AWARD WINNER OF THE
2018 SOCIETY OF
ETHNOMUSICOLOGY ELLEN
KOSKOFF PRIZE This volume
is the first sustained
examination of the complex
perspectives that comprise
ecomusicology—the study of
the intersections of
music/sound, culture/society,
and nature/environment.
Twenty-two authors provide a
range of theoretical,
methodological, and empirical
chapters representing
disciplines such as
anthropology, biology, ecology,
environmental studies,
ethnomusicology, history,
literature, musicology,
performance studies, and
psychology. They bring their
specialized training to bear on
interdisciplinary topics, both
individually and in
collaboration. Emerging from
the whole is a view of
ecomusicology as a field, a

place where many disciplines
come together. The topics
addressed in this
volume—contemporary
composers and traditional
musics, acoustic ecology and
politicized soundscapes,
material sustainability and
environmental crisis, familiar
and unfamiliar sounds, local
places and global warming,
birds and mice, hearing and
listening, biomusic and
soundscape ecology, and
more—engage with
conversations in the various
realms of music study as well
as in environmental studies
and cultural studies. As with
any healthy ecosystem, the
field of ecomusicology is
dynamic, but this edited
collection provides a snapshot
of it in a formative period. Each
chapter is short, designed to be
accessible to the nonspecialist,
and includes extensive
bibliographies; some chapters
also provide further materials
on a companion website:

interspersed editorial
summaries help guide readers

through four current directions—ecological, fieldwork, critical, and textual—in the field of ecomusicology.

Personality - Howard S. Friedman 2003

[This] introductory textbook examines theories of personality, starting from the viewpoint that there are eight basic aspects to personality: psychoanalytic, ego, biological, behaviorist, cognitive, trait, humanistic, and interactionist. Later chapters apply these aspects to individual differences such as those of gender and culture. Summaries after each chapter encapsulate key theorists and concepts discussed. -<http://www.bn.com>.

New York - Peter Skinner
2016-10-25

Witness the rise of New York City through dozens of historic and contemporary aerial photographs that chart the city's ever-changing skyline. From the ground, New York City can feel like a chaotic jumble of traffic, pedestrians, one-way streets, parks, and buildings of every shape and size. But

above the city, away from the cacophony and the commotion, New York can be tranquil and awe-inspiring. The city that never sleeps also never stops changing, which is why this phenomenal collection of historic maps and aerial photos is a fascinating way to explore New York's evolution. The book opens with maps of 17th-century Manhattan, a quiet settlement with a ragged shoreline. A series of chronological illustrations show the city's northward expansion, the establishment of its grid system, and the creation of Central Park. The next three chapters include aerial photographs that chart the city's unbelievable expansion in every direction, including skyward. As buildings rise, as the shoreline expands with ports and landfills, and as more sophisticated photographic techniques allow for breathtaking views of New York's unmistakable skyline, this lush, oversized book captures a city that is truly alive. Author Peter Skinner's commentaries on the

photographs and maps will guide readers through what is certain to become a treasured book for all who love New York."

Translating Culture Specific References on Television - Irene Ranzato
2015-09-16

Translating Culture Specific References on Television provides a model for investigating the problems posed by culture specific references in translation, drawing on case studies that explore the translational norms of contemporary Italian dubbing practices. This monograph makes a distinctive contribution to the study of audiovisual translation and culture specific references in its focus on dubbing as opposed to subtitling, and on contemporary television series, rather than cinema. Irene Ranzato's research involves detailed analysis of three TV series dubbed into Italian, drawing on a corpus of 95 hours that includes nearly 3,000 CSR translations. Ranzato proposes a new taxonomy of strategies for the translation of CSRs and explores the sociocultural, pragmatic and ideological implications of audiovisual translation for the small screen.

Contextualizing Practical Knowledge in Early Modern Europe - Annemie Leemans
2019-11-19

The topic of this book is practical knowledge in early modern Europe, interpreted widely as recipes containing art procedures or medical panaceas. In this book the 1) origin or creation, 2) transmission or dissemination, and 3) use or consumption are key subjects. It includes a microhistory approach to the book *A Very Proper Treatise* (1573).

