks. The greatest thing about selling eBooks online is that you create the opportunity to generate a steady revenue. The internet has vast amounts of information. Ask yourself the number of times you browse the web in search for information. While there's a lot of convenience associated with gaining access to so much information, there is a downside to it. How can separate the good from the bad? How are you able to find the specific

pieces of information you want? And how will you be able to find thorough and detailed information, instead of general information that the internet generally provides? EBooks can be a possible answer. EBooks contain information that is detailed and well organized about particular topics. An eBook tends to dwell on the details of that particular niche. For example, if you look on the internet for football scholarships; you could come across several websites on the topic, but you could save yourself time and energy if you were to download a document that contained all the information laid out efficiently for you. If you are an entrepreneur, you could make money writing and selling eBooks on a variety of topics. It also doesn't require a lot of time to do so. So, let's get started!