Langdon Clay - 2016

From 1974 to 1976, Langdon Clay (born 1949) photographed the cars he encountered while wandering the streets of New York City and nearby Hoboken, New Jersey, at night. Shot in Kodachrome with a Leica and

deftly lit with then-new sodium vapor lights, the pictures feature a distinct array of makes and models set against the gritty details of their surrounding urban and architectural environments, and occasionally the ghostly presence of people. "I experienced a conversion of sorts in making a switch from the 'decisive moment' of black and white to the marvel of color, a world I was waking up to every day," Clay writes of this work. "At the time it seemed like an obvious and natural transition. What was less obvious was how to reflect my world of New York City in color ... I discovered that night was its own color and I fell for it." Langdon Clay was born in New York City in 1949. He grew up in New Jersey and Vermont and attended school in New Hampshire and Boston. Clay moved to New York in 1971 and spent the next sixteen years photographing there, around the country and in Europe for various magazines and books. In 1987 he moved to Mississippi where

he has since lived with his wife, photographer Maude Schuyler Clay, and their three children.

The Man from Snowy River and Other Verses - A. B.

(Banjo) Paterson 2014-08-01

To mark the 150th anniversary of the birth of Banjo Paterson, and the commemoration of the centenary of the First World War, NLA Publishing has produced this beautiful cloth-cover facsimile publication of Paterson's poetry. These small-format books were originally published in 1914 as 'pocket editions for the trenches', designed for soldiers to slip into their back pockets and carry with them through their war days. Probably purchased by wives, girlfriends and mothers, they were a little piece of Australia to relish amongst the horrors of war. The 47 poems in the book include all the favourites: A Bush Christening, A Mountain Station, Black Swans, Clancy of the Overflow, Conroy's Gap, In the Droving Days, Over the Range, Our New Horse, Saltbush Bill, The Man from Snowy River, and The Daylight

is Dying. At the back of the book, there are two pages of information about Banjo Paterson and the 'trench pocket-books'. Norman Lindsay's illustrations on the front and frontispiece depicting droving and a homestead must have had an emotional impact on the fighting men so far away. A great Father's Day present or Christmas gift.

Andrew Barton "Banjo" Paterson (17 February 1864 - 5 February 1941) was an Australian bush poet, journalist and author who achieved enduring fame with his ballads of bushmen, pioneers and workers.

Alfa Romeo Montreal - Bruce Taylor 2020-05-19

The powerful and beautiful Alfa Romeo Montreal coupé is the ultimate "dream car that came true." Created as a futuristic concept car for Canada's Expo 67 World Fair, the exciting prototype was a dream car par excellence. The production model to which it gave birth was equipped with a race-bred 200bhp V8 engine, and manufactured in series from

1970 to 1977. Almost 4,000 Montreals were built, and sound cars are readily available today at very affordable prices. This book is a comprehensive pictorial tribute to the Montreal, a visual testimonial to the combined talents of Alfa Romeo engineers and Bertone stylists. It highlights the fusion of technical ingenuity and aesthetics that created one of the most stunning series production automobiles of the twentieth century. The book explores the marriage of technology and art that appeals to both reason and the heart, combining man's rational desire for fast, efficient personal transportation with his emotive passion for exotic vehicles. In a portfolio of over 500 illustrations, it paints a unique and detailed graphic portrait of all the facets of this elegant and potent classic GT, revealing why it is immensely enjoyable to drive and turns heads wherever it appears.

Harley-Davidson - Pascal Szymezak 2014-05-10

Ever since the original appearance of its first single cylinder engine, followed by its twin cylinders, the Harley-Davidson has distinguished itself by imposing its models, known for their trustworthiness and endurance, and by how many competitions its models have won. The motorcycles powered by V-Twin Harley-Davidson engines have forged the legend of this American brand - already in business for over a century - through families of highly prestigious names: Hydra Glide, then Duo Glide and finally Electra Glide, and also Softail, Dyna, V-Rod and Sportster--names that exist and have persisted, in the case of certain models, for more than 50 years. In spite of the

competition that sprang up in late years from America and then from the UK and Japan, Harley-Davidson has prevailed because of the innovations it has introduced - at times belatedly, but always the fruit of sensible reflections - and because it has diversified its family of motorcycles to make them correspond to the public's expectations. Without falling into the trap of expanding technological innovations to an exaggerated level, the new Harley-Davidson have become motorcycles offering modern performance but which have succeeded in conserving the spirit of the brand and, above all, that special Harley-Davidson character. All you need to do is climb onto the saddle and rev up a Harley-Davidson to discover a new motorcycling universe, where the concept of pleasure reveals new meaning. This is the universe that this book invites you to discover, through the history of the brand's main models, embodying nearly 110 years of motorcycling adventures, and touching upon

touring, sport, customization and a simple and outright passion for motorcycles. *Extreme Motorcycle Art* - Spencer Drate 2005 "This illustrated book showcases more than fifty of the top international motorcycle artists, studios, custom bike-builders, and bike shops. As the first comprehensive survey of the best custom bike-painting from around the world, it captures the original thinking and creativity that have come to characterize this genre, and finally gives motorcycle artists the recognition they have long deserved." "All the artists included in this book reveal a common purpose: they insist that each painting be original and unique, and they strive to convey the personality of the rider-customer. Painting on saddlebags, tanks, and fenders - as opposed to the regular surfaces of canvas and paper - presents exciting challenges. As *Extreme Motorcycle Art* shows, motorcycle painters are responding convincingly." "While some of the painters

included here have conventional art training, the majority of them are largely self-taught. They develop their ideas and skills by staying close to the metal and rubber, not by contemplating abstractions in the studio. They are immersed in the throbbing culture of bike building and riding, and, most importantly, they all love that culture intensely." "Extreme Motorcycle Art features photographs of the completed bikes, close-ups of the artworks, and detailed technical specifications of the customized components of the bikes depicted. Full contact information for every artist is also provided, making this a dream book for motorcycle fans worldwide."--BOOK JACKET. **Ai Weiwei** - Martin-Gropius Bau (Berlin). 2014 Begleitband zur weltweit grössten Einzelausstellung des politischen Konzeptkünstlers Ai Weiwei in Berlin. Der eindrucksvolle und bestens bebilderte Band behandelt unter anderem die Ai Weiweis ästhetischen Widerstand,

seinen Umgang mit der Tradition und seinen Blick auf die europäische Moderne.

Seducing the French -

Richard F. Kuisel 1993-04-20

When Coca-Cola was introduced in France in the late 1940s, the country's most prestigious newspaper warned that Coke threatened France's cultural landscape. This is one of the examples cited in Richard Kuisel's engaging exploration of France's response to American influence after World War II. In analyzing early French resistance and then the gradual adaptation to all things American that evolved by the mid-1980s, he offers an intriguing study of national identity and the protection of cultural boundaries. The French have historically struggled against Americanization in order to safeguard "Frenchness." What would happen to the French way of life if gaining American prosperity brought vulgar materialism and social conformity? A clash between American consumerism and

French civilisation seemed inevitable. Cold War anti-Communism, the Marshall Plan, the Coca-Cola controversy, and de Gaulle's efforts to curb American investment illustrate ways that anti-Americanization was played out. Kuisel also raises issues that extend beyond France, including the economic, social, and cultural effects of the Americanized consumer society that have become a global phenomenon. Kuisel's lively account reaches across French society to include politicians, businessmen, trade unionists, Parisian intelligentsia, and ordinary citizens. The result reveals much about the French—and about Americans. As Euro Disney welcomes travellers to its Parisian fantasyland, and with French recently declared the official language of France (to defend it from the encroachments of English), Kuisel's book is especially relevant.

Cennino Cennini's Il Libro Dell'arte - Lara Broecke

2015-03-31

This book, a new translation (with introduction and notes) of *Il Libro dell'Arte*, marks a great step forward in our understanding of Cennino Cennini - his life and times - and the materials and techniques employed by artists in fourteenth century Italy. Over eighty years ago, D. V. Thompson presented his translation entitled *The Craftsman's Handbook* as a workshop manual aimed at readers who wished to produce a work of art by following Cennino's instructions. The present volume not only establishes more precisely

what Cennino actually wrote, by correcting more than 400 errors in Thompson's text, but also includes the transcribed Italian text and very extensive notes on both the language and the technical descriptions. In addition, the author's most informative introduction places Cennino in context and accounts for the genesis of the *libro dell'arte* by reference to the society in which it was produced. This volume is a landmark text for students and professionals in the field of art history. Contents: Foreword; Acknowledgements; Introduction; Why a new translation?; Who was Cennino Cennini?; What is the *Libro dell'arte*?; The transmission and translation of the *Libro dell'arte*; Notes on the transcription; Notes on the translation; *Il libro dell'arte*: English translation and commentary and Italian transcription; Notes on substantive differences from Thompson's translation; Appendix; Bibliography. *Game of Thrones* - Matthew Reinhart 2014-06-10

The Cambodian Room -

Tommaso Lusena de Sarmiento
2013-01-07

Magnum photographer Antoine D'Agata has become a little too intimate with the subject of his photo series. In order to get to know the seamy side of Cambodia, he goes to the end of the end. In Phnom Penh, he moves in with a drug-addicted prostitute named Lee, who not only allows D'Agata to photograph her, but shares her crack pipe and her bed with him as well. When she asks him what he really wants from her, he admits that he hopes the pictures will earn him money. D'Agata has been throwing himself into projects like this for twenty years now, despite the fact that he is blind in his right eye and myopic in his left. This has not stood in the way of

his career as a photographer of the subclass. On the contrary, its the darkness that brought me up. The film camera employs a similar observational yet alienating style, following the couple from up close while they spend weeks in a stuffy room, in voluntary confinement. The claustrophobic atmosphere of this documentary debut is interspersed with gruesome street shots and uncompromising photos by DAGata, who has increasing doubts about his profession as a photographer. Journalist Philippe Azoury is worried and comes for a visit, forcing DAGata to question his unorthodox working method. Together, they discuss the emotional life that underlies the photographers work.

[Alfa Romeo & Mille Miglia](#) - Andrea Curami 2010-07-01
Alfa Romeo and the Mille Miglia are two names packed with fascination and legend, both for the prestige of the Brescian race and the epic feats of the drivers and the Portello-built cars on the roads

of the unforgettable Italian marathon. No other marque can boast of competing in such a large number Mille Miglias, and especially not of such a series of successful results "collected" by Alfa Romeo in the celebrated Race of the Red Arrow. To tell this long and spectacular story of road racing at its best is the authoritative pen of Andrea Curami, who relives the long and distinguished career of Alfa Romeo at the Mille Miglia, all illustrated by rare archive pictures.

The Common Body - Paula Josa-Jones 2017

In this fascinating book, dancer, choreographer, and visual artist Paula Josa-Jones combines her two greatest passions--movement and horses--in order to help us develop somatic awareness: Consciousness of breath, integrated and coherent motion, and development of movements and touch into sensitive channels of communication. Through stories and exercises, Josa-Jones demonstrates how

connecting with the horse can develop this awareness. The body and mind of the horse and the human, she writes, are connected at the deepest levels--anatomically, energetically, psychically, spiritually, and emotionally. And because horses are authentic beings--their inside feelings and intentions match the outside expression and behavior--our interactions with them can help us become more aware of our inner emotional landscape and its relationship to what we are expressing

outwardly. Horses offer us the opportunity to become more trustworthy and more comfortable in our own skin. By listening inwardly, feeling the connections between our mind states and our expression, we become more attuned to the currents passing among us, more able to blend, empathize, and act with balance, sensitivity, and kindness.
